STROKE

VOLUME II

STROKE

SUBJECT INDEX

Page Numbers in Italics refer to Abstracts

JANUARY-DECEMBER, 1971

Acetazolamide
- effects on cerebral ischemia and infarction after experimental occlusion of middle cerebral artery, 456
- improved thermal dilution method for measuring jugular venous flow, 128
- responses of surface arteries and blood flow, 461

Acetylsalicylic acid
- and arteriosclerotic-thromboembolic diseases in aged, 499

Acid mucopolysaccharides
- as cofactor in formation of platelet clumping substance, 595

Adenosine diphosphate (ADP)
- determination of ADP-induced platelet aggregation, 495, 596
- effect of pyrimido-pyrimidine compounds on platelet function, 603
- quantitative measurements of ADP-induced platelet aggregation, 605

Adenosine triphosphate (ATP)
- cerebral ATP and lactate levels following occlusion of middle cerebral artery, 319

Adolescence
- and onset of atherosclerosis, 801

Adrenergic blockade
- of hypocapnic cerebral arterial constriction, 219

Adrenergic receptors
- alpha and beta, in canine cerebral vasculature, 193

Age
- cerebral atherosclerosis in Japan, 400
- hemispheric blood flow in cerebral infarction, 383
- in ischemic heart disease, cerebrovascular disease, hypertension, and diabetes, 602

Aggregometer
- "membrane capacitance", for measuring platelet aggregation, 601

Agraphia
- hemiplegic syndrome of posterior cerebral artery, 559

Alexia
- hemiplegic syndrome of posterior cerebral artery, 559

Aminophylline
- responses of surface arteries and blood flow of ischemic and nonischemic cerebral cortex, 461

Anesthetics
- effect on adenosine-diphosphate-induced platelet aggregation, 495

Aneurysms
- antifibrinolytic activity during administration of epsilon-aminocaproic acid, 555
- carotid-ophthalmic, 501
- combined arterial and arteriovenous aneurysms of spinal cord, 595
- effect of epsilon aminocaproic acid and tranexamic acid on thrombus size and strength, 496
- intracarotid phenytoin and corticosteroids for cerebral arterial spasm, 500
- intracerebral, 258
- study of intracranial aneurysms with ultrasonographic x-rays, 608
- syndrome of hydrocephalus caused by secular aneurysms of basilar artery, 602

Angioautotomography
- cerebral, 603

Angiography
- basal projection in cerebral angiography, 596
- clinical usefulness of magnification in cerebral angiographic diagnosis, 498
- diagnosis of extradural hematoma of posterior fossa, 603
- elucidation of cause of raised intracranial pressure by, 502
- foam cell arteritis of the brain, 332
- hemodynamics of arterial venous malformations, 279
- manifestations in cerebral inflammatory disease, 599
- moving embolus seen during serial cerebral angiography, 440
- retinal arterial pressure before and after surgery for carotid artery stenosis, 569
- retrograde filling of vertebro-basilar system during carotid angiography, 602
- strokes in the young, 258

Angioma
- brain in hereditary hemorrhagic telangiectasia, 301

Animal studies
- cats
  - activation of carotid chemoreceptors, 603
  - assessment of early platelet activity in subarachnoid hemorrhage and middle cerebral artery thrombosis, 268
  - effect of PaCO2 on hyperemia and ischemia in cerebral infarction, 139
  - effects of acetazolamide on cerebral ischemia and infarction, 456
  - effects of nicotine on cerebral circulation, 67
  - physiological modification of immediate ischemia, 239
  - response of pial precapillary vessels to changes in arterial carbon dioxide tension, 604
- chicks
  - stimulus deprivation and cerebral blood flow, 603
- dogs
  - alpha and beta adrenergic receptors in cerebral vasculature, 193
  - basilar blood flow, 409
  - cerebral spinal fluid lactic acid following circulatory arrest, 565
  - cerebral tissue lactate in experimental oligemic shock, 559
  - effect of body position and forelimb exercise on cephalic blood flow, 168
  - effects of freezing on major arteries, 471
  - electrical activity of heart and brain under acute experimental anoxia, 76
  - experimental evaluation of use of streptokinase in venous thrombosis, 600
  - experimentally induced venous thrombosis, 600
  - quantitative measurements of platelet aggregation in vivo induced by ADP, 605
- guinea pigs
  - evaluation of ADP-induced platelet aggregation, 605
INDEX

Arteries
- Arterial P<sub>co2</sub> effects on cerebral ATP and lactate levels following occlusion of middle cerebral artery, 319
- Arterial constriction, 219

Arrest, circulatory
- cerebral spinal fluid lactic acid following circulatory arrest, 565

Arterial P<sub>co2</sub>
- adrenergic blockade of hypocapnic cerebral arterial constriction, 219

