No. 1 (January-February)

EDITORIAL: Stroke Rehabilitation: Effectiveness, Benefits and Cost. Some Practical Considerations ...................... 1
Joel S. Feigenson

The Disability Oriented Rehabilitation Unit — A Major Factor Influencing Stroke Outcome .................. 5
Joel S. Feigenson, Howard S. Gitlow, and Susan D. Greenberg

Ischemic Brain Edema: Comparative Effects of Barbiturates and Hypothermia .................. 8
Frederick A. Simeone, Glen Frazer, and Pablo Lawner

Effect of Dextran on Cerebral Function and Blood Flow after Cardiac Arrest. An Experimental Study on the Dog .................. 13
Shu-Ren Lin, Michael J. O'Connor, Adrian King, Philip Harnith, and Harry W. Fitcher

Cerebral Oxygen Consumption and Blood Flow in Hypoxia: Influence of Sympathoadrenal Activation .................. 20
Leif Berntman, Christer Carlsson, and Bo K. Siesjo

Intravenous Nitroglycerin in Experimental Cerebral Vasospasm. A Preliminary Report .................. 26
J. Philip Kistler, Robert S. Lees, Guillermo Candi, Nicholas T. Zervas, Robert M. Crowell, and Robert G. Ojemann

T. A. McCalden

Brain Edema and Blood-Brain Barrier Permeability Following Quantitative Cerebral Microembolism .................. 34
Ann-Marie Bralet, Alain Beley, Paulette Beley, and Jean Bralet

Total Cerebral Ischemia: A New Model System for the Study of Post-Cardiac Arrest Brain Damage .................. 38
David L. Jackson and William P. Dole

Regional Brain PO2 After Global Ischemia in Monkeys: Evidence for Regional Differences in Critical Perfusion Pressures .................. 44
Edwin M. Nemoto, Wilhelm Erdmann, Edward Strong, Guiti R. Rao, and John Moosy

Pathophysiological Mechanisms of Brain Edema Development: Role of Tissue Factors .................. 52
George McDonald, Leah Nikolaishvili, and Michael Ikis

Adenine Compounds: Cerebrovascular Effects in Vitro with Reference to their Possible Involvement in Migraine .................. 58
J. E. Hardebo and L. Edvinsson

Local Cerebral Blood Flow in the Conscious Rat As Measured with 14C-Antipyrine, 14C-Iodoantipyrine and 3H-Nicotine .................. 62
K. Ohno, K. D. Pettigrew, and S. I. Rapoport

CURRENT CONCEPTS OF CEREBRO-VASCULAR DISEASE — STROKE Corticosteroids in Ischemic Stroke .................. 68
David C. Anderson and Ronald E. Cranford

LETTERS TO THE EDITOR: Asymptomatic Carotid Bruit: There is a Need for Trials .................. 72
David B. Simon

Abstracts of Literature .................. 73
Abstracts of Fourth Joint Meeting on Stroke and Cerebral Circulation .................. 95
News from the American Heart Association .................. 109

No. 2 (March-April)

Summary of Ninth International Salzburg Conference on Cerebrovascular Disease, Salzburg, Austria, September 27-30, 1978 .................. 113
John Stirling Meyer and William Hass

Comparative Risk of Operation and Expectant Management for Carotid Artery Disease .................. 116
Hugh West, Robert Burton, Anthony J. Roon, James M. Malone, Jerry Goldstone, and Wesley S. Moore

Improved Results of Carotid Endarterectomy in Patients with Symptomatic Coronary Disease: An Analysis of 1,546 Consecutive Carotid Operations .................. 122
Coyness L. Ennis, Jr., Gerald M. Lawrie, George C. Morris, Jr., E. Stanley Crawford, Jimmy F. Howell, Michael J. Reardon, and Stephen C. Weatherford

Protection from Cerebral Ischemia by a New Imidazole Derivative (Y-9179) and Pentobarbital. A Comparative Study in Chronic Middle Cerebral Artery Occlusion in Cats .................. 126
Akira Tamura, Takao Astano, Keiji Sano, Tatsumi Tsumagari, and Akira Nakajima

