News from the American Heart Association ......................... 623A
American Egg Board

announces 1980 Research Grants for support of studies on the role of eggs in human nutrition and related basic problems.

Grants-in-aid will be made for research projects requiring one to three years, to non-profit institutions. Awards will be made on the basis of scientific excellence and pertinence to the research program of the American Egg Board and are subject to approval of the United States Department of Agriculture. Studies of the relationship of eggs and egg products in the diet to serum lipids and lipoproteins in man and to experimental atherogenesis in properly chosen animal models will be looked on with favor. Applicants must possess either the Ph.D. or M.D. degree.

The Scientific Review Panel has been selected from a group of scientists active in biomedical fields relevant to the research program of the American Egg Board. Members include:

- Elliot Rapaport, M.D., Chairman
  Professor of Medicine
  University of California, San Francisco
  General Hospital

- Edwin L. Bierman, M.D.
  Professor of Medicine
  University of Washington School of Medicine
  Seattle

- Jack Geer, M.D.
  Professor of Pathology
  University of Alabama at Birmingham

- Tavia Gordon, A. B.
  National Institutes of Health
  National Heart & Lung Institute

- Antonio Gotto, M.D.
  Professor of Medicine
  Baylor College of Medicine
  The Methodist Hospital

Scott Grundy, M.D.
Professor of Medicine
University of California, La Jolla and Veteran’s Administration Hospital

Ralph Holman, Ph.D.
Professor of Biochemistry and Director of Hormel Institute
University of Minnesota

Robert Shank, M.D.
Professor of Preventive Medicine
Washington University School of Medicine

Additional panel members will be announced at a later date.

Application Deadline:
October 1, 1979