Arteritis
- effects of betahistine hydrochloride, 471

Arteriosclerosis
- arterial constrictions, 219

Arteriovenous malformations
- Arteriovenous malformations combined arterial and arteriovenous aneurysms of the spinal cord, 563

Aspirin
- effect on thrombus formation time and prothrombin time, 498

Asymptomatic aortic disease
- infarction of spinal cord, 496

Atropine-<sup>14</sup>C, 139

Autopsy
- in vivo cinephotographic analysis of aortic and major arterial flow patterns, 597

Autoregulation
- adrenergic blockade of hypocapnic cerebral arterial constriction, 219

Autopsies
- in Japan, 400

Autoradiography
- combined arterial and arteriovenous aneurysms of the spinal cord, 563

Atropine-<sup>14</sup>C
- effects of betahistine hydrochloride, nicotinic acid, and histamine on basilar blood flow in dogs, 409

Behavioral influences
- stroke rehabilitation program and, 213

Basal arteries
- effects of betahistine hydrochloride, 471
- effects of nicotine acid, histamine and on, basilar blood flow in dogs, 409

Basilic arteries
- effects of nicotine acid, histamine and on, basilar blood flow in dogs, 409

Blood coagulation
- fibrinolytic response to physical exercise in males, 500

Blinding
- population survey of symptoms of transient ischemic attacks, 114

Blood flow
- effects of acetazolamide, nicotinic acid, and histamine on basilar blood flow in dogs, 409

Blindness
- population survey of symptoms of transient ischemic attacks, 114

Brain lipid changes following hypoxia, 587

Betahistine hydrochloride
- effects of acetazolamide on cerebral ischemia and infarction, 450

Blood gas exchange
- effects of Pa<sub>O<sub>2</sub></sub> on hyperemia and ischemia, 139

Brainstem ischemia
- effects of acetazolamide on cerebral ischemia and infarction, 450

Behavioral influences
- stroke rehabilitation program and, 213

Bleeding
- in course of: neurosurgical aspects, 602

Blindness
- population survey of symptoms of transient ischemic attacks, 114

Cerebral apoplexy (stroke)
- effects of acetazolamide on cerebral ischemia and infarction, 450

Cerebral anoxia
- in vivo cinephotographic analysis of aortic and major arterial flow patterns, 597

Cerebral arteriosclerosis
- effects of Pa<sub>O<sub>2</sub></sub> on hyperemia and ischemia, 139

**Stroke, Vol. 2, November-December 1971**
Cerebral apoplexy (stroke)
pathogenesis, pathophysiology and therapy as illustrated by regional blood flow measurements in brain, 327

Cerebral arteries
cerebral atherosclerosis in Japan, 400, 597
intracarotid phenoxycbenzamine for cerebral arterial spasm, 300
middle, 319
effects of acetazolamide on cerebral ischemia and infarction, 456
occlusio supra occlusionem, 487
thrombosis of, assessment of early platelet activity, 268
treatment of cerebral ischemia with hyperbaric oxygen, 247
posterior, hemiplegic syndrome of, 559

Cerebral blood flow
adrenergic blockade of hypocapnic cerebral arterial constriction, 219
analysis of isotope clearance curves in normal and ischemic brain, 444
carotid siphon calcification and cerebral blood flow in healthy aged males, 500
central neurogenic control, 499
effect of PaCO₂ on hyperemia and ischemia, 139
EEG and cerebral blood flow changes following vascular malformations, 499
measurement during carotid endarterectomy, 1
neurogenic control, 499
reactivity to CO₂ in patients with transient cerebral ischemic attacks, 273
regional
cerebral apoplexy (stroke), 327
determined by initial slope of clearance of ¹³⁷Xe, 519
effect of intra-arterial papaverine on, in patients with stroke or intracranial tumor, 148
hemodynamics of arterial venous malformations, 279
measurement as safeguard during carotid endarterectomy, 1
physiological modification of immediate ischemia, 239
stimulus deprivation and, 603
treatment of cerebral ischemia with hyperbaric oxygen, 247

See also Circulation, cerebral

Cerebral hemorrhages
A-mode echoencephalography in evaluation of cerebrovascular disease, 452
epidemiology of brain infarction, 295
natural history of stroke in Rochester, Minn. (1945-54), 11
record linkage in cerebrovascular disease, 48

Cerebral infarction
A-mode echoencephalography in evaluation of cerebrovascular disease, 452
anticoagulant therapy, 201
assessment of early platelet activity, 268
brain in hereditary hemorrhagic telangiectasia, 361
cerebral apoplexy (stroke), 327
cerebral ATP and lactate levels following occlusion of middle cerebral artery, 319
cerebrospinal fluid metabolic acidosis and brain oxygen supply, 597
current status of epidemiology, 295
effect of delayed hyperventilation on experimental, 499
effect of intra-arterial papaverine on regional cerebral blood flow in stroke or intracranial tumor, 148
effect of PaCO₂ on hyperemia and ischemia, 139
effects of acetazolamide on cerebral ischemia and, 456
hemiplegic syndrome of posterior cerebral artery, 559
hemispheric blood flow, 383
improvement in performance in paresis following stroke, 385
natural history of stroke in Rochester, Minn. (1945-54), 11
osteoporosis in hemiplegia, 41
physiological modification of immediate ischemia due to experimental middle cerebral occlusion, 239
population survey of symptoms suggestive of transient ischemic attacks, 114
reactivity of cerebral blood flow to CO₂ in transient ischemic attacks, 273
record linkage in cerebrovascular disease, 48
risk factors in stroke due to, 423
strokes in the young, 238