Failure of Thiopental to Modify Global Anoxic Injury .................. 135
Bruce D. Snyder, Manuel Ramirez-Lassepas, Pradib Sukhum, Dolores Fryd, and Joo Ho Sung

Phystostigmine-Induced Cerebral Protection Against Hypoxia .................. 142
A.M.E. Scremin and O.U. Scremin

No. 3 (May-June)

EDITORIAL: Stroke Intensive Care Units. Objectives and Results 235
Clark H. Millikan

The Carotid Bifurcation Plaque: Pathologic Findings Associated with Cerebral Ischemia 238
Anthony M. Imparato, Thomas S. Riles, and Frederick Gorstein

Scanning Electron Microscopic Study of Endothelial Cells of Cerebral Arteries from Spontaneously Hypertensive Rats 245
Fumiada Hazama, Takashi Ozaki and Shigeru Amano

The Electrocardiogram in Stroke: Relationship to Pathophysiological Type and Comparison with Prior Tracings 253
David S. Goldstein

Transient Ischemic Attacks. Retrospective Study of 150 Cases of Ischemic Infarct in the Territory of the Middle Cerebral Artery 259
J.L. Mari-Villata, S. Lopez-Pouwa, J.M. Graw, and L. Barraquer

Hypertension and Acute Focal Cerebral Ischemia, Infarction and Edema after Occlusion of a Middle Cerebral Artery in Cats 263
Toru Hayakawa, Arthur G. Waltz, and Ronald L. Jacobson

A New Model of Bilateral Hemispheric Ischemia in the Unanesthetized Rat 267
William A. Pulsinelli and James B. Brierley

Survival of Rabbits After Prolonged Cerebral Ischemia 272
Ronald J. Kola

Occlusion of the Vertebral or Basilar Artery. Follow Up Analysis of Some Patients with Benign Outcome 277
Louis R. Caplan

Brain Hemorrhage from Intracranial Tumor 283
John R. Little, Burke Dial, Gary Belanger, and Sterling Carpenter

Effect of Altered Availability of Energy-Yielding Substrates Upon Survival from Hypoxia in Mice 288
Jeffrey R. Kirsch and Louis G. D'Alecy

(Continued)
CONTENTS OF VOLUME X

EEG Monitoring for Induced Hypotension for Surgery of Intracranial Aneurysms ........ 292

Dissecting Aneurysms of the Basilar Artery in 2 Patients ............................... 294
C. Bruce Alexander, Peter C. Burger, and John A. Goree

Isoproterenol Treatment of Visual Symptoms in Migraine .................................. 299
Mark J. Kupersmith, William K. Hass, and Norman E. Chase

Synthesis of Prostaglandins and Thromboxane B, by Cerebral Arteries ...................... 306
A. Ainsworth Hagen, Richard P. White, and James T. Robertson

18AXe Inhalation Method for Measuring Cerebral Blood Flow in Conscious Baboons ........ 310
Fumihiko Sakai, John Stirling Meyer, Fumie Yamaguchi, Masahiro Yamamoto, and Terry Shaw

Role of Catecholamine Degradative Enzymes and the Adrenergic Innervation in Determining the Cerebrovascular Response to Infused Norepinephrine .................. 319

Fluctuation of Lipid Peroxides and Related Enzyme Activities at Time of Stroke in Stroke-Prone Spontaneously Hypertensive Rats .............................................. 323
Isao Tomita, Mitsuki Sano, Shigeo Saitozawa, Kunio Ohta, and Masaru Katou

Quantitation of Carotid Stenosis with Continuous-Wave (C-W) Doppler Ultrasound .... 326
Merrill P. Spencer and John M. Reid

Changes in Internal Carotid Artery Flow Velocities with Cerebral Vasodilation and Constriction ................................................................. 331
Martin G. Bridge, Joseph N. Blau, and Raymond G. Gosling

Flow Disturbances at the Apex and Lateral Angles of a Variety of Bifurcation Models and Their Role in Development and Manifestations of Arterial Disease ................. 335
Alasdair D. Malcolm and Margot R. Roach

CURRENT CONCEPTS OF CEREBRO-VASCULAR DISEASE-STROKE Infratemporal Bypass Surgery for Cerebral Arterial Disease and the Responsibility of the Practicing Physician .......... 344
Oscar M. Reinmuth

