Subject Index

Page Numbers in Italics refer to Abstracts

A

Acetylsalicylic acid
effect of aspirin on thrombosis, 387
TIA associated with antiplatelet aggregation therapy, 732

Acid-base changes
cerebral changes by hyperventilation in stroke, 620
total changes in blood and CSF in SAH and stroke, 820
cerebral circulation to brain of rat during acute and prolonged respiratory changes in, 818
effect of changes of ventricular system on cerebral blood flow in cats, 92
value of continuous measurement of, in cerebrospinal fluid after cerebrovascular accident, 102

Acidosis
effect of pH on metabolism and ultrastructure, 221

Adrenergic drugs
effects on cerebral circulation, 50

Adrenergic nerves
increased binding of norepinephrine by nerves to cerebral blood vessels, 42, 813
afferent activity
of canine aortic and sinus nerves, 254
age distribution
stroke in central Harlem, 406
stroke in Jerusalem district (1960-67), 465
aged patients. See Elderly patients

Alkalosis
effect of pH on metabolism and ultrastructure, 221

Alpha adrenergic blockade
alteration of experimental cerebral vasospasm by, 255
effects on autoregulation and chemical vasomotor control of CF in stroke, 187
effects on collagen-induced platelet release reaction, 105
effects on response of cerebral circulation to hypoxia in baboons, 482

Alpha adrenergic receptors
effects of adrenergic drugs on cerebral circulation, 50
sympathetic cerebral vasconstriction blocked by adrenergic alpha receptor antagonists, 30

Amaurosis fugax
indicators of extracranial carotid artery disease, 537

AMP inhibition
effect of reaction of ADP with washed platelets, 255

Amyloidosis
hereditary cerebral hemorrhage with, 103

Anoxia
middle cerebral artery, 412

Anesthesia
effect of anesthetic depth on cerebral venous oxygen concentration, 558

Aneurysms
of anterior communicating artery complex ligation of anterior cerebral artery for, 819
results of proximal anterior cerebral artery occlusion for, 85
atherosclerosis and aneurysm formation in saphenous vein-graft, 827
cannulation of jugular bulb, 955

carotid artery
bilateral giant aneurysms of internal, 260
with rupture into the oropharynx, 256

cerebral bypass anomaly of vertebral artery associated with arteriovenous malformations and, 96
in children, 997, 1016
in children, 879
of common carotid artery, 719
genital
of extracranial carotid arteries, 487
of extracranial carotid artery, 488
of TIA and stroke due to, 254
familial
and infundibular widening, 258
giant
rapid formation of, 243
giant basilar excision under profound hypothermia, 240
giant middle cerebral artery
spontaneous thrombosis in, 253
of internal carotid artery
associated with nonpenetrating neck trauma, 252
intracranial angiographic investigations, 241
clip-grafts for small vessel surgery and, 817
disturbances of serum electrolytes after surgery, 96
electronic radiography in stereotactic thrombosis of, 254
factors disposing to morbidity in surgery, 990
familial, 487, 716
familial occurrence of multiple, 253
papilloedema associated with ruptured, 817
progress in magnetically controlled stereotactic thrombosis, 822
and retinal hemorrhage, 105
ruptured: contrast agent extravasation, 242
treatment of multiple arterial, 991
warning signs prior to rupture, 990

intracranial saercolastion
microsurgical treatment, 700
neurological status and angiographical evidence of spasm, 973
physical factors in initiation, growth, and rupture of, 701
scanning electron microscopy, 246
left atrial myxoma, 451
massive brain hemorrhage, 946
myotic
neurological manifestations of infective endocarditis, 958
pathogenesis of, 827
scan visualization, 484
neurosurgical management in children, 1023
posttraumatic intracranial venous: epistaxis with monoclar blindness preceded by chromatopsia, 101
ruptured myotic pericallosal, with meningitis, 247
traumatic aneurysms in intracranial circulation, 999
traumatic cerebral, 826

Angiography
in allergic women sensitive to contrast media, 259
artificial slow flow, with arteriovenous aneurysms in carotid arteries, 494
biplane magnification cerebral, 699
carotid, ventricular opacification during, 699