Cerebral inflammatory disease
angiographic manifestations, 596
Cerebral ischemia
effects of nicotine on cerebral circulation in cats, 67
and reactive hyperemia, 499
treatment with hyperbaric oxygen, 247

Cerebral thrombosis
natural history of stroke in Rochester, Minn. (1945-54), 11

Cerebral vascular anomaly
brain in hereditary hemorrhagic telangiectasia, 361

Cerebral vascular reactivity
relation between cerebral oxygen consumption and cerebral vascular reactivity to carbon dioxide, 251

Cerebral vascular resistance
alpha and beta adrenergic receptors in canine cerebral vasculature, 193
Cerebral vasculitis
bacterial infection, 496

Cerebral venous outflow
improved thermal dilution method for measuring jugular venous flow, 128

Cerebrospinal fluid
circulation following subarachnoid hemorrhage, 497
metabolic acidosis and brain oxygen supply, 597

Cerebrovascular disease
age and sex trends, 602
A-mode echoencephalography in evaluation of, 452
in bi-racial population of Evans County, Georgia, 509
cerebral blood flow measurement during carotid endarterectomy, 1
episodic central nervous system ischemia: relation to occult left atrial myxoma, 35
moving emboli seen during serial cerebral angiography, 440
past, present and future, 95
report of New Orleans meeting on, 101
strokes in the young, 238
therapy, effect of intra-arterial papaverine, 148
treatment of cerebral ischemia with hyperbaric oxygen, 247

Cerebrovascular insufficiency
effects of nicotine on cerebral circulation in cats, 67

INDEX
Cheyne-Stokes respiration
improved thermal dilution method for measuring jugular venous flow, 128
Children and infants
primary cerebral arterial occlusive disease, 500
results of nonoperative treatment of infantile subdural hematoma, 509
Chloral hydrate
and warfarin interaction, 501
Cholesterol
control of plasma cholesterol, 594
Cigarette smoking
effects of nicotine on cerebral circulation in cats, 67
risk factors in stroke, 423
Cineangiography
episodic central nervous system ischemia: relation to occult left atrial myxoma, 35
Cinephotography
in vivo cinephotographic analysis of aortic and major arterial flow patterns, 597
Circle of Willis
socioeconomic factors and cerebral atherosclerosis, 378
Circulation
cerebral
alpha and beta adrenergic receptors, 193
effect of vasodilating drugs on blood flow and microvasculature, 501
effects of nicotine on, 97
neurogenic control of, 429
regional cerebral blood flow determined by initial slope of clearance of $^{183}$Xe, 519
See also Cerebral blood flow
collateral
occlusio supra occlusionem, 487
physiological modification of immediate ischemia, 239
moving embolus seen during serial angiography, 440
retinal and choroidal circulation in rabbits: fluorophotometer measurements, 593
Cisternography
cerebrospinal fluid circulation following subarachnoid hemorrhage, 497
Clearance curve
regional cerebral blood flow determined by initial slope of clearance of $^{183}$Xe, 519
Clonidine
new antihypertensive agent, 605
Clofibrate determination
antifibrinolytic activity during administration of epsilon-aminocaproic acid, 555
Coagulation
effect of synthetic phosphatidyl serines on, 495
following acute stroke, 81
laboratory diagnosis of disseminated intravascular coagulation, 495
reproducibility in coagulation assays, 596
See also Anticoagulant therapy, Blood clotting
Cold
effect on platelet aggregation, 598
effects of freezing on major arteries, 471
Collagen
aggregation of platelets by, 494
Coma
electrodiagnostic study of brainstem strokes, 576
Conduction systems
electrodiagnostic study of brainstem strokes, 576
Contraceptives
blood clotting and platelet aggregation during oral progestogen contraception, 501
changes in serum lipids during administration of oral contraceptive, 599
myocardial infarction and oral contraceptive agents, 606
Cortical thickness
osteoporosis in hemiplegia, 41
Coronary arteries
acute lesions of, in anticoagulant treated and untreated patients, 501
Coronary heart disease
systolic versus diastolic blood pressure and, 496
Craniectomy
basilar blood flow in dogs, 409
Cryosurgery
effects of freezing on major arteries, 471
Cyclophosphamide therapy
in Wegener's granulomatosis, 500

