## CONTENTS OF VOLUME X

Cervical Carotid Aneurysm Presenting As Recurrent Cerebral Ischemia with Head Turning ................................................. 144

Roger W. Countee, T. Vijayanathan, and Carl Barrese

Neurologic and Cardiovascular Effects of Hypotension in the Monkey ................................................................. 147

Dennis J. Selkoe and Ronald E. Myers

Extracorporeal Glass-Wool Filtration of Whole Blood Enhances Post-Ischemic Recovery of the Cortical Sensory Evoked Response ............................................. 158

Effect of Experimental Ischemia on Neurotransmitter Amines in the Cerebral Brain .................................................... 165

M.J.G. Harrison, C.D. Marsden, and P. Jenner

Serum Dopamine-B-Hydroxylase Activity in Acute Stroke ................................................................. 168

Tadashi Kanda, Fumio Gotoh, Masahiro Yamamoto, Fumihiko Sakai, Tsuneiye Takeoka, and Yasuyuki Takagi

Intracranial Saccular Aneurysm and Moyamoya Disease ................................................................. 174

Harold P. Adams, Jr., Neal F. Kassell, Hugh S. Wisoff, and Charles G. Drake

Adrenergic Control of Cerebral Blood Flow and Energy Metabolism in the Rat .................................................... 179

Kyuya Kogure, Peritz Scheinberg, Hidemi Kishikawa, Yoichi Utsunomiya, and Raul Bustos

Ischemic Brain Edema Following Middle Cerebral Artery Occlusion in Baboons: Relationship Between Regional Cerebral Water Content and Blood Flow at 1 to 2 Hours ............................................ 184

Lindsay Symon, Neil M. Branslon, and Oleg Chikovani

Platelet Thrombi in Experimental Cerebral Infarction ................................................................. 192

Carol K. Peitso

Influence of Sex on Cerebral Ischemia Following Bilateral Carotid Occlusion in Spontaneously Hypertensive Rats: A Metabolic Study ............................................. 196

Yasuo Nakatomi, Masatoshi Fujishima, Kinji Tamaki, Takao Ishitsuka, Jun Ogata, and Teruo Omae

Stroke-Associated Deaths in Washington County, Maryland, with Special Reference to Water Hardness ................ 199

G.W. Comstock, G.M. Cauthen, K.J. Helsing, and E.L. Goldberg

Incidence of Stroke in an African City: Results from the Stroke Registry at Ibadan, Nigeria, 1973–1975 ............ 205

B.O. Otsunokun, O. Bademosi, O.O. Akinkugbe, A.B.O. Oyediran, and R. Carlisle

BRIEF COMMUNICATION: Gastrointestinal Complication of High-Dose Corticosteroid Therapy in Acute Cerebrovascular Patients .................................................... 208

Gian Andrea Ottolino and Alberto Primaivera

CURRENT CONCEPTS OF CEREBROVASCULAR DISEASE-STROKE Clinical Relevance of Models of Cerebral Ischemia 211

Arthur G. Waltz

LETTERS TO THE EDITOR: Operative Results Corrected For Carotid Endarterectomy ............................................. 214

Jesse E. Thompson

Hemorrhage Complication in Carotid Endarterectomy ................................................................. 218

Martin E. Bruetman

Abstracts of Literature ................................................................. 221

News from the American Heart Association ....... 228

No. 3 (May-June)

EDITORIAL: Stroke Intensive Care Units. Objectives and Results ................................................................. 235

Clark H. Millikan

The Carotid Bifurcation Plaque: Pathologic Findings Associated with Cerebral Ischemia 238

Anthony M. Imparato, Thomas S. Riles, and Frederick Gorstein

Scanning Electron Microscopic Study of Endothelial Cells of Cerebral Arteries from Spontaneously Hypertensive Rats 245

Fumimasa Hazama, Takashi Otsuki and Shigeru Amano

The Electrocardiogram in Stroke: Relationship to Pathophysiological Type and Comparison with Prior Tracings 253