Stroke, Vol. 4, November-December 1973

1057
in child with stroke, 1012
administration of fluids, 1012
angiographic equipment, 1013
complications, 1012
contrast media, 1012
indications, 1012
premedication, 1012
technique, 1012
children and adults with mental retardation, 489
complications of, 126
detecting carotid occlusive disease by thermography, 57
heparin coating of catheters against thromboembolism, 490
in patients with subarachnoid hemorrhage, 127
personnel for, 124
postangiographic care, 127
practical use of medium and slow-speed screens, 481
procedures and equipment, 123
prognosis in TIA, 666
systemic heparinization for, 260
verification of cerebral death, 258
Angioma
massive brain hemorrhage, 946
of nucleus caudateus head, 822
sequelae of surgical treatment, 472
Angiography
clinical experience with circular, 482
Animals
cats
histochemical studies in zone of ischemia following middle cerebral artery occlusion, 85
regional CBF during stimulation of seventh cranial nerve, 213
dogs
alpha blocked vasconstriction, 30
effects of blood gases on cerebral circulation, 65
induction of cerebral ischemia, 253
lactate in cerebrospinal fluid, 267
gerbils
cerebral edema due to cerebral infarction in, 329
cerebral edema following carotid artery ligation, 988
disaggregation of polyribosomes in intact gerbils following ischemia: ultrastructural study, 964
goats
effects of adrenergic drugs on cerebral circulation, 50
guinea pigs
effect of pH on metabolism and ultrastructure, 221
primates
effect of dexamethasone on edema of cerebral ischemia, 148
experimental studies of hyperemia phenomena in cerebral circulation of primates, 102
hydrogen clearance method is assessment of blood flow in cortex, white matter and deep nuclei, 536
neuropathology of systemic circulatory arrest, 99
raised intracranial pressure and CBF, 87
rabbits
increase in CBF by vixidil, 218
rats
alteration of course of hypertension in SHR, 91
cholinergic control of cortical blood flow, 232
increased binding of norepinephrine, 42
Anoxia
effects of prolonged asphyxia and, on rat brain, 484
in vitro model for biochemical study, 409
ischemic anoxia and cerebral serotonin levels, 105
Anterior cerebral artery
results of proximal occlusion for anterior communicating aneurysms, 83
Anticoagulant therapy
laboratory control of simultaneous treatment with intravenous heparin and oral anticoagulants, 258
neurosurgical complications, 702
for senile dementia, 472
spontaneous spinal epidural haematoma, rare complication of, 86
thromboembolic complications during, 89
Antimigrain drugs
effects on vascular responses, 104
Antitrypsin
fibrinogen concentration and immunoelectrophoresis in internal jugular vein, 807
Aorta
coarctation of
spinal cord complications following surgery for, 257
deposition of formed elements of blood on intima and signs of intimal injury, 244
Aortitis syndrome
follow-up observation of, 92
Apallic syndromes
CBF and metabolism in complete apallic syndromes, 92
prognostic value of CBF measurement, 104
Aphasia
emotional state and awareness of speech defect in aphasic patients, 704
rapid amelioration of motor aphasia, 699
role of non-dominant hemisphere in restitution of speech in, 253
Arterial grafts
arterial micrograft: experimental study, 828
Arterial injury
carotid TIA associated with antiplatelet aggregation therapy, 732
Arterial occlusive disease
neurosurgical management in children, 1022
See also occlusive disease
Arterial peaks
in regional cerebral blood flow 133Xenon clearance curves, 73
Arteries
noninvasive arteriography, 261
ultrasonic visualization of arterial lumen, 104
Arteriography
carotid
and EEG findings in TIA, 7
human brain. morphologic differences in hemispheres, 102
small strokes in carotid territory associated with, 701
cerebral transit time of 99m technetium sodium pertechnetate, 990
intraoperative in carotid thromboendarterectomy, 991
noninvasive, 261
transaxillary selective four-vessel arteriography, 93
Arteriosclerosis
blood clotting and fibrinolysis in presence of arteriosclerotic obstruction in extremity arterial vessels, 92
experimental, evaluation of anatomicopathological findings, 96
relations between metabolic increase of plasma free fatty acids and occurrence of arteriosclerotic thrombosis in rabbits, 708
Arteriovenous communications
in human brain, 716
tCBF determination by hydrogen clearance technique, 904
Arteriovenous malformations
arterial peaks in regional cerebral blood flow, 73
of the brain, 489
long-term clinical study, 473
bypass anomaly of vertebral artery associated with cerebral aneurysms and, 96
cardiocirculatory dimensions in patients with intracranial AVM, 787
as cause of cardiac hypertrophy in adults, 710
in children, 843, 1016
diagnosis in children, 877
intracranial dural, 240
localization by ventriculography combined with stereoscopic arteriography, 814
neurosurgical management in children, 1023
percutaneous embolization, 1016
postmortem findings following embolization of, 472
radioisotopic study, 100
relationship of size, density and localization of intracranial spontaneous angiographic disappearance of, 821

Arteritis
giant cell
tissues of head and neck in, 250, 709
clinical and biopsy findings, 478
immunofluorescent studies in, 999
massive brain hemorrhages, 946
Takayasu, 260

Asphyxia
effects of acute anoxia and, on rat brain, 484
unilateral brain damage produced by venous perfusion of one carotid artery, 823

Aspirin
effect on brachial artery occlusion, 816
effect on experimentally induced thrombosis during healing phase, 387
effect on postoperative venous thrombosis, 99
effect on thrombus formation on vascular catheters in cats, 481
effect upon thrombosis and arrhythmia, 257
gastric bleeding and beorylate, 244
and MI in patients with rheumatoid arthritis, 260
relation between bleeding time and platelet connective tissue reaction, 815, 816

Atherogenesis, 710
filtration theory of, 94
Atheromatous plaques
classification of, in vessel wall, 710
Atherosclerosis
cerebral in dogs, 994
in European populations: preliminary report, 898
in diabetes mellitus, 90, 482
effect of increased intracranial pressure, 795
effects of diabetes mellitus and hypertension on coronary sclerosis, 90
evaluation of lesions in cerebral arteries by unaided visual estimation, 475
experimental influence of segmental hypotension, 103
histochemical and ultrastructural study of gross fatty streak lesions, 478
in human populations, 475
hyperlipidemia and, 821
interaction of lipoproteins with elastin of arterial intima, 702
in Japanese predilection site of atherosclerotic lesions, 768
in middle cerebral artery, 412
in Negroes and Caucasians, 475
new concept on atherogenesis and treatment of, 94, 710
plasma proteins, oxygen transport and, 97
predisposition to, in head, heart and legs: Framingham (Mass.) Study, 101
strokes in children, 840
treatment of CVD with clofibrate, 684

Atherothrombotic brain infarction
epidemiology of in-hospital deaths among Blacks, 923
role of impaired cardiac function: Framingham Study, 715

