Two CEREBROVASCULAR DISEASE FELLOWSHIPS are available immediately for one or two years, beginning July 1, 1990, in the Department of Neurology, Henry Ford Hospital. These fellowships offer comprehensive training programs in pathophysiology, diagnosis and management of cerebrovascular disorders, including migraine, within an NIH funded center for cerebrovascular disease research. A Javits Junior Clinical Investigator Fellowship is available to one competitive candidate. The department evaluates almost 600 patients with cerebrovascular disease yearly, has a stroke and migraine clinic, and a clinical/clinical research four bed acute stroke unit. Clinical and basic science research opportunities available in: in-vivo NMR spectroscopy of human and animal cerebral ischemia, 133-Xenon inhalation regional cerebral blood flow, non-invasive carotid dopplers, transcranial doppler, platelet function laboratory, HFH stroke center data bank, and experimental drug studies in stroke and migraine. Applicants should have completed an accredited neurology residency and be board eligible/certified. Salary commensurate with experience. Please send letter of inquiry to: K.M.A. Welch, M.D., Chairman, or Steven R. Levine, M.D., Director, Center for Stroke Research, Department of Neurology, Henry Ford Hospital, 2799 West Grand Blvd., Detroit, Michigan 48202-2689 (ph 313-876-3396).

The leaders in high blood pressure research look to *Hypertension* as a valued associate. One reason is that the most important clinical and laboratory investigations relevant to hypertension are first published in these pages, along with other regular features such as Brief Reviews, Case Reports, Editorial Comments, Rapid Communications, and the AHA News and Meetings Calendar. Another reason for *Hypertension*’s stature is its rigorous peer review process provided by an international editorial board under the leadership of Editor-in-Chief Allyn L. Mark, MD. Still another is *Hypertension*’s ISI impact factor: sixth in the cardiovascular system category, which included 59 journals in 1988. Moreover, *Hypertension* is regularly indexed in *Excerpta Medica, Index Medicus, Biological Abstracts*, and *Chemical Abstracts*. It is also available on BRS Colleague. All of which make *Hypertension* one of the foremost authorities in the field, an authority you should consult each month. For subscription information call 214-706-1310, or send your request by FAX to 214-691-2704.