D

Data collection
record linkage in studies of cerebrovascular disease in Oxford, England, 48
Dextran
reduction in venous thromboembolism by agents affecting platelet function, 599
Diabetes
age and sex trends, 602
epidemiology of brain infarction, 295
risk factors in stroke, 423
Diagnoses
electrodiagnostic studies of brainstem strokes, 576
Diastasis
hemispheric blood flow in cerebral infarction, 383
Diets, atherogenic
increased lipid deposits in iris of sympathectomized eye in rabbits fed, 23
Diphenylhydantoin
intraventricular embolization, 541
Diplopia
population survey of symptoms of transient ischemic attacks, 114
Dipyridamole
pharmacologic control of thromboembolic complications of cardiac valve replacement, 602
reduction in venous thromboembolism by agents affecting platelet function, 599
Doppler technique
detection of carotid artery obstruction, 105
measurement of peripheral arterial flow, 495
Dysplasias
intimal fibroplasia of internal carotid arteries, 483

E

Echoencephalography
A-mode echoencephalography in evaluation of cerebrovascular disease, 452
Edema
cerebral embolization, 541
effects of acetazolamide on cerebral ischemia and infarction, 456
Elderly persons
acetylsalicylic acid and arteriosclerotic-thromboembolic diseases, 499
osteoporosis in hemiplegia, 41
Electrical activity
of heart and brain under acute experimental anoxia: protective effect of polarizing solutions, 76
Electrical stimulation
effect of body position and forelimb exercise on cephalic blood flow, 168
Electrocardiography
cerebrovascular disease in bi-racial population of Evans County, Ga., 509

Electrodiagnostic studies
brainstem strokes, 576

Electroencephalography
and cerebral blood flow changes following subarachnoid hemorrhage, 502
cerebral spinal fluid lactic acid following circulatory arrest, 565

Electromagnetic blood flow transducer
basilar blood flow in dogs, 409

Electromagnetic flowmeter
effect of body position and forelimb exercise on cephalic blood flow, 168

Electron microscopy
neurogenic control of cerebral circulation, 429

Embolism
cholesterol embolism to central nervous system, 599
clinical analysis of 42 cases, 541
comparison of effects of streptokinase and heparin in resolution of pulmonary embolism, 496
massive steroid therapy in severe fat embolism, 494
moving embolus seen during serial angiography, 440
strokes in the young, 258

Endarterectomy
carotid for asymptomatic patients, 499
cerebral blood flow measurement during, 1
comparison of anticoagulation and surgical treatments of TIA, 369
retinal arterial pressure before and after surgery for carotid artery stenosis, 569

Endothelial damage
thrombophlebitis and, by scintiscanning, 598

England
record linkage in studies of cerebrovascular disease, 48

Epidemiology
adolescence and onset of atherosclerosis, 601
age and sex trends in ischemic heart disease, 598

cerebrovascular disease, hypertension and diabetes, 602
of brain infarction associated with occlusive arterial disease, 295
cerebral embolization, 541
cerebrovascular disease in bi-racial population of Evans County, Georgia, 509
natural history of stroke in Rochester, Minn. (1945-54), 11
record linkage in cerebrovascular disease, 48
report of New Orleans (1970) meeting concerning epidemiology of cerebrovascular disease, 101
transient ischemic attacks, 114

Epinephrine
alpha and beta adrenergic receptors, 193

Episodic central nervous system ischemia
relation to occult left atrial myxoma, 35

Epsilon-aminocaproic acid, 496
antifibrinolytic activity during administration of EACA, 535

Ergotamine tartrate
responses of surface arteries and blood flow, 461

Exercise
effect of body position and forelimb exercise on cephalic blood flow, 168
factors influencing stroke rehabilitation, 213
fibrinolytic response to physical exercise in males, 500

Extremities
improvement in motor performance in parietic and paralyzed extremities following stroke, 395

Eyes
increased lipid deposits in iris of sympathectomized eye in rabbits fed atherogenic diet, 23

Facial thermograms
in carotid occlusive disease, 598

Familial eating patterns
heredity environment, serum lipoproteins and serum uric acid: study in a community without familial eating pattern, 904

Fat embolism
steroid therapy for, 494

Fatty acids
brain lipid changes following hypoxia, 587

Femoral arteries
effects of freezing, 461

Fibrinogen
blood coagulation in stroke, 81

Fibrinolysis
antifibrinolytic activity during administration of epsilon-aminocaproic acid, 535

Focal cerebral vascular disease
natural history of, 497

Forelimbs
effect of body position and forelimb exercise on cephalic blood flow, 168

Framingham (Mass.) study
epidemiology of brain infarction, 295
systolic versus diastolic blood pressure and risk of coronary heart disease, 496