Atlanta Community High Blood Pressure Program
screening methods, 240

Aretia
of rostral superior sagittal sinus, 993

Atropine
cholinergic mechanism in cerebrovascular action of carbon dioxide, 969

Autonomic nervous system
cerebrovascular regulation, 12

Autopsy findings
clinical effect of hyperventilation in stroke, 568

Autoregulation
acute arterial hypertension and blood-brain barrier, 323
canine cerebral circulation, 65

INDEX

[Arteriovenous malformation–Blood-brain barrier]
in cerebral perfusion pressure experiments, 325
CSF aid-base parameters and deep halothane hypotension, 324
cholinergic control of cortical blood flow, 232
correlation of regional cerebral blood volume with PaO2, and arterial blood pressure, 325
during controlled hypotension, 324
effects of alpha adrenergic blockade, 187
effects of arterial blood pressure on rCBF, 390
effects of local increases of venous pressure on canine cerebral hemodynamics, 323
effects of lowered cardiac output, 324
EEG and CBF measurements during surgery, 674
and hyperemia of CBF as evaluated by thermal diffusion, 917
impaired neurogenic CV control and dysautoregulation after stroke, 169
lactate in cerebrospinal fluid, 207
cerebral hemodynamics, 323
derived blood flow, 707
physiological responses of cerebral circulation, 632
regional cerebrovascular CO2 reactivity, blood pressure, and regional resting flow, 725
vascular mechanisms controlling constant blood supply to brain, 742

Ayillary arteries
complications of arteriotomies, 91
transaxillary selective four-vessel arteriography, 93

Ayillary-axillary bypass
treatment of CVD with clofibrate, 684

B
Bacterial endocarditis
in heroin addicts, 484
neurological manifestations of infective endocarditis, 958

Barbiturates
protection against cerebral infarction, 358

Baroreceptor reflexes
central nervous system control of, 472
participation of central nonadrenergic neurons in arterial, 474

Basal ganglia
rCBF during stimulation of seventh cranial nerve, 213

Basilar artery
prognosis in TIA, 666
topographical correlations to skull base structures, 242

Bedsores
in chronically ill patients, 247

Behavioral effects
autocerebral perfusion, hypothermia and arrest of CBF in monkeys, 989

Benorilate
gastric bleeding and, 242, 244

Benzodiazepines
interactions with warfarin, 244

Beta adrenergic receptors
effects of adrenergic drugs on cerebral circulation, 50

Bilirubin level
hyperbilirubinemia in acute hemorrhagic stroke, 999
Posterolateral
contribution of mononeurysmal intracranial hemorrhage to stroke mortality, 928
epidemiology of in-hospital deaths, 923
outcome of stroke at hospital discharge, 782

Blinding
treatment of CVD with clofibrate, 684

Blood-brain barrier
concomitant intravital and postmortem demonstration of experimental damage to, 90

Bony window

Bovine cerebral circulation, 65

Brain aracnoid

Brain stem

Brain stem hemorrhage
conducive to type of initial symptom, 321

Brain stem lesions
in cerebral perfusion pressure experiments, 325
CSF aid-base parameters and deep halothane hypotension, 324

Brachial arteries
effect on brachial artery occlusion, 816
effect on experimentally induced thrombosis during healing phase, 387
effect on postoperative venous thrombosis, 99
effect on thrombus formation on vascular catheters in cats, 481
effect upon thrombosis and arrhythmia, 257
gastric bleeding and benorylate, 244
and MI in patients with rheumatoid arthritis, 260
relation between bleeding time and platelet connective tissue reaction, 815, 816

Bacterial endocarditis
in heroin addicts, 484
neurological manifestations of infective endocarditis, 958

Barbiturates
protection against cerebral infarction, 358

Baroreceptor reflexes
central nervous system control of, 472
participation of central nonadrenergic neurons in arterial, 474

Basal ganglia
rCBF during stimulation of seventh cranial nerve, 213

Basilar artery
prognosis in TIA, 666
topographical correlations to skull base structures, 242

Bedsores
in chronically ill patients, 247

Behavioral effects
autocerebral perfusion, hypothermia and arrest of CBF in monkeys, 989

Benorilate
gastric bleeding and, 242, 244

Benzodiazepines
interactions with warfarin, 244

Beta adrenergic receptors
effects of adrenergic drugs on cerebral circulation, 50

Bilirubin level
hyperbilirubinemia in acute hemorrhagic stroke, 999

Black stroke patients,
contribution of mononeurysmal intracranial hemorrhage to stroke mortality, 928
epidemiology of in-hospital deaths, 923
outcome of stroke at hospital discharge, 782

Blinding
as screening test for evaluation of platelet function, 103

Blindness
internal carotid occlusion and contralateral episodic blindness, 822

Blood-brain barrier
concomitant intravital and postmortem demonstration of experimental damage to, 90