LETTERS TO THE EDITOR: Doppler Ophthalmosonometry .................................. 348
Raymond N. Englander, Robert D. Schoumaker

Abstracts of Literature .................................................. 349
Erratum .................................................. 367

News from the American Heart Association ... 368
No. 4 (July-August)

Effect of Superficial Temporal-Middle Cerebral Artery Anastomosis on the Course of Experimental Acute Middle Cerebral Artery Embolic Occlusion ......................... 371
Robert Levinthal, John I. Moses, W. Jann Brown, and W. Eugene Stern

Role of Adrenergic Nerves in Blood-Induced Cerebral Vasospasm .......................... 375
Frederick A. Simeone, Phillip E. Vinal, J. L. Alderman, and John D. Irwin

Results of Electroencephalographic Monitoring During 367 Carotid Endarterectomies. Use of a Dedicated Minicomputer .................................................. 381
Keith H. Chiappa, Stephanie R. Burke, and Robert R. Young

Autopsy Study of Cerebrovascular Disease in Japanese Men Who Lived in Hiroshima, Japan, and Honolulu, Hawaii .......................... 389
Yoshih Mitsuyma, Lawrence R. Thompson, Takuji Hayashi, Kelvin K. Lee, Robert J. Keen, Joseph A. Resch, and Arthur Steer

Ineffectiveness of the Doppler Ophthalmic Test (DOT) in Post-Endarterectomy Evaluation ........ 396
Shirley M. Otsu, Richard A. Smith, Donald J. Dalesio, Alan D. Kroll, Michael Rush, and Ralph B. Dilley

Topical Prostacyclin (PGI,\textsubscript{2}) Inhibits Platelet Aggregation in Pial Venules of the Mouse .................................................. 399
William I. Rosenblum and Farouk El-Sabban

Effect of Phenoxycbenzamine on Cerebral Blood Flow and Metabolism in the Baboon During Hemorrhagic Shock .................................................. 401
János Hamar, Arisztid G. G. Kovach, Martin Reivich, István Nyáry, and Felix Duray

Modification of Cerebrovascular CO\textsubscript{2} Reactivity by Inhibition of Dopamine \beta-Hydroxylase .............................................. 407

Cerebral Artery Thrombosis and Intramural Hemorrhage .................................. 411
Seizo Sadoshima, Takeo Fukushima, and Kenzo Tanaka

A New Canine Model of Proximal Internal Carotid Embolism .......................... 415
Howard H. Kaufman, James H. Anderson, John D. Huchtton, and Annie Woo

A Simplified Method of Measuring Regional Blood Flow .................................. 419
Adelbert Ames III and Edwin G. Fischer

Cerebral Blood Flow Immediately Following Brief Circulatory Stasis .................... 423
Edwin G. Fischer, Adelbert Ames III and Antonio V. Lorenzo

Critical Appraisal of Cerebral Blood Flow Measured from Brain Stem and Cerebellar Regions After $^{133}$Xe Inhalation in Humans .................. 428
Olivier Juge, John S. Meyer, Fumihiko Sakai, Fumie Yamaguchi, Masahiro Yamamoto and Terry Shaw

(Continued)
CONTENTS OF VOLUME X

Recovery of Brain Mitochondrial Function in the Rat after Complete and Incomplete Cerebral Ischemia .......................... 437
Stig Rehncrona, Leena Mela, and Bo K. Siesjö

Treatment of Acute Focal Ischemia with Continuous CSF Drainage and Mannitol .... 446
John R. Little and Donald O’Shaughnessy

External Carotid Artery in Internal Carotid Artery Occlusion. Angiographic, Therapeutic, and Prognostic Considerations ........ 450
Roger W. Countee and Thurairasah Vijayanathan

Reversed Ophthalmic Artery Flow in Internal Carotid Artery Occlusion. A Re-Appraisal Based on Ultrasonic Doppler Investigations 461
Vida Hodek-Demarin and Hans R. Müller

Circulating Platelet Aggregates in Sickle Cell Disease Patients with and without Vascul- occlusion .................................................... 464
Paulette Mehta and Jawahar Mehta