Freezing and thawing
effects of freezing on major arteries, 471

Furosemide
in essential hypertension, 495

Galenic system
thrombosis of the Galenic system in veins of adult, 600

Genetic studies
plasma cholesterol, 594

Glucose tolerance
risk factors in stroke, 423

Glycerol
cerebral embolization, 541

Glycosaminoglycans
cerebral atherosclerosis in Japanese, 597

Stroke, Vol. 2, November-December 1971
INDEX

Hands  
function of "normal" hand in stroke patients, 597

Heart  
electrical activity of heart and brain under acute experimental anoxia, 78

Hemangiomas  
contribution of hemodynamics of arterial venous malformations, 279

Hematocrit  
cerebrovascular disease in Evans County, Georgia, 509

Hematomas  
extradural hematoma of the posterior fossa, 598

Hemianesthesia  
hemiplegic syndrome of posterior cerebral artery, 559

Hemifacial spasm, 596

Hemiparesis  
foam cell arteritis of the brain after irradiation for Hodgkin's disease, 232

Hemiplegia  
alternating hemiplegia in childhood, 501

hemiplegic syndrome of posterior cerebral artery, 559

osteoporosis in, 41

passive motion and tendon reflex responses in muscles in hemiplegic or hemiparetic man, 58

stroke rehabilitation program, 213

Hemiplegic syndrome

Hemisensory losses  
stroke rehabilitation program, 213

Hemispheric blood flow  
clinical prognosis correlated with, in cerebral infarction, 383

Hemodynamics  
carotid arteries, ocular pulse studies in carotid stenosis, 594

effect of increased intracranial pressure on cerebrovascular hemodynamics, 600

Hemorrhages  
bleeding in course of anticoagulant therapy, 602

brain in hereditary hemorrhagic telangiectasia, 361

cerebral

A-node echoencephalography in evaluation of cerebrovascular disease, 452

epidemiology of brain infarction, 295

natural history of stroke in Rochester, Minn. (1945-54), 11

record linkage in cerebrovascular disease, 48

Hypertensive intracerebral, 238

subarachnoid. See Subarachnoid hemorrhage

Heparin  
comparison of streptokinase and, in resolution of pulmonary embolism, 496

effect on platelet adhesiveness and lipoprotein-lipase activity, 593

lipoprotein-lipase responses to, 600

Hereditary hemorrhagic telangiectasia  
brain in, 361

Histamine  
effects of betahistine hydrochloride, nicotinic acid, and histamine on basilar blood flow in dogs, 409

Hodgkin's disease  
foam cell arteritis of the brain after irradiation for, 232

Homonymous hemianopia  
hemiplegic syndrome of posterior cerebral artery, 559

Hydrocephalus  
syndrome of hydrocephalus caused by saccular aneurysm of basilar artery, 602

Hydrochlorthiazide  
treatment of cerebral ischemia with hyperbaric oxygen, 247

5-Hydroxytryptamine  
assessment of platelet aggregation induced by, 599

Hypercapnia  
cerebral apoplexy (stroke), 327

physiological modification of immediate ischemia, 239

Hypercholesterolemia  
epidemiology of brain infarction, 295

Hyperreflexia  
passive motion and tendon reflex responses in muscles in hemiplegia and hemiparesis, 58

Hypertension  
age and sex trends, 602

anticoagulant therapy, 201

cerebral apoplexy (stroke), 327

cerebrovascular disease in Evans County, Georgia, 509

clonidine: new antihypertensive agent, 605

epidemiology of brain infarction, 285

essential, furosemide in, 495

cerebral pseudoangiomatosis, 603

Hypoplasia  
of internal carotid artery associated with cerebral pseudotumor, 603

Hypoxia  
brain lipid changes following, 587

Hyperventilation  
cerebral apoplexy (stroke), 327

Hypocapnia  
adrenergic blockade of hypocapnic cerebral arterial constriction, 219

physiological modification of immediate ischemia, 239

Hypoplasia  
of internal carotid artery associated with cerebral pseudoangiomatosis, 603