David S. Goldstein

Transient Ischemic Attacks. Retrospective Study of 150 Cases of Ischemic Infarct in the Territory of the Middle Cerebral Artery 259

J.L. Marti-Vilalta, S. Lopez-Poula, J.M. Grav, and L. Barraquer

Hypertension and Acute Focal Cerebral Ischemia, Infarction and Edema after Occlusion of a Middle Cerebral Artery in Cats ............................................. 263

Touya Hayakawa, Arthur G. Waltz, and Ronald L. Jacobson

A New Model of Bilateral Hemispheric Ischemia in the Unanesthetized Rat .................................................... 267

William A. Pulsinelli and James B. Brierley

Survival of Rabbits After Prolonged Cerebral Ischemia ................................................................. 272

Ronald J. Kolata

Occlusion of the Vertebral or Basilar Artery. Follow Up Analysis of Some Patients with Benign Outcome 277

Louis R. Caplan

Brain Hemorrhage from Intracranial Tumor 283

John R. Little, Burke Dial, Garry Belanger and Stirling Carpenter

Effect of Altered Availability of Energy-Yielding Substrates Upon Survival from Hypoxia in Mice 288

Jeffrey R. Kirsch and Louis G. D'Alecy

(Continued)
CONTENTS OF VOLUME X

Dissecting Aneurysms of the Basilar Artery in 2 Patients ........................................ C. Bruce Alexander, Peter C. Burger, and John A. Goree 294

Isoproterenol Treatment of Visual Symptoms in Migraine ........................................... Mark J. Kupersmith, William K. Hass, and Norman E. Chase 299

Synthesis of Prostaglandins and Thromboxane B_{1} by Cerebral Arteries .......................... A. Ainsworth Hagen, Richard P. White, and James T. Robertson 306

{^{133}}I Xe Inhalation Method for Measuring Cerebral Blood Flow in Conscious Baboons ... Fumihiko Sakai, John Stirling Meyer, Fumie Yamaguchi, Masahiro Yamamoto, and Terry Shaw 310

Fluctuation of Lipid Peroxides and Related Enzyme Activities at Time of Stroke in Stroke-Prone Spontaneously Hypertensive Rats .................................................. Isao Tomita, Mitsuaki Sano, Shigeo Serizawa, Kunio Ohta, and Masaru Katou 323

Quantitation of Carotid Stenosis with Continuous-Wave (C-W) Doppler Ultrasound ....... Merrill P. Spencer and John M. Reid 326

Changes in Internal Carotid Artery Flow Velocities with Cerebral Vasodilation and Constriction ................................................................. Martin G. Beasley, Joseph N. Blau, and Raymond G. Gosling 331

Flow Disturbances at the Apex and Lateral Angles of a Variety of Bifurcation Models and Their Role in Development and Manifestations of Arterial Disease ................ Oscar M. Reinmuth 335

CURRENT CONCEPTS OF CEREBRO-VASCULAR DISEASE-STROKE Intracranial Bypass Surgery for Cerebral Arterial Disease and the Responsibility of the Practicing Physician Oscar M. Reinmuth 344

LETTERS TO THE EDITOR: Doppler Ophthalmosonometry Raymond N. Englander, Robert D. Schoumaker 348

Abstracts of Literature .......................................................................................................... 349

Erratum .................................................................................................................................. 367

News from the American Heart Association ................................................................. 368

No. 4 (July-August)

Effect of Superficial Temporal-Middle Cerebral Artery Anastomosis on the Course of Experimental Acute Middle Cerebral Artery Embolic Occlusion Robert Levinthal, John I. Mosley, W. Jann Brown, and W. Eugene Stern 371

Role of Adrenergic Nerves in Blood-Induced Cerebral Vasospasm Frederick A. Simeone, Phillip E. Vinal, J. L. Alderman, and John D. Irvin 375

