No. 1 (January-February)

Editorial
Clark H. Millikan .................................................. 1

SPECIAL ARTICLE
Research to Application—Shall We Accept the Gauntlet?
Irving S. Wright .................................................. 3

Cerebral Circulation Studies Using Inhaled 133-Xenon and the Gamma Camera
Arthur C. Klassen, Joseph A. Resch, Merle K. Loken, and Eugene A. Johnson ............................................. 7

Discrepancies in Recorded Results From Duplicate Neurological History and Examination in Patients Studied for Prognosis in Cerebrovascular Disease
Charles Sisk, Dewey K. Ziegler, and Turgut Zileli ....................... 14

The Stroke Team Concept as Implemented in the Area VIII Regional Medical Program
Bertram L. Tesman, and Bernard J. Michela ................................ 19

Cranial Arterial Circulation and Ocular Pulsations in the Dog
Russel H. Patterson, Jr., and B. Frederick Helmkamp .................. 23

Effect of PaO2 on Blood Flow and Microvasculature of Ischemic and Nonischemic Cerebral Cortex
Arthur G. Waltz .................................................. 27

Metabolic Changes in Response to Acute Cerebral Ischemia Following Unilateral Carotid Artery Ligation in Arteriosclerotic Versus Non-arteriosclerotic Rats
Bernard C. Wexler ................................................................ 38

Pathogenesis of Cerebral Infarction Secondary to Mechanical Carotid Artery Occlusion
Alex M. Landolt, and Clark H. Millikan .................................. 52

News from the American Heart Association .................................. 63

No. 2 (March-April)

Protective Effects of Acetazolamide and Hyperbaric Oxygenation on Experimentally Induced Syncope
Yihong Kong, Steven Lunzer, Albert Heyman, and Herbert Saltzman ...................... 69

Physical Factors in the Pathogenesis of Cerebral Atherosclerosis
Joseph A. Resch, Ruth B. Loewenson, and A. B. Baker ..................... 77

Nationwide Cerebrovascular Disease Morbidity Study
Lewis Kuller, Herbert Anderson, Donald Peterson, John Cassel, Phillip Spiers, Hiram Curry, Bertha Paegel, Milton Saslaw, Charles Sisk, Joseph Wilber, David Millward, Warren Winkelstein, Abraham Lilienfeld, and Raymond Seltser .................................. 86

CONTENTS OF VOLUME I

No. 4 (July-August)

Direct Thermometry, Ophthalmodynamometry, Auscultation and Palpation in Extracranial Cerebrovascular Disease: An Evaluation of Rapid Diagnostic Methods
Harvey M. Shapiro, Lawrence Ng, Mark Mishkin, and Martin Reivich 205

Abnormal Hemispheric Blood Flow and Metabolism Despite Normal Angiograms in Patients with Stroke
John S. Meyer, Yukito Shionohara, Tadashi Kanda, Yasuo Fukuuchi, Norma K. Kok, and Arthur Dale Ericsson 219

Experimental Cerebral Infarction. I. Selective Segmental Occlusion of Intracranial Arteries in the Dog
Gaetano F. Molinari 224

Experimental Cerebral Infarction. II. Clinicopathological Model of Deep Cerebral Infarction
Gaetano F. Molinari 232

Bruit's of the Head and Neck
Lauren K. Welch and William J. Crowley 245

Experimental Subarachnoid Hemorrhage: A Study for Spasm with the Production of Aneurysms
Vance C. Roy, Jr., Thoralf M. Sundt, Jr., Francis Murphey 248

Cerebral Blood Flow and Internal Carotid Artery Flow During Carotid Surgery
Gudrun Boysen, H. J. Ladegaard-Pedersen, N. Valentin and H. C. Engell 253

Precipitating Factors, Prognosis, and Demography of Cerebrovascular Disease in an Indiana Community: A Review of All Patients Hospitalized from 1963-1965 with Neurological Examination of Survivors
Mark L. Dyken 261