Hypoxia  
brain lipid changes following, 587
Incidence rates

cerebrovascular disease in bi-racial population of Evans County, Georgia, 509

natural history of stroke in Rochester, Minn. (1945-54), 11

record linkage in studies of cerebrovascular disease in Oxford, England, 48

Incident dark-field illumination

new method for microcirculatory study, 603

Indicator dilution methods

improved thermal dilution method for measuring jugular venous flow, 128

Inflammatory disease

See Cerebral inflammatory disease

Oxide-
aspirin inhibition of in vivo effects of intestinal alkaline phosphatase, 601
assessment of early platelet activity in experimental subarachnoid hemorrhage and middle cerebral artery thrombosis, 298
blood coagulation following acute stroke, 81
effect of pyrimido-pyrimidine compounds on platelet function, 603
lyssolecithin metabolism, 595
reactivity of cerebral blood flow to CO₂ in transient cerebral ischemic attacks, 273
reduction in venous thromboembolism by agents affecting platelet function, 599
Plethysmography
detection of carotid artery obstruction, 105
detection of vascular occlusions during operation by segmental, 605
Polarizing solutions
electrical activity of heart and brain under acute experimental anoxia, 76
Pontine lesions
electrodiagnostic study of brainstem strokes, 576
Population studies
cerebrovascular disease in bi-racial population of Evans County, Georgia, 509
natural history of stroke in Rochester, Minn. (1935-54), 11
record linkage in studies of cerebrovascular disease in Oxford, England, 48
socioeconomic factors and cerebral atherosclerosis, 378
strokes in the young, 258
transient ischemic attacks, 114
Posterior cranial fossa
basilar blood flow in dogs, 409
Posterior fossa extradural hematoma
angiographic diagnosis, 603
description of an operated case, 598
Posture
effect of body position and forelimb exercise on cephalic blood flow, 168
Pregnancy
foam cell arteritis of the brain, 232
Pressures
carotid artery
cerebral blood flow measurement during carotid endarterectomy, 1
intracranial
effect of increased, on cerebrovascular hemodynamics, 600
effect of intra-arterial papaverine, 148
Progestogen contraception
blood clotting and platelet aggregation, 501
Prepantheline
for treatment of carotid sinus syncope, 599
Prepropranolol
alpha and beta adrenergic receptors in canine cerebral vasculature, 193
Prostheses
cerebral embolization, 541
pharmacologic control of thromboembolic complications of cardiac-valve replacement, 602
thromboembolic complications, 500
Pseudoangiomatosis
hypoplasia of internal carotid artery associated with, 603
Pulsations
ultrasonic echo pulsations in range: study of rise times and delay times, 508
Pyrimido-pyrimidine compounds
effect on platelet function, 603

INDEX

P

\[ P_{CO_2} \] (arterial carbon dioxide tension)
effects of acetazolamide on cerebral ischemia and infarction, 456
effects on hyperemia and ischemia in experimental cerebral infarction, 139
responses of surface arteries and blood flow, 461

Papaverine
cerebral embolization, 541
effect of intra-arterial papaverine on regional cerebral blood flow in stroke or intracranial tumor, 148

Paralyzed extremities
improvement in motor performance in paretic and paralyzed extremities following stroke, 395

Paresis
improvement in motor performance in paretic and paralyzed extremities following stroke, 395

Pathogenesis
cerebral apoplexy (stroke), 327
Pathology
epidemiology of brain infarction, 295
foam cell arteritis, 232

Perceptual training
in patients with left hemiplegia, 594

Phenoxybenzamine
adrenergic blockade of hypocapnic cerebral arterial constriction, 219
alpha and beta adrenergic receptors in canine cerebral vasculature, 193
intracarotid phenoxybenzamine for cerebral arterial spasm, 500

Phenylephrine
alpha and beta adrenergic receptors in canine cerebral vasculature, 193

Phosphatidyl serines
effect on platelet aggregation, blood coagulation and haemostasis, 495

Platelets
acid mucopolysaccharides as cofactor in formation of platelet clumping substance, 507
adhesiveness
effect of heparin on, 595
influence of reduced blood flow in post-myocardial infarction patients, 507
aggregation
ADP-induced, in guinea pig, 605
blood clotting and, during oral progestogen contraception, 501
determination of ADP-induced, 596
effect of anesthetics on, 495
effect of cold on, 598
effect of synthetic phosphatidyl serines on blood coagulation and haemostasis, 495
evaluation of ADP-induced, in guinea pigs, 605
induced by 5-hydroxytryptamine, 599
"membrane capacitance" aggergometer for measuring, 601
polar active sites of insoluble human collagen, 494
quantitative measurements of ADP-induced, 605
by rat liver: need for tissue and plasma factors, 605

622

[Pyrocl-Pyrimido-pyrimidine compounds]
INDEX

R

Race factors
cerebrovascular disease in Evans County, Georgia, 509

Radiation therapy
foam cell arteritis of the brain after irradiation for Hodgkin’s disease, 232

Radioisotope tracers
comparative analysis of isotope clearance curves in normal and ischemic brain, 444
demonstration of thrombophlebitis and endothelial damage by scintiscanning, 598
detection of carotid artery obstruction; correlation with arteriography, 105
regional cerebral blood flow determined by initial slope of clearance of 133Xe, 519

Record linkage
in studies of cerebrovascular disease in Oxford, England, 48

Reflex sensitivities
passive motion and tendon reflex responses in muscles in hemiplegic or hemiparetic man, 58

Rehabilitation
factors influencing, 213
improvement in motor performance in paretic and paralyzed extremities following stroke, 395
osteoporosis in hemiplegia, 41

Rendu-Osler-Weber syndrome
brain in hereditary hemorrhagic telangiectasia, 361

Respiration
electrical activity of heart and brain under acute experimental anoxia, 78

Resuscitation
electrocortigraphic limits of cerebral viability during cardiac arrest and, 600

