SUBJECT INDEX

Page Numbers in Italics refer to Abstracts

A

Acetylsalicylic acid
effect of aspirin on thrombosis, 387
TIA associated with antiplatelet aggregation therapy, 732

Acid-base changes
CSF changes by hyperventilation in stroke, 620
changes in blood and CSF in SAH and stroke, 820
circulation to brain of rat during acute and prolonged
respiratory changes in, 818
effect of changes of ventricular system on cerebral blood
flow in cats, 92
value of continuous measurement of, in cerebrospinal fluid
after cerebrovascular accident, 102

Acidosis
effect of pH on metabolism and ultrastructure, 221

Agerenels
effect of pH on metabolism and ultrastructure, 221

Adrenergic drugs
effects on cerebral circulation, 50
Adrenergic nerves
increased binding of norepinephrine by nerves to cerebral
blood vessels, 42, 813
Afferent activity
of canine aortie and sinus nerves, 254
Age distribution
stroke in central Harlem, 406
stroke in Jerusalem district (1960-67), 465

Aged patients. See Elderly patients

Alkalosis
effect of pH on metabolism and ultrastructure, 221

Alpha adrenergic blockade
alteration of experimental cerebral vasospasm by, 255
effects on autoregulation and chemical vasomotor control
of CBF in stroke, 187
effects on collagen-induced platelet release reaction, 105
effects on response of cerebral circulation to hypoxia
in baboons, 482

Alpha adrenergic receptors
effects of adrenergic drugs on cerebral circulation, 50
sympathetic cerebral vasoconstriction blocked by adrenergic
alpha receptor antagonists, 30

Amiaerosis fugax
indicators of extracranial carotid artery disease, 537
AMP inhibition
of reaction of ADP with washed platelets, 93
Amiyr nitrite
effects on coronary blood flow velocity, 243

Amyloidosis
hereditary cerebral hemorrhage with, 103

Anatomy
middle cerebral artery, 412

Anesthesics
effect of anesthetic depth on cerebral venous oxygen
concentration, 558

Aneurysms
of anterior communicating artery complex
ligation of anterior cerebral artery for, 819
results of proximal anterior cerebral artery occlusion
for, 85
atherosclerosis and aneurysm formation in saphenous
vein-graft, 827
cannulation of jugular bulb, 955
carotid artery
bilateral giant aneurysms of internal, 260
with rupture into the oropharynx, 256
cerebral
bypass anomaly of vertebral artery associated with
arteriovenous malformations and, 96
in children, 997, 1016
cervical internal carotid artery, 260
in children, 879
of common carotid artery, 719
congenital
of extracranial carotid arteries, 487
of extracranial carotid artery, 488
TIA and stroke due to, 254
familial
and infundibular widening, 258
interr
rapid formation of, 243
giant basilir
excision under profound hypothermia, 240
giant middle cerebral artery
spontaneous thrombosis in, 253
of internal carotid artery
associated with nonpenetrating neck trauma, 252
in intracranial angiographic investigations, 241
cli grafts for small vessel surgery and, 701
disturbances of serum electrolytes after surgery, 96
electronic radiography in stereotactic thrombosis of, 254
factors disposing to morbidity in surgery, 990
familial, 487, 716
familial occurrence of multiple, 253
papilloedema associated with ruptured, 817
progress in magnetically controlled stereotactic throm-
bosis, 822
and retinal hemorrhage, 105
ruptured: contrast agent extravasation, 242
treatment of multiple arterial, 991
warning signs prior to rupture, 990
intracranial saccular
microsurgical treatment, 700
neurological status and angiographical evidence of
spasm, 973
physical factors in initiation, growth, and rupture of, 701
scanning electron microscopy, 246
left atrial myxoma, 451
massive brain hemorrhage, 946
myotic
neurological manifestations of infective endocarditis, 958
pathogenesis of, 827
scan visualization, 484
neurosurgical management in children, 1023
posttraumatic intracranioens: epistaxis with monocular
blindness preceded by chromatopsia, 101
ruptured mycotic pericallosal, with meningitis, 247
traumatic aneurysms in intracranial circulation, 999
traumatic cerebral, 826
treatment by stereotactic ferromagnetic silicone thrombosis
718
vertebral and basilar arteries
posterior fossa approach to, 253
Angiography
in allergic women sensitive to contrast media, 259
artificial slow flow, with arteriovenous aneurysms in
carotid arteries, 494
biplane magnification cerebral, 699
carotid, ventricular opacification during, 699