Stroke, Vol. 4, November-December 1973

Downloaded from http://stroke.ahajournals.org/ by guest on October 31, 2017
INDEX

changes in cerebral vasomotor reactivity to CO₂ and autoregulation following subarachnoid hemorrhage, 263
cholinergic mechanism in cerebrovascular action of, 969
effect on metabolism of ischemic brain in squirrel monkeys, 987
physiological responses of cerebral circulation determined by hydrogen clearance method, 632
regional CBF response to inhalation of carbon dioxide, 250
relationship to blood pressure and resting blood flow, 715, 725
Carbon monoxide
physiological and pathological effects of moderate exposure, 490
Carboxyhemoglobin levels
association between atherosclerotic disease and, in tobacco smokers, 824
Cardiac arrest
CBF dynamics in hypotension and, 823
Cardiac output
cardiovascular dimensions in intracranial arteriovenous malformation, 787
Carotid artery
aneurysms, 256
dermal internal, 260
carotid artery catheterization, 243
diagnosis of internal carotid artery occlusion by Doppler sonography of ophthalmic artery, 104
effects of intra-arterial histamine on blood flow in, 46
detected by thermography, 57
detected by thermography, 57
detected by thermography, 57
endarterectomy
shunt clamp, 486
extracranial disease. See Extracranial carotid artery disease
exteraluminal carotid endarterectomy, 95
effect of muscle and cotton wrapped about intracranial carotid arteries and aneurysms, 490
heparin protection for brain during reconstruction of, 89
internal aneurysms of, 260
aneurysms of petrous or cavernous portions, 991
bilateral giant aneurysms, 260
bilateral obstruction or stenosis of, 105
cerebral atherosclerosis in Japanese, 768
massive epistaxis from ruptured traumatic aneurysm, 991
traumatic aneurysms, 999
ligation
arterial collateralization after, 991
cerebral edema following, in gerbils, 988
occlusion
changes of left and right ventricular volumes induced by propranolol and subsequent carotid occlusion, 477
clinical evaluation and correction of, 253
collateral cerebral blood pressure: index of tolerance to, 825
detecting by thermography, 57
EEG and arteriographical findings in TIA, 7
intracranial pressure and, 703
noninvasive detection and evaluation, 825
pulse curve in, 998
results of carotid compression tonographic test, 716
ultrastructural study, 964
prognosis in TIA, 666
pseudoaneurysms of, 998
stenosis, 478
EEG and arteriographical findings in TIA, 7
indications for surgery, 826
survival repair of cerebral ischemia due to: six-year follow-up, 486
stroke associated with elongation and kinking of, 996
subclavian-carotid bypass for cerebrovascular insufficiency, 95
ulcerated atheromatous plaques of carotid artery bifurcation, 912
Carotid body
catecholamines and 5-hydroxytryptamine in vascular diseases, 85

C
Cannulation
jugular bulb, simplified technique for, 955
Carbon dioxide
blood gases and canine cerebral circulation, 65
cerebrovascular response pattern during CO₂ rebreathing, 348

1060

Stroke, Vol. 4, November-December 1973
INDEX

[Carotid body–Cerebral blood flow (CBF)]

Cerebral blood flow (CBF) in acute pyogenic meningitis and acute encephalitis, 353
alpha blocked vasoconstriction, 31
autoregulation, 742
brain blood flow in conscious and anesthetized rats, 706
cannulation of jugular bulb, 952
in carotid artery stenoses, 351
cerebral blood volume measurements as index of change in, 103
cerebral metabolic in chronic renal insufficiency, 88
cerebrovascular regulation in preganglionic and postganglionic autonomic insufficiency, 12
correlation of CBG in goat: role of carotid rete, 244
correlation with EEG during carotid endarterectomy, 352
corecting carotid occlusive disease by thermography, 57
effects of adrenocorticotropic drugs on, 50
effects of alpha adrenergic blockade on autoregulation and chemical vasoconstricton of CBF in stroke, 187
effects of dopamine, noradrenaline and 5-hydroxytryptamine on CBF in dogs, 263
effects of hydrocephalic process on CBG, 345
effects of increased intracranial pressure on flow through major cerebral arteries in vitro, 793
effects of intracranial pressure on blood flow in carotid artery, 46
following induced subarachnoid hemorrhage in monkeys, 255
guide to safety of carotid ligation, 351
hydrogen clearance method for assessment of, 356
increase in CBF in rabbit by vixildil, 218
increased binding of norepinephrine, 42, 813
influence of changes in acid-base composition of ventricular system on CBF, 92
lactate in cerebrospinal fluid, 207
measurements based on xenon-133 inhalation, 257
multibolus technique, 483
noninvasive I.V. isotope method, 362
procedure and equipment, 118
repeated measurements during intracranial surgery, 93
repeataed measurements with xenon injection, 364
regional prognostic value of measurement in apallic syndrome, 104
raised intracranial pressure and, 87
regional abnormalities in chronic schizophrenia, 353
arterial peaks in, 185
arterial oxygen, 349
arterial pressure, and regional resting flow, 725
artery, 46
in children, 101
complications after measurements with xenon injection, 658
correlation with regional oxygen uptake using 15O method, 102
during stimulation of seventh cranial nerve, 213
effect of intracarotid epinephrine, norepinephrine and angiotensin, 99
effect on neuropsychological disorders, 350
effects of arterial blood pressure, 390
flow in scintigraphically positive vascular brain lesions, 349
gamma camera 1,600-channel analyzer system for measurement of, 102
hydrogen clearance technique, 556
comparison with oxygen availability in rabbits, 904
and management of arterial hypertension, 352
measurement with angiography camera, 487
microvascular surgery of brain and, 351
radioisotopic methods, 101
response to carbon dioxide inhalation in CVD, 250

