SUBJECT INDEX

Page Numbers in Italics refer to Abstracts

A
Acetylsalicylic acid
effect of aspirin on thrombosis, 387
TIA associated with antiplatelet aggregation therapy, 732
Acid-base changes
CSF changes by hyperventilation in stroke, 620
changes in blood and CSF in SAH and stroke, 820
circulation to brain of rat during acute and prolonged respiratory changes in, 818
effect of changes of ventricular system on cerebral blood flow in cats, 92
value of continuous measurement of, in cerebrospinal fluid after cerebrovascualr accident, 102
Acidosis
effect of pH on metabolism and ultrastructure, 221
Acromegaly
ectasia of cerebral arteries in, 261
Adenosine diphosphate (ADP)
AMP inhibition of reactions of ADP with washed platelets, 93
cause of reversible inhibition of platelet retention in glass-bead columns, 249
effect of aspirin on thrombosis, 387
evidence for two separate effects of ADP on human platelets, 821
induced platelet aggregation, in MI and ischemic heart disease, 824
TIA associated with antiplatelet aggregation therapy, 732
Adrenergic drugs
effects on cerebral circulation, 50
Adrenergic nerves
increased binding of norepinephrine by nerves to cerebral blood vessels, 42, 813
Afferent activity
of canine aortic and sinus nerves, 254
Age distribution
stroke in central Harlem, 406
stroke in Jerusalem district (1960-67), 465
Aged patients. See Elderly patients
Alkalosis
effect of pH on metabolism and ultrastructure, 221
Alpha adrenergic blockade
alteration of experimental cerebral vasospasm by, 255
effects on autoregulation and chemical vasomotor control of CBF in stroke, 187
effects on collagen-induced platelet release reaction, 105
effects on response of cerebral circulation to hypocapnia in baboons, 482
Alpha adrenergic receptors
effects of adrenergic drugs on cerebral circulation, 50
sympathetic cerebral vasconstriction blocked by adrenergic alpha receptor antagonists, 30
Amaurosis fugax
indicators of extracranial carotid artery disease, 537
AMP inhibition
of reaction of ADP with washed platelets, 93
Amyloidosis
hereditary cerebral hemorrhage with, 103
Anatomy
middle cerebral artery, 412
Anesthesia
effect of anesthetic depth on cerebral venous oxygen concentration, 258
Aneurysms
of anterior communicating artery complex ligation of anterior cerebral artery for, 819
results of proximal anterior cerebral artery occlusion for, 85
atherosclerosis and aneurysm formation in saphenous vein-graft, 827
cannulation of jugular bulb, 955
carotid artery
bilateral giant aneurysms of internal, 260
with rupture into the oropharynx, 256
cerebral bypass anomaly of vertebral artery associated with arteriovenous malformations and, 96
in children, 997, 1016
cervical internal carotid artery, 260
in children, 878
of common carotid artery, 719
congenital
of extracranial carotid arteries, 487
of extracranial carotid artery, 488
TIAs and stroke due to, 254
familial and infundibular widening, 258
large
giant rapid formation of, 243
giant basilar
excision under profound hypothermia, 240
giant middle cerebral artery
spontaneous thrombosis in, 253
of internal carotid artery
associated with nonpenetrating neck trauma, 252
intracranial angiographic investigations, 241
clip-grafts for small vessel surgery and, 817
disturbances of serum electrolytes after surgery, 96
electronic radiography in stereotactic thrombosis of, 254
factors disposing to morbidity in surgery, 990
familial, 487, 716
familial occurrence of multiple, 253
papilloedema associated with ruptured, 817
progress in magnetically controlled stereotactic thrombosis, 822
and retinal hemorrhage, 105
ruptured; contrast agent extravasation, 242
treatment of multiple arterial, 991
warning signs prior to rupture, 990
intracranial saccular microsurgical treatment, 700
neurological status and angiographical evidence of
physical factors in initiation, growth, and rupture of, 701
scanning electron microscopy, 246
left atrial myxoma, 451
massive brain hemorrhage, 946
mycotic
neurological manifestations of infective endocarditis, 958
pathogenesis of, 827
scan visualization, 484
neurosurgical management in children, 1023
posttraumatic intracranial: epistaxis with monocular blindness preceded by chromatopsia, 101
ruptured mycotic pericallosal, with meningitis, 247
traumatic aneurysms in intracranial circulation, 999
traumatic cerebral, 826
treatment by stereotactic ferromagnetic silicone thrombosis 718
vertebral and basilar arteries
posterior fossa approach to, 253
Angiography
in allergic women sensitive to contrast media, 259
artificial slow flow, with arteriovenous aneurysms in carotid arteries, 494
biplane magnification cerebral, 699
carotid, ventricular opacification during, 699
in child with stroke, 1012
administration of fluids, 1012
angiographic equipment, 1013
complications, 1012
contrast media, 1012
indications, 1012
premedication, 1012
technique, 1012
children and adults with mental retardation, 489
complications of, 126
detecting carotid occlusive disease by thermography, 57
heparin coating of catheters against thromboembolism, 490
in patients with subarachnoid hemorrhage, 127
personnel for, 124
postangiographic care, 127
practical use of medium and slow-speed screens, 481
procedures and equipment, 123
prognosis in TIA, 666
systemic heparinization for, 260
verification of cerebral death, 258
Angiograms
massive brain hemorrhage, 946
of nucleus caudateus head, 822
sequelae of surgical treatment, 822
of nucleus caudateus head, 556
Angiography
clinical experience with circular, 482
INDEX
Animals
cats
histochemical studies in zone of ischemia following middle cerebral artery occlusion, 83
regional CBF during stimulation of seventh cranial nerve, 213
dogs
alpha blocked vasconstriction, 30
effects of blood gases on cerebral circulation, 65
induction of cerebral ischemia, 253
lactate in cerebrospinal fluid, 267
gerbils
cerebral edema due to cerebral infarction in, 329
cerebral edema following carotid artery ligation, 988
disaggregation of polyribosomes in intact gerbils following ischemia: ultrastructural study, 964
goats
effects of adrenergic drugs on cerebral circulation, 50
guinea pigs
effect of pH on metabolism and ultrastructure, 221
primates
effect of dexmethasone on edema of cerebral ischemia, 149
experimental studies of hyperemia phenomena in cerebral circulation of primates, 102
hydrogen clearance method is assessment of blood flow in cortex, white matter and deep nuclei, 536
neuropathology of systemic circulatory arrest, 99
raised intracranial pressure and CBF, 87
rabbits
increase in CBF by v Qiuidal, 218
rats
alteration of course of hypertension in SHR, 91
cholinergic control of cortical blood flow, 232
increased binding of norepinephrine, 42
Anoxia
effects of prolonged asphyxia and, on rat brain, 484
in vitro model for biochemical study, 409
ischemic anoxia and cerebral serotonin levels, 105
Anterior cerebral artery
results of proximal occlusion for anterior communicating aneurysms, 83
Anticoagulant therapy
laboratory control of simultaneous treatment with intravenous heparin and oral anticoagulants, 258
neurosurgical complications, 702
for senile dementia, 472
spontaneous spinal epidural haematoma, rare complication of, 86
thromboembolic complications during, 89
Antimigrain drugs
effects on vascular responses, 104
Antitrypsin
fibrinogen concentration and immunoelectrophoresis in internal jugular vein, 807
Aorta
coracation of spinal cord complications following surgery for, 257
deposition of formed elements of blood on intima and signs of intimal injury, 244
Aortitis syndrome
follow-up observation of, 92
Apallic syndromes
CBF and metabolism in complete apallic syndromes, 99
prognostic value of CBF measurement, 104
Aphasia
emotional state and awareness of speech defect in aphasic patients, 704
rapid amelioration of motor aphasia, 699
role of non-dominant hemisphere in restitution of speech in, 253
Arterial grafts
arterial microautografts: experimental study, 828
Arterial injury
carotid TIA associated with antiplatelet aggregation therapy, 732
Arterial occlusive disease
neurosurgical management in children, 1022
See also occlusive disease
Arterial peaks
in regional cerebral blood flow 133Xenon clearance curves, 73
Arteries
noninvasive arteriography, 261
ultrasonic visualization of arterial lumen, 104
Arteriography
carotid
and EEG findings in TIA, 7
human brain. morphological differences in hemispheres, 102
small strokes in carotid territory associated with, 701
cerebral transit time of 99m technetium spon correctate, 990
intraoperative in carotid thromboendarterectomy, 991
noninvasive, 261
transaxillary selective four-vessel arteriography, 93
Arteriosclerosis
blood cloting and fibrinolysis in presence of arteriosclerotic obstruction in extremity arterial vessels, 92
experimental, evaluation of anatomo pathological findings, 96
relations between metabolic increase of plasma free fatty acids and occurrence of arteriosclerotic thromboangiitis in rabbits, 708
Arteriovenous communications
in human brain, 716
crCBF determination by hydrogen clearance technique, 904
Arteriovenous malformations
arterial peaks in regional cerebral blood flow, 73
of the brain, 489
long-term clinical study, 473
bypass anomaly of vertebral artery associated with cerebral aneurysms and, 96
cardiovascular dimensions in patients with intracranial AVM, 787
as cause of cardiac hypertrophy in adults, 710
in children, 843, 1016
diagnosis in children, 877
intracranial dural, 240
localization by ventriculography combined with stereoscopic arteriography, 814
neurosurgical management in children, 1023
percutaneous embolization, 1016
postmortem findings following embolization of, 472
radioisotopic study, 100