Stroke, Vol. 4, November-December 1973

1057
INDEX

Angiography-Arteriovenous malformation

in child with stroke, 1012
administration of fluids, 1012
angiographic equipment, 1013
complications, 1012
contrast media, 1012
indications, 1012
premedication, 1012
technique, 1012
children and adults with mental retardation, 489
complications of, 126
detecting carotid occlusive disease by thermography, 57
heparin coating of catheters against thromboembolism, 490
in patients with subarachnoid hemorrhage, 127
personnel for, 124
postangiographic care, 127
practical use of medium and slow-speed screens, 481
procedures and equipment, 123
prognosis in TIA, 666
systemic heparinization for, 260
verification of cerebral death, 258
Angiomes
massive brain hemorrhage, 946
of nucleus caudatus head, 822
sequence of surgical treatment, 472
Angiography
effect on intracarotid, on regional cerebral blood flow, 99
blood clotting and fibrinolysis in presence of arteriosclerotic thromboembolism, 258
induction of cerebral ischemia, 988
effect of pH on metabolism and ultrastructure, 221
angiotensin II
induction of cerebral ischemia, 988
Angiography
clinical experience with circular, 482
Animals
cats
histochemical studies in zone of ischemia following middle cerebral artery occlusion, 83
regional CBF during stimulation of seventh cranial nerve, 213
dogs
alpha blocked vasocconstriction, 30
effects of blood gases on cerebral circulation, 65
induction of cerebral ischemia, 253
lactate in cerebrospinal fluid, 207
rabbits
increased intracranial pressure and CBF, 87
rats
increase in CBF by virepghaline, 218
Anticoagulant therapy
laboratory control of simultaneous treatment with intravenous heparin and oral anticoagulants, 258
neurosurgical complications, 702
for senile dementia, 472
spontaneous spinal epidural haematomata, rare complication of, 86
Antihypertensive drugs
orthostatic hypotension, 211
Aorta
coarctation of, 257
spinal cord complications following surgery for, 257
deposition of formed elements of blood on intima and signs of intimal injury, 244
Aortitis syndrome
follow-up observation of, 92
Apical syndromes
CBF and metabolism in complete apallic syndromes, 92
prognostic value of CBF measurement, 104
Aphasia
emotional state and awareness of speech defect in aphasic patients, 704
rapid amelioration of motor aphasia, 699
role of non-dominant hemisphere in restitution of speech in, 253
Arterial grafts
arterial microautografts: experimental study, 828
Arterial injury
carotid TIA associated with antiplatelet aggregation therapy, 732
Arterial occlusive disease
neurosurgical management in children, 1022
See also occlusive disease
Arterial peaks
effect of dexamethasone on edema of cerebral ischemia, 221
in cortex, white matter and deep nuclei, 556
Arterial occlusive disease
neurosurgical complications, 702
Arterial surger
bypass anomaly of vertebral artery associated with cerebral aneurysms and, 258
Arteries
of the brain, 489
Arteriography
carotid
and EEG findings in TIA, 7
human brain, morpholog differences in hemispheres, 100
small strokes in carotid territory associated with, 701
cerebral transit time of 99m technetium sodium pertechnetate, 990
intraoperative in carotid thromboendarterectomy, 991
Arteriography
noninvasive, 261
noninvasive arteriography, 261
ultrasonic visualization of arterial lumen, 104
Arteriosclerosis
blood clotting and fibrinolysis in presence of arteriosclerotic obstruction in extremity arterial vessels, 92
blood clotting and fibrinolysis in presence of arteriosclerotic obstruction in extremity arterial vessels, 92
experimental, evaluation of anapomopathological findings, 95
relations between metabolic increase of plasma free fatty acids and occurrence of arteriosclerotic thromboaeritis in rabbits, 708
Arteriovenous communications
in human brain, 716
tCBF determination by hydrogen clearance technique, 904
Arteriovenous malformations
artrial peaks in regional cerebral blood flow, 73
of the brain, 489
long-term clinical study, 473
bypass anomaly of vertebral artery associated with cerebral aneurysms and, 96
cardiovascular dimensions in patients with intracranial AVM, 787
as cause of cardiac hypertrophy in adults, 710
in children, 643, 1016
diagnosis in children, 877
intracranial dural, 240
localization by ventriculography combined with stereoscopic arteriography, 814
neurosurgical management in children, 1023
percutaneous embolization, 1016
postmortem findings following embolization of, 472
radioisotopic study, 100

