No. 1 (January-February)

Evaluation of Cerebral Vascular Disease with Radionuclide Angiography
Ronald J. Fischer, and August Miale, Jr. ................................. 1

The Effect of Hyperbaric Oxygen on the Mental and Verbal Ability of Stroke Patients
John E. Sarno, Howard A. Rusk, Leonard Diller, and Martha T. Sarno .......................... 10

Experimental Brain Prosthesis for Stroke
L. R. Pinneo, J. N. Kaplan, E. A. Elpel, P. C. Reynolds, and J. H. Glick ............................ 16

Papaverine Hydrochloride and Experimental Hemorrhagic Cerebral Arterial Spasm
Akio Kuwayama, Nicholas T. Zervas, Akira Shintani, and Kenneth S. Pickren ......................... 27

Rapid Microvascular Repair Using Plastic Adhesive
Akira Shintani, Nicholas T. Zervas, and Akio Kuwayama .................................. 34

Genetics of Cerebrovascular Accidents
Milton Alter, and John Kluznik ...................................... 41

A Model for Experimental Cerebral Arterial Spasm
Akio Kuwayama, Nicholas T. Zervas, Roger Belson, Akira Shintani, and Kenneth Pickren ........ 49

Relationship of Serial Measurements of Cerebral Hemodynamics to Prognosis in Patients with Hypertension and Cerebrovascular Disease
Saburo Yamaoka, Yasuyuki Takagi, Toshihiro Okada, and Yoshio Saito ........................... 57

Fibromuscular Dysplasia of the Extracranial Internal Carotid Arteries Associated with an Ulcerative Plaque
H. Hooshmand, M. E. Boykin, F. S. Vines, and H. M. Lee ........................................ 67

Pathophysiological Responses to Acute Cerebral Ischemia in the Gerbil
Bernard C. Wexler .................................................. 71

Abstracts ........................................................................... 79

An Appreciation .................................................................. 98

News from the American Heart Association .................................. 99

No. 2 (March-April)

SPECIAL ARTICLE
Summary of the Eighth Princeton Conference on Cerebral Vascular Diseases, January 5-7, 1972, Nassau Tavern, Princeton, New Jersey
Prepared by C. H. Millikan, Editor of STROKE .................................... 105

Septic Cerebral Embolism
Gaetano F. Molinari .......................................................... 117

Intracranial Pressure Gradients Associated With Experimental Cerebral Embolism
Mario Brock, Joachim Beck, Evangelos Markakis, and Herrmann Dietz (Continued) ........... 123
CONTENTS OF VOLUME III

Cranial Arteritis With Liver Involvement
Donald C. Mann, and James F. Toole .......................... 131

The Treatment of Brain Ischemia With Vasopressor Drugs
Gary Wise, Robert Sutter, and James Burkholder ................. 135

Abnormal Hemispheric Blood Flow and Metabolism in Cerebrovascular Disease. I. Disordered Patterns of Hemispheric Metabolism
John Stirling Meyer, Yasuo Fukuuchi, Kunio Shimazu, Tadao Ohuchi, and Arthur Dale Ericsson .......................... 141

Abnormal Hemispheric Blood Flow and Metabolism in Cerebrovascular Disease. II. Therapeutic Trials With 5% CO₂ Inhalation, Hyperventilation and Intravenous Infusion of THAM and Mannitol
John Stirling Meyer, Yasuo Fukuuchi, Kunio Shimazu, Tadao Ohuchi, and Arthur Dale Ericsson .......................... 157

Effect of Intravenous Infusion of Glycerol on Hemispheric Blood Flow and Metabolism in Patients With Acute Cerebral Infarction
John Stirling Meyer, Yasuo Fukuuchi, Kunio Shimazu, Tadao Ohuchi, and Arthur Dale Ericsson .......................... 168

Relationships Between Cerebral Perfusion Pressure and Regional Cerebral Blood Flow in Patients With Severe Neurological Disorders
M. Peter Heilbrun, Paul Balslev Jorgensen, and Gudrun Boyesen .......................... 181

Abstracts .......................................................... 196

News from the American Heart Association ....................... 222

No. 3 (May-June)

Newer Techniques of Cerebral Blood Flow Measurement
Jerome B. Posner .................................................. 227

Case Report. Spinal Cord Ischemia Associated With a Repair of a Ruptured Abdominal Aortic Aneurysm
Leon Michaels ..................................................... 238

Basilar Arterial Flow Changes Elicited by Hydralazine Hydrochloride, Isooxsuprine Hydrochloride and Nylidrin Hydrochloride
Willis K. Mitchell, and Williamina A. Himwich .......................... 240

Can Plasma Skimming or Inconstancy of Regional Hematocrit Introduce Serious Errors in Regional Cerebral Blood Flow Measurements or Their Interpretation?
William I. Rosenblum ............................................. 248

The Hemodynamic Importance of the Geometry of Bifurcations in the Circle of Willis (Glass Model Studies)
Margot R. Roach, Susan Scott, and Gary G. Ferguson ..................... 255