Stroke, Vol. 4, November-December 1973
INDEX

[Arteriovenous malformation–Blood–brain barrier]

relationship of size, density and localization of intracranial spontaneous angiographic disappearance of, 821

Arteritis
giant cell arteries of head and neck in, 250, 709 clinical and biopsy findings, 478 immunofluorescent studies in, 999 massive brain hemorrhages, 946 Takayasu, 260

Asphyxia effects of acute anoxia and, on rat brain, 484 unilateral brain damage produced by venous perfusion of one carotid artery, 823

Aspirin effect on brachial artery occlusion, 816 effect on experimentally induced thrombosis during healing phase, 387 effect on postoperative venous thrombosis, 99 effect on thrombus formation on vascular catheters in cats, 481 effect upon thrombosis and arrhythmia, 257 gastric bleeding and beorylate, 244 and MI in patients with rheumatoid arthritis, 260 relation between bleeding time and platelet connective tissue reaction, 813, 816

Atherogenesis, 710 filtration theory of, 94 Atheromatous plaques ulcerated, of carotid artery bifurcation, 912

Atherosclerosis

Atherothrombotic brain infarction epidemiology of in-hospital deaths among Blacks, 923 role of impaired cardiac function: Framingham Study, 715

Atlanta Community High Blood Pressure Program screening methods, 240

Atresia of rostral superior sagittal sinus, 993

Atrial myxoma
cause of embolic stroke, 262

Atropine cholinergic mechanism in cerebrovascular action of carbon dioxide, 969

Autonomic nervous system cerebrovascular regulation, 12

Autopsy findings clinical effect of hyperventilation in stroke, 568

Autoregulation acute arterial hypertension and blood–brain barrier, 323 canine cerebral circulation, 65

