Subject Index

Volume 34, January–December 2003

A

Acetylcholine
Acetylcholinesterase Inhibitors for Vascular Dementia and Alzheimer’s Disease Combined With Cerebrovascular Disease, 584
Enalapril Prevents Impaired Nitric Oxide Synthase–Dependent Dilatation of Cerebral Arterioles in Diabetic Rats, 2698
Essential Role of Gap Junctions in NO- and Prostanoid-Independent Relaxations Evoked by Acetylcholine in Rabbit Intracerebral Arteries, 544
Gene-Targeted Mice Reveal a Critical Role for Inducible Nitric Oxide Synthase in Vascular Dysfunction During Diabetes, 2970
Acetylcholinesterase
Acetylcholinesterase Inhibitors for Vascular Dementia and Alzheimer’s Disease Combined With Cerebrovascular Disease, 584
Activation
Endothelial and Platelet Activation in Acute Ischemic Stroke and Its Etiological Subtypes, 2132
Activities of daily living
Poststroke Depression: An 18-Month Follow-Up, 138
Acute stroke trials
Emerging Therapies for Acute Ischemic Stroke: New Therapies on Trial, 359
Acute-phase reaction
Multiple Levels of Regulation of the Interleukin-6 System in Stroke, 1864
Adenosine
Comparison of P2 Receptor Subtypes Producing Dilation in Rat Intracerebral Arterioles, 1473
Enalapril Prevents Impaired Nitric Oxide Synthase–Dependent Dilatation of Cerebral Arterioles in Diabetic Rats, 2698
Key Neuroprotective Role for Endogenous Adenosine A1 Receptor Activation During Asphyxia in the Fetal Sheep, 2240
Adenosine triphosphate
ATP-Sensitive Potassium Channels in the Cerebral Circulation, 1547
Adenovirus
Adenovirus-Mediated Gene Transfer of Fibroblast Growth Factor-2 Increases BrdU-Positive Cells After Forebrain Ischemia in Gerbils, 1519
Adrenergic beta-antagonists
Blood Pressure Reduction and Secondary Prevention of Stroke and Other Vascular Events: A Systematic Review, 2741
Affect
Evaluation of a Stroke Family Support Organisation: A Randomized Controlled Trial, 116
Africa south of the Sahara
Mortality and Recovery After Stroke in The Gambia, 1604
Aged, 80 and older
Stroke in 85-Year-Olds: Prevalence, Incidence, Risk Factors, and Relation to Mortality and Dementia, 2617
Aging
ATP-Sensitive Potassium Channels in the Cerebral Circulation, 1547
Changes Related to Age and Cerebrovascular Symptoms in the Extracellular Matrix of Human Carotid Plaques, 616
Effect of Aging on Dynamic Cerebral Autoregulation During Head-Up Tilt, 1871
AHA/ASA Scientific Statements
Coronary Risk Evaluation in Patients With Transient Ischemic Attack and Ischemic Stroke: A Scientific Statement for Healthcare Professionals From the Stroke Council and the Council on Cardiology of the American Heart Association/American Stroke Association, 2310
Guidelines and Recommendations for Perfusion Imaging in Cerebral Ischemia: A Scientific Statement for Healthcare Professionals by the Writing Group on Perfusion Imaging, From the Council on Cardiovascular Radiology of the American Heart Association, 1084
Air pollution
Evidence for an Association Between Air Pollution and Daily Stroke Admissions in Kaohsiung, Taiwan, 2612
Stroke Mortality Associated With Living Near Main Roads in England and Wales: A Geographical Study, 2776
Albumins
Relation Between Serum Albumin and Carotid Atherosclerosis: The NHLBI Family Heart Study, 53
Alcohol
Interleukin-6 Promoter Polymorphism Modulates the Effects of Heavy Alcohol Consumption on Early Carotid Artery Atherosclerosis: The Carotid Atherosclerosis Progression Study (CAPS), 402
Alcohol drinking
Risk Factors for Continued Cigarette Use After Subarachnoid Hemorrhage, 1859
Alpha 1-antitrypsin
Levels of α1-Antitrypsin in Plasma and Risk of Spontaneous Cervical Artery Dissections: A Case-Control Study, e168
Alzheimer disease
Converging Pathogenic Mechanisms in Vascular and Neurodegenerative Dementia, 335
Is Breakdown of the Blood-Brain Barrier Responsible for Lacunar Stroke, Leukoaraiosis, and Dementia? 806
Pulse Pressure and Risk of Alzheimer Disease in Persons Aged 75 Years and Older: A Community-Based, Longitudinal Study, 594
Ambulances
Diagnostic Accuracy of Stroke Referrals From Primary Care, Emergency Room Physicians, and Ambulance Staff Using the Face Arm Speech Test, 71
Amine oxidoreductases
Association of Methylene tetrahydrofolate Reductase Gene Polymorphism With Carotid Atherosclerosis Depending on Smoking Status in a Japanese General Population, 1628
Elevated Plasma Homocysteine Was Associated With Hemorrhagic and Ischemic Stroke, but Methylene tetrahydrofolate Reductase Gene C677T Polymorphism Was a Risk Factor for Thrombotic Stroke: A Multicenter Case-Control Study in China, 2085
Inherited Thrombophilic Disorders in Young Adults With Ischemic Stroke and Patent Foramen Ovale, 28
MTHFR Gene Polymorphism as a Risk Factor for Silent Brain Infarcts and White Matter Lesions in the Japanese General Population: The NILS-LSA Study, 1130
Amino acids
Extracellular Concentrations of Non–Transmitter Amino Acids in Peri-Infarct Tissue of Patients Predict Malignant Middle Cerebral Artery Infarction, 2908
Amyloid
Temporal Alterations in Cerebrospinal Fluid Amyloid β-Protein and Apolipoprotein E After Subarachnoid Hemorrhage, e240
Anesthesia, local
Cervical Sympathetic Block to Reverse Delayed Ischemic Neurological Deficits After Aneurysmal Subarachnoid Hemorrhage, 961
Aneurysm
Antiplatelet Therapy in Aneurysmal Subarachnoid Hemorrhage: A Systematic Review, 2285
Beta Radiation and Inhibition of Recanalization After Coil Embolization of Canine Arteries and Experimental Aneurysms: How Should Radiation Be Delivered? 1262
Effect of Age on Clinical and Morphological Characteristics in Patients With Brain Arteriovenous Malformation, 2664
Feasibility of Radioactive Embolization of Intracranial Aneurysms Using 125I-Implanted Coils, 1035
Incidence and Outcome of Multiple Intracranial Aneurysms in a Defined Population, 16
Risk Factors for Aneurysmal Subarachnoid Hemorrhage in Aomori, Japan, 96
Aneurysm, dissecting
Levels of α1-Antitrypsin in Plasma and Risk of Spontaneous Cervical Artery Dissections: A Case-Control Study, e168
3026 Subject Index