Stroke, Vol. 4, November-December 1973
INDEX

effect of dexamethasone on edema of cerebral ischemia, 148
effect of increased intravascular pressure on, 89
lesions following injection of contrast media into vertebral artery, 105
Blood clots
radioactive urokinase for blood clot scanning, 100
See also Clotting
Blood flow
cerebral. See Cerebral blood flow
cortical. See Cortical blood flow
Blood gases
effects on pressure-flow relationships in canine cerebral circulation, 65
Blood pressure
descenting pathways in cervical cord of cats affecting sympathetic activity and, 249
effects of arterial blood pressure on rCBF volume by x-ray fluorescence, 390
pressure in pial arterial micrcirculation during changes in systemic arterial, 95
radioctometry by means of microcatheter technique, 485
relationship of regional cerebral CO2 reactivity to regional resting flow and, 725
Brachial artery
nonthrombotic arterial occlusion: complication following brachial artery catheterization, 714
thrombosis following cardiac catheterization, 243
management of postcatheterization, 259
Brachiocephalic vessels
surgical treatment of obstructive disease, 241
Brain
abscess, neurological manifestations of infective endocarditis, 958
arteriovenous communications in, 716
cortico-subcortical arterial angiarchitecture in human brain, 486
edema, steroid therapy of, 95
effect of pH on metabolism and ultrastructure, 221
morphologic differences in hemispheres demonstrated by carotid arteriography, 100
necrosis and repair in immature, 863
swelling due to experimental cerebral infarction: changes in vasomotor capacitance and effects of glycerol, 717
Brain-damaged patients
motor response time and task difficulty, 248
patterns in infants and children with congenital heart disease, 709
Brain injuries
differences of CBF and CSF in, 355
focal and rCBF calculated by bi-compartmental analysis and initial slope index, 354
Brain scanning
and EEG in detecting neurosurgical lesions, 245
procedures and equipment, 120
Brain slices
effect of pH on metabolism and ultrastructure, 221
Brain stem
blood pressure changes following vascular diseases in brain stem, 80
Buerger’s disease
aortic involvement, 713
observations of, 822
Bypass grafts
extracranial-intracranial, 243
See also under Surgery
C
Carbon dioxide
blood gases and canine cerebral circulation, 65
cerebrovascular response pattern during CO2 rebreathing, 348
changes in cerebral vasomotor reactivity to CO2 and autoregulation following subarachnoid hemorrhage, 263
Cholinergic mechanism in cerebrovascular action of, 969
effect on metabolism of ischemic brain in squirrel monkeys, 987
physiological responses of cerebral circulation determined by hydrogen clearance method, 632
regional CBF response to inhalation of carbon dioxide, 250
relationship to blood pressure and resting blood flow, 715, 725
Carbon monoxide
physiological and pathological effects of moderate exposure, 490
Carboxyhemoglobin levels
association between atherosclerotic disease and, in tobacco smokers, 824
Cardiac arrest
CBF dynamics in hypotension and, 823
Cardiac output
cerebrovascular dimensions in intracranial arteriovenous malformation, 787
Carotid artery
aneurysms, 256
cerebral internal, 260
common carotid artery, 719
diagnosis of internal carotid artery occlusion by Doppler sonography of ophthalmic artery, 104
effects of intra-arterial histamine on blood flow in, 46
endarterectomy
shunt clamp, 486
extracranial disease. See Extracranial carotid artery disease
extraluminal carotid endarterectomy, 95
fate of muscle and cotton wrapped about intracranial carotid arteries and aneurysms, 490
heparin protection for brain during reconstruction of, 89
internal aneurysms of, 260
aneurysms of petrous or cavernous portions, 991
bilateral giant aneurysms, 260
bilateral obstruction or stenosis of, 105
cerebral atherosclerosis in Japanese, 768
massive epistaxis from ruptured traumatic aneurysm, 991
traumatic aneurysms, 999
ligation
arterial collateralization after, 991
cerebral edema following, in gerbils, 988
occlusions
changes of left and right ventricular volumes induced by propranolol and subsequent carotid occlusion, 477
collateral cerebral blood pressure: index of tolerance to, 825
detecting by thermography, 57
EEG and arteriographical findings in TIA, 7
intraocular pressure and, 703
noninvasive detection and evaluation, 825
pulse curve in, 998
results of carotid compression tonographic test, 716
ultrastructural study, 964
prognosis in TIA, 666
pseudoaneurysms of, 998
stenosis, 478
EEG and arteriographical findings in TIA, 7
indications for surgery, 826
surgical repair of cerebral ischemia due to: six-year follow-up, 486
stroke associated with elongation and kinking of, 996
subclavian-carotid bypass for cerebrovascular insufficiency, 95
ulcerated atheromatous plaques of carotid artery bifurcation, 912
Carotid body
catecholamines and 5-hydroxytryptamine in vascular diseases, 85

