Give Them Answers By Heart.

Answers By Heart is an easy-to-use patient education kit for physicians, hospitals, clinics and other healthcare sites. Created by the American Heart Association, it's for patients who have — or are at risk for — CVD.

The kit contains 53 fact sheets that discuss common cardiovascular conditions, treatments, tests and risk factors in lay language. Each sheet comes as a repro master; two-color samples are included. The kit is organized so you can easily target information to the patients you're working with.

Benefits include:
- Easily understandable, medically sound information
- Affordability
- Convenience
- Flexibility

For more information about Answers By Heart, call 1-800-AHA-USA1 (1-800-242-8721).

Scientific Conference on the Efficacy of Hypocholesterolemic Dietary Interventions

May 3-5, 1995
Wyndham San Antonio Hotel
San Antonio, Texas

The objective of this conference is to examine the strength of the evidence that dietary components other than cholesterol and saturated fat can influence the efficacy of the American Heart Association Step I and Step II diets.

Physicians and researchers working in the area of diet-related plasma cholesterol-lowering interventions are invited to submit abstracts for poster presentation.

Abstract deadline: January 13, 1995

Information may be attained through:
American Heart Association
Scientific Conference on the Efficacy of Hypocholesterolemic Dietary Interventions
7272 Greenville Avenue
Dallas, TX 75231-4596
(214) 706-1441
Fax: (214) 373-3406

Sponsored by the Committee on Nutrition and the Councils on Arteriosclerosis and Epidemiology and Prevention

4STR01/2
In recent years, investigators from many disciplines have shown a rekindled interest in the study of atrial fibrillation. This book draws upon experts in the fields of cardiology, epidemiology, neurology, pediatrics, and basic science to present the latest information on the mechanisms and pharmacological and nonpharmacological treatment therapies for atrial fibrillation.

CONTENTS

- The Role of the Autonomic Nervous System in Atrial Arrhythmias, Menashe B. Waxman, MD, Douglas M. Cameron, MD, Robert W. Wald, MD
- Tachycardia-Induced Tachycardia: A Mechanism of Initiation of Atrial Fibrillation, Eric N. Prystowsky, MD
- Non-Valvular Atrial Fibrillation: A Risk Marker For Stroke of Cardiac and Vascular Origin, James I. Chestbro, MD, Jonathan L. Halperin, MD, Valentin Fuster, MD, PhD
- Atrial Tachycardias in Pediatric Patients, D. Voodrow Benson, Jr., MD, PhD
- Nonuniform Anisotropic Cellular Coupling As a Basis for Recurrent Arrhythmias, Audion S. Spach, MD
- Electrophysiological Mechanisms of Atrial Fibrillation, M. Alesse, MD, PhD, K. Konings, MD, M Wijffels, MD
- Role of Sodium and Potassium Channels in Atrial Electrogenesis and their Blockade by Antiarrhythmic Drugs, David W. Whalley, Augustus O. Grant
- Animal Models of Atrial Arrhythmias, Albert L. Waldo, MD
- Maintenance of Sinus Rhythm in Patients at Risk of Atrial Fibrillation, Francis D. Mogarren, MRCGP, A. John Camm, MD, FRCP, FACC, FESC
- Ventricular Rate Control in Atrial Fibrillation, John P. DiMarco, MD, PhD
- Anticoagulation to Prevent Stroke in Atrial Fibrillation, Daniel E. Singer, MD
- Electrical Therapy of Atrial Arrhythmias, Carlos A. Morillo, MD, George J. Klein, MD, FRCPC, FACC, Raymond Yee, MD, FRCPC, FACC
- Current Indications: Surgical Intervention for Atrial Arrhythmias, James E. Lowe, MD
- Current Concerns and Future Directions in the Pharmacologic Treatment of Atrial Fibrillation, Andrea Natale, MD, Zalmen Blanck, MD, Sanjay Despande, MD, Anwer Dhal, MD, Mohammad Jazayeri, MD, Jasbir Sra, MD, Masood Akhtar, MD
- Future Directions of Nonpharmacologic Therapy, Mark E. Josephson, MD, Kevin M. Monahan, MD, Mark J. Seifert, MD
- Maintenance of Sinus Rhythm in Patients at Risk of Atrial Fibrillation, Francis D. Mogarren, MRCGP, A. John Camm, MD, FRCP, FACC, FESC
- Ventricular Rate Control in Atrial Fibrillation, John P. DiMarco, MD, PhD
- Anticoagulation to Prevent Stroke in Atrial Fibrillation, Daniel E. Singer, MD
- Electrical Therapy of Atrial Arrhythmias, Carlos A. Morillo, MD, George J. Klein, MD, FRCPC, FACC, Raymond Yee, MD, FRCPC, FACC
- Current Indications: Surgical Intervention for Atrial Arrhythmias, James E. Lowe, MD
- Current Concerns and Future Directions in the Pharmacologic Treatment of Atrial Fibrillation, Andrea Natale, MD, Zalmen Blanck, MD, Sanjay Despande, MD, Anwer Dhal, MD, Mohammad Jazayeri, MD, Jasbir Sra, MD, Masood Akhtar, MD
- Future Directions of Nonpharmacologic Therapy, Mark E. Josephson, MD, Kevin M. Monahan, MD, Mark J. Seifert, MD

Free 30-day Examination - AHA Monograph Series - 10% Discount for a Standing Order

Yes! I wish to place a standing order (S/O) for the series and receive a 10% discount on each book. You have everything to gain and nothing to lose! Examine any book for 30 days. If you are not completely satisfied, return it and we'll refund the purchase price!

American Heart Association
Fighting Heart Disease and Stroke

FAMILY GUIDE TO STROKE

Treatment
Recovery
Prevention

Available in bookstores everywhere, or call 1-800-733-3000.

The American Heart Association, the nation's premier authority on heart health and stroke, presents the definitive book for those who have suffered a stroke and offers practical guidance on preventing a recurrence. With dozens of personal stories of stroke survivors and their families as well as many helpful illustrations, this optimistic sourcebook will help you:

- Reduce the risk of having a first or second stroke
- Spot the five warning signs of a stroke
- Find out if you are at risk
- Receive the most effective and up-to-date medical treatment and rehabilitation
- Tap into support networks

The American Heart Association Family Guide to Stroke is indispensable for people who have had a stroke, their families, and those interested in taking control of their future health.