Retinal artery
arterial pressure before and after surgery for carotid artery stenosis, 569

Risk factors
cerebrovascular disease in bi-racial population of Evans County, Georgia, 509
epidemiology of brain infarction, 295
profile of stroke-proneness, 423
in stroke due to cerebral infarction, 423

Rochester, Minn.
natural history of stroke (1945-54), 11

Scintiscanning
demonstration of thrombophlebitis and endothelial damage, 598

Sclerosis
physical factors in arterial sclerosis and stenosis, 801

Seizures
cerebral embolization, 541

Self-care status
rehabilitation program and, 213

Senile dementia
relation between cerebral oxygen consumption and cerebral vascular reactivity to carbon dioxide, 251

Sex differences
age and sex trends in ischemic heart disease, cerebrovascular disease, hypertension, and diabetes, 602

Shock, oligemic
cerebral tissue lactate in, 599

Shunts, arterial
hemodynamics of arterial venous malformations, 279

Sino-atrial syncope, 497

Smoking
effects of nicotine on cerebral circulation in cats, 67
risk factors in stroke, 423

Smooth muscle cells
increased lipid deposits in iris of sympathectomized eye in rabbits fed atherogenic diet, 23

Socioeconomic factors
and cerebral atherosclerosis, 378

Sodium
effect of intravascular saline perfusion on transient cerebral ischemia, 497

Spasticity
passive motion and tendon reflex responses in muscles in hemiplegic or hemiparetic man, 58

Spinal cord
combined arterial and arteriovenous aneurysms, 559
infarction of, 406

Spinal epidural hematoma
spontaneously remitting, in patient on anticoagulants, 603

Spinal fluid lactic acid
following circulatory arrest, 565

Stenosis
carotid artery. See Carotid arteries, stenosis
physical factors in arterial sclerosis and stenosis, 601

Steroid therapy
in severe fat embolism, 494
Stimulus deprivation
and cerebral blood flow, 603

Streptokinase
antifibrinolytic activity during administration of epsilon-aminocaproic acid, 555
cerebral apoplexy: pathogenesis, pathophysiology and therapy as illustrated by regional blood flow measurements, 327
cerebral embolization, 541
cerebrospinal fluid metabolic acidosis and brain oxygen supply in brain infarction, 597
cerebroepidural hematoma: spontaneously remitting, in patient on anticoagulants, 603
cerebral apoplexy: pathogenesis, pathophysiology and therapy as illustrated by regional blood flow measurements, 327
cerebral embolization, 541
cerebrospinal fluid metabolic acidosis and brain oxygen supply in brain infarction, 597
cerebrovascular disease, hypertension, and diabetes, 602

Strokes
analysis of isotope clearance curves in normal and ischemic brain, 444
anticoagulation and surgical treatment of TIA, 369
blood coagulation following acute stroke, 81
brainstem, electrodiagnostic study, 576
cerebral apoplexy: pathogenesis, pathophysiology and therapy as illustrated by regional blood flow measurements, 327
cerebral ATP and lactate levels following occlusion of middle cerebral artery, 319
cerebral embolization, 541
cerebrospinal fluid metabolic acidosis and brain oxygen supply in brain infarction, 597
cerebrovascular disease, hypertension, and diabetes, 602

disability in stroke patients, 597
improvement in motor performance in paretic and paralyzed extremities following, 385
INDEX

Thermistor
improved thermal dilution method for measuring jugular venous flow, 128

Thromboembolism

cerebral apoplexy (stroke), 327
complications of heart valve prostheses, 500
pharmacologic control of thromboembolic complications of cardiac-valve replacement, 602
reduction in venous thromboembolism by agents affecting platelet function, 599

Thrombophlebitis
and endothelial damage by scintiscanning, 598

Thrombosis
aspirin, effect on thrombus formation time and prothrombin time, 498
blood coagulation following acute stroke, 81
cortical venous, 258
fate of experimental occlusive venous thrombi, 600
delay times, 598
of Galenic system in veins in the adult, 600
internal carotid artery, 487
stem strokes in the young, 258
mechanisms of thrombosis of the microcirculation, 604
middle cerebral artery
assessment of early platelet activity, 268
occlusion supra occlusionem: intracranial occlusions following, 487
strokes in the young, 258
venous
experimental evaluation of optimal method of use of streptokinase in, 600
fate of experimental occlusive, 600

Thrombus
effect of epsilon aminocaproic acid and tranexamic acid on size and strength, in simulated arterial aneurysm, 496

tissue
cerebral spinal fluid lactic acid following circulatory arrest, 585

Transient ischemic attacks
analysis of isotope clearance curves in normal and ischemic brain, 444
angiography in investigation of, 496
cerebral apoplexy (stroke): pathogenesis, pathophysiology and therapy, 327
cerebral arterial aneurysm, 369
detection of carotid artery obstruction, 105
effect of intravascular saline perfusion on, 497
hemispheric blood flow in cerebral infarction, 383
long-term prognosis, 160
population survey of symptoms suggestive of, 114
reactivity of cerebral blood flow to CO2 in patients with, 273
reassessment of anticoagulant therapy, 201
risk factors in stroke, 423