Stroke, Vol. 4, November-December 1973
Cerebral blood flow (CBF)
in acute pyogenic meningitis and acute encephalitis, 353
alpha blocked vasoconstriction, 31
autoregulation, 742
brain blood flow in conscious and anesthetized rats, 706
cannulation of jugular bulb, 935
in carotid artery stenoses, 351
cerebral blood volume measurements as index of change in, 103
and cerebral metabolism in chronic renal insufficiency, 88
cerebrovascular regulation in preganglionic and postganglionic autonomic insufficiency, 12
control of CBF in goat: role of carotid rete, 244
correlation with EEG during carotid endarterectomy, 352
detecting carotid occlusive disease by thermography, 57
effects of adrenergic drugs on, 50
effects of alpha adrenergic blockade on autoregulation and chemical vasomotor control of CBF in stroke, 187
effects of dopamine, noradrenaline and 5-hydroxytryptamine on CBF in dogs, 263
effects of hydrocephalic process on CBF, 345
effects of increased intracranial pressure on flow through major cerebral arteries in vitro, 795
effects of intra-arterial histamine on blood flow in carotid artery, 46
following induced subarachnoid hemorrhage in monkeys, 255
guide to safety of carotid ligation, 351
hydrogen clearance method for assessment of, 356
increase in CBF in rabbit by viquidil, 218
increased binding of norepinephrine, 42, 813
influence of changes in acid-base composition of ventricular system on CBF, 92
lactate in cerebrospinal fluid, 207
measurements
based on xenon-133 inhalation, 257
multibolus technique, 483
noninvasive I.V. isotope method, 362
repeated measurements during intracranial surgery, 93
techniques for continuous measurement of local CBF, PaO2, PaCO2, and blood pressure in non-anesthetized animals, 994
variability of repeated clinical measurements, 364
prognostic value of measurement in apallic syndrome, 104
raised intracranial pressure and, 87
regional abnormalities in chronic schizophrenia, 353
arterial peaks in, in 133Xenon clearance curves, 73
in cerebral infarction, 349
cerebrovascular CO2 reactivity, blood pressure, and regional resting flow, 725
in children, 1011
complications after measurements with xenon injection, 638
correlation with regional oxygen uptake using 15O method, 102
during stimulation of seventh cranial nerve, 213
effect of intracarotid epinephrine, norepinephrine and angiotensin, 99
effect on neuropsychological disorders, 350
effects of arterial blood pressure, 390
flow in scintigraphically positive vascular brain lesions, 349
gamma camera 1,600-channel analyzer system for measurement of, 102
hydrogen clearance technique, 556
comparison with oxygen availability in rabbits, 904
and management of arterial hypertension, 352
measurement with anger camera, 487
microvascular surgery of brain and, 351
radioisotopic methods, 1011
response to carbon dioxide inhalation in CVD, 250

Jugular vein internal, fibrinogen concentration and immuno-electrophoresis in, 807

K

Krypton
increase in CBF by viquidil, 218

L

Lactate
CSF changes by hyperventilation in stroke, 620
Lactic acidosis
effect of dexamethasone on edema of cerebral ischemia, 148
from ischemic brain, 999
lactate in cerebrospinal fluid, 207
Lactate turnover and dietary fiber, 38
Lactose
massive brain hemorrhages, 946
strokes in children, 841
Levodopa
idiopathic orthostatic hypotension treated with, 96
Lidoxazine
effect on platelet function in vitro, 717
Limb blood vessels
mechanisms of action of hypocapnic alkalosis on, 480
Lipids
metabolism, of heart and arteries in relation to ischemic heart disease, 704
treatment of CVD with clofibrate, 684
Lipoproteins
ultrafiltration, 94
Lumbar puncture
procedures and equipment, 122
Lysolecithin
influence on platelet aggregation, 718

M

Macroglubulin
fibrinogen concentration and immuno-electrophoresis in internal jugular vein, 807
Malformations, arteriovenous
See Arteriovenous malformations
Malignant neoplastic diseases
nonbacterial thrombotic endocarditis in, 704
Mannitol
effect on CBF, 819
Manpower
comprehensive stroke centers, 514
current availability of physicians, selected specialists and therapists, 525