James F. Toole and Ralph W. Barnes

PRELIMINARY COMMUNICATION: Omental Transposition to Brain of Stroke Patients ................................. 471

BRIEF COMMUNICATION: Brain Stem Dysfunction in Transient Global Amnesia 473
N.S. Longridge, V. Hachinski, and H.O. Barber

CURRENT CONCEPTS OF CEREBRO-VASCULAR DISEASE-STROKE Treatment of Aphasia Following Stroke ................. 475
Audrey L. Holland

LETTERS TO THE EDITOR: Trifluoperazine Pretreatment in Experimental CI Gerbils 478
John C. Sowers, C. Patrick McGraw

Non-Invasive Methods Defended as Valuable Merrill P. Spencer, Burton A. Sandok

Question of Methodology With Labelled Microspheres .......................................................... 482
David L. Jackson, Shu-Ren Lin

Abstracts of the Cerebrovascular Clinical Research Center Workshop. February 7–8, 1979, Phoenix, AZ ............................. 496

Abstracts of Literature ................................................. 496

News from the American Heart Association . . . 515

Tranexamic Acid in Subarachnoid Hemorrhage. A Double-Blind Study .......................... 519
Markku Kaste and Magnus Ramsay

Detrimental Effect of Prolonged Hypothermia in Cats and Monkeys With and Without Regional Cerebral Ischemia ............ 522
Petter A. Steen, Edward H. Soule, and John D. Michenfelder

Prognosis in Patients With Infarction and TIA in Carotid Territory During and After Anticoagulant Therapy .................. 529
Hans Link, Gustaf Lebram, Ingegerd Johansson, and Claes Rödberg

Frequency of Focal Cerebral Transient Ischemic Attacks During a 12 Month Period. The Copenhagen City Heart Study ............ 533
Gudrun Boysen, Gorm Jensen, and Peter Schnohr

Effect of Intravenous Ethanol on Cerebral Vasospasm Produced by Subarachnoid Blood .................................................. 535
Kevin J. Barry and R. Michael Scott

Small Animal Model for Investigation of Subarachnoid Hemorrhage and Cerebral Vasospasm ........................................... 538
Kevin J. Barry, Michael A. Goiglian, and Bennett M. Stein

Brain Edema During Ischemia and After Restoration of Blood Flow. Measurement of Water, Sodium, Potassium Content and Plasma Protein Permeability ........................................... 542
U. Ito, K. Ohno, R. Nakamura, F. Suganuma, and Y. Inaba

Serum Cardiac Enzymes in Stroke .............................................. 548
J.W. Norris, V. C. Hachinski, M. G. Myers, J. Callow, T. Wong, and R. W. Moore

Brain Blood Flow and Metabolism After Global Ischemia and Post-insult Thiopental Ther- apy in Monkeys .......................................................... 554

Body Fluid Oxygen Tension and Prognosis in Patients with Ruptured Aneurysm .......... 560
Hidemi Kishikawa, Kiyoshi Iwatsuki, Syunichiro Fujimoto, and Akismasa Umeda

Chronic Subdural Hematoma Presenting as Transient Neurologic Deficits ............... 564
Joseph E. Welsh, George W. Tyson, H. Richard Wian, and John A. Jane

Brain Metabolism Following Bilateral Carotid Occlusion in 2 Different Models of Experimental Hypertensive Rats .......... 568
Masatoshi Fujishima, Yasayuki Moroami, Kenshi Kumamoto, Yasuhiro Noda, Jun Ogata, and Teruo Omae

Cerebral Vasomotor Reactivity in Normotensive and Spontaneously Hypertensive Rats .......... 572
Barbro B. Johansson and Bengt Nilsson

pH Dependence of Blood-Brain Barrier Permeability to Lactate and Nicotine ............. 577
William Oldendorf, Leon Braun, and Eain Cornford

Arterial Air Embolism in the Cat Brain ............................................. 581
H. Fritz and K.-A. Hossmann

No. 5 (September-October)

(Continued)
CONTENTS OF VOLUME X

Platelet Coagulant Activities in Arterial Occlusive Disease of the Eye .......................... 589
Peter N. Walsh, Tulay Kansu, Peter J. Savino, Norman J. Schatz. Larry E. Magargal, Richard E. Goldberg, and James J. Corbett