Results of Electroencephalographic Monitoring During 367 Carotid Endarterectomies. Use of a Dedicated Minicomputer Keith H. Chiappa, Stephanie R. Burke, and Robert R. Young 381

Ineffectiveness of the Doppler Ophthalmic Test (DOT) in Post-Endarterectomy Evaluation Shirley M. Otis, Richard A. Smith, Donald J. Daleasio, Alan D. Kroll, Michael Rus, and Ralph B. Dilley 396

Topical Prostacyclin (PGI_{2}) Inhibits Platelet Aggregation in Pial Venules of the Mouse William I. Rosenblum and Farouk El-Sabban 399

Effect of Phenoxybenzamine on Cerebral Blood Flow and Metabolism in the Baboon During Hemorrhagic Shock János Hamar, Arisztid G. G. Kovach, Martin Revich, István Nyáry, and Felix Duray 401

Modification of Cerebrovascular CO_{2} Reactivity by Inhibition of Dopamine \beta- Hydroxylase M. Oishi, F. Goito, M. Toyoda, T. Seki, T. Takeoka, S. Takagi, and T. Niimi 407

Cerebral Artery Thrombosis and Intramural Hemorrhage Seizo Sadoshima, Tako Fujioka, and Kenzo Tanaka 411

A New Canine Model of Proximal Internal Carotid Embolism Howard H. Kaufman, James H. Anderson, John D. Huchton, and Jannie Woo 415

A Simplified Method of Measuring Regional Blood Flow Adelbert Ames III and Edwin G. Fischer 419

Cerebral Blood Flow Immediately Following Brief Circulatory Stasis Edwin G. Fischer, Adelbert Ames III and Antonio V. Lorenzo 423

Critical Appraisal of Cerebral Blood Flow Measured from Brain Stem and Cerebellar Regions After \textsuperscript{133}Xe Inhalation in Humans Olivier Juge, John S. Meyer, Fumihiko Sakai, Fumie Yamaguchi, Masahiro Yamamoto and Terry Shaw 428

( Continued )
CONTENTS OF VOLUME X

Recovery of Brain Mitochondrial Function in the Rat after Complete and Incomplete Cerebral Ischemia .................................................. 437
Stig Rehncrona, Leena Mela, and Bo K. Siesjö

Treatment of Acute Focal Ischemia with Continuous CSF Drainage and Mannitol ...... 446
John R. Little and Donald O'Shaughnessy

External Carotid Artery in Internal Carotid Artery Occlusion. Angiographic, Therapeu-
tic, and Prognostic Considerations ...... 450
Roger W. Countee and Thurairasah Vijayanathan

Reversed Ophthalmic Artery Flow in Internal Carotid Artery Occlusion. A Re-Appraisal Based on Ultrasonic Doppler Investigations 461
Vida Hodek-Demarin and Hans R. Müller

Circulating Platelet Aggregates in Sickle Cell Disease Patients with and without Vasoc-
 occlusion .................................................. 464
Paulette Mehta and Jawahar Mehta

5–6, 1978 .................................................. 467
James F. Toole and Ralph W. Barnes

PRELIMINARY COMMUNICATION:
Omental Transposition to Brain of Stroke Patients .............................................. 471

BRIEF COMMUNICATION: Brain Stem Dysfunction in Transient Global Amnesia .... 473
N.S. Longeide, V. Hachinski, and H.O. Barber

CURRENT CONCEPTS OF CEREBRO-
VASCULAR DISEASE-STROKE Treatment of Aphasia Following Stroke ............. 475
Audrey L. Holland

LETTERS TO THE EDITOR: Trifluoperazine Pretreatment in Experimental CI Gerbils 478
John C. Sowers, C. Patrick McGraw

Non-Invasive Methods Defended as Valuable Merrill P. Spencer, Burton A. Sandok

Question of Methodology With Labelled Microspheres .................................... 482
David L. Jackson, Shu-Ren Lin