Stroke, Vol. 4, November-December 1973

Downloaded from http://stroke.ahajournals.org/ by guest on November 7, 2016
estimating requirements, 513
Joint Committee for Stroke facilities, 499, 513
training and education, 499
Massive epistaxis
from ruptured traumatic internal carotid artery aneurysm, 991
Mast cells
possible role in controlling diameter of arterioles, 717
Medical and surgical management
acute stroke and patient outcome: value of neurovascular care units, 933

vertebral-basilar artery syndrome, 278
Medullary infarcts
automatic respiratory failure associated with, 995
Memory difficulties
mesial temporal substratum of memory, 487
Meningitis
CBF in patients with, 353
haemophilus influenzae, vascular lesions in, 489
Meningoencephalitis
neurological manifestations of infective endocarditis, 958
Mental retardation
cerebral angiography in, 489
Meprobamate
prothrombin levels maintained with warfarin and, 101
Metabolism
cerebral autoregulation and, with deep hypothermia, 379
and cerebral blood flow in renal insufficiency, 88
effect of controlled hyperventilation on energy and acid-base states of rat brain, 378
effect of GABA on brain ATP formation, 374
effect of pH on ultrastructure and, of cerebral cortex slices, 221
effects of metabolic inhibitors on cerebral hemodynamics, electrical activity and cation transport, 375
effects of morphine and nalorphine on cerebral circulation and, 474
method for serial study of rCBF and, 377
potassium effects on energy metabolism and epileptiform activity in cat hippocampus, 375
prognostic value of carbohydrate metabolites in CSF, 375
question of uncoupling of cerebral oxidative phosphorylation in acute cerebral infarction, 378
study of PaO2 in CSF during clinical anesthesia, 377
in vivo measurement of cerebral glucose metabolism employing 31C-labeled glucose, 376
Methodology
atraumatic CBF estimation in man, 362
brain concentration of nicotine and antipyrine after intravenous injection, 336
determination of diffusion shunt in brain and its influence on blood flow measurements, 337
discrepancies in results of flow measurements using different isotopes, 335
diurnal rhythms in cerebral blood volume in mice, 366
expression of changes in CBF on compartmental weight, 337
heterogeneity of rCBF and regional distribution of relative weights of gray and white matter, 337
heterogeneity of titrated water uptake by brain, 339
influence of capillary permeability limitations on measurement of rCBF, 335
measurement of cerebral infarction edema with sodium, 22, 461
microsphere technique to measure rCBF, 338
noninvasive I.V. isotope method for measuring cerebral blood flow, 362
pulsatile blood flow pattern, 338
256 detector system for rCBF, 365
variability of repeated clinical measurements of CBF, 364
variation in gamma index, 336
xenon CBF studies
differences between “81-key and 31 key” decay curves, 364
pitfalls in studies in head-injured patients, 364
quantitating local CBF in 144 subdivisions of human brain, 365
Xenon inhalation technique for measuring CBF, 363
in carotid endarterectomy, 363
Methoxyflurane
effects on canine cerebral metabolism and blood flow, 708
Methylmethacrylate cement
fat embolism and cerebral infarction after use of, 254
Mexicans
risk factors in stroke, 773
Middle cerebral artery
anatomy: temporal branches, 412
embolectomy and prolonged widespread vasospasm, 446
occlusion, 694
transorbital approach for occluding, without craniectomy, 201
Migraine headaches
5-hydroxytryptamine levels and platelet aggregation in, 246
stroke in children, 845
vasomotor paralysis in, 352
Monitoring
cardiac monitoring of acute stroke patients, 88
Morbidity
prognosis in TIA, 666
strokes in children, 838
treatment of CVD with clofibrate, 684
Morphine
effects of nalorphine and, on canine cerebral metabolism and circulation, 474
Mortality
epidemiology of in-hospital deaths among Blacks, 923
evaluation of stroke intensive care, 737
factors in patients with acute stroke, 997
natural history of stroke in Rochester, Minn., 20
nonaneurysmal intracranial hemorrhage and stroke mortality among Blacks, 928
prognosis in TIA, 666

O

Obesity. See Overweight and obesity

Occlusions
  alterations in cerebrospinal fluid flow dynamics in
cerebrovascular occlusive disease, 91
  carotid artery
    detecting by thermography, 57
    diagnosis by Doppler sonography of ophthalmic artery,
    104
  872
  EEG and arteriographical findings in TIA, 7
  changes in radioisotope cisternogram in cerebrovascular-
occlusive disease, 103
  in children, 1013
  extracranial occlusive disease, 1013
  intracranial occlusive disease
    in children, 1014
    EEG and arteriographical findings in carotid artery
    TIA, 7
  multiple progressive intracranial arterial occlusions, 380
  stenosis of internal carotid artery, 1013