flow measurement by hydrogen clearance method, 480
studies of carotid sinus and, 86
Carotid sinus
indicators of extracranial carotid artery disease, 537
significance in patients undergoing an abdominal aortic operation, 992
peculiar circulatory aspects, 262
Carotid-cavernous fistula
as complication of carotid endarterectomy, 994
surgical correction, 486
Carotid chemoreceptors
inotropic responses and peripheral vasomotor responses in cerebral arteries and, 719
role of carotid chemoreceptors in CO₂ hypernea under baroreceptor response: partition between mechanical properties of wall and receptor elements, 483
cardiovascular responses to various pulsatil pressures, 88
inotropic responses and peripheral vasomotor responses from independent changes in pressure in cerebral arteries and, 719
independenent changes in pressure in cerebral arteries and, 719
indicators of extracranial carotid artery disease, 537
Parkinson's disease, 201
variations in regional oxygen consumption, 73
Carotid territory
small strokes associated with normal carotid arteriogram, 701
in CSF and plasma of patients with cerebral infarction and hemorrhage, 1000
and 5-hydroxytryptamine in carotid body in vascular diseases, 85
increased binding of norepinephrine by nerves to cerebral blood vessels, 42, 813
asymmetry, 201
Carotid siphon
arterial peaks in regional cerebral blood flow, 73
effect of peripheral resistance on carotid blood flow after, 95, 474
Carotid siphon
arterial peaks in regional cerebral blood flow, 73
effect of peripheral resistance on carotid blood flow after, 95, 474
Carotid endarterectomies
surgical management, 990
Carotid sinus
baroreceptor response: partition between mechanical properties of wall and receptor elements, 483
cardiovascular responses to various pulsatil pressures, 88
inotropic responses and peripheral vasomotor responses from independent changes in pressure in cerebral arteries and, 719
independenent changes in pressure in cerebral arteries and, 719
indicators of extracranial carotid artery disease, 537
Parkinson's disease, 201
variations in regional oxygen consumption, 73
Carotid territory
small strokes associated with normal carotid arteriogram, 701
in CSF and plasma of patients with cerebral infarction and hemorrhage, 1000
and 5-hydroxytryptamine in carotid body in vascular diseases, 85
increased binding of norepinephrine by nerves to cerebral blood vessels, 42, 813
Carotid siphon
arterial peaks in regional cerebral blood flow, 73
effect of peripheral resistance on carotid blood flow after, 95, 474
Carotid territory
small strokes associated with normal carotid arteriogram, 701
in CSF and plasma of patients with cerebral infarction and hemorrhage, 1000
and 5-hydroxytryptamine in carotid body in vascular diseases, 85
increased binding of norepinephrine by nerves to cerebral blood vessels, 42, 813
Carotid sinus
baroreceptor response: partition between mechanical properties of wall and receptor elements, 483
cardiovascular responses to various pulsatil pressures, 88
inotropic responses and peripheral vasomotor responses from independent changes in pressure in cerebral arteries and, 719
independenent changes in pressure in cerebral arteries and, 719
indicators of extracranial carotid artery disease, 537
Parkinson's disease, 201
variations in regional oxygen consumption, 73
Carotid territory
small strokes associated with normal carotid arteriogram, 701
in CSF and plasma of patients with cerebral infarction and hemorrhage, 1000
and 5-hydroxytryptamine in carotid body in vascular diseases, 85
increased binding of norepinephrine by nerves to cerebral blood vessels, 42, 813
Carotid siphon
arterial peaks in regional cerebral blood flow, 73
effect of peripheral resistance on carotid blood flow after, 95, 474
INDEX

subarachnoid and subdural hemorrhages, 431
in subarachnoid hemorrhage, 85

treated with hyperventilation, 568
regulation of, in acute brain disease, 348
relationship between different levels and reactivity to
physiological stimuli, 250
sympathetic control in dogs, 98
symposium abstracts, 321
time course of cerebral circulatory response to metabolic

Diagnosis

Coronary heart disease
effect of cholesterol-lowering diet on mortality from, 255
risk factors, 99
Cortex
cholinergic control of cortical blood flow, 232
hydrogen clearance method in assessment of blood flow in, 536
physiological responses of cerebral circulation, 632
regional CBF during stimulation of seventh cranial nerve, 213
Cortical blood flow
cholinergic mechanism in cerebrovascular action of carbon
dioxide, 969
Coumarin
dermal gangrene complication of, 718
Cyclic AMP
AMP inhibition of reactions of ADP with washed platelets
from humans and rabbits, 93
effect on rCBF in baboons, 357
Cyclobenzaprine
in treatment of spasticity, 477
Cyclopropane
effect on canine cerebral blood flow and metabolism, 87
Cytoid bodies
retinal cotton wool spots and, 488

Death, cerebral
angioGRAPHy of, 258
rapid and reliable diagnostic adjunct using radioisotopes,
718
spinal reflexes in, 997
technique for assessment of cerebral circulation, 344
Depression
time course of cerebral circulatory response to metabolic
depression, 361
Dermal gangrene
complication of coumarin therapy, 718
Detergents
effect on platelet electrophoresis and aggregation, 822
Dexamethasone
in CVD
controlled study in acute cerebral infarction, 547
controlled study in intracerebral hemorrhage, 541
effect on edema of focal cerebral ischemia, 148
effect on experimental cerebral infarction in gerbil, 240
effect on stroke, 260
rCBF and vasomotor response in brain tumors following,
254
Dextran 40
management of completed strokes with, 895
Diabetes mellitus
effects on coronary sclerosis, 90
epidemiology of in-hospital deaths among Blacks, 923
intracranial vascular lesions in, 996
optic nerve involvement in, 699
risk factor in stroke patients, 751
stroke and blood coagulation, 400
TIAs and risk of stroke in elderly, 980
Diagnosis
aneurysms, 878
arterial thrombosis, 875
arteriovenous malformations, 877
in children, 875
hemorrhage, 877
neuroradiology, 1008
intracranial hemorrhage, 306
retinal ischemic symptoms, 249
transient attacks of neurological dysfunction, 278
venous occlusion, 876
Dialysis membranes
hemostatic changes associated with thrombus formation
on, 480
method for measurement of platelet adhesiveness by use
of, 872
reduction of thrombus formation by aspirin and RA 233,
478