Stroke, Vol. 4, November–December 1973

in cerebral perfusion pressure experiments, 325 CBF–aid–base parameters and deep halothane hypotension, 324 cholinergic control of cortical blood flow, 232 correlation of regional cerebral blood volume with PaO2 and arterial blood pressure, 325 during controlled hypotension, 324 effects of alpha adrenergic blockage, 187 effects of arterial blood pressure on CBF, 390 effects of local increases of venous pressure on canine cerebral hemodynamics, 323 effects of lowered cardiac output, 324 EEG and CBF measurements during surgery, 674 and hyperemia of CBF as evaluated by thermal diffusion, 917 impaired neurogenic CV control and dysautoregulation after stroke, 169 lactate in cerebrospinal fluid, 207 cerebral hemodynamics, 323 of ocular blood flow, 707 physiological responses of cerebral circulation, 632 regional cerebrovascular CO2 reactivity, blood pressure, and regional resting flow, 725 vascular mechanisms controlling constant blood supply to brain, 742

Axillary arteries complications of arterioto mities, 91 transaxillary selective four-vessel arteriography, 93

Axillary–axillary bypass hemodynamics of, 489

B

Bacterial endocarditis in heroin addicts, 484 neurological manifestations of infective endocarditis, 958

Barbiturates protection against cerebral infarction, 358

Baroreceptor reflexes central nervous system control of, 472 participation of central nonadrenergic neurons in arterial, 474

Basal ganglia rCBF during stimulation of seventh cranial nerve, 213

Basilar artery localized neurogenic vasconstriction of, 760 modification of spasm in inhibition of platelet function, 988 occlusion of, in young patients, 258 prognosis in TIA, 666 topographical correlations to skull base structures, 242

Bedsores in chronically ill patients, 247

Behavioral effects autoregulat or perfusion, hypothermia and arrest of CBF in monkeys, 989

Benorylate gastric bleeding and, 242, 244

Benzodiazepines interactions with warfarin, 244

Beta adrenergic receptors effects of adrenergic drugs on cerebral circulation, 50 effect on thrombus formation on vascular catheters in cats, 481 hyperbilirubinemia in acute hemorrhagic stroke, 999

Black stroke patients, 406 contribution of nonaneurysmal intracranial hemorrhage to stroke mortality, 928 epidemiology of in-hospital deaths, 923 outcome of stroke at hospital discharge, 782

Blinding time as screening test for evaluation of platelet function, 103

Blindness internal carotid occlusion and contralateral episodic blindness, 822

Blood–brain barrier concomitant intravital and postmortem demonstration of experimental damage to, 90
INDEX

effect of dexamethasone on edema of cerebral ischemia, 148
effect of increased intravascular pressure on, 89
lesions following injection of contrast media into vertebral artery, 105
Blood clots
radioactive urokinase for blood clot scanning, 100
See also Clotting
Blood flow
cerebral. See Cerebral blood flow
cortical. See Cortical blood flow
Blood gases
effects on pressure-flow relationships in canine cerebral circulation, 65
Blood pressure
changes in cerebrovascular diseases, 80
descending pathways in cervical cord of cats affecting sympathetic activity and, 249
effects of arterial blood pressure on rCBF volume by x-ray fluorescence, 390
pressure in pial arterial microcirculation during changes in systemic arterial, 95
radiotelemetry by means of microcatheter technique, 485
relationship of regional cerebrovascular CO₂ reactivity to regional resting flow and, 725
Brachial artery
nonthrombotic arterial occlusion: complication following brachial artery catheterization, 714
thrombosis following cardiac catheterization, 243
management of postcatheterization, 259
Brachiocephalic vessels
surgical treatment of obstructive disease, 241
Brain
abcess, neurological manifestations of infective endocarditis, 958
arteriovenous communications in, 716
cortico-subcortical arterial angioarchitecture in human brain, 486
edema, steroid therapy of, 95
effect of pH on metabolism and ultrastructure, 221
morphologic differences in hemispheres demonstrated by carotid arteriography, 100
necrosis and repair in immature, 863
swelling due to experimental cerebral infarction: changes in vasomotor capacitance and effects of glycerol, 717
Brain-damaged patients
motor response time and task difficulty, 248
patterns in infants and children with congenital heart disease, 709
Brain injuries
changes of CBF and CSF in, 355
focal and rCBF calculated by bi-compartmental analysis and initial slope index, 354
Brain scanning
and EEG in detecting neurosurgical lesions, 245
procedures and equipment, 120
Brain slices
effect of pH on metabolism and ultrastructure, 221
Brain stem
blood pressure changes following vascular diseases in brain stem, 80
Buerger's disease
aortic involvement, 713
observations of, 822
Bypass grafts
extracranial-intracranial, 243
See also under Surgery
C
Cannulation
jugular bulb, simplified technique for, 955
Carbon dioxide
blood gases and canine cerebral circulation, 65
cerebrovascular response pattern during CO₂ rebreathing, 348
changes in cerebral vasomotor reactivity to CO₂ and autoregulation following subarachnoid hemorrhage, 263
cholinergic mechanism in cerebrovascular action of, 969
effect on metabolism of ischemic brain in squirrel monkeys, 987
physiological responses of cerebral circulation determined by hydrogen clearance method, 632
regional CBF response to inhalation of carbon dioxide, 250
relationship to blood pressure and resting blood flow, 715, 725
Carbon monoxide
physiological and pathological effects of moderate exposure, 490
Carboxyhemoglobin levels
association between atherosclerotic disease and, in tobacco smokers, 824
Cardiac arrest
CBF dynamics in hypotension and, 823
Cardiac output
cerebrovascular dimensions in intracranial arteriovenous malformation, 787
Carotid artery
aneurysms, 256
cervical internal, 260
common carotid artery, 719
diagnosis of internal carotid artery occlusion by Doppler sonography of ophthalmic artery, 104
effects of intra-arterial histamine on blood flow in, 46
endarterectomy shunt clamp, 486
extracranial disease. See Extracranial carotid artery disease
extraluminal carotid endarterectomy, 95
fate of muscle and cotton wrapped about intracranial carotid arteries and aneurysms, 490
heparin protection for brain during reconstruction of, 89
internal aneurysms of, 260
aneurysms of petrous or cavernous portions, 991
bilateral giant aneurysms, 260
bilateral obstruction or stenosis of, 105
cerebral atherosclerosis in Japanese, 768
massive epistaxis from ruptured traumatic aneurysm, 991
traumatic aneurysms, 999
ligation arterial collateralization after, 991
cerebral edema following, in gerbils, 988
occlusions changes of left and right ventricular volumes induced by propranolol and subsequent carotid occlusion, 477
clinical evaluation and correction of, 253
collateral cerebral blood pressure: index of tolerance to, 825
detecting by thermography, 57
EEG and arteriographical findings in TIA, 7
intraocular pressure and, 703
noninvasive detection and evaluation, 825
pulse curve in, 998
results of carotid compression tonographic test, 716
ultrastructural study, 964
prognosis in TIA, 666
pseudoneurysms of, 998
stenosis, 478
EEG and arteriographical findings in TIA, 7
indications for surgery, 826
surgical repair of cerebral ischemia due to: six-year follow-up, 486
stroke associated with elongation and kinking of, 996
subclavian-carotid bypass for cerebrovascular insufficiency, 95
ulcerated atheromatous plaques of carotid artery bifurcation, 912
Carotid body
catecholamines and 5-hydroxytryptamine in vascular diseases, 85