Aneurysm, intracranial
Absence of Linkage of Familial Intracranial Aneurysms to 7q11 in Highly Aggregated Japanese Families, 892

Aneurysm, ruptured
Endothelial Nitric Oxide Synthase T-786C Single Nucleotide Polymorphism: A Putative Genetic Marker Differentiating Small Versus Large Ruptured Intracranial Aneurysms, 2555

Angiogenesis
Abnormal Expression of Matrix Metalloproteinases and Tissue Inhibitors of Metalloproteinases in Brain Arteriovenous Malformations, 925
Hypoxic Induction of Endoglin via Mitogen-Activated Protein Kinases in Mouse Brain Microvascular Endothelial Cells, 2483

Angiogenesis factor
Differential Regulation of Thrombospondin-1 and Thrombospondin-2 After Focal Cerebral Ischemia/Reperfusion, 177

Angiogenesis inhibitors
Differential Regulation of Thrombospondin-1 and Thrombospondin-2 After Focal Cerebral Ischemia/Reperfusion, 177

Angiography
Angiographic Dilatation and Branch Extension of the Anterior Choroidal and Posterior Communicating Arteries Are Predictors of Hemorrhage in Adult Moyamoya Patients, 90
Beta Radiation and Inhibition of Recanalization After Coil Embolization of Canine Arteries and Experimental Aneurysms: How Should Radiation Be Delivered? 1262
For Severe Carotid Stenosis Found on Ultrasound, Further Arterial Evaluation Is Unnecessary, 1816
Spontaneous Recanalization of Internal Carotid Artery Occlusion, 1032

Angiography, digital subtraction
Analysis of Mean Transit Time of Contrast Medium in Ruptured and Unruptured Arteriovenous Malformations: A Digital Subtraction Angiographic Study, 2410

Angioplasty
Early Outcome of Carotid Angioplasty and Stenting With and Without Cerebral Protection Devices: A Systematic Review of the Literature, 813
Extracranial Carotid Artery Stenosis, 2767
Histopathological Evaluation of Middle Cerebral Artery After Percutaneous Intracranial Transluminal Angioplasty, e170

