SPECIAL ARTICLE

Summary of the Sixth Salzburg Conference on Cerebral Vascular Disease, September 27 to October 1, 1972, Salzburg, Austria
Prepared by John Stirling Meyer

EEG and Arteriographical Findings in Carotid Artery Transient Ischemic Attacks (TIA)  
Robert M. Woolsey, and George W. Hambrook

Cerebrovascular Regulation in Preganglionic and Postganglionic Autonomic Insufficiency  
John J. Caronna, and Fred Plum

Nobuteru Matsumoto, Jack P. Whisnant, Leonard T. Kurland, and Haruo Okazaki

Sympathetic Cerebral Vasocostriction Blocked by Adrenergic Alpha Receptor Antagonists  
Louis G. D'Alecy

Familial Incidence of Cerebral Hemorrhage  
John Marshall

Increased Binding of Norepinephrine by Nerves to Cerebral Blood Vessels: Evidence from the Effects of Reserpine on Nerves to Cerebral and Extracerebral Blood Vessels  
William I. Rosenblum

The Effects of Intra-Arterial Histamine on Blood Flow in the Internal and External Carotid Artery of Man  
George T. Tindall, and Joseph C. Greenfield, Jr.

Evidence for the Direct Effect of Adrenergic Drugs on the Cerebral Vascular Bed of the Unanesthetized Goat  
Salvador Lluch, Charles Reimann, and Gerald Glick

Detecting Carotid Occlusive Disease by Thermography  
T. D. Capistrant, and R. J. Gumnit

Effects of Blood Gases on the Pressure-Flow Relationships in Canine Cerebral Circulation  
Takayuki Iwabuchi, Takashi Kutsuzawa, Kyuhei Ikeda, and Takashi Nakamura

Arterial Peaks in Regional Cerebral Blood Flow 133Xenon Clearance Curves  

Acute Changes in Blood Pressure Following Vascular Diseases in the Brain Stem  
Akira Ito, Teruo Omae, and Shibanosuke Katsuki

Abstracts  

News from the American Heart Association

Report of the Joint Committee for Stroke Facilities—VI. Special Procedures and Equipment in the Diagnosis and Management of Stroke  

...
CONTENTS OF VOLUME IV

No. 2 (March-April)

A Study of Regional Autoregulation in the Cerebral Circulation to Increased Perfusion Pressure in Normocapnia and Hypercapnia
Lindsay Symon, K. Held, and N. W. C. Dorsch 139

The Effect of Dexamethasone on the Edema of Focal Cerebral Ischemia
Robert F. Donley, and Thoralf M. Sundt, Jr. 148

EKG Changes After Spinal Subarachnoid Hemorrhage
Philip R. Yarnell, and Clark Godfrey 156

Plasma Renin Activity in Acute Cerebrovascular Disease: Preliminary Communication
John H. Moran, and Ruth B. Loewenson 160

Visual Field Defects and the Prognosis of Stroke Patients
Armin F. Haerer 163

Impaired Neurogenic Cerebrovascular Control and Dysautoregulation After Stroke
John Stirling Meyer, Kunio Shimazu, Yasuo Fukuuchi, Tadao Ohuchi, Shigemichi Okamoto, Atsuo Koto, and Arthur Dale Ericsson 169

Effects of Alpha Adrenergic Blockade on Autoregulation and Chemical Vasomotor Control of CBF in Stroke

Transorbital Approach for Occluding the Middle Cerebral Artery Without Craniectomy
Michael D. O’Brien, and Arthur G. Waltz 201

Lactate in the Cerebrospinal Fluid and Pressure-Flow Relationships in Canine Cerebral Circulation
Takayuki Iwabuchi, Katsuhiro Watanabe, Takashi Kutsuzawa, Kyuhei Ikeda, and Takashi Nakamura 207

Regional Cerebral Blood Flow During Stimulation of Seventh Cranial Nerve
Virgilio D. Salanga, and Arthur G. Waltz 213

Increase in Cerebral Blood Flow in the Rabbit by Viquidil
J. C. de Valois 218

Effect of pH on Metabolism and Ultrastructure of Guinea Pig Cerebral Cortex Slices
Kusum K. Patel, J. Francis Hartmann, and Maynard M. Cohen 221

Cholinergic Control of Blood Flow in the Cerebral Cortex of the Rat
Oscar U. Scremin, Alfredo A. Rovers, Augusto C. Raynal, and Adolfo Giardini 232

Abstracts 240

News from the American Heart Association 265

Report of the Joint Committee for Stroke Facilities—VII. Medical and Surgical Management of Stroke 269

No. 3 (May-June)

Abstracts from the International Symposium on Cerebral Circulation and Metabolism to be held in Philadelphia, Pennsylvania, June 6 to 9, 1973 321

Multiple Progressive Intracranial Arterial Occlusions
Angeline R. Mastri, Paul M. Silverstein, Lawrence Gold, and Erik P. Eselius 380