Stroke, Vol. 4, November-December 1973
INDEX

[Carotid body–Cerebral blood flow (CBF)]

Cerebral blood flow (CBF) in acute pyogenic meningitis and acute encephalitis, 353
alpha blocked vasoconstriction, 31
autoregulation, 742
brain blood flow in conscious and anesthetized rats, 706
cannulation of jugular bulb, 952
in carotid artery stenoses, 351
cerebral blood volume measurements as index of change in, 103
and cerebral metabolism in chronic renal insufficiency, 88
cerebrovascular regulation in preganglionic and postganglionic autonomic insufficiency, 12
comparison of CBF in goat: role of carotid rete, 244
correlation with EEG during carotid endarterectomy, 352
detecting carotid occlusive disease by thermography, 57
effects of adrenergic drugs on, 50
effects of alpha adrenergic blockade on autoregulation and chemical vasomotor control of CBF in stroke, 187
effects of dopamine, noradrenaline and 5-hydroxytryptamine on CBF in dogs, 263
effects of hydrocephalic process on CBF, 345
effects of increased intracranial pressure on flow through major cerebral arteries in vitro, 795
effects of intraarterial histamine on blood flow in carotid artery, 46
following induced subarachnoid hemorrhage in monkeys, 255
guide to safety of carotid ligation, 351
hydrogen clearance method for assessment of, 556
increase in CBF in rabbit by viquidil, 218
increased binding of norepinephrine, 42, 813
influence of changes in acid-base composition of ventricular system on CBF, 92
lactate in cerebrospinal fluid, 207
measurements based on xenon-133 inhalation, 257
multibolus technique, 483
noninvasive I.V. isotope method, 362
prognostic value of measurement in apallic syndrome, 104
repeated measurements during intracranial surgery, 93
techniques for continuous measurement of local CBF, Pao2, Paco2, and blood pressure in non-anesthetized animals, 994
variability of repeated clinical measurements, 364
raised intracranial pressure and, 87
regional abnormalities in chronic schizophrenia, 353
arterial peaks in, 133 Xenon clearance curves, 73
in cerebral infarction, 349
cerebrovascular CO2 reactivity, blood pressure, and regional resting flow, 725
in children, 1011
complications after measurements with xenon injection, 658
correlation with regional oxygen uptake using 15O method, 102
during stimulation of seventh cranial nerve, 213
effect of intracarotid epinephrine, norepinephrine and angiotensin, 99
effect on neuropsychological disorders, 350
effects of arterial blood pressure, 390
flow in scintigraphically positive vascular brain lesions, 349
gamma camera 1,600-channel analyzer system for measurement of, 102
hydrogen clearance technique, 556
comparison with oxygen availability in rabbits, 904
and management of arterial hypertension, 352
measurement with anger camera, 487
microvascular surgery of brain and, 351
radioisotopic methods, 1011
response to carbon dioxide inhalation in CVD, 250

outcome of stroke at hospital discharge in New York City
Blacks, 782
Hydergine
use of ergot preparation in convalescent phase of stroke, 813
versus papaverine in treating aged, 820
Hydrogen clearance method
assessment of blood flow in cortex, white matter and deep
nuclei of baboons, 556
rCBF determination by, and comparison with oxygen
availability in rabbits, 904
physiological responses of cerebral circulation, 632
6-Hydroxydopamine
intracerestemally administered, 474

INDEX

[ Hemorrhages—Hypertriglyceridemia ]