Angioplasty, balloon
Effect of Treatment of Carotid Artery Stenosis on Blood Pressure: A Comparison of Hemodynamic Disturbances After Carotid Endarterectomy and Endovascular Treatment, 2576

Angiotensin II
Angiotensin-Converting Enzyme Inhibitors for Stroke Prevention: Is There HOPE for PROGRESS After Life? 354

Angiotensin-converting enzyme inhibitors
Angiotensin-Converting Enzyme Inhibitors Use Is Associated With Reduced Plasma Concentration of C-Reactive Protein in Patients With First-Ever Ischemic Stroke, 2922

Angiogenesis
Abnormal Expression of Matrix Metalloproteinases and Tissue Inhibitors of Metalloproteinases in Brain Arteriovenous Malformations, 925
Hypoxic Induction of Endoglin via Mitogen-Activated Protein Kinases in Mouse Brain Microvascular Endothelial Cells, 2483

Angiotensins
Angiotensin-Converting Enzyme Gene Polymorphism and Carotid Artery Wall Thickness: A Meta-Analysis, 1634

Animal models
Disruption of Gene for Inducible Nitric Oxide Synthase Reduces Progression of Cerebral Aneurysms, 2980
Experimental Intracerebral Hemorrhage in the Mouse: Histological, Behavioral, and Hemodynamic Characterization of a Double-Injection Model, 2221

Fibroblast Growth Factor-18 Reduced Infarct Volumes and Behavioral Deficits After Transient Occlusion of the Middle Cerebral Artery in Rats, 1507
Matrix and Bioabsorbable Polymeric Coils Accelerate Healing of Intracranial Aneurysms: Long-Term Experimental Study, 2031
Neuroprotective Effects of MK-801 in Different Rat Stroke Models for Permanent Middle Cerebral Artery Occlusion: Adverse Effects of Hypothalamic Damage and Strategies for Its Avoidance, 2234

Antagonists and inhibitors
Key Neuroprotective Role for Endogenous Adenosine A1 Receptor Activation During Asphyxia in the Fetal Sheep, 2240

Anti-inflammatory agents, nonsteroidal
Nonaspirin Nonsteroidal Anti-Inflammatory Drugs and Risk of Hospitalization for Intracerebral Hemorrhage: A Population-Based Case-Control Study, 387
Risk of Stroke Associated With Nonsteroidal Anti-Inflammatory Drugs: A Nested Case-Control Study, 379

Antibiotics
Antibiotics in Primary Prevention of Stroke in the Elderly, e163, e166
Remote Evaluation of Acute Ischemic Stroke: Reliability of National Institutes of Health Stroke Scale via Telestroke, e188

Antibodies, monoclonal
Abciximab Reduces Monocyte Tissue Factor in Carotid Angioplasty and Stenting, 2560

Anticoagulants
Anticoagulants Versus Antiplatelet Agents for Acute Ischemic Stroke, 2518

Anticoagulants
Anticoagulants Versus Antiplatelet Agents for Acute Ischemic Stroke, 1571
Anticoagulation for Cerebral Sinus Thrombosis, 1054
Ever Decreasing Circles: Advances in Antiplatelet Therapy and Anticoagulation, 348
Full Heparin Anticoagulation Should Not Be Used in Acute Ischemic Stroke, 231
Inhibition of Factor Xa Reduces Ischemic Brain Damage After Thromboembolic Stroke in Rats, 468
Oral Anticoagulants Versus Antiplatelet Therapy for Preventing Further Vascular Events AfterTransient Ischemic Attack or Minor Stroke of Presumed Arterial Origin, 234
Oral Anticoagulation in Patients After Cerebral Ischemia of Arterial Origin and Risk of Intracranial Hemorrhage, e45
Racial Disparities in Receipt of Secondary Stroke Prevention Agents Among US Nursing Home Residents, 2693

Antifibrinolytic agents
Antifibrinolytic Therapy for Aneurysmal Subarachnoid Hemorrhage: A Major Update of a Cochrane Review, 2308

Antigens
UK-279,276, a Neuropil Inhibitory Glycoprotein, in Acute Stroke: Tolerability and Pharmacokinetics, 1704

Antigens, CD14
Promoter Polymorphism in the Endotoxin Receptor (CD14) Is Associated With Increased Carotid Atherosclerosis Only in Smokers: The Carotid Atherosclerosis Progression Study (CAPS), 600

Antihypertensive therapy
Effects of a Perindopril-Based Blood Pressure-Lowering Regimen on Disability and Dependency in 6105 Patients With Cerebrovascular Disease: A Randomized Controlled Trial, 2333
The ACCESS Study: Evaluation of Acute Candesartan Cilexetil Therapy in Stroke Survivors, 1699