Abstracts of the Cerebrovascular Clinical Research Center Workshop. February 7–8,
1979, Phoenix, AZ ........................................ 482
Abstracts of Literature .................................... 496

News from the American Heart Association ............................................... 515

No. 5 (September-October)

Tranexamic Acid in Subarachnoid Hemorrhage. A Double-Blind Study .................. 519
Markku Kaste and Magnus Ramsay

Detrimental Effect of Prolonged Hypothermia in Cats and Monkeys With and Without Regional Cerebral Ischemia ............................. 522
Petter A. Steen, Edward H. Soulé, and John D. Michenfelder

Prognosis in Patients With Infarction and TIA in Carotid Territory During and After Anticoagulant Therapy ........................................... 529
Hans Link, Gustaf Lebram, Ingegerd Johansson, and Claes Rödberg

Frequency of Focal Cerebral Transient Ischemic Attacks During a 12 Month Period. The Copenhagen City Heart Study ......................... 533
Gudrun Boysen, Gorm Jensen, and Peter Schnurb

Effect of Intravenous Ethanol on Cerebral Vasospasm Produced by Subarachnoid Blood .......................................................... 535
Kevin J. Barry and R. Michael Scott

Small Animal Model for Investigation of Subarachnoid Hemorrhage and Cerebral Vasospasm .......................................................... 538
Kevin J. Barry, Michael A. Gogjian, and Bennett M. Stein

Brain Edema During Ischemia and After Restoration of Blood Flow. Measurement of Water, Sodium, Potassium Content and Plasma Protein Permeability ........................................ 542
U. Ito, K. Ohno, R. Nakamura, F. Suganuma, and Y. Inaba

Body Fluid Oxygen Tension and Prognosis in Patients with Ruptured Aneurysm .... 560
Hidemi Kishikawa, Kiyoshi Iwatsuki, Syunichiro Fujimoto, and Akisama Umeda

Chronic Subdural Hematoma Presenting as Transient Neurologic Deficits ............. 564
Joseph E. Welsh, George W. Tyson, H. Richard Wian, and John A. Jan

Brain Metabolism Following Bilateral Carotid Occlusion in 2 Different Models of Ex-
 perimental Hypertensive Rats ................................ 568
Masatoshi Fujishima, Yasuyuki Moraiomi, Kenchii Kumamoto, Yasuhiro Noda,
Jun Ogata, and Teruo Omae

Cerebral Vasomotor Reactivity in Normotensive and Spontaneously Hypertensive Rats .... 572
Barbro B. Johansson and Bengt Nilsson

pH Dependence of Blood-Brain Barrier Permeability to Lactate and Nicotine ........ 577
William Oldendorf, Leon Braun, and Eain Cornford

Arterial Air Embolism in the Cat Brain ...................................................... 581
H. Fritz and K.-A. Hossmann

(Continued)
CONTENTS OF VOLUME X

Platelet Coagulant Activities in Arterial Occlusive Disease of the Eye .......................... 589
Peter N. Walsh, Tulay Kansu, Peter J. Savino, Norman J. Schatz, Larry E. Magargal,
Richard E. Goldberg, and James J. Corbett

Cerebral Arteritis in Scleroderma .............................................. 595
Elihu Estev, Abraham Lieberman, Richard Pinto, Martin Meltzer, and Joseph Ransohoff

CASE REPORT: Fusiform Basilar Aneurysm Simulating Carotid Transient Ischemic Attacks .............................................. 598
Leonard F. Hirsh and Carlos F. Gonzalez

CURRENT CONCEPTS OF CEREBRO-VASCULAR DISEASE-STROKE: Assessment of the Role of Antiplatelet Aggregating Agents in Transient Ischemic Attacks, Stroke and Death ................................. 602
Mark L. Dyken

Abstracts of Literature ...................................................... 605

News from the American Heart Association .... 623A

No. 6 (November-December)

Ischemic Cerebral Edema. A Review .......................... 623
M. D. O'Brien

Prostaglandin I, and Indomethacin Prevent Impairment of Post-Ischemic Brain Reperfusion in the Dog .................. 629
John M. Hallenbeck and Thomas W. Furlow, Jr.