1064

Dibozane
alpha blocked vasoconstriction, 30
Diets and nutrition
lipid and lipoprotein responses of hypertriglyceridemia to
low-carbohydrate modifications of AHA fat-controlled
diet, 245
Diphenylhydantoin
effects on local CBF, 357
Dipyridamole
failure in reducing infarct size following experimental
coronary occlusion, 710
Diurnal variations
in onset of stroke, 773
Dopamine
species difference in carotid body response of cat and dog
to serotonin and, 476
Dorsal sagittal sinus
canine cerebral circulation, 65
Drop attacks
affliction of women, 817
Drug abuse
stroke in children, 843
Drug-induced seizures
temporary alteration of cerebrovascular permeability to
plasma protein during, 93
Drug interactions
in oral anticoagulant and antihypertensive adrenergic
neuron-blocking drugs, 473
sodium warfarin and disulfiram, 484

Echocardiography
left atrial myxoma, 451
Echocereophageography
midline, 130
Edema
of cerebral ischemia
effect of dexamethasone, 148
following carotid artery ligation in gerbils, 988
steroid therapy, 95
intracranial pressure gradients caused by cerebral ischemia
and, 694
measurement of cerebral infarction edema with sodium
dioxid, 22, 461

Shy-Drager syndrome
cerebral dysautoregulation in, 820
cerebrovascular regulation in preganglionic and postganglionic autonomic insufficiency, 12
treated with levodopa and MAO inhibitor, 96
Sick sinus syndrome
assessment of sinus node function, 251
Sickle-cell anemia
massive intracranial hemorrhage in, 816
occlusion of large cerebral vessels, 259
strokes in children, 841
Sodium
measurement of cerebral infarction edema with sodium, 22, 461
Sodium dextrothyroxine
effect on serum cholesterol in cardiac patients, 998
Sodium nitroprusside
hemodynamic effects of, 708
Sodium perethionate
quantitative cerebral circulation studies with, 821
rCBF studies with, 353
Spasms
arterial modification by inhibition of platelet function, 988
relationship of neurological status and angiographical evidence of spasm to prognosis, 973
Spasticity. See Muscle spasticity
Spectroscopy
direct mass spectrographic measurement of regional intracerebral oxygen, CO2 and argon, 702
Spinal canal
EKG changes after spinal subarachnoid hemorrhage, 156
Spinal cord
angiography of, 249
blood flow in dogs, 826
effect of blood gases, 826
"normal" flow, 826
Circulation disorders, 703
complications, following surgery for coarctation of the aorta, 257
descending pathways in cerebral cord of cats affecting blood pressure and sympathetic activity, 249
emboli in dogs and monkeys and their relevance to aortic atheroma, 716
experimental ischemia, histologic studies after anterior spinal artery occlusion, 820
injuries
arterial oxygenation, 999
local hypothermia in treatment of, 485
Lumbrosacral
anatomical observation on arterial supply to, 485
microangiography of human fetal, 998
neurosurgical management in children, 1024
occlusion
infarction secondary to, 704
in postirradiation myelomalacia, 704
radiosotope angiography, 102
reversible trauma in cats, 473
surgical treatment of vascular anomalies, 99
use of Fogarty catheter in AV malformations, 241
vascular lesions, in children, 1017
Spinal reflexes
in cerebral death, 997
Spine, cervical
vertebral artery obstruction by hyperextension of neck, 597
Stanozolol
fibrinolytic enhancement by, 101
Stapedial artery
theoretical anomalies of, 719
Starr-Edwards cloth-covered prostheses
composite seat, 820
long-term evaluation, 256
pregnancy in six patients with, 248
Stenotic or thrombotic
progress in magnetically controlled, of intracranial aneurysms, 822
Steroid therapy
of brain edema, 95
dexamethasone in CVD, 541, 547