Antiplatelet agents
Anticoagulants Versus Antiplatelet Agents for Acute Ischemic Stroke, 1571
Racial Disparities in Receipt of Secondary Stroke Prevention Agents Among US Nursing Home Residents, 2693

Antiplatelet therapy
Antiplatelet Therapy in Aneurysmal Subarachnoid Hemorrhage: A Systematic Review, 2285
Ever Decreasing Circles: Advances in Antiplatelet Therapy and Anticoagulation, 348
Oral Anticoagulants Versus Antiplatelet Therapy for Preventing Further Vascular Events AfterTransient Ischemic Attack or Minor Stroke of Presumed Arterial Origin, 234

Aphasia
Auditory Discrimination After Left-Hemisphere Stroke: A Mismatch Negativity Follow-Up Study, 1746
Intensity of Aphasia Therapy, Impact on Recovery, 987
Stroke and Aphasia Quality of Life Scale-39 (SAQOL-39): Evaluation of Acceptability, Reliability, and Validity, 1944

Apolipoproteins
Apolipoprotein E Gene Polymorphisms Are Associated With Carotid Plaque Formation but Not With Intima-Media Wall Thickening: Results From the Perth Carotid Ultrasound Disease Assessment Study (CUDAS), 469
Decreased Cerebrospinal Fluid Apolipoprotein E After Subarachnoid Hemorrhage: Correlation With Injury Severity and Clinical Outcome, 637
Increased Expression of Neuronal Apolipoprotein E in Human Brain With Cerebral Infarction, 875

Asphyxia
Key Neuroprotective Role for Endogenous Adenosine A1 Receptor

Arterial occlusive diseases
Decompression Aortic Stiffness Is an Independent Predictor of Fatal Stroke in Intracranial Large-Artery Occlusive Disease, 2463
Carotid Intima-Media Thickness Measurements in Intervention Studies: Design Options, Progression Rates, and Sample Size Considerations: A Point of View, 2985
Changes Related to Age and Cerebrovascular Symptoms in the Extracellular Matrix of Human Carotid Plaques, 616
Comparison Between Measures of Atherosclerosis and Risk of Stroke: The Rotterdam Study, 2367
Early-Onset Carotid Atherosclerosis Is Associated With Increased Intima-Media Thickness and Elevated Serum Levels of Inflammatory Markers, 58
Histopathological Evaluation of Middle Cerebral Artery After Puncture Intracranial Transluminal Angioplasty, e170
Infection, Inflammation, and Atherosclerosis, 333
Interleukin-1 Receptor Antagonist Gene Polymorphisms in Carotid Atherosclerosis, 790
Interleukin-6 Promoter Polymorphism Modulates the Effects of Heavy Alcohol Consumption on Early Carotid Artery Atherosclerosis: The Carotid Atherosclerosis Progression Study (CAPS), 402
Lipoprotein Lipase (LPL) Gene Variation and Progression of Carotid Artery Plaque, 1176
Polymerization in the Promoter Region of the Insulin-like Growth Factor 1 Gene Is Related to Carotid Intima-Media Thickness and Aortic Pulse Wave Velocity in Subjects With Hypertension, 1623
Possible Role of Parathyroid Hormone-Related Protein as a Proinflammatory Cytokine in Atherosclerosis, 1783
Promoter Polymorphism in the Endothelin Receptor (CD14) Is Associated With Increased Carotid Atherosclerosis Only in Smokers: The Carotid Atherosclerosis Progression Study (CAPS), 600
Prospective Study of Serum Homocysteine and Risk of Ischemic Stroke Among Patients With Preexisting Coronary Heart Disease, 632
Racial Differences in Thoracic Aorta Atherosclerosis Among Ischemic Stroke Patients, 408
Relationship Between Periodontal Disease, Tooth Loss, and Carotid Artery Plaque: The Oral Infections and Vascular Disease Epidemiology Study (INVEST), 2120
Remote Evaluation of Acute Ischemic Stroke: Reliability of National Institutes of Health Stroke Scale via Telestroke, e188
Risk Factors for Progression of Atherosclerosis Measured at Multiple Sites in the Arterial Tree: The Rotterdam Study, 2374