5-Hydroxytryptamine
catecholamines and, in carotid body in vascular diseases,
85
effects of adrenergic drugs on cerebral circulation, 50
and platelet aggregation responses in subjects with acute
migraine headaches, 246
Hyperbaric oxygenation
blood flow changes in carotid and vertebral arteries by,
823
Hyperbilirubinemia
in acute hemorrhagic stroke, 999
Hyperbradykininism
new orthostatic syndrome, 475
Hypercarnia
canine cerebral circulation, 65
cerebrospinal fluid xanthochromia after, 100
effect on CSF turnover and blood-CSF barrier to protein,
712
quantitative determination of cortical microflow and EEG
in graded hypercapnia, 260
regional autoregulation in cerebral circulation to increased
perfusion pressure in normocapnia and, 139
Hypercholesterolemia
early central nervous system lesions in experimental, in
normal and subdiabetic rats, 245
neurogenic, relationship to endocrine function, 98
Hyperemia
and autoregulation of CBF as evaluated by thermal
diffusion, 917
experimental studies in cerebral circulation of primates,
102
physiological responses of cerebral circulation, 632
Hyperlipidemia
and arterial blood gases, 261
control of, in treatment and prevention of coronary
atherosclerosis, 821
Hyperlipoproteinemia
clofibrate without dietary therapy, 259
Hyperoxia
following arterial air embolism, 85
Hyperplasia, fibromuscular
of extracranial arteries, 718
Hypertension
alteration of course of, in spontaneously hypertensive rats,
91
analysis of clinic dropouts, 699
antihypertensive treatment and course of established
CVD, 995
development of cerebro-vascular hyalinosis in, 996
effects on coronary sclerosis, 90
epidemiology of in-hospital deaths among Blacks, 923
experimental, alterations in retinal vasculature, 95
familial incidence of cerebral hemorrhage, 38
hemodynamic comparison of agents useful in emergencies,
826
in inner city: detection and follow-up, 707
ischemic cerebral, morphology of kidneys and hypo-tha-
lamic neurosecretory system in rabbits, 477
orthostatic, cerebrovascular regulation, 12
pathology of increased cerebrovascular permeability
in acute arterial hypertension in cats, 90
plasma renin activity in acute CVD, 160
plasma renin levels and vascular complications, 988
reserpine, hydralazine, hydrochlorothiazide combination,
242
risk factor in stroke patients, 751
screening methods, 240
spontaneous intracerebral hemorrhage due to, 473
strokes in children, 840
study in inner city, 827
TIAs and risk of stroke in elderly, 980
vascular mechanisms controlling autoregulation, 742
Hypertensive encephalopathy
pathogenesis of, 988
Hyperthermia
cerebrovascular response to CO2, during, 476
Hypertriglyceridemia
corrected by nicotinic acid or nicotinamide therapy, 710

Stroke, Vol. 4, November-December 1973

1067
effectiveness of low saturated fat, low cholesterol diet, 709
lipid and lipoprotein responses to low-carbohydrate modification of AHA fat-controlled diet, 243
propranolol and, 825
Hyperventilation
CSF acid-base balance and intracranial pressure changes, 620
clinical effect in stroke, 568
effect on energy and acid-base states of rat brain, 378
Hypocapnia
blood gases and canine cerebral circulation, 65
CSF changes by hyperventilation in stroke, 620
clinical effect of hyperventilation in stroke, 568
systemic circulatory responses to, 480
Hypocapnic alkalosis
mechanisms of action on limb blood vessels, 480
Hypoglycemia
brain metabolism during, 712
brain oxygen supply and neuronal activity under normal and hypoglycemic conditions, 714
Hypoplasia
in children, 861
of circle of Willis associated with micromalformations in children, 996
non-filling of intracranial circulation in association with carotid hypoplasia and dural sinus thrombosis, 262
Hypotension
autoregulation and hyperemia of CBF as evaluated by thermal diffusion, 917
CBF dynamics in, 823
cerebral dysautoregulation in central neurogenic orthostatic, 820
effect of EEG activity in dogs, 101
idiopathic orthostatic, 96
induced, blood and CSF lactate during, 823
influence of segmental, on experimental atherosclerosis, 103
platelet aggregates during hypovolemic hypotension in dogs, 998
vascular mechanisms controlling autoregulation, 742
Hypothermia
behavioral effects of autoregulated perfusion, arrest of CBF and, in monkeys, 980
cerebral circulation and metabolism, 257
excision of giant basilar aneurysms, 240
Hypoxia
behavioral and neurological disturbances associated with hypoxic brain damage, 996
effect of prolonged hypoxia on central nervous system, 711, 712
effect on glycogen stores in adult cat brain, 262
effects of blood gases on pressure-flow relationships in canine cerebral circulation, 65
plasma proteins, oxygen transport and atherosclerosis, 97
relative rates of arterial lactate and oxygen-deficit accumulation in hypoxic dogs, 988
response of brain to ischemia and, 820
ultrastructure of central nervous system after prolonged hypoxia, 711, 712

Iceland
primary SAH in Iceland, 764
Idiopathic autonomic insufficiency cerebrovascular regulation and, 12
Idiopathic orthostatic hypotension
treated with levodopa and MAO inhibitor, 96
Immunoelectrophoresis
and fibrinogen concentration in internal jugular vein, 807
Immunosuppression
in arterial and venous allografts, 700

