ORIGINAL CONTRIBUTIONS

Prognostic Parameters in Spontaneous Intracerebral Hematomas With Special Reference to Anticoagulant Treatment
Johan A. Rödberg, Jan E. Olsson, and Claes T. Rådberg ................................................................. 571

Suprasellar and Intraventricular Blood Predict Elevated Plasma Atrial Natriuretic Factor in Subarachnoid Hemorrhage
Michael N. Diringer, James S. Lim, Jeffrey R. Kirsch, and Daniel F. Hanley ........................................ 577

Reevaluation of Transient Ischemic Attacks as a Risk Factor for Early Mortality
George Howard, Greg W. Evans, Julia L. Thomas, Jacqueline E. Ryu, Frederic R. Kahl, and John R. Crouse ................................................................. 582

Clinical Survey of Ischemic Cerebrovascular Disease in Children in a District of Japan
Shinya Satoh, Reizo Shirane, and Takashi Yoshimoto ................................................................. 586

Changing Rates of Stroke in the Province of Quebec, Canada: 1981–1988
Nancy E. Mayo, Mark S. Goldberg, Adrian R. Levy, Irena Dany, and Nicol Korter-Biensky ......................... 590

Regional Cerebrovascular Oxygen Saturation Measured by Optical Spectroscopy in Humans
Patrick W. McCormick, Melville Stewart, Mark G.戈克蒂, and Guruvanthy Balakrishnan ......................... 596

Twenty-Four-Hour Variation of Blood Pressure in Vascular Dementia of the Binswanger Type
Hideo Tohgi, Kenichi Chiba, and Munetaka Kimura ............................................................................ 603

Leukoaraiosis Correlates With Cerebral Hypoperfusion in Vascular Dementia
Jun Kawamura, John Stirling Meyer, Yasuo Terayama, Susan Weathers ........................................... 609

Thalamic Atrophy Following Cerebral Infarction in the Territory of the Middle Cerebral Artery
Akira Tamura, Yoshihiro Tahira, Hiroshi Nagashima, Takaaki Kirino, Osamu Gotoh, Shuntaro Hojo, and Keiji Sano ........................................................................ 615

A Mathematical Model for the Formation of Cerebral Aneurysms
Neil Brown ........................................................................................................................................ 619

Age-Related Differences in Recovery of Blood Flow and Metabolism After Cerebral Ischemia in Swine
Rebecca N. Ichord, Jeffrey R. Kirsch, Mark A. Helfaer, Steven Haun, and Richard J. Traystman ............... 626

Effect of Recirculation on Exacerbation of Ischemic Vascular Lesions in Rat Brain
Kazuyuki Nishigaya, Yoji Yoshida, Motoi Sasuga, Hideaki Nukui, and Genju Ooneda ............................. 635

Time-Dependent Changes in Cerebral Choline and Acetylcholine Induced by Transient Global Ischemia in Rats
Oscar U. Scereni and Donald J. Jenden .............................................................................................. 643

Amphetamine Promotes Recovery From Sensory–Motor Integration Deficit After Thrombotic Infarction of the Primary Somatosensory Rat Cortex
Barry E. Hurwitz, W. Dalton Dietrich, Philip M. McCabe, Ofelia Alonso, Brant D. Watson, Myron D. Ginsberg, and Neil Schneiderman ........................................ 648

STROKE A JOURNAL OF CEREBRAL CIRCULATION (ISSN 0039-2499) is published monthly by the American Heart Association, 7320 Greenville Avenue, Dallas, TX 75231-4599. For rates in Japan, contact Nankodo Co., Ltd., 42-6 Hongo 3-chome, Bunkyo-ku, Tokyo 113, Japan. In the United States, individuals may subscribe for their personal use at the following annual rates: $76 for members of an American Heart Association scientific council and $92 for nonmembers. Outside the United States, add $42 for postage. Contact AHA for single-copy rates and subscription rates for medical professionals in training and for libraries, reading rooms, and other multiple-use institutions. Second class postage paid at Dallas, Texas, and additional mailing offices. POSTMASTER: Send address changes to STROKE A JOURNAL OF CEREBRAL CIRCULATION, American Heart Association, 7320 Greenville Avenue, Dallas, TX 75231-4599.
Polyethylene Glycol–Conjugated Superoxide Dismutase Fails to Augment Brain Superoxide Dismutase Activity in Piglets
Steven E. Haun, Jeffrey R. Kirsch, Mark A. Helfaer, Kenneth L. Kubos, and Richard J. Traystman... 655

Allopurinol Pretreatment Improves Evoked Response Recovery Following Global Cerebral Ischemia in Dogs
Richard B. Mink, Andrew J. Dutka, and John M. Hallenbeck 660

Hypothermia Prevents Ischemia-Induced Increases in Hippocampal Glycine Concentrations in Rabbits
Andrew J. Baker, Mark H. Zornow, Marjorie R. Grafe, Mark S. Scheller, Stephen R. Skilling, David H. Smullin, and Alice A. Larson 666

Biphasic Striatal Dopamine Release During Transient Ischemia and Reperfusion in Gerbils
Sam S. Ahn, Charles D. Blaha, Michael T. Alkire, Emma Wood, Penny Gray-Allan, Richard T. Marrocco, and Wesley S. Moore 674

SHORT COMMUNICATIONS

Neurological Deterioration Under Isovolemic Hemodilution With Hydroxyethyl Starch in Acute Cerebral Ischemia
Henning Mast and Peter Marx 680

CURRENT CONCEPTS OF CEREBROVASCULAR DISEASE AND STROKE

Intracerebral Hemorrhage
Edward Feldmann 684

LETTERS TO THE EDITOR

Hyperglycemia After Stroke: A Stress Reaction
Kari Murros and Rainer Fogelholm 692
RESPONSE BY: Stephen Oppenheimer 693

Silent Infarcts on Computed Tomography Scans Are More Common in Cardiogenic Stroke
M.J.G. Harrison 693

Serum Concentrations of Glycerol With Continuous or Discontinuous Intravenous Administration
Roland Nau, Franz-Josef Prin, and Hilmar W. Prange 694

Treatment of “Progressive” Stroke
Louis R. Caplan 695
RESPONSE BY: Andrew Slivka and David Levy 695