Atrial fibrillation
Atrial Fibrillation and the Prothrombotic State in the Elderly: The Rotterdam Study, 413
Can Patients Be Anticoagulated After Intracerebral Hemorrhage? A Decision Analysis, 1710
Cerebral Ischemic Events After Diagnosis of Mitral Valve Prolapse: A Community-Based Study of Incidence and Predictive Factors, 1339
Clinical Relevance of Atrial Fibrillation/Flutter, Stroke, Pacemaker Implant, and Heart Failure in Emery-Dreifuss Muscular Dystrophy: A Long-Term Longitudinal Study, 901
Comparison of Magnetic Resonance Imaging and Transesophageal Echocardiography in Detection of Thrombus in the Left Atrial Appendage, 2436
Hyperhomocysteinemia Is Associated With the Presence of Left Atrial Thrombus in Stroke Patients With Nonvalvular Atrial Fibrillation, 909

Association
Endoglobin Is Not a Major Susceptibility Gene for Intracranial Aneurysm Among Japanese, 1640

Astrocytes
Astrocytic Gap Junctions Composed of Connexin 43 Reduce Apoptotic Neuronal Damage in Cerebral Ischemia, 1987

Atherosclerosis
Antibiotics in Primary Prevention of Stroke in the Elderly, e163, e166
Associations of a Human G Protein β3 Subunit Dimorphism With Insulin Resistance and Carotid Atherosclerosis, 605
C-Reactive Protein Predicts Further Ischemic Events in First-Ever Transient Ischemic Attack or Stroke Patients With Intracranial Large-Artery Occlusive Disease, 2463
Carotid Intima-Media Thickness Measurements in Intervention Studies: Design Options, Progression Rates, and Sample Size Considerations: A Point of View, 2985
Changes Related to Age and Cerebrovascular Symptoms in the Extracellular Matrix of Human Carotid Plaques, 616
Comparison Between Measures of Atherosclerosis and Risk of Stroke: The Rotterdam Study, 2367
Early-Onset Carotid Atherosclerosis Is Associated With Increased Intima-Media Thickness and Elevated Serum Levels of Inflammatory Markers, 58
Histopathological Evaluation of Middle Cerebral Artery After Puncture Intracranial Transluminal Angioplasty, e170
Infection, Inflammation, and Atherosclerosis, 333
Interleukin-1 Receptor Antagonist Gene Polymorphisms in Carotid Atherosclerosis, 790
Interleukin-6 Promoter Polymorphism Modulates the Effects of Heavy Alcohol Consumption on Early Carotid Artery Atherosclerosis: The Carotid Atherosclerosis Progression Study (CAPS), 402
Lipoprotein Lipase (LPL) Gene Variation and Progression of Carotid Artery Plaque, 1176
Polymerization in the Promoter Region of the Insulin-like Growth Factor 1 Gene Is Related to Carotid Intima-Media Thickness and Aortic Pulse Wave Velocity in Subjects With Hypertension, 1623
Possible Role of Parathyroid Hormone-Related Protein as a Proinflammatory Cytokine in Atherosclerosis, 1783
Promoter Polymorphism in the Endothelin Receptor (CD14) Is Associated With Increased Carotid Atherosclerosis Only in Smokers: The Carotid Atherosclerosis Progression Study (CAPS), 600
Prospective Study of Serum Homocysteine and Risk of Ischemic Stroke Among Patients With Preexisting Coronary Heart Disease, 632
Racial Differences in Thoracic Aorta Atherosclerosis Among Ischemic Stroke Patients, 408
Relationship Between Periodontal Disease, Tooth Loss, and Carotid Artery Plaque: The Oral Infections and Vascular Disease Epidemiology Study (INVEST), 2120
Remote Evaluation of Acute Ischemic Stroke: Reliability of National Institutes of Health Stroke Scale via Telestroke, e188
Risk Factors for Progression of Atherosclerosis Measured at Multiple Sites in the Arterial Tree: The Rotterdam Study, 2374
Subject Index

Is Thrombogenesis in Atrial Fibrillation Related to Matrix
Metalloproteinase-1 and Its Inhibitor, TIMP-1? 1181
Poor Outcome After First-Ever Stroke: Predictors for Death, Depen-
dency, and Recurrent Stroke Within the First Year, 122

Australia
Lifetime Cost of Stroke Subtypes in Australia: Findings From the
North East Melbourne Stroke Incidence Study (NEMESIS), 2502
Risk of Ischemic Stroke Among Users of the Oral Contraceptive Pill:
The Melbourne Risk Factor Study (MERFS) Group, 1575
Ten-Year Survival After First-Ever Stroke in the Perth Community
Stroke Study, 1842