*Stroke, Vol. 4, November-December 1973*  
1069
Muscular syndrome
clobfibrate-induced, 248
Myelomalacia
angiographic demonstration of spinal cord arterial occlusion in post-radiation, 704
Myocardial infarction
biochemical evaluation of treatment with streptokinase in AMI, 104
blood coagulation and fibrinolysis after MI, 252
low-dose heparin after, 245
phenformin plus ethylloestrenol in survivors of MI: three-year pilot study, 245
treatment of CVD with clobfibrate, 684
Myocardial necrosis
protection against epinephrine induced, by drugs that inhibit platelet aggregation, 479
Myogenic mechanisms
regional autoregulation in cerebral circulation, 139
Myxoma
atrial myxoma and central retinal artery occlusion, 717
left atrial myxoma as neurological problem, 451
N
Nalorphine
effect on cerebral metabolism and circulation, 474
Natural history of stroke
in Rochester, Minn. (1955-1969), 20
Neck
TIA's and stenotic lesions of neck vessels, 294
vertebral artery obstruction by hyperextension of neck, 997
Neisseria meningitidis infection
ruptured myptic pericardial aneurysm and, 247
Neoplasms
massive brain hemorrhage, 946
Nervous system
autonomic
cerebrovascular constriction blocked by adrenergic alpha receptor antagonists, 30
cerebrovascular regulation and, 12
plasma renin activity in acute CVD, 160
cBF during stimulation of seventh cranial nerve, 213
sympathetic
cerebrovascular constriction blocked by adrenergic alpha receptor antagonists, 30
increased binding of norepinephrine by nerves to cerebral blood vessels, 42, 813
Neural vascular control
sympathetic
cerebrovascular constriction blocked by adrenergic alpha receptor antagonists, 30
Neurogenic control
abnormal CBF regulation in complete cervical cord transection, 367
adrenergic innervation of blood vessels in central nervous system, 369
autonomic control of CBF and autoregulation, 370
autoregulation in human retina circulation, 373
autoregulation of cerebral circulation in orthostatic hypotension, 372
central nervous system control of baroreceptor reflexes, 472
of cerebral circulation, 1000
cholinergic and adrenergic innervation of cerebral vessels, 370
cholinergic innervation of pial arterial system, 371
correlation between oxygen cycles in central regions of brain, 374
effects of alpha adrenergic blockade, 187
on rCBF and CO2 responsiveness in CVD, 372
on cerebral circulation in hypcapnia, 366
effects of noradrenaline, 5-hydroxytryptamine and dopamine on CBF, 367
effects of sympathetic nerve stimulation on cerebral and cephalic blood flow, 369
evidence for adrenergic control of CV tone, 368
innervation of cerebral arterioles, 371
localized neurogenic vasocostriction of basilar artery, 373
mechanisms maintaining constant blood supply to brain, 373
regional differences in beta-adrenergic effects on local CBF and in sympathetic vascular innervation, 369
responses of hypoxic guinea pigs pial microvessels to isoproterenol, 374
sympathetic control of CBF in goats, 367
sympathetic innervation and CO2 sensitivity, 366
sympathetic nervous influence of blood circulation and carbonic anhydrase activity in choroid plexus, 368
sympathetic neural influence on norepinephrine vasocostriction in brain vessels, 474
sympathetic stimulation, regional brain blood flow, 370
upper limit of autoregulation and sympathetic system, 372
vasocostriction of basilar artery, 760
Neurological assessment
left atrial myxoma, 451
subarachnoid and subdural hemorrhages, 431
Neurological complications
infective endocarditis, 958
Neurological examinations
children with stroke, 898
evaluation of stroke-suspect patients, 275
diagnosis in TIA, 666
Neurological history
evaluation of stroke-suspect patients, 274
stroke-suspect patients, 274
Neurological symptoms
997 impaired neurogenic cerebrovascular control and dysautoregulation after stroke, 169
Neurosurgical lesions
brain scans and EEG in detecting, 245
Neurons
earliest alterations in rat neurons and astrocytes after anoxia-ischemia, 815
Neuropathology
in children, 860
abnormalities of blood vessel pattern, 863
abnormalities of organization of blood vessels, 860
collateral circulation, 860
free blood within cranium of neonates, 864
hypoplasia of major vessels, 861
necrosis and repair in immature brain, 863
vascular malformations or hamartomas, 861
necrotizing angiopathic, 240
pathoaetiological changes in older child, 864
Neuroradiology in diagnosis of childhood stroke, 1008
angiography, 1012
arterial occlusions, 1013
arteriovenous malformations, 1016
cerebral arterial aneurysms, 1016
cerebral embolism, 1015
infracranial venous thrombosis, 1016
plain skull radiographs, 1009
radionuclide studies, 1010
thermography, 1011
ultrasound, 1011
vascular lesions of spinal cord, 1017
Neurosurgical management of strokes in children, 1021
extracranial vascular disorders, 1021
extracranial vascular disorders, 1021
nontraumatic occlusive disorders, 1021
tortuosity, 1022
traumatic occlusive disorders, 1021
infracranial occlusive disorders, 1022
arterial occlusive disease, 1022
hemorrhagic disorders, 1023
venous occlusion, 1022
procedures to alleviate chronic disability, 1025
spinal cord disorders, 1024
Neurovascular care units
acute stroke management and patient outcome, 933
Neurovascular examination
evaluation of stroke-suspect patients, 274
indicators of extracranial carotid artery disease, 537
New York City
outcome of stroke at hospital discharge in Blacks, 782
stroke in central Harlem, 406
Norepinephrine
effect of intracarotid, on regional cerebral blood flow, 99
effect on diameter of pial arterioles and pial arteries in cats, 97
effects of adrenergic drugs on cerebral circulation, 50
increased binding by nerves to cerebral blood vessels, 42, 813
intravascular platelet aggregation in heart induced by, 250
North Carolina Comprehensive Stroke Program
organization of, 531

O
Obesity. See Overweight and obesity
Occlusions
alterations in cerebrospinal fluid flow dynamics in cerebrovascular occlusive disease, 91
carotid artery
detecting by thermography, 57
diagnosis by Doppler sonography of ophthalmic artery, 104
EEG and arteriographical findings in TIA, 7
changes in radioisotope cisternogram in cerebrovascular occlusive disease, 103
in children, 1013
extracranial occlusive disease, 1013
intracranial occlusive disease in children, 1014
EEG and arteriographical findings in carotid artery TIA, 7
multiple progressive intracranial arterial occlusions, 380
stenosis of internal carotid artery, 1013
Occlusive disease
treated by enzymatic clot lysis, 478
Occlusive disorders
neurosurgical management in children, 1021
Ocular blood flow
autoregulation of, 707
Ocular fundus
morbidity and survivorship of patients with embolic cholesterol crystals in, 718
Omentum
brain vascularization by intact omentum, 988
Ophthalmic artery
occlusion, ischemic ophthalmia secondary to, 261
reversed flow through as cause of ruberosis iridis, 485
Ophthalmodynamometry (ODM)
procedures and equipment, 115
Ophthalmological examination
procedures and equipment, 115
Ophthalmoplegia, painful
angiographic findings in, 479
Optic disc vasculitis
in young adults, 487
Optic nerve
involvement in diabetes, 699
Optic neuropathy
nonprogressive glaucoma and, 821
Oval contracessives
cerebral arterial occlusive disease with telangiectasia associated with, 995
cerebrovascular incidents while taking, 815
effect of blood clotting and platelets, 703
effects on renin-angiotensin system and blood pressure, 819
and increased risk of cerebral ischemia or thrombosis, 987
and platelet function, 717
Orthostatic syndrome
hyperbradydininism, 475
Overweight and obesity
platelet adhesiveness, coagulation, and fibrinolytic activity, 106
risk factors in coronary heart disease, 99
risk factors in stroke in Mexican patients, 773