(Continued)
CONTENTS OF VOLUME IV

Effect of Aspirin on Experimentally Induced Arterial Thrombosis During the Healing Phase
Mark L. Dyken, Robert L. Campbell, Jans Muller, Henry Feuer, Terry Horner, Robert King, Oldrich Kolar, Elizabeth Solow, and F. Haven Jones 387

The Effects of Arterial Blood Pressure on the Regional Cerebral Blood Volume by X-Ray Fluorescence
Robert L. Grubb, Jr., Michael E. Phelps, Marcus E. Raichle, and Michel M. Ter-Pogossian 390

Stroke and Blood Coagulation
Margaret Todd, Ellen McDevitt, and Fletcher McDowell 400

The Epidemiology of Stroke in Central Harlem
Bertel Bruun, and Ralph W. Richter 406

Cerebral Anoxia: An Improved In Vitro Model for Biochemical Study
Takehiko Yanagihara 409

Anatomy of the Middle Cerebral Artery: The Temporal Branches
W. Bradford DeLong 412

The Syndrome of Latent Cerebral Venous Thrombosis: Its Frequency and Relation to Age and Congestive Heart Failure
Abraham Towbin 419

Clinical Grade, Regional Cerebral Blood Flow and Angiographical Spasm in the Monkey After Subarachnoid and Subdural Hemorrhage
Kenneth C. Petruk, Bryce K. A. Weir, Michael R. Marriott, and Thomas R. Overton 431

Middle Cerebral Artery Embolectomy and Prolonged Widespread Vasospasm
G. Khodadad 446

Left Atrial Myxoma as a Neurological Problem: A Case Report and Review
Edward F. Steinmetz, Philip R. Calanchini, and Mary Jane Aguilar 451

Tracheostomies and Stroke
Margie G. Lancaster 459

The Measurement of Cerebral Infarction Edema With Sodium 22
Bruce Brunson, James T. Robertson, Howard Morgan, and Ben I. Friedman 461

Stroke in Jerusalem District 1960 Through 1967: An Epidemiological Study
Eldad Melamed, Esther Cahane, Amiram Carmon, and Sylvan Lavy 465

Abstracts 472

President's Page 492

News from the American Heart Association 493

Report of the Joint Committee for Stroke Facilities—VIII. Training, Education, Manpower, and Research for Stroke Care 497

No. 4 (July-August)

Clinical Indicators of Extracranial Carotid Artery Disease in Patients With Transient Symptoms
Manuel Ramirez-Lassepas, Burton A. Sandok, and Robert C. Burton 537

Dexamethasone as Treatment in Cerebrovascular Disease. 1. A Controlled Study in Intracerebral Hemorrhage
Henry Tellez, and Raymond B. Bauer 541

(Continued)
CONTENTS OF VOLUME IV

Dexamethasone as Treatment in Cerebrovascular Disease. 2. A Controlled Study in Acute Cerebral Infarction
  Raymond B. Bauer, and Henry Tellez .......................... 547

The Hydrogen Clearance Method in Assessment of Blood Flow in Cortex, White Matter and Deep Nuclei of Baboons
  Emil Pasztor, Lindsay Symon, N. W. C. Dorsch, and Neil M. Branston .................. 556

Cerebral Apoplexy (Stroke) Treated With or Without Prolonged Artificial Hyperventilation: 1. Cerebral Circulation, Clinical Course, and Cause of Death
  M. Stig Christensen, Olaf B. Paulson, Jes Olesen, S. Craighead Alexander, Erik Skinhøj, Willy H. Dam, and Niels A. Lassen .................. 568

Cerebral Apoplexy (Stroke) Treated With or Without Prolonged Artificial Hyperventilation: 2. Cerebrospinal Fluid Acid-Base Balance and Intracranial Pressure
  M. Stig Christensen, Poul Brodersen, Jes Olesen, and Olaf B. Paulson .................. 620

Physiological Responses of Local Areas of the Cerebral Circulation in Experimental Primates Determined by the Method of Hydrogen Clearance
  Lindsay Symon, Emil Pasztor, N. W. C. Dorsch, and Neil M. Branston .................. 632

Evidence for Abnormalities in Clotting and Thrombolysis as a Risk Factor for Stroke
  Laurence O. Pilgeram, Anthony N. Chee, and Glenn Von Dem Bussche .................. 643

Cerebral Complications Following Measurements of Regional Cerebral Blood Flow ($rCBF$) With the Intra-Arterial $^{133}$Xenon Injection Method
  David H. Ingvar, and Niels A. Lassen .................................. 658

Prognosis in Patients With Transient Ischemic Attacks
  Dewey K. Ziegler, and Ruth Stephenson Hassanein .................. 666