Prevention of Experimental Subarachnoid Hemorrhage-Induced Intracranial Arterial Vasostenosis with Phosphodiesterase Inhibitor Phthalazinol (EG-626) ................................................................. 638
John F. Alksne and P. Josephine Branson

Attenuation of Ischemic Brain Edema by Pentobarbital after Carotid Ligation in the Gerbil ........ 644
Pablo Lawner, John Laurent, Frederick Simeone, Eugene Fink, and Elliot Rubin

Neil M. Bramson, Terence Hope, and Lindsay Symon

Influence of Various Agents on the Development of Brain Edema in the Rat Following Microembolism. Protective Effect of Gamma-Butyrolactone ................................................................. 653
Jean Bralet, Paulette Beley, Anne-Marie Bralet, and Alain Beley

Changing Pattern of Cerebral Infarction: 1945-1974 .............................................. 657

Recovery in Treated Aphasia in the First Year Post-Stroke .............................................................................................................. 663
Martha Taylor Sarno and Eric Levi

Massive Doses of Steroids in Cryogenic Cerebral Injury and Edema ................ 670
Raymond A. Clasen, Sylvia Pandolfi, and Jaclynn R. Clasen

Histopathological Reactivity of Carotid Arteries of Normotensive Sprague-Dawley vs Spontaneously Hypertensive Rats to Ligation Injury ............................................... 674
Bernard C. Wexler

Levels in Stroke Patients of CFS Astroprotein, and Astrocyte-Specific Cerebroprotein .......................... 685
Tora Hayakawa, Yukitaka Usuki, Takeo Arai, Norio Arita, Toshiki Yoshimine, Yasutaka Maeda, Keiji Shirizu, and Akio Myog

Measurement of Regional Brain Glucose Utilization In Vivo Using [2-14C] Glucose .................................................. 690
Richard Hawkins, William K. Hass, and Joseph Ransohoff

Experimental Cerebral Vasospasm after Subarachnoid Hemorrhage. Participation of Adrenergic Nerves in Cerebral Vessel Wall Scarring by Endo and Jiro Suzuki .................................................. 703

Effects of Hemorrhagic Hypotension on the Cerebral Circulation. I. Cerebral Blood Flow and Pial Arteriolar Caliber .............................................. 711

Effects of Hemorrhagic Hypotension on the Cerebral Circulation. II. Electrocortical Function .................................................. 719

Effects of Hemorrhagic Hypotension on the Cerebral Circulation III. Neuropathology .............................................. 724
David I. Graham, William Fitch, Eric T. Mackenzie, and A. Murray Harper

Correlated Electrical and Mechanical Responses of Isolated Rabbit Pial Arteries to Some Vasoactive Drugs .............................................. 727
N. A. T. Lusainvuku, R. Sercombe, P. Aubineau, and J. Seylaz

Intracranial Venous Thrombosis in Young Women .............................................. 680
Bruno Estanol, Alejo Rodriguez, Guillermo Conte, Jose Manuel Aleman, Mauro Loyo, and Javier Pizzuto

(CONTINUED)
CONTENTS OF VOLUME X

Effect of Phenobarbital on Cerebral Energy State and Metabolism. Enzymatic Activities ... 733
G. Benzi, A. Agnoli, F. Dagani, S. Ruggieri, and R.F. Villa
Pharmacological Comparison of Isolated Human Cerebral and Digital Arteries ............. 736
Gary A. Rose and Robert F. W. Moulds

Erratum ............................................. 741
An Appreciation ................................. 742
LETTERS TO THE EDITOR: Death in Early Stroke, Causes and Mechanisms ............ 743
O. B. White, J. W. Norris, V. C. Hachinski and A. Lewis

Abstracts of Literature ....................... 744
News from American Heart Association .... 762A
Volume Author Index ......................... 767