Blood Volume, Hematocrit and Pressure Relationships in the Isolated Perfused Dog Brain
Victor A. Levin and David D. Gilboe 270

Delayed Arterial Spasm and Thrombosis as a Cause of Post-Traumatic Hemiplegia (Spate Thrombosis)
Captain Frederick E. Jackson, USN, and LCDR James B. Back, USNR 278

The Fate of Hypertensive Patients with Clinically Proven Spontaneous Intracerebral Hematomas Treated Without Intracranial Surgery
Michael Scott and Merylee Werthan 286

News from the American Heart Association 301

No. 5 (September-October)

Hypertension Complicating Carotid Endarterectomy
Michael S. Lehv, Edwin W. Salzman, and William Silen 307

Effects of Inhalation of Oxygen on Blood Flow and Microvasculature of Ischemic and Nonischemic Cerebral Cortex
Franco Regli, Takenori Yamaguchi, and Arthur G. Waltz 314

Reflections on 'The Subclavian Steal'
William S. Fields 320

The Effect of Isordil and Cyclospasmol on Vascular Spasm Induced in the Basilar Artery of the Cat
M. S. Mahaley, Jr., and John Kapp 325

(Continued)
CONTENTS OF VOLUME I

The Relation Between Cardiac Function and Cerebral Blood Flow in Stroke Patients. I. Effect of CO₂ Inhalation
Edward S. Cooper, James W. West, Marvin E. Jeffe, Herbert Goldberg, J. Kawamura, and Lawrence C. McHenry, Jr. ........................................ 330

Bilateral Jugular Venous Blood Flow by Thermal Dilution
Edwin M. Wilson, and James H. Halsey, Jr. ........................................ 348

Noradrenergic Mediation of Experimental Cerebrovascular Spasm
R. A. R. Fraser, B. M. Stein, R. E. Barrett, and J. L. Pool .................. 356

Nonembolic Occlusion of the Middle Cerebral and Carotid Arteries—A Comparison of Predisposing Factors
Siegfried Heyden, Albert Heyman, and John A. Goree ........................ 363

Blood Flow in the Central and Peripheral Nervous System of Dogs Using a Particle Distribution Method
Thomas H. Tschetter, Arthur C. Klassen, Joseph A. Resch, and Maurice W. Meyer ................................................................. 370

The Effect of Electrocautery, Atmospheric Exposure, and Surgical Retraction on the Permeability of the Blood-Brain-Barrier
W. R. Hudgins, and Julio H. Garcia .................................................. 375

News from the American Heart Association ...................................... 381

No. 6 (November-December)

The Community Medicine of Cerebrovascular Disease
Charles M. Wylie ................................................................. 385

Spontaneous Ischemic Infarction of the Spinal Cord with Traumatic Sequela
Charles Burton ................................................................. 397

Opacity Pulse Propagation in Internal and External Carotid Vascular Beds of Experimental Animals
Albert F. Heck ................................................................. 401

Opacity Pulse Propagation Measurements in Humans: Atraumatic Screening for Carotid Arterial Occlusion
Albert F. Heck ................................................................. 411

A Method for Measuring Cerebral Hemispheric Blood Flow and Metabolism
John S. Meyer, and Yukito Shinohara ........................................... 419

Hypoxyrrhachia in Association with Intracranial Hemorrhage
Bernard J. Sussman, and Raymond Lloyd ...................................... 432

Temporary Occlusion of the Middle Cerebral Artery in the Monkey: Clinical and Pathological Observations
Robert M. Crowell, Yngve Olsson, Igor Klatzo, and Ayub K. Ommaya 439

Age: Its Significance in Nonembolic Cerebral Infarction
Sydney Louis, and Fletcher McDowell ........................................... 449

Cerebrovascular Disease: Frequency and Population Selectivity in an Upper Midwestern Community
Milton Alter, Lee Christoferson, Joseph Resch, Gary Myers, and Janet Ford 454

Cerebrovascular Disease of Young Adults in a Mississippi Teaching Hospital
Armin F. Haerer, and Robert R. Smith ........................................... 466