INDEX

Oxygen
correlation of regional CBF with regional oxygen uptake using 15O method, 102
evidence for direct control of coronary vascular tone by, 712
plasma proteins, oxygen transport and atherosclerosis, 97
post-ischemic oxygen availability and consumption of isolated perfused brain of dogs, 94
rate of turnover in cerebrospinal fluid, 87
Oxygen saturation
blood gases and canine cerebral circulation, 65
Oxygen uptake
effect of pH on metabolism and ultrastructure, 221
Oxygenation
arterial in central nervous system trauma patients, 999
hyperbaric blood flow changes in carotid and vertebral arteries by, 823
size of infarct and, 483

P
Pacing, ventricular
effect on long-term survival, 247
Papaverine
effects in experimental vasospasm, 706
effects of adrenergic drugs on cerebral circulation, 50
ergot alkaloid preparation (Hydergine) versus, in treating, 820
Papilloedema
associated with ruptured intracranial aneurysms, 817
Paraformaldehyde technique
increased binding of norepinephrine, 42, 813
Parapharyngeal space
penetrating injuries of, 93
Pathophysiology
research needs, 516
Pelletier effect probe
autoregulation and hyperemia of CBF as evaluated by thermal diffusion, 917
Percutaneous puncture
microaneurysms of carotid artery after, 479
Perfusion pressure
clinical effect of hyperventilation in stroke, 568
effect of increased intracranial pressure, 795
effects of alpha adrenergic blockade, 187
physiological responses of cerebral circulation, 632
quantitative evaluation of CBF to perfusion pressure, 712
regional autoregulation in cerebral circulation, 139
regional cerebrovascular CO2 reactivity, blood pressure, and regional resting flow, 725
rCBF during stimulation of seventh cranial nerve, 213
Peritonaeum
autogenous peritoneum as arterial patch graft, 715
Perivascular osmolarity
effect on diameter of pial arteries, 713
Periventricular atherosclerotic leukoencephalopathy, 257
Periventricular leukomalacia
pathogenesis and evolution in infancy, 94
Permeability
pathophysiology of increased cerebrovascular permeability in acute arterial hypertension, 90
temporary alteration of cerebrovascular permeability to plasma protein during drug-induced seizures, 93
Persantine
for preventing thromboembolism following valve replacement, 100
Phenformin
plus ethylloestrenol in survivors of myocardial infarction: three-year pilot study, 245

Stroke, Vol. 4, November-December 1973
Phenoxybenzamine
effects of adrenergic drugs on cerebral circulation, 50
Phentolamine
alpha blocked vasconstrictor, 30
Phlebothrombosis
residual lesions of infantile cerebral, 707
Physical examinations
children with strokes, 878, 898
electroencephalography, 118
evaluation of stroke-suspect patients, 274
lumbar puncture, 122
procedures and special equipment, 115
using radiopharmaceuticals, 120
radiography, 123
Physicians
current availability of selected specialists, therapists and, 525
Physiological stimulation
altered cerebral metabolism and blood flow in response to
physiological stimulation, 361
Physiology
research needs, 516
Pial arteries
effect of norepinephrine on diameter of pial arterioles and,
in cats, 97
perivascular potassium and pH as determinants of local
pial arterial diameter in cats, 97
pressures in microcirculation during systemic arterial
blood pressure, 95
Pial precapillary vessels
unresponsiveness to catecholamines and sympathetic nerve
stimulation, 97
Plasma renin activity
in acute cerebrovascular disease, 160
Platelet-fibrin emboli
development of, 92
fibrinolysis and hemostasis, 90
486
bleeding time as screening test for evaluation of platelet
477
direct assessment of platelet adhesion to glass, 477
effect of alpha- and beta-receptor blocking agents on
clotting induced release reaction, 105
effect of platelet aggregation on release-induced stimuli, 89
effect of pyrimidine compounds on, 94, 997
and fibrinogen consumption in man, 486
fibrinolysis and hemostasis, 90
localization of free fatty acids taken up by, 89
scanning electron microscopic observations in hemostasis,
998
survival in patients with Beall valve: relation to low
incidence of thromboembolism, 91
Polarographical electrodes
direct measurement of hydrogen, 717
Surgery
infusion pump, 115
1073
INDEX
[Phenoxybenzamine-Prostheses]
Phenolamine
alpha blocked vasconstrictor, 30
Phlebothrombosis
residual lesions of infantile cerebral, 707
Physical examinations
children with strokes, 878, 898
electroencephalography, 118
evaluation of stroke-suspect patients, 274
lumbar puncture, 122
procedures and special equipment, 115
using radiopharmaceuticals, 120
radiography, 123
Physicians
current availability of selected specialists, therapists and, 525
Physiological stimulation
altered cerebral metabolism and blood flow in response to
physiological stimulation, 361
Physiology
research needs, 516
Pial arteries
effect of norepinephrine on diameter of pial arterioles and,
in cats, 97
perivascular potassium and pH as determinants of local
pial arterial diameter in cats, 97
pressures in microcirculation during systemic arterial
blood pressure, 95
Pial precapillary vessels
unresponsiveness to catecholamines and sympathetic nerve
stimulation, 97
Plasma renin activity
in acute cerebrovascular disease, 160
Platelet-fibrin emboli
development of, 92
fibrinolysis and hemostasis, 90
486