The Course of Experimental Cerebral Infarction—The Development of Increased Intracranial Pressure
James H. Halsey, Jr., and Norman F. Capra .......................... 268

Cerebral Blood Flow and Metabolism Studies Comparing Krypton 85 Desaturation Technique With Argon Desaturation Technique Using the Mass Spectrometer
Mark L. Dyken ..................................................... 279

Monocytes and Basophilic Granulocytes in the Cranial Circulation of Patients With Organic Brain Disorders
Ernst Thonnard-Neumann ........................................... 286

(Continued)
Contents of Volume III

Validation of Jugular Venous Flow as an Index of Total Cerebral Blood Flow
   Edwin M. Wilson, James H. Halsey, Jr., and Jiri J. Vitek 300

Development and Evaluation of an Experimental Model for the Study of the Cerebral Circulation in the Unanesthetized Goat
   Charles Reimann, Salvador Lluch, and Gerald Glick 322

Abstracts 329

News from the American Heart Association 345

Report of the Joint Committee for Stroke Facilities—
   Table of Organization, Introduction 351
   I. Epidemiology for Stroke Facilities Planning 360
   II. Stroke Rehabilitation 375

No. 4 (July-August)

Hemoglobin and the Risk of Cerebral Infarction: The Framingham Study
   William B. Kannel, Tavia Gordon, Philip A. Wolf, and Patricia McNamara 409

Control of Cerebral Vasospasm by Parenteral Phenoxybenzamine
   Eugene S. Flamm, M. Gazi Yasargil, and Joseph Ransohoff 421

Estrogenic Therapy in Men With Ischemic Cerebrovascular Disease: Effect on Recurrent Cerebral Infarction and Survival

Spontaneous Dissecting Aneurysm of the Internal Carotid Artery

Cerebral Blood Flow, Metabolism and Mean Arterial Pressure Changes Following Unilateral Internal Carotid Endarterectomy: Cerebral Ischemia and Elevated Systemic Arterial Pressure
   F. Haven Jones, Mark L. Dyken, and Robert King 441

Preparation and Analysis of 4-Iodoantipyrine-131
   Joseph DiMattio, and G. M. Hochwald 446

Cerebral Vasospasm With Infarction
   Frederick A. Simeone, and Peter Trepper 449

Cerebral Hemispheric “Counter-Steal” Phenomenon During Hyperventilation in Cerebrovascular Diseases
   G. Raimondo Pistolese, Vittorio Faraglia, Alessandro Agnoli, Massimiliano Prencipe, Enrica Pastore, Carlo Spartera, and Paolo Fiorani 456

Occlusion of All Four Extracranial Vessels With Minimal Clinical Symptomatology. Case Report
   Jiri J. Vitek, James H. Halsey, Jr., and Holt A. McDowell 462

About Three Old Men: An Inquiry Into How Cerebral Arteriosclerosis Has Altered World Politics
   Walter J. Friedlander 467

CONTENTS OF VOLUME III

Cerebral Vasodilator Therapy in Stroke
Lawrence C. McHenry, Jr. .................................................. 686

Oxygen Availability in Ischemic Brain Following Hypocarbia and Hypercarbia
Timothy Harrington, Mitchell Major, Ayub K. Ommaya, and Giovanni Di Chiro ..................................................... 692

The Process of Recovery After Hemiplegia
Michael Newman ............................................................ 702

The Sympathetic Nervous System and the Regulation of Cerebral Blood Flow in Man
Erik Skinhøj ................................................................. 711

Humoral Responses of Smooth Muscle from Rabbit Subarachnoid Artery Compared to Kidney, Mesentery, Lung, Heart, and Skin Vascular Smooth Muscle
Thoralf M. Sundt, Jr., and R. K. Winkelmann ........................................... 717

Experimental Brain Ischemia: Protection From Irreversible Damage With a Rapid-Acting Barbiturate (Methohexital)
F. M. Yatsu, I. Diamond, C. Graziano, and P. Lindquist ........................................... 726

Cerebral Anoxia: Protein Metabolism During Recovery in In Vitro Model
Takehiko Yanagihara .......................................................... 733

Diagnostic Information Available in University and Community Hospital Medical Records: Patients With Cerebrovascular Disease
Robert R. Carpenter, Kenneth D. Rogers, and David E. Reed ........................................... 739

The Outcome for Patients With Cerebrovascular Disease in University and Community Hospitals
Robert R. Carpenter, and David E. Reed ........................................... 747

The Use of Medical Facilities for Cerebrovascular Disease Patients in a County of Western Pennsylvania
Robert R. Carpenter, Kenneth D. Rogers, and David E. Reed ........................................... 759

Identification of Individuals With Covert Ischemic Thrombotic Cerebrovascular Disease: A Discriminant Function Analysis
Menard M. Gertler, James L. Rosenberger, and Hillar E. Lactma ........................................... 764

Abstracts .......................................................... 772

News from the American Heart Association ........................................... 799

Report of the Joint Committee for Stroke Facilities—V. Clinical Prevention of Stroke ........................................... 803

Author Index .......................................................... 827

Subject Index ........................................................ 829
