EDITORIAL: Treatment of Impending Stroke  
Fletcher H McDowell, Clark H. Millikan, and Murray Goldstein  

Anticoagulant vs Anti-Platelet Therapy As Prophylactic Against Cerebral Infarction in Transient Ischemic Attacks  
Jan-Edvin Olsson, Carl Brechter, Hans Bäcklund, Hans Krook, Regnar Müller, Eva Nitelius, Olle Olsson, and Axel Tornberg  

Plasma Acetylsalicylate and Salicylate and Platelet Cyclooxygenase Activity Following Plain and Enteric-Coated Aspirin  
M. Ali, J W. D. McDonald, J J. Thiessen, and P. E. Coates  

Factors Related to Stroke Incidence in Hawaii Japanese Men. The Honolulu Heart Study  
Abraham Kagan, Jordan S. Popper, and George G. Rhoads  

Incidence of Transient Cerebral Ischemic Attack in Hawaii Japanese Men. The Honolulu Heart Study  
George G. Rhoads, Jordan S. Popper, Abraham Kagan, and Katsuhiko Yano  

Comparison of Doppler Sonography and Plate Thermography for Detection of Carotid Artery Stenosis  
B. Hofferberth, M. Gottschaldt, and S. Dykan  

Reduction in Regional Cerebral Blood Flow During Normal Aging in Man  
Eldad Melamed, Sylvan Lavy, Shlomo Bentin, Gerald Cooper, and Yosef Rinot  

Effect of Chronic Atrial Fibrillation on Regional Cerebral Blood Flow  
Sylvan Lavy, Shlomo Stern, Eldad Melamed, Gerald Cooper, Andre Keren, and Pirha Levy  

Regional Cerebral Blood Flow in the Rat as Determined by Particle Distribution and by Diffusible Tracer  
Roger W. Horton, Timothy A. Pedley, and Brian S. Meldrum  

Positron Imaging of Cerebral Blood Flow During Continuous Inhalation of C14O2  
Robert H Ackerman, Rajeshwari Subramanyam, John A. Correa, Nathaniel M. Alpert, and Juan M. Taversas  

Cerebral Pathophysiology in Hemorrhagic Shock. Nuclide Scan Data, Fluorescence Microscopy, and Anatomic Correlations  
Michael M. Bronshvag  

Low Molecular Weight Dextran in Experimental Embolectomy  
Ranjit K. Loha, Jacob Israeli, Manuel Dujovny, Pedro J. Barrionuevo, and Harold R. Hellstrom  

Extracranial Occlusive Vascular Disease: Does Size Matter?  
Louis R Caplan and Richard Baker  

Carotid Artery Velocity Patterns in Normal and Stenotic Vessels  
W. M. Blackshear, Jr., D J. Phillips, P.M. Chikos, J D. Harley, B L. Thiele, and D. E. Strandness, Jr  

Comparative Effects of Unilateral and Bilateral Carotid Artery Ligation in the Spontaneously Hypertensive Rat  
Bernard C. Wexler  

Correlation Between Glucose Utilization and Metabolite Levels During Focal Ischemia in Cat Brain  
Frank A. Welsh, Joel H. Greenberg, Stephen C. Jones, Myron D. Ginsberg, and Marin Reivich  

Primary Pontine Hemorrhage: Clinicopathological Correlations  
Noboru Goto, Mitsu Kaneko, Yasuaki Hosaka, and Hiroaki Koga  

Arterial Occlusion Following Anastomosis of the Superficial Temporal Artery to Middle Cerebral Artery  
Anthony J. Furlan, John R. Little, and Donald F. Dohn  

Spontaneous Bilateral Recanalization in Bilateral Internal Carotid Artery Occlusion  
Thomas-Marc Markwalder, Richard W. Starrett, and Mark Mumenthaler  

BRIEF COMMUNICATION: Effects of Formaldehyde Fixation on Basilar Artery Caliber  
Michael Noel Hart and Susan L. O'Donnell  

Abstracts of Literature  

Abstracts of the 5th Joint Meeting on Stroke and Cerebral Circulation  

News from the American Heart Association

CONTENTS OF VOLUME XI

No. 2 (March-April)

EDITORIAL: In Answer to the Question: “As Compared to What?” A Progress Report on the EC/IC Bypass Study ............................................................... 137

Integrity of Blood-Brain Barrier During Ethanol Intoxication and Withdrawal in the Rat: Normal Glucose Transfer and Permeability to Na+ and Cl− .......................................................... 141
Ralf Hemmingsen, Marianne M. Hertz, and Tom G. Bolwig