Occlusive disease
  treated by enzymatic clot lysis, 478

Occlusive disorders
  neurosurgical management in children, 1021

Ocular blood flow
  autoregulation of, 707

Ocular fundus
  morbidity and survivorship of patients with embolic
  cholesterol crystals in, 718

Omenum
  brain vascularization by intact omentum, 988

Ophthalmic artery
  occlusion, ischemic ophthalmia secondary to, 261
  reversed flow through as cause of rubecosis iridis, 485

Ophthalmodynamometry (ODM)
  procedures and equipment, 115

Ophthalmological examination
  procedures and equipment, 115

Ophthalmoplegia, painful
  angiographic findings in, 479

Optic disc vasculitis
  in young adults, 487

Optic nerve
  involvement in diabetes, 699

Optic neuropathy
  nonprogressive glaucoma and, 821

Oral contraceptives
  cerebrovascular incidents while taking, 815
  effect of blood clotting and platelets, 703
  effects on renin-angiotensin system and blood pressure,
  819
  and increased risk of cerebral ischemia or thrombosis,
  987
  and platelet function, 717

Orthostatic syndrome
  hyperbradydinism, 475

Overweight and obesity
  platelet adhesiveness, coagulation, and fibrinolytic activity,
  106
  risk factors in coronary heart disease, 99
  risk factors in stroke in Mexican patients, 773

Oxygen
  correlation of regional CBF with regional oxygen uptake
  using 5O method, 102
  evidence for direct control of coronary vascular tone by,
  712
  plasma proteins, oxygen transport and atherosclerosis,
  97
  post-ischemic oxygen availability and consumption of
  isolated perfused brain of dogs, 94
  rate of turnover in cerebrospinal fluid, 87

Oxygen saturation
  blood gases and canine cerebral circulation, 65

Oxygen uptake
  effect of pH on metabolism and ultrastructure, 221

Oxygenation
  arterial
    in central nervous system trauma patients, 999
    hyperbaric
      blood flow changes in carotid and vertebral arteries by,
      823
      size of infarct and, 483

P

pH adaptation
  CSF changes by hyperventilation in stroke, 620
  effect on metabolism and ultrastructure of cerebral cortex
  slices, 221
  lactate in cerebrospinal fluid, 207

Pacing, ventricular
  effect on long-term survival, 247

Papaverine
  effects in experimental vasospasm, 706
  effects of adrenergic drugs on cerebral circulation, 50
  ergot alkaloid preparation (Hydergine) versus, in treating
  aged, 820

Papilloedema
  associated with ruptured intracranial aneurysms, 817
  Paraformaldehyde technique
    increased binding of norepinephrine, 42, 813

Parapharyngeal space
  penetrating injuries of, 93

Pathophysiology
  research needs, 516

Peltri effect probe
  autoregulation and hyperemia of CBF as evaluated by
  thermal diffusion, 917

Percutaneous puncture
  microaneurysms of carotid artery after, 479

Perfusion pressure
  clinical effect of hyperventilation in stroke, 568
  effect of increased intracranial pressure, 795
  effects of alpha adrenergic blockade, 187
  physiological responses of cerebral circulation, 632
  quantitative evaluation of CBF to perfusion pressure,
  712
  regional autoregulation in cerebral circulation, 139
  regional cerebrovascular CO2 reactivity, blood pressure,
  and regional resting flow, 725
  rCBF during stimulation of seventh cranial nerve, 213

Peritonaeum
  autogenous peritoneum as arterial patch graft, 715

Perivascular osmolarity
  effect on diameter of pial arteries, 713

Periventricular atherosclerotic leukoencephalopathy, 257

Periventricular leukomalacia
  pathogenesis and evolution in infancy, 94

Permeability
  pathophysiology of increased cerebrovascular permeability
  in acute arterial hypertension, 90
  temporary alteration of cerebrovascular permeability to
  plasma protein during drug-induced seizures, 93

Pernamine
  for preventing thromboembolism following valve replace-
  ment, 100

Phenformin
  plus ethyloestrenol in survivors of myocardial infarction:
  three-year pilot study, 245