Cerebral Arteritis in Scleroderma .............................................. 595
Elihu Estev, Abraham Lieberman, Richard Pinto, Martin Meltzer, and Joseph Ransohoff

CASE REPORT: Fusiform Basilar Aneurysm Simulating Carotid Transient Ischemic Attacks ............................................. 598
Leonard F. Hirsh and Carlos F. Gonzalez

CURRENT CONCEPTS OF CEREBRO-VASCULAR DISEASE-STROKE: Assessment of the Role of Antiplatelet Aggregating Agents in Transient Ischemic Attacks, Stroke and Death .............................................. 602
Mark L. Dyken

Abstracts of Literature ......................................................... 605
News from the American Heart Association ................................ 623A

No. 6 (November-December)

Ischemic Cerebral Edema. A Review .......................... 623
M.D. O'Brien

Prostaglandin I2 and Idomethacin Prevent Impairment of Post-Ischemic Brain Reperfusion in the Dog ......................... 629
John M. Hallenbeck and Thomas W. Furlow, Jr.

Prevention of Experimental Subarachnoid Hemorrhage-Induced Intracranial Arterial Vasonecrosis with Phosphodiesterase Inhibitor Phthalazinol (EG-626) ........................................ 638
John F. Alksne and P. Josephine Bronson

Attenuation of Ischemic Brain Edema by Pentobarbital after Carotid Ligation in the Gerbil ........................................ 644
Pablo Lawner, John Lauren, Frederick Simeone, Eugene Fink, and Elliot Rubin

Barbiturates in Focal Ischemia of Primate Cortex: Effects on Blood Flow Distribution, Evoked Potential and Extracellular Potassium ........................................... 647
Neil M. Branson, Terence Hope, and Lindsay Symon

Influence of Various Agents on the Development of Brain Edema in the Rat Following Microembolism. Protective Effect of Gamma-Butyrolactone ........................................ 653
Jean Bralet, Paulette Bekey, Anne-Marie Bralet, and Alain Beley

Changing Pattern of Cerebral Infarction: 1945-1974 .................. 657

Recovery in Treated Aphasia in the First Year Post-Stroke ........ 663
Martha Taylor-Sarno and Eric Leviita

Levels in Stroke Patients of CFS Astroprotein, and Astrocyte-Specific Cerebroprotein ........................................ 685
Tora Hayakawa, Yukitaka Usuki, Takekada Mori, Norio Arita, Toshiki Yoshimine, Yasutaka Maeda, Keiji Shirizu, and Akio Myoja

Richard Hawkins, William K. Hess, and Joseph Ransohoff

Experimental Cerebral Vasospasm after Subarachnoid Hemorrhage. Participation of Adrenergic Nerves in Cerebral Vessel Wall 703
Shunro Endo and Jiro Suzuki

Effects of Hemorrhagic Hypotension on the Cerebral Circulation. I. Cerebral Blood Flow and Pial Arteriolar Caliber ................... 711

Effects of Hemorrhagic Hypotension on the Cerebral Circulation. II. Electrocortical Function .................................. 719

Effects of Hemorrhagic Hypotension on the Cerebral Circulation III. Neuropathology ........................................ 724

Correlated Electrical and Mechanical Responses of Isolated Rabbit Pial Arteries to Some Vasoactive Drugs ........................................ 727
N. A.T. Lusamvuku, R. Sercombe, P. Aubineau, and J. Seylaz

Intracranial Venous Thrombosis in Young Women ................ 680
Bruno Estanol, Alejandro Rodriguez, Guillermo Conte, Jose Manuel Aleman, Mauro Loyo, and Javier Pizzuto

Histopathological Reactivity of Carotid Arteries of Normotensive Sprague-Dawley vs Sponaneously Hypertensive Rats to Ligation Injury ........................................ 674
Bernard C. Wexler

Intracranial Venous Thrombosis in Young Women ................ 680
Bruno Estanol, Alejandro Rodriguez, Guillermo Conte, Jose Manuel Aleman, Mauro Loyo, and Javier Pizzuto