Migrainous Cerebral Infarction: A Tomographic Study of Cerebral Blood Flow and Oxygen Extraction Fraction with the Oxygen-15 Inhalation Technique ................................................................. 145
M. G. Bousser, J. C. Baron, M. T. Iba-Zizen, D. Comar, E. Cabanis, and P. Castaigne

Cerebral Infarction in Young Adults. Long Term Prognosis ................................................................. 149
Bruce D. Snyder and Manuel Ramírez-Lassepas

Retinal Fluorescein Angiographic Evidence for Atheromatous Microembolism. Demonstration of Ophthalmoscopically Occult Emboli and Post-Embolic Endothelial Damage After Attacks of Amaurosis Fugax ................................................................. 154
Rafael Muci-Mendoza, Jorge Arruga, William O. Edward, and William F. Hoyt

Embolization from a Fusiform Middle Cerebral Artery Aneurysm ................................................................. 158
Michael Martin Cohen, Còmbatoren P. Hemalatha, Richard T. D’Addario, and H. Warren Goldman

Epidemiology of Stroke in Tilburg, The Netherlands. The Population-Based Stroke Incidence Register: 1. Introduction and Preliminary Results ................................................................. 162
B. Herman, B. P. M. Schulie, J. H. van Luijik, A. C. M. Leyten, and C. W. G. M. Frenken

Effect of Steroid on Ischemic Brain Edema. Analysis of Cytotoxic and Vasogenic Edema Occurring During Ischemia and After Restoration of Blood Flow ................................................................. 166
Umeo Ito, Kikuo Ohno, Yasuo Suganuma, Kenichi Suzuki, and Yutaka Inaba

Temporal Profile (Clinical Course) of Acute Vertebrobasilar System Cerebral Infarction ................................................................. 173
H. Royden Jones, Jr., Clark H. Millikan and Burton A. Sandok

Bilateral Nothnagel Syndrome. Clinical and Roentgenological Observations ................................................................. 177
Iraj Derakhshan, Mansooreh Sabouri-Deylami, and Benjamin Kaufman

Cerebral Venous Pressure During Actively Induced Hypertension and Hypercapnia in Cats ................................................................. 180
L. Auer, B. Johansson and E. T. MacKensie

Cholesterol Crystal Embolization in Rat Brain: A Model for Atheroembolic Cerebral Infarction ................................................................. 184
T. J. Steiner, D. L. H. Rail, and F. Clifford Rose

Hemorrhage-Induced Cerebral Vasocclusion in Dogs ................................................................. 190
William J. Pearce and Louis G. D’Alecy

A Re-Examination of Physostigmine-Induced Cerebral Protection in the Hypoxic Mouse. A Critical Assessment of the Model ................................................................. 197
Alan A. Artru, and John D. Michenfelder

Spinal Cord Infarction: A Highly Reproducible Stroke Model ................................................................. 200
Justin A. Zivin, and Umberto DeGirolami

A Gerbil Model of Cerebral Ischemia Suitable for Drug Evaluation ................................................................. 203
D. M. Jarrott and Floyd R. Domer

CURRENT CONCEPTS OF CEREBROVASCULAR DISEASE-STROKE: Use of Balloon Catheters in the Treatment of Cranial Arterial Abnormalities ................................................................. 210
Charles Kerber

Computed Tomography in Patients Presenting with Lacunar Syndromes ................................................................. 256

Evidence for Greater Susceptibility of Isolated Dog Cerebral Arteries to Ca Antagonists than Peripheral Arteries ................................................................. 261
Koichiro Shimizu, Tomio Ohda, and Noboru Toda

Morphometric Study on Cerebral Vessels in Spontaneously Hypertensive Rats ................................................................. 266
Clas Nordborg and Barbro B. Johansson

Effects of Gamma-Hydroxybutyrate and Gamma-Butyrolactone on Cerebral Energy Metabolism During Exposure and Recovery From Hypoxemia-Oligemia ................................................................. 271
V. MacMillan

No. 3 (May-June)

Amelioration of Cerebral Ischemia by Prior Treatment of Hypertension ................................................................. 235
James H. Halsey, Jr., Michael O’Brien, and Edward R. Strong

Physiological Mechanisms Controlling Cerebral Blood Flow ................................................................. 240
George McEvedlythiwill

Ultrasonic Demonstration of External and Internal Carotid Patency with Common Carotid Occlusion. A Preliminary Report ................................................................. 249

Cardiovascular Mortality in Transient Ischemic Attacks ................................................................. 252
Siegfried Heyden, Gerardo Heis, Albert Heyman, Alfred H. Tyroldz, Curtis G. Hames, Ulrich P Hatzecke, and Christian Manegold