Stroke, Vol. 4, November-December 1973
Streptokinase
biochemical evaluation in treatment of AMI, 104
Stress
risk factors in stroke in Mexican patients, 773
Stroke
and blood coagulation, 400
cardiologic monitoring of acute stroke patient, 88
in central Harlem, 406
convalescent phase
use of ergot preparation (Hydergine) in, 815
diagnostic procedures, 129
epidemiological study in Jerusalem (1960-67), 465
impaired neurogenic CV control and dyautoregulation
after stroke, 169
latent cerebral venous thrombosis syndrome, 419
natural history of stroke in Rochester, Minn., 20
outcome of stroke at hospital discharge in New York City
Blacks, 782
prognosis
in patients with TIA, 666
visual field defects and, 163
retinal, 487
tracheostomies and, 459
treatment of CVD with clofibrate, 684
on wrong side: use of Doppler ophthalmic test in cerebral
vascular screening, 478
Stroke centers
visual field defects and prognosis of stroke, 163
Stroke prevention
research needs, 516
Stroke programs
establishing local program, 528
example of written procedures for physicians and nurses,
534
North Carolina Comprehensive Stroke Program, 531
Stroke registry
in Göteborg, Sweden, 102
prospective method of studying stroke, 705
Subarachnoid hemorrhages
clinical grade rCBF, and angiographical spasm after
subdural and, 431
delayed arterial spasm following, 704
due to ruptured aneurysms, 242
effect of glycerol and intracarotid phenoxybenzamine after
SAH: ultrastructural study, 987
effect of increased intracranial pressure, 795
EKG changes after, 156, 488
experimental
cerebral hemodynamic and metabolic changes after, 264
changes in cerebral vasomotor reactivity to CO2 and
autoregulation, 263
effect of glycerol and intracarotid phenoxybenzamine on
cerebral hemodynamics and metabolism, 263
fibrinolytic activity of CSP after SAH, 815
formation of CSF xanthochromia after, 100
life-threatening arrhythmias in, 826
middle cerebral artery embolotomy and vasospasm, 446
monitoring antifibrinolytic therapy, 818
natural history of stroke in Rochester, Minn., 20
primary, in Iceland, 764
pulmonary edema secondary to, 104
regional cerebral blood flow studies, 85
relationship of neurological status and angiographical
evidence of spasm to prognosis, 973
serial changes in acid-base values in blood and CSF, 820
structural changes of intradural arteries following, 701
treatment of cerebral vasospasm with isoproterenol and
lidocaine hydrochloride, 994
“twin” intracranial aneurysms causing, in identical twins,
702
use of antifibrinolytic drugs to prevent early recurrent
aneurysmal SAH, 992
validity of intravenous isotope technique in CBF studies,
251
ventriculotomy for treatment of actue hydrocephalus
following SAH, 990
Subclavian artery
revascularization, by subcutaneous axillary-axillary graft, 700
Subclavian-carotid bypass
for cerebrovascular insufficiency, 95, 474
Subclavian steal
joint study of extracranial arterial occlusion, 485
Subdural hygroma
following head injury, 703
Superior sagittal sinus blood velocity
Doppler ultrasound measurements, 255
Surgery
aortic valve replacement with Starr-Edwards prosthesis, 820
arterial microautografts, 828
arterial vascular, use of Doppler ultrasonic flowmeter
during, 89
cannulation of jugular bulb, 955
carotid and vertebral artery occlusive disease
physiological monitoring, 487
carotid artery
heparin protection for brain during, 89
carotid bruit; significance in patients undergoing abdomi
nal aortic operation, 993
carotid endarterectomy
extraluminal, 95
carotid sinus syndrome, 990
carotid-subclavian bypass
effect of peripheral resistance on carotid blood flow
after, 95, 474
carotid thromboendarterectomy
intraoperative arteriography, 991
endarterectomies, 93
EEG and CBF measurements during, 674
of external carotid artery, 993
extracranial-intracranial bypass grafts, 243
intracranial
temaneous aneurysms, disturbances of serum electrolytes
after, 96
repeated measurements of cerebral blood flow during, 93
intracranial arterial embolism, 1001
intracranial hemorrhage, 309
medical and surgical management, 273
microsurgical cerebral revascularization
anatomy of middle cerebral artery, 412
neurological status and angiographical evidence of spasm, 973
neurosurgical management of strokes in children, 1021
arterial occlusive disease, 1022
extracerebral vascular disorders, 1021
hemorrhagic disorders, 1023
intracranial vascular disorders, 1022
spinal cord disorders, 1024
tortuous, 1022
traumatic occlusive disorders, 1021
venous occlusion, 1023
physiological monitoring
occlusive disease, 487
postnephectomy arteriovenous fistula causing "stroke"
and congestive heart failure, 993
prosthetic replacement of mitral valve, 816
research needs, 518
revascularization with autogenous grafts, 814
spinal cord, vascular anomalies of, 99
subclavian-carotid bypass graft for cerebrovascular insufficiency, 95
subdural hematomas, 93
TIA and stenotic lesions of neck vessels, 295
tracheostomies and stroke, 459
valve replacement
use of persantine in preventing thromboembolism
following, 100
Survival
outcome of stroke at hospital discharge in New York City
Blacks, 782
stroke in central Harlem, 406

Streptokinase-Survival
INDEX

Stroke, Vol. 4, November-December 1973
Symposium Abstracts
Cerebral Circulation and Metabolism: Sixth International
CBF Symposium, 321
autoregulation, 323
CBF and electrical activity, 339
chemical control, 376
clinical miscellaneous, 352
clinical stroke, 349
diffuse ischemia, 339
focal lesions, 329
increased intracranial pressure and CBF, 345
methodology, 335
neurogenic control, 366
pharmacology and anesthesia, 356
Systemic lupus erythematosus
cyclophosphamide in treatment of, 991
in the elderly, 253
ocular findings in, 821
procaainamide-induced, 249

Takayasu’s arteritis
total aortography in diagnosis of, 260
Teaching Scholar program
promise of better patient care, 492

Technetium
cerebral transit time of 99m technetium sodium pertechnetate before and after cerebral arteriography, 990
scanning of subdural hematomas, 989

Temporal arteries
detecting carotid occlusive disease by thermography, 57
observations on, 488

Tenorial herniation
effect of hyperventilation in stroke, 568

Therapists
current availability of, 527
Thermal diffusion
autoregulation and hyperemia of CBF as evaluated by, 917

Thermography
detecting carotid occlusive disease by, 57
procedures and equipment, 129
use with children, 1011

Thrombocytopenia
in children, 842

Thrombocytosis
in children, 842

Thromboembolism
complications during anticoagulant therapy, 89
perninate in preventing, following valve replacement, 100

Thrombolysis
abnormalities as risk factor for stroke, 643
Thromboplastin
abnormalities in clotting and thrombolysis as risk factors, 643
value of monitoring heparin treatment with activated partial thromboplastin time, 105