Stroke, Vol. 4, November-December 1973

pharmacology and anesthesia, 356
Systemic lupus erythematosus
cyclophosphamide in treatment of, 991
in the elderly, 253
ocular findings in, 821
procainamide-induced, 249
T
Takayasu's arteritis
total aortography in diagnosis of, 260
Teaching Scholar program
promise of better patient care, 492
Technetium
cerebral transit time of 99m technetium sodium pertechnetate before and after cerebral arteriography, 990
scanning of subdural hematomas, 989
Temporal arteries
detecting carotid occlusive disease by thermography, 57
observations on, 488
Tenorial herniation
clinical effect of hyperventilation in stroke, 568
Therapists
current availability of, 527
Thermal diffusion
autoregulation and hyperemia of CBF as evaluated by, 917
Thermography
detecting carotid occlusive disease by, 57
use with children, 1011
Thrombocytopaenia
in children, 842
Thrombocytosis
in children, 842
Thromboembolism
complications during anticoagulant therapy, 89
pensamine in preventing, following valve replacement, 100
Thrombolysis
abnormalities as risk factor for stroke, 643
Thromboplastin
abnormalities in clotting and thrombolysis as risk factors, 643
value of monitoring heparin treatment with activated partial thromboplastin time, 105
Thromboplastin generation test
stroke and blood coagulation, 400
Thrombosis
anatomy of middle cerebral artery, 412
carotid TIA associated with antplatelet aggregation therapy, 732
cerebral atherosclerosis in Japanese, 768
in child with stroke, 1013
effect of aspirin on, 387
estrogen in treatment of, 987
experimental and selective in situ lysis by catheter technique, 482
incorporation of 125I-labelled fibrinogen into coronary arterial thrombi in AMI, 702
induced by inversion of arterial branch, 252
induction in guinea pigs by brain tumors, 479
intracranial venous, 712
in children, 1016
latent cerebral venous frequency, relation to age, and congestive heart failure, 419
microcirculatory relation to thrombus in proximal coronary artery: effect of aspirin, dipryridamole and thrombolysis, 999
stroke and blood coagulation, 400
thromboembolism and stroke, 459
venous effect of aspirin on postoperative, 99
massive brain hemorrhages, 946
visual field defects and prognosis of stroke, 163
Thrombus formation
effect of aspirin on vascular catheters in cats, 481
experimental arterial, 819
reduction of, on dialysis membranes by aspirin and RA, 233, 478
Tissues
response to arterial substitute of bovine origin, 249
Tolosa-Hunt syndrome
angiographic findings in, 479
Tomography
clinical experience with circular angiotomography, 482
Tortuosity
neurosurgical management in children, 1022
Tracheostomies
control of common carotid and innominate artery hemorrhage complicating, 826
and stroke, 459
Training and education
dieticians, 510
Joint Committee report, 499
medical students, 502
nurses, 508
rehabilitation nurse, 509
occupational therapists, 511
overview, 500
physical therapists, 511
physicians, 503
current availability of, 525
internists and/or cardiologists, 503
neurologists, 504
neurosurgeons, 505
ophthalmologists, 505
orthopaedic surgeons, 506
pathologists, 506
physiatrists, 507
radiologists, 507
urologists, 508
vascular surgeons, 508
psychologists, 510
social workers, 512
speech pathologists, 510
survey of predoctoral stroke education, 512
vocational rehabilitation counselors, 512
Transient focal cerebral ischemia
in cardiac dysrhythmia, 711
Transient ischemic attacks
cardiac dysrhythmia and, 989
differences in occurrence of carotid TIA associated with antplatelet aggregation therapy, 732
effect of aspirin on thromboembolism, 387
ECG changes, 999
EEG and arteriographical findings in carotid artery TIAs, 7
extracranial arterial reconstruction for, 995
impaired neurogenic CV control and dysautoregulation after stroke, 169
indicators of extracranial arterial artery disease, 537
medical treatment, 294
monocular TIAS and external carotid artery, 991
prevalence and prognosis in biracial rural community, 1000
prognosis, 666
and risk of stroke in elderly poor population, 980
in Rochester, Minn. (1955-66), 816
and stenotic lesions of neck vessels, 294
surgical treatment, 295
Treatment of CVD with clofibrate, 684
ulcerated atheromatous plaques of the carotid artery bifurcation, 912

Stroke, Vol. 4, November-December 1973

1077
INDEX

Transverse dural sinuses
narrow and atretic, 995

Trauma
rCBF in brain and cervical cord in experimental head trauma, 334
stroke in children, 844
Tumors, cerebral
remitting signs in cerebral mass lesions, 989