Computed Tomography in Patients Presenting with Lacunar Syndromes ................................................................. 256

Evidence for Greater Susceptibility of Isolated Dog Cerebral Arteries to Ca Antagonists than Peripheral Arteries ................................................................. 261
Koichiro Shimizu, Tomio Ohda, and Noboru Toda

Morphometric Study on Cerebral Vessels in Spontaneously Hypertensive Rats ................................................................. 266
Clas Nordborg and Barbro B. Johansson

Effects of Gamma-Hydroxybutyrate and Gamma-Butyrolactone on Cerebral Energy Metabolism During Exposure and Recovery From Hypoxemia-Oligemia ................................................................. 271
V. MacMillan

No. 5 (September-October)

EDITORIAL: Cerebral Blood Flow and Energy Metabolism in Vascular Insufficiency .......................... Cesare Fiaschi 431

PROGRESS IN CEREBROVASCULAR DISEASE. Management of Cerebral Embolism of Cardiac Origin .......................... J. Donald Easton and David G. Sherman 433

Radionuclide Angiography and Doppler Sonography to Detect Patients with Cerebrovascular Disease. A Correlation with Radiographic Angiography .......................... U. Buell, D. Leschem, M. Rath, M. Rose, and F. Marguth 452

Quantitative Study of the Rate of Recovery From Aphasia Due to Ischemic Stroke .......................... G. Demeurisse, O. Demol, M. Derowek, R. De Beuckelaer, M.-J. Coekaerts, and A. Capon 455

Response of Cerebral Circulation to Topical Histamine .......................... Albert N. Martins, Thomas F. Doyle, Sanford J. Wright, Jr., and Billy G. Bass 469

Cerebral Fat Embolism: A Neuropathological Study of a Microembolic State .......................... Elizabeth Kamenar and Peter C. Burger 477

Correlation Between rCBF and Histological Changes Following Temporary Middle Cerebral Artery Occlusion .......................... Akira Tamura, Takaos Asano, and Keiji Sano 487

Cerebral Blood Flow and Edema Following Carotid Occlusion in the Gerbil .......................... Alan Crockard, Fausto Iannotti, Alan T. Hwangstock, Roger D. Smith, Robert J. Harris, and Lindsay Symon 494

Brain Events Associated with Mitral Valve Prolapse .......................... Maurice R. Hanson, John P. Conomy and James R. Hodgman 499

Butanediol Induced Ketosis Increases Tolerance to Hypoxia in the Mouse .......................... Jeffrey R. Kirsch, Louis G. D’Alecy, and Peter B. Mongroo 506

Hypoxic Tolerance Enhanced by β-Hydroxybutyrate-Insulin in the Mouse .......................... Steven M. Egger, Jeffrey R. Kirsch, and Louis G. D’Alecy 513

Transient Appearance of “No-Reflow” Phenomenon in Mongolian Gerbils .......................... Umeo Ito, Kikuo Ohno, Takekane Yamaguchi, Hiroki Tomita, Yuika Inaba, and Masatoshi Kashima 517

Cholinergic Regulation of Intracerebral Noradrenergic Pathway-Induced Hypothalamic Vasodilation .......................... K. P. Klugman, G. Mitchell, and C. Rosendorff 522

Light Touch Thresholds in Normal Persons and Cerebral Vascular Disease Patients: Bilateral Deficit After Unilateral Lesion .......................... June Perry Essing, Jerome W. Gersten, and Philip Yarnell 528

Local Cerebral Blood Flow Following Transient Cerebral Ischemia. I. Onset of Impaired Reperfusion within the First Hour Following Global Ischemia .......................... Calvin L. Miller, Douglas G. Lampard, Karl Alexander, and William A. Brown 534

Local Cerebral Blood Flow Following Transient Cerebral Ischemia. II. Effect of Arterial Pco2 on Reperfusion Following Global Ischemia .......................... Calvin L. Miller, Karl Alexander, Douglas G. Lampard, William A. Brown and Robert Griffiths 542

Survival Under Hypoxia. Age Dependence and Effect of Cholinergic Drugs .......................... Antonia M.E. Scremin, Oscar U. Scremin, and Theresa Brechner 548

CURRENT CONCEPTS OF CEREBROVASCULAR DISEASE-STROKE Amelioration of Post-Ischemic Brain Damage with Barbiturates .......................... Peter Safar 565

Letters to the Editor: Liquid Crystal Thermography: Comments on Technique .......................... Thomas W. Furlow, Jr. 569

Abstracts of Literature .......................... 570

News from the American Heart Association .......................... 582A