Correlation of Continuous Electroencephalograms With Cerebral Blood Flow Measurements During Carotid Endarterectomy
  Frank W. Sharbrough, Joseph M. Messick, Jr., and Thoralf M. Sundt, Jr. .................. 674

The Treatment of Cerebrovascular Disease With Clofibrate
  Final Report of the Veterans Administration Cooperative Study of Atherosclerosis, Neurology Section .......................... 684

Intracranial Pressure Gradients Caused by Experimental Cerebral Ischemia and Edema
  Michael D. O'Brien, and Arthur G. Waltz .................................. 694

Abstracts ................................................................. 699

News from the American Heart Association .................................. 721

No. 5 (September-October)

The Relationship of Regional Cerebrovascular $CO_2$ Reactivity to Blood Pressure and Regional Resting Flow
  Robert H. Ackerman .......................................................... 725

Differences in the Occurrence of Carotid Transient Ischemic Attacks Associated With Antiplatelet Aggregation Therapy
  Mark L. Dyken, Oldrich J. Kolar, and F. Haven Jones .................................. 732

An Evaluation of Stroke Intensive Care: Results in a Municipal Hospital
  Samuel E. Pitter, and Cornelius J. Mance .................................. 737

Vascular Mechanisms Controlling a Constant Blood Supply to the Brain ("Autoregulation")
  George I. Mchedlishvili, Nodar P. Mitagvaria, and Leila G. Ormotsadze .................. 742

Hypertension and Diabetes as Risk Factors in Stroke Patients
  Sylvan Lavy, Eldad Melamed, Esther Cahane, and Amiram Carmon .................................. 751

(Continued)
Localized Neurogenic Vasocostriction of the Basilar Artery
John A. Bevan, and Rosemary D. Bevan .................................................. 760

Primary Subarachnoid Hemorrhage in Iceland
Gunnar Gudmundsson ........................................................................... 764

Cerebral Atherosclerosis in Japanese. 3. Predilection Site of Atherosclerotic Lesions
Y. Kikuchi, H. Yamamoto, and M. Nakamura ........................................... 768

Risk Factors in Stroke: A Clinical Study in Mexican Patients
L. Olivares, E. Castaneda, A. Grife, and M. Alter ....................................... 773

The Outcome of Stroke at Hospital Discharge in New York City Blacks
Stephen Q. Shafer, Bertel Bruun, and Ralph W. Richter ......................... 782

Cardiovascular Dimensions in Patients With Intracranial Arteriovenous Malformation
Juhani Peräsalo, Olli Waltimo, and Timo Heiskanen ................................ 787

The Effects of Increased Intracranial Pressure on Flow Through Major Cerebral Arteries In Vitro
J. K. Farrar, Jr., and Margot R. Roach ....................................................... 795

Fibrinogen Concentration and Immunoelectrophoresis in the Internal Jugular Vein and the Corresponding Arterial Blood in Ischemic Brain Afflictions
Oldrich J. Kolar, and Mark L. Dyken ......................................................... 807

Letters to the Editor .................................................................................. 813

Abstracts ................................................................................................. 814

News from the American Heart Association ........................................... 829

Report of the Joint Committee for Stroke Facilities—IX. Strokes in Children (Part 1) ................................................................. 835

No. 6 (November-December)

Management of Completed Strokes With Dextran 40. A Community Hospital Failure
Edward V. Spudis, Ernesto de la Torre, and Louis Pikula .......................... 895

Cerebral Atherosclerosis in European Populations: A Preliminary Report
A. B. Baker, J. A. Resch, and Ruth B. Loewenson .................................... 898

Regional Cerebral Blood Flow Determination by the Hydrogen Clearance Technique and Comparison With Oxygen Availability in the Rabbit
Andrew D. Jamieson, and James H. Halsey, Jr. .......................................... 904

Ulcerated Atheromatous Plaques of the Carotid Artery Bifurcation
J. B. Gomensoro, V. Maslenikov, J. A. De Boni, G. Laguardia de Perez,
J. Purriel, J. Medoc, R. Rodríguez Barrios, J. C. Abo, A. Tenyi, and
N. Azambuja .......................................................................................... 912

Autoregulation and Hyperemia of Cerebral Blood Flow as Evaluated by Thermal Diffusion
L. Philip Carter, and James R. Atkinson .................................................... 917

Epidemiology of In-Hospital Deaths Among Black Stroke Patients
Stephen Q. Shafer, Bertel Bruun, and Ralph W. Richter ......................... 923

The Contribution of Nonaneurysmal Intracranial Hemorrhage to Stroke Mortality in New York City Blacks
Stephen Q. Shafer, Bertel Bruun, and Ralph W. Richter ......................... 928

Acute Stroke Management and Patient Outcome: The Value of Neurovascular Care Units (NCU)
William E. Drake, Jr., Marsha J. Hamilton, Monica Carlsson, and Jack Blumenkrantz ................................................................. 933
