Original Contributions

High Ethanol Consumption as Risk Factor for Intracerebral Hemorrhage in Young and Middle-Aged People
R. Monforte, R. Estruch, F. Graus, J.M. Nicolas, and A. Urbano-Marquez ........................................ 1529

Stroke in Systemic Lupus Erythematosus
Yasuhiwa Kitagawa, Fumio Goto, Atsuo Koto, and Hiroaki Okayasu .................................................. 1533

Regression of Intracardiac Thrombus After Embolic Stroke
Masahiro Yasaka, Takenori Yamaguchi, Takeshi Miyashita, and Takashi Tsuchiya ............................... 1540

Surgical Experience With Cerebral Amyloid Angiopathy
George M. Greene, John C. Godersky, Jose Biller, Michael N. Hart, and Harold P. Adams Jr. ............. 1545

Cerebrospinal Fluid Atrial Natriuretic Factor in Intracranial Disease
Michael N. Diringer, Jeffrey R. Kirsch, Paul W. Ladenson, Cecil Borel, and Daniel F. Hanley .............. 1550

Remote Effect of Deep-Seated Vascular Brain Lesions on Cerebral Blood Flow
Ezzedine Attig, Andre Capon, Guy Demeurisse, and Michel Verhas .................................................. 1555

Correlation of Clinical and Computed Tomographic Findings in Stroke Patients
K.A. Sotaniemi, J. Pyhtinen, and V.V. Myllyla ....................................................................................... 1562

Ultrasonic Evaluation of Early Carotid Atherosclerosis
Nobuo Hara, Masayoshi Takahata, Hiroaki Maeda, Hidehito Higaya, Satoshi Ogawa, Ryoji Fukunaga, Shigero Yoneda, Kazufumi Kimura, and Takenobu Kamada ........................................ 1567

Effect of Emitted Power on Waveform Intensity in Transcranial Doppler
James H. Halsey ........................................................................................................................................ 1573

Correlates of Middle Cerebral Artery Blood Velocity in the Elderly
Sebastian F. Ameriso, Annlia Paganini-Hill, Herbert J. Meiselman, and Mark Fisher .......................... 1579

Comparison of Transcranial and Cervical Continuous-Wave Doppler in the Evaluation of Intracranial Collateral Circulation
Arie Bass, William C. Krupski, Ralph B. Dilley, Eugene F. Bernstein, and Shirley M. Ota .................. 1584

Incidence of Cerebral Hemorrhage After Antifibrinolytic Treatment for Embolic Stroke in Rabbits
P.D. Lyden, K.P. Madden, W.M. Clark, K.C. Sasse, and J.A. Zivin ......................................................... 1589

Effect of Intra-arterial Antifibrinolytic Agents on Autologous Arterial Emboli in the Cerebral Circulation of Rabbits
Vladimir Benes, Joseph M. Zabranski, Mark Boston, Alfredo Puca, and Robert F. Spetzler .............. 1594

Moderate Hypothermia After Cardiac Arrest of 17 Minutes in Dogs: Effect on Cerebral and Cardiac Outcome
Yuval Leonov, Fritz Sterz, Peter Safar, and Ann Radovsky ................................................................. 1600

Protective Effects of a Monosialoganglioside Derivative Following Transitory Forebrain Ischemia in Rats
M.S. Seren, R. Rubini, A. Lazzaro, R. Zanoni, M.G. Fiori, and A. Leon .............................................. 1607

Effect of Ischemia Induced by Middle Cerebral Artery Occlusion on Superoxide Dismutase Activity in Rat Brain
Shalom D. Michowitz, Eldad Melamed, Eli Pikarsky, and Z. Harry Rappaport ...................................... 1613
Leukotriene Constriction of Mouse Pial Arterioles in Vivo Is Endothelium-Dependent and Receptor-Mediated
William I. Rosenblum, Guy H. Nelson, and Hiroyuki Nishimura

Progressing Cerebral Infarction in Relation to Plasma Glucose in Gerbils
J. Vázquez-Cruz, J.L. Martí-Martí, I. Ferrer, A. Pérez-Gallofré, and J. Folch

CASE REPORTS

Giant Basilar Aneurysm in the Course of Subacute Bacterial Endocarditis
Matí Calopa, Francisco Rubio, Miquel Aguilar, and Jaume Peres

Rebleeding From Intracranial Dissecting Aneurysm in the Vertebral Artery
Nobuhiko Aoki and Tatsuo Sakai

Embolic Stroke After Smoking “Crack” Cocaine
George W. Petty, John C.M. Brust, Thomas K. Tatemichi, and Mark L. Barr

CURRENT CONCEPTS OF CEREBROVASCULAR DISEASE AND STROKE

Restorative Neurology: Drugs and Recovery Following Stroke
Larry B. Goldstein and James N. Davis

LETTERS TO THE EDITOR

Ephedrine-Induced Intracerebral Hemorrhage and Central Nervous System Vasculitis
Dr. Pu-An Yin

Pulmonary Arteriovenous Fistulas Are at High Neurologic Risk
D.G. Grosset

Effect of Hyperoxia Differences During Ischemia and Reperfusion
Hubert S. Mickel
RESPONSE BY: John A. Reilan

Predisposing Factors in Cardiogenic Cerebral Embolism
Tsung O. Cheng
RESPONSE BY: Masahiro Yasaka