Thrombolysis generation test
stroke and blood coagulation, 400

Thrombosis
anatomy of middle cerebral artery, 412
carotid TIA associated with antplatelet aggregation therapy, 732
cerebral atherosclerosis in Japanese, 768
in child with stroke, 1013
effect of aspirin on, 387
estrogen in treatment of, 987
experimential and selective in situ lysis by catheter technique, 482
incorporation of 125I-labelled fibrinogen into coronary arterial thrombi in AMI, 702
induced by inversion of arterial branch, 252
induction in guinea pigs by brain tumors, 479
intracranial venous, 712
in children, 1016
latent cerebral venous frequency, relation to age, and congestive heart failure, 419

INDEX

[Symposium Abstracts—Transient ischemic attacks]

microcirculatory relation to thrombus in proximal coronary artery: effect of aspirin, diprydamole and thrombolysis, 999
stroke and blood coagulation, 400
tracheostomies and stroke, 459
venous effect of aspirin on postoperative, 99
massive brain hemorrhages, 946
visual field defects and prognosis of stroke, 163
Thrombus formation
effect of aspirin on vascular catheters in cats, 481
experimental arterial, 819
reduction of, on dialysis membranes by aspirin and RA, 233, 478

Tissues
tissue response to arterial substitute of bovine origin, 249
Tolosa-Hunt syndrome
angiographic findings in, 479

Tomography
clinical experience with circular angiotomography, 482

Tortuosity
neurosurgical management in children, 1022

Tracheostomies
control of common carotid and innominate artery hemorrhage complicating, 826
and stroke, 459

Training and education
dieticians, 510
Joint Committee report, 499
medical students, 502
nurses, 508
rehabilitation nurse, 509
occupational therapists, 511
overview, 500
physical therapists, 511
physicians, 503
current availability of, 525
internists and/or cardiologists, 503
neurologists, 504
neurosurgeons, 505
ophthalmologists, 505
orthopaedic surgeons, 506
pathologists, 506
physiatrists, 507
radiologists, 507
urologists, 508
vascular surgeons, 508
psychologists, 510
social workers, 512
speech pathologists, 510
survey of predoctoral stroke education, 512
vocational rehabilitation counselors, 512

Transient focal cerebral ischemia
in cardiac dysrhythmia, 711

Transient ischemic attacks
cardiac dysrhythmia and, 989
differences in occurrence of carotid TIA associated with antiplatelet aggregation therapy, 732
effect of aspirin on thrombosis, 387
ECG changes, 999
EEG and arteriographical findings in carotid artery TIA, 7
extracranial arterial reconstruction for, 995
impaired neurogenic CV control and dysautoregulation after stroke, 169
indicators of extracranial arterial artery disease, 537
medical treatment, 294
monocular TIA and external carotid artery, 991
prevalence and prognosis in biracial rural community, 1000
prognosis, 666
and risk of stroke in elderly poor population, 980
in Rochester, Minn. (1955-69), 816
and stenotic lesions of neck vessels, 294
surgical treatment, 295
treatment of CVD with clofibrate, 684
ulcerated atheromatous plaques of the carotid artery bifurcation, 912
INDEX

Venous occlusion
neurosurgical management in children, 1023
See also Occlusions
Venous outflow
regional autoregulation in cerebral circulation, 139

Ventilation
clinical effect of hyperventilation in stroke, 568
Ventricular drainage
extradural hemorrhage and, 87
Ventricular pacing
effect on long-term survival, 247
Ventriculography
localization of intraventricular arteriovenous malformations, 814
Ventricular artery
bypass anomaly associated with cerebral aneurysm and arteriovenous malformation, 96
evacuation and intracranial structures, 250
giant cell arteritis, 709
obstruction by hypertension of the neck, 997
post-angiographic vertebral arteriovenous fistulae, 263
Verebro-basilar arteries
impaired neurogenic cerebrovascular control and dysoautoregulation after stroke, 169
occlusions, study with post-mortem data, 819
Vertigo
prognosis in TIA, 666
Veterans Administration Cooperative Study Group
treatment of CVD with clofibrate, 684
Viguidil
increase in CBF by, 218
Visual field defects
prognosis of stroke and, 163
Volume
cardiovascular dimensions in intracranial arteriovenous malformation, 787
quantitative isotope studies of cerebral vascular volume, 827

W
Wall/lumen ratio
effects of increased intracranial pressure, 795
Warfarin
interaction of benzodiazepines with, 244
interaction of sodium warfarin and disulfiram, 484
prothrombin levels maintained with meprobamate and, 101
smoking and warfarin dosage, 488
Water areas
clinical and biochemical indicators of CVD among men living in hard and soft water areas, 704
White matter
degeneration in hypoxia, acidosis and edema, 718
hydrogen clearance method in assessment of, 556
physiological responses of cerebral circulation, 632
Women
cryptogenic drop attacks: an affliction of women, 817

X
Xenon-133
arterial peaks in rCBF, 73
cerebral complications following rCBF measurements, 658
CBF measurements
differences between “81-key and 31-key” decay curves, 364
inhalation technique, 363
in carotid endarterectomy, 363
pitfalls in studies in head-injured patients, 364
quantitating local CBF in 144 subdivisions of human brain, 365
diffusion bypass of xenon in brain circulation, 817
EEG and CBF measurements during carotid endarterectomy, 674
inhalation technique for measuring CBF, 363
regional cerebrovascular CO2 reactivity, blood pressure, and regional resting flow, 725
X-ray fluorescence
effects of arterial blood pressure on rCBF, 390
Young people
multiple progressive intracranial arterial occlusions, 380
occlusion of basilar artery, 258
pathoanatomical changes in older child, 864