Autoantibodies
Anti-α-Fodrin Autoantibodies in Moyamoya Disease, e244
Autonomic nerve block
Cervical Symptomatic Block to Reverse Delayed Ischemic Neurolog-
ic Deficits After Aneurysmal Subarachnoid Hemorrhage, 961
Autonomic nervous system
Cardiac Baroreceptor Sensitivity Predicts Long-Term Outcome After
Acute Ischemic Stroke, 705
Side of Brain Infarction and Long-Term Risk of Sudden Death in Patients With Symptomatic Carotid Disease, 2871
Autopsy
Histopathological Evaluation of Middle Cerebral Artery After Percu-
tanee Intracranial Transluminal Angioplasty, e170

Autoradiography
Cerebral Hypoperfusion and Delayed Hippocampal Response After
Induction of Adult Kaolin Hydrocephalus, 193

Autoregulation
Adaptive Noninvasive Assessment of Intracranial Pressure and Cere-ral Autoregulation, 84
Assessment of Cerebrovascular Autoregulation in Head-Injured Pa-
tients: A Validation Study, 2404
ATP-Sensitive Potassium Channels in the Cerebral Circulation, 1547
Autoregulatory Response and CO2 Reactivity of the Basilar Artery, 34
Cerebral Autoregulation in Carotid Artery Occlusive Disease Assessed
From Spontaneous Blood Pressure Fluctuations by the Correla-
tion Coefficient Index, 2138
Dynamic Autoregulation Testing in Patients With Middle Cerebral Artery Stenosis, 1881
Monitoring of Cerebral Vasodilatory Capacity With Transcranial
Doppler Carbon Dioxide Inhalation in Patients With Severe
Carotid Artery Disease, 945

Axons
New Light on White Matter, 330

Baboons
Ultrarapid, Convection-Enhanced Intravascular Hypothermia: A Fea-
sibility Study in Nonhuman Primate Stroke, 1994

Bacteremia
Impact of Viral and Bacterial Burden on Cognitive Impairment in Elderly Persons With Cardiovascular Diseases, 2126

Basilar artery
Autoregulatory Response and CO2 Reactivity of the Basilar Artery, 34
Behavior
Aggravated Brain Damage After Hypoxic Ischemia in Immature
Adenosine A2A Knockout Mice, 739
William Feinberg Lecture 2002: Emotions, Mood, and Behavior After
Stroke, 1046
Behavior, animal
Functional and Histological Evidence for the Protective Effect of
NYXY-059 in a Primate Model of Stroke When Given 4 Hours
After Occlusion, 2228
Neurological Dysfunctions Versus Regional Infarction Volume After
Focal Ischemia in Mongolian Gerbils, 1501

Behavioral symptoms
Advertising Strategies to Increase Public Knowledge of the Warning
Signs of Stroke, 1965

Benzimidazoles
The ACCESS Study: Evaluation of Acute Candesartan Cilexetil
Therapy in Stroke Survivors, 1699

Bilirubin
Intracranial Heme Metabolism and Cerebral Vasospasm After Aneu-
rysmal Subarachnoid Hemorrhage, 2796

Biological factors
ATP-Sensitive Potassium Channels in the Cerebral Circulation, 1547

Birth weight
Prenatal Influences on Stroke Mortality in England and Wales, 1598

Blacks
Acute Stroke in the Very Elderly: Epidemiological Features, Stroke
Subtypes, Management, and Outcome in Martinique, French
West Indies, 1593

Bleb
In Vitro Measurement of Fluid-Induced Wall Shear Stress in Unrup-
tured Cerebral Aneurysms Harboring Blebs, 187

Blood coagulation disorders
Stroke in Black South African HIV-Positive Patients: A Prospective
Analysis, Letter, 10

Blood flow velocity
Autoregulatory Response and CO2 Reactivity of the Basilar Artery, 34

Blood platelets
Upregulation of CD40-CD40 Ligand (CD154) in Patients With Acute
Cerebral Ischemia, 1412