U
Ulcerated atheromatous plaques
of carotid artery bifurcation, 912

Ultrasound
Doppler measurements of superior sagittal sinus blood velocity, 255
extracranial vascular disease, 257
procedures and equipment, 129
use of Doppler ultrasonic flowmeter during arterial vascular surgery, 89
use with children, 1011

Ultrastructural studies
disaggregation of polyribosomes in intact gerbils following ischemia, 964
effect of pH on metabolism and, of cerebral cortex slices, 221

Urethane anesthesia
cholinergic control of cortical blood flow, 232

Urokinase
radioactive, for blood clot scanning, 100
therapy: dosage schedules and coagulant side effects, 101

V
Valsalva maneuver
and CBF velocity 247
Vascular resistance
See Cerebral vascular resistance

Vasculitis
stroke in children, 842
Vasoconstriction
absence with hyperventilation in tetraplegic man, 98
of basilar artery, 760
evidence of vasoconstrictor sympathetic nerves in brain vessels of mice, 715
middle cerebral artery embolectomy and prolonged widespread vasospasm, 446
modification with hyperventilation in normal man by thymoxamine, 98
sympathetic cerebral vasoconstriction blocked by adrenergic alpha receptor antagonists, 30
sympathetic neural influence on norepinephrine vasospasm in brain vessels, 474

Vasodilation
rCBF during stimulation of seventh cranial nerve, 213
effects of intra-hemispheric asthma, 46

Vasomotor nervous control
autoregulation, 742
mechanism of chemical control of cerebral vasomotor activity, 823

Vasoparcysis
clinical effect of hyperventilation in stroke, 568

Vasopressor pathways
electrophysiological studies on organization of, 714

Vasospasm, cerebral
alteration by adrenergic blockade, 255
CBF evaluation of prolonged experimental, 255
middle cerebral artery embolectomy and prolonged widespread vasospasm, 446
reversal of, 1001
role of prostaglandin-F, in genesis of, 248
treatment with isoproterenol and lidocaine hydrochloride, 357, 994

Venous occlusion
neurosurgical management in children, 1023
See also Occlusions
Venous outflow
regional autoregulation in cerebral circulation, 139

Ventilation
clinical effect of hyperventilation in stroke, 568
Ventricular drainage
extradural hemorrhage and, 87
Ventricular pacing
effect on long-term survival, 247
Ventriculography
localization of intraventricular arteriovenous malformations, 814

Vertebral artery
bypass anomaly associated with cerebral aneurysm and arteriovenous malformation, 96
extracranial and intracranial structures, 250
giant cell arteritis, 709
obstruction by hyperextension of the neck, 997
post-angiographic vertebral arteriovenous fistulae, 263
Vertebro-basilar arteries
impaired neurogenic cerebrovascular control and dysautoregulation after stroke, 169
occlusions, study with post-mortem data, 819

Vertigo
prognosis in TIA, 666

Veterans Administration Cooperative Study Group
treatment of CVD with clofibrate, 684

Viguidil
increase in CBF by, 218
Visual field defects
prognosis of stroke and, 163

Volume
cardiovascular dimensions in intracranial arteriovenous malformation, 787
quantitative isotope studies of cerebral vascular volume, 827

Wall/lumen ratio
effects of increased intracranial pressure, 795

Warfarin
interaction of benzodiazepines with, 244
interaction of sodium warfarin and disulfiram, 484
prothrombin levels maintained with meprobamate and, 101
smoking and warfarin dosage, 488

Water areas
clinical and biochemical indicators of CVD among men living in hard and soft water areas, 704

White matter
degeneration in hypoxia, acidosis and edema, 718
hydrogen clearance method in assessment of, 556
physiological responses of cerebral circulation, 632

Women
cryptogenic drop attacks: an affliction of women, 817

Xenon-133
arterial peaks in rCBF, 73
cerebral complications following rCBF measurements, 658
CBF measurements
differences between "81-key and 31-key" decay curves, 364
inhalation technique, 363
in carotid endarterectomy, 363
pitfalls in studies in head-injured patients, 364
quantifying local CBF in 144 subdivisions of human brain, 365
diffusion bypass of xenon in brain circulation, 817
EEG and CBF measurements during carotid endarterectomy, 674
inhalation technique for measuring CBF, 363
regional cerebrovascular CO2 reactivity, blood pressure, and regional resting flow, 725
X-ray fluorescence
effects of arterial blood pressure on rCBF, 390

Young people
multiple progressive intracranial arterial occlusions, 380
occlusion of basilar artery, 258
pathoanatomical changes in older child, 864

Stroke, Vol. 4, November-December 1973