Transient neurological deficit
intimal fibroplasia of internal carotid arteries, 483
Trigemino-facial reflex
electrodiagnostic study of brainstem strokes, 576

Tumors
effect of intra-arterial papaverine, 148
episodic central nervous system ischemia: relation to occult left atrial myxoma, 35

Ultrasound diagnosis
A-mode echoencephalography in evaluation of cerebrovascular disease, 452
echo pulsations in range: study of rise times and delay times, 598

Stroke, Vol. 2, November-December 1971

long-term prognosis of transient ischemic attacks, 160
natural history of stroke in Rochester, Minn. (1945-54), 11
occlusio supra occlusionem, 487
past, present and future, 95
perceptual training in patients with left hemiplegia, 594
population survey of symptoms suggestive of transient ischemic attacks, 114
reassessment of anticoagulant therapy in occlusive cerebrovascular disease, 201
record linkage in cerebrovascular disease, 48
risk factors due to cerebral infarction, 423
in the young, 258
Subarachnoid hemorrhage
angiographic assessment of ventricular enlargement in, 601
assessment of early platelet activity in, 268
cerebrospinal fluid circulation following, 497
EEG and cerebral blood flow changes following, 502
natural history of stroke in Rochester, Minn. (1945-54), 11
record linkage in studies of cerebrovascular disease in Oxford, England, 48
Subdural hematoma
results of nonoperative treatment of infantile subdural hematoma, 599
Sudanophilic droplets
increased lipid deposits in iris of sympathetomized eye in rabbits fed atherogenic diet, 23
Surgery
carotid artery stenosis
retinal arterial pressure before and after, 569
carotid endarterectomy for asymptomatic patients, 599
effect of heparin on platelet adhesiveness and lipoprotein-lipase activity, 595
intimal flap, 804
posterior fossa extradural hematoma, 598
transient ischemic attacks
comparison of anticoagulation and surgical treatments, 369
Survival rates
long-term prognosis of transient cerebral ischemic attacks, 160
natural history of stroke in Rochester, Minn. (1945-54), 11
record linkage in cerebrovascular disease, 48
Sympathectomy
increased lipid deposits in iris of sympathetomized eye in rabbits fed atherogenic diet, 23
Sympathetic nervous system
increased lipid deposits in iris of eye of rabbits fed atherogenic diet, 23
Symptoms
population survey of symptoms of transient ischemic attacks, 114
Syncope
carotid sinus, propantheline for treating, 599
sino-atrial, 497
Tendon reflex responses
passive motion and, in muscles in hemiplegia and hemiparesis, 58
treatment of cerebral ischemia with hyperbaric oxygen, 247
Therapy
cerebral apoplexy (stroke), 327
Thermal dilution method
for measuring jugular venous flow, 128

624
INDEX

V

Vasoconstriction
adrenergic blockade of hypocapnic cerebral arterial constriction, 219
cerebral apoplexy (stroke), 327
effects of nicotine on cerebral circulation in cats, 67

Vasoconstrictors
effect of intra-arterial papaverine on regional cerebral blood flow, 148
responses of surface arteries and blood flow, 461

Vasodilation
effects of betahistine hydrochloride, histamine phosphate and nicotinic acid on basilar blood flow, 409
effects of nicotine on cerebral circulation in cats, 67

Vasodilators
effect of intra-arterial papaverine on regional cerebral blood flow, 148
effect on cerebral circulation, 501

Veins
neurogenic control of cerebral circulation, 429
thrombosis of Galenic system, 600

Venous angiomaa
brain in hereditary hemorrhagic telangiectasia, 361

Ventricles
enlargement, angiographic assessment in subarachnoid hemorrhage, 601

Vertebral arteries
atherosclerotic lesions, 494
cerebral atherosclerosis in Japan, 400
retrograde filling during carotid angiography, 602

Vertigo
population survey of symptoms of transient ischemic attacks, 114

Vessel walls
edema, assessment of early platelet activity, 268
effects of freezing on major arteries, 471

W

Warfarin
interaction with chloral hydrate, 501
reduction in venous thromboembolism by agents affecting platelet function, 599

Wegener's granulomatosis
cyclophosphamide therapy in, 500

X

18Xenon
analysis of isotope clearance curves in normal and ischemic brain, 444
cerebral blood flow measurement during carotid endarterectomy, 1
effect of intra-arterial papaverine on regional cerebral blood flow in stroke or intracranial tumors, 148
hemodynamics of arterial venous malformations, 279
regional cerebral blood flow determined by initial slope of clearance of, 519

X-rays
study of intracranial aneurysms with ultrasoft x-rays, 601

Y

Young adults
prospective study of strokes in, 258