Blood pressure
Association of Methyleneetetrahydrofolate Reductase Gene Polymor-
phism With Carotid Atherosclerosis Depending on Smoking
Status in a Japanese General Population, 1628
Blood Pressure Reduction and ACE Inhibition in Secondary Stroke
Prevention: Mechanism Uncertain, 1335
Blood Pressure Reduction and Secondary Prevention of Stroke and Other Vascular Events: A Systematic Review, 2741
Blood Pressure-Lowering for Secondary Prevention of Stroke: ACE
Inhibition Is Not the Key, 1334
Blood Pressure-Lowering for Secondary Prevention of Stroke: ACE
Inhibition Is the Key, 1333
Dipyridamole in Stroke Prevention: Effect of Dipyridamole on Blood
Pressure, 2339
Effect of Blood Pressure During the Acute Period of Ischemic Stroke on Stroke Outcome: A Tertiary Analysis of the GAIN Interna-
tional Trial, 2420
Effect of Treatment of Carotid Artery Stenosis on Blood Pressure: A
Comparison of Hemodynamic Disturbances After Carotid End-
arterectomy and Endovascular Treatment, 2576
Pulse Pressure and Risk of Alzheimer Disease in Persons Aged 75
Years and Older: A Community-Based, Longitudinal Study, 594
Relationship Between Blood Pressure and Stroke Risk in Patients With
Symptomatic Carotid Occlusive Disease, 2583
Safety of Dexamphetamine in Acute Ischemic Stroke: A Randomized,
Double-Blind, Controlled Dose-Escalation Trial, 475
The ACCESS Study: Evaluation of Acute Candesartan Cilexetil
Therapy in Stroke Survivors, 1699

Blood pressure monitoring, ambulatory
Greater Impact of Coexistence of Hypertension and Diabetes on Silent
Cerebral Infarcts, 2471

Blood proteins
Protein Z in Ischemic Stroke and its Etiologic Subtypes, 2415

Blood transfusion
Risk Factors for Fatal Subarachnoid Hemorrhage: The Japan Collab-
orative Cohort Study, 2781

Blood volume
Bedside Monitoring of Circulating Blood Volume After Subarachnoid
Hemorrhage, 956

Blood-brain barrier
Alterations in Autoregulatory and Myogenic Function in the Cerebro-
vascularature of Dahl Salt-Sensitive Rats, 1484
Closure of the Blood-Brain Barrier by Matrix Metalloproteinase
Inhibition Reduces rtPA-Mediated Mortality in Cerebral Isch-
emia With Delayed Reperfusion, 2025
Interactions Between p38 Mitogen-Activated Protein Kinase and
Caspase-3 in Cerebral Endothelial Cell Death After Hypoxia-
Reoxygenation, 2704

Body constitution
Abdominal Obesity and Risk of Ischemic Stroke: The Northern
Manhattan Stroke Study, 1586

Body temperature regulation
Dexmedetomidine and Meperidine Additively Reduce the Shivering
Threshold in Humans, 1218
Neither Arm nor Face Warming Reduces the Shivering Threshold in
Unanesthetized Humans, 1736
Brain ischemia

Brain injuries

Brain imaging

Brain ischemia

Bone density

Bone mineral density and stroke, e20

Bone morphogenetic proteins

Intravenous administration of bone morphogenetic protein-7 after ischemia improves motor function in stroke rats, 558

Bradykinin

Angiotensin II produces superoxide-mediated impairment of endothelial function in cerebral arterioles, 2038

Brain

Enalapril prevents impaired nitric oxide synthase-dependent dilatation of cerebral arterioles in diabetic rats, 2698

Evaluation of hyperintense vessels on FLAIR MRI for the diagnosis of multiple intracerebral arterial stenoses, 1886

Hypoxic induction of endoglin via mitogen-activated protein kinases in mouse brain microvascular endothelial cells, 2483

Prediction of hyperperfusion after carotid endarterectomy by brain SPECT analysis with semiquantitative statistical mapping method, 1187

Brain damage

Selective neuromicrovascular endothelial cell death by 8-isoprostanoldehyde F2, possible role in ischemic brain injury, 776

Brain edema

Differences in clot preparation determine outcome of recombinant tissue plasminogen activator treatment in experimental thromboembolic stroke, 2019

Experimental intracerebral hemorrhage in the mouse: histological, behavioral, and hemodynamic characterization of a double-injection model, 2221

Extracellular concentrations of non-transmitter amino acids in periflac-Infarct tissue of patients predict malignant middle cerebral artery infarction, 2908

Hyperglycemia exacerbates brain edema and perihematomal cell death after intracerebral hemorrhage, 2215

Neuroprotective effect of SolCD39, a novel platelet aggregation inhibitor, on transient middle cerebral artery occlusion in rats, 758

Prediction of malignant middle cerebral artery infarction by early perfusion- and diffusion-weighted magnetic resonance imaging, 1892

Surgical decompression for cerebral edema in acute ischemic stroke, 1337

Surgical decompression for malignant middle cerebral artery infarction: a challenge to conventional thinking, 2307

Surgical decompression of patients with large middle cerebral artery infarcts is effective: not proven, 2305

Brain imaging

Acute Ischemic Cerebrovascular Syndrome: Diagnostic criteria, 2995

Brain ischemia

Hyperbaric oxygen therapy in acute ischemic stroke: Results of the hyperbaric oxygen in acute ischemic stroke trial pilot study, 571

MTHFR gene polymorphism as a risk factor for silent brain infarcts and white matter lesions in the Japanese general population: the Nils-LSA study, 1130

Brain injuries

Assessment of cerebrovascular autoregulation in head-injured patients: a validation study, 2404

Neonatal hypoxia-ischemia differentially upregulates MAGUKs and associated proteins in PSD-93-deficient mouse brain, 2958

Brain ischemia

Early major ischemic changes on computed tomography should not preclude use of tissue plasminogen activator, 821

Early major ischemic changes on computed tomography should preclude use of tissue plasminogen activator, 820

Hyperbaric oxygen therapy in acute ischemic stroke: results of the hyperbaric oxygen in acute ischemic stroke trial pilot study, 571

Open field of mitochondrial ATP-sensitive potassium channels is a trigger of 3-nitropropionic acid-induced tolerance to transient focal cerebral ischemia in rats, 1015

Persistent poststroke hyperglycemia is independently associated with infarct expansion and worse clinical outcome, 2208

Stroke in 85-year-olds: prevalence, incidence, risk factors, and relation to mortality and dementia, 2617

The cortical ischemic core and not the consistently present penum- bro is a determinant of clinical outcome in acute middle cerebral artery occlusion, 2426

Brain lesions

Silent brain infarcts and white matter lesions increase stroke risk in the general population: the rotterdam scan study, 1126

Brain mapping

Motor cortex organization after stroke is related to side of stroke and level of recovery, e23

Brain-derived neurotrophic factor

Intravenous TAT-GDNF is protective after focal cerebral ischemia in mice, 1304

Intraventricular infusion of TrkB-Fc fusion protein promotes ischemia-induced neurogenesis in adult rat dentate gyrus, 2710

Bromodeoxyuridine

Adenovirus-mediated gene transfer of fibroblast growth factor-2 increases BrdU-positive cells after forebrain ischemia in ger- bils, 1519

Bypass surgery

Modeling stroke risk after coronary artery bypass and combined coronary artery bypass and carotid endarterectomy, 1212

C-reactive protein

Angiotensin-converting enzyme inhibitor use is associated with reduced plasma concentration of C-reactive protein in patients with first-ever ischemic stroke, 2022

C-reactive protein predicts further ischemic events in first-ever transient ischemic attack or stroke patients with intracranial large-artery occlusive disease, 2463

CADASIL

Yield of screening for CADASIL mutations in lacunar stroke and leukoaraiosis, 203

Caffeine

Ethanol plus caffeine (caffeinol) for treatment of ischemic stroke: Preclinical experience, 1246

Pilot dose-escalation study of caffeine plus ethanol (caffeinol) in acute ischemic stroke, 1242

Calcium

Stroke development in stroke-prone spontaneously hypertensive rats alters the ability of cerebrovascular muscle to utilize internal Ca2+ to elicit constriction, 1491

Cannabinoids

Drug-induced hypothermia reduces ischemic damage: effects of the cannabinoid HU-210, 2000

Carbon dioxide

ATP-sensitive potassium channels in the cerebral circulation, 1547

Autoregulatory response and CO2 reactivity of the basilar artery, 34

Cerebral autoregulation in carotid artery occlusive disease assessed from spontaneous blood pressure fluctuations by the correlation coefficient index, 2138

Diabetic patients have an impaired cerebral vasodilatory response to hypercapnia under propofol anesthesia, 2399

Carboxypeptidase U

Thrombin-activatable fibrinolysis inhibitor levels in the acute phase of ischemic stroke, 1038

Cardiovascular diseases

Association of exercise-induced, silent ST-segment depression with the risk of stroke and cardiovascular diseases in men, 1760

Is diabetes mellitus a cardiovascular disease risk equivalent for fatal stroke in women? Data from the women’s health initiative, 2812

Polymorphism in the promoter region of the insulin-like growth factor I gene is related to carotid intima-media thickness and aortic pulse wave velocity in subjects with hypertension, 1623

Cardiovascular diseases, prevention and control

Blood pressure reduction and secondary prevention of stroke and other vascular events: a systematic review, 2741

Caregivers

Costs and caregiver consequences of early supported discharge for stroke patients, 528

Evaluation of a stroke family support organiser: a randomized controlled trial, 116
Subject Index

Carotid angiography
Is Carotid Angiography Necessary? Editors Disagree, 1819

Carotid arteries