Retinal emboli
- indicators of extracranial carotid artery disease, 537
- ulcerated atheromatous plaques of carotid artery bifurcation, 912
Retinal hemorrhages
and intracranial aneurysms, 105
Retinal ischemic symptoms
in cardiovascular diagnosis, 249
Retinal strokes
incidence of carotid atheromata, 487
Retinal vessels
alterations in experimental hypertension, 95
Rheencephalography
procedures and equipment, 132
Rheumatoid arthritis
aspirin and MI in, 260
Risk factors
blood coagulation and fibrinolysis in 788 males, 262
clinical study in Mexican patients, 773
clotting and thrombolytic abnormalities, 643
coronary heart disease; overweight and obesity, 99
diabetes and hypertension, 751
strokes in children, 840
TIA incidence and risk of stroke in elderly, 980
Rochester (Minn.) Study of Stroke
natural history of stroke (1955-69), 20
TIA incidence (1955-69), 816
Rostral superior sagittal sinus
tresia of, 993
Rubeosis iridis
reversed flow through ophthalmic artery as cause of, 485
S
Sagittal sinus
atresia of rostral superior sagittal sinus, 993
Doppler ultrasound measurements of superior sagittal
sinus blood velocity, 255
Salzburg Conference on Cerebral Vascular Disease
summary of Sixth Conference (1972), 1
Saphenous vein grafts
atherosclerosis and aneurysm formation in, 827
noninvasive technique for determining patency of, 241
Scans and scanning
brain scans in autopsy proved cases of intracerebral
hemorrhage, 818
of platelets in hemostasis, 998
Scleroderma
rCBF abnormalities in, 353
Scintigraphy
angio-scintigraphy in neurological lesions of vascular
origin, 490
arterial peaks in regional cerebral blood flow, 73
procedures and equipment, 120
Screening methods
Atlanta Community High Blood Pressure Program, 240
Screening tests
detecting carotid occlusive disease by thermography, 57
Segmental vascular narrowing
unusual CV changes, 481
Seizures
induced seizures as therapy for experimental stroke in
monkeys, 702
Senile dementia
anticoagulant therapy for, 472
Serotonin
ischemic anoxia and cerebral serotonin levels, 105
species difference in carotid dogy response of cat and dog
to dopamine and, 476
Sex differences
stroke in Jerusalem district (1960-67), 465
Shy-Drager syndrome
cerebral dysautoregulation in, 820
cerebrovascular regulation in preganglionic and postgan-
glionic autonomic insufficiency, 12
treated with levodopa and MAO inhibitor, 96
Sick sinus syndrome
assessment of sinus node function, 251
Sickle-cell anemia
massive intracranial hemorrhage in, 816
occlusion of large cerebral vessels, 259
strokes in children, 841
INDEX

Stokes, Vol. 4, November-December 1973

Sinuses
narrow and atretic transverse dural sinuses, 995
Smoking
association between atherosclerotic diseases and carboxy-
hemoglobin levels in, 824
and warfarin dosage, 488
Snake venom
plasma fibrinogen recovery rate after administration of, 263
Sodium
measurement of cerebral infarction edema with sodium, 22, 461
Sodium dextrothrombin
effect on serum cholesterol in cardiac patients, 998
Sodium nitroprusside
hemodynamic effects of, 708

impaired neurogenic CV control and dysautoregulation
after stroke, 169
latent cerebral venous thrombosis syndrome, 419
natural history of stroke in Rochester, Minn., 20
outcome of stroke at hospital discharge in New York City
Blacks, 782
prognosis
in patients with TIA, 666
visual field defects and, 163
retinal, 487
tracheostomies and, 459
treatment of CVD with clofibrate, 684
on wrong side: use of Doppler ophthalmic test in cerebral
vascular screening, 478
Stroke centers
visual field defects and prognosis of stroke, 163
Stroke prevention
research needs, 516
Stroke programs
establishing local program, 528
example of written procedures for physicians and nurses,
534
North Carolina Comprehensive Stroke Program, 531
Stroke registry
in Göteborg, Sweden, 102
prospective method of studying stroke, 705
Subarachnoid hemorrhages
clinical grade rCBF, and angiographical spasm after
subdural and, 431
delayed arterial spasm following, 704
due to ruptured aneurysms, 242
effect of glycerol and intracarotid phenoxybenzamine after
SAH: ultrastructural study, 987
effect of increased intracranial pressure, 795
EKG changes after, 156, 488
experimental
cerebral hemodynamic and metabolic changes after, 264
due to deficient cerebral blood flow during, 263
effect of glycerol and intracarotid phenoxybenzamine on
cerebral hemodynamics and metabolism, 263
fibrinolytic activity of CSF after SAH, 815
formation of CSF xanthochromia after, 100
life-threatening arrhythmias in, 826
middle cerebral artery embolotomy and vasospasm, 446
monitoring antifibrinolytic therapy, 818
natural history of stroke in Rochester, Minn., 20
primary, in Iceland, 764
pulmonary edema secondary to, 104
regional cerebral blood flow studies, 85
relationship of neurological status and angiographical
evidence of spasm to prognosis, 973
serial changes in acid-base values in blood and CSF, 820
structural changes of intradural arteries following, 701
treatment of cerebral vasospasm with isoproterenol and
lidocaine hydrochloride, 994
“twin” intracranial aneurysms causing, in identical twins,
702
use of antifibrinolytic drugs to prevent early recurrent
aneurysmal SAH, 992
validity of intravenous isotope technique in CBF studies,
251
ventriculotomy for treatment of actue hydrocephalus
following SAH, 990
Subclavian artery
revascularization, by subcutaneous axillary-axillary graft, 700
Subclavian-carotid bypass
for cerebrovascular insufficiency, 95, 474
Subclavian steal
joint study of extracranial arterial occlusion, 485
Subdural hygroma
following head injury, 703
Superior sagittal sinus blood velocity
Doppler ultrasound measurements, 255
Surgery
aortic valve replacement with Starr-Edwards prosthesis,
820
arterial microangiograms, 828
arterial vascular, use of Doppler ultrasonic flowmeter
during, 89
cannulation of jugular bulb, 955
carotid and vertebral artery occlusive disease
physiological monitoring, 487
carotid artery
heparin protection for brain during, 89
carotid bruit: significance in patients undergoing abdomi
dinal aortic operation, 993
carotid endarterectomy
extraluminal, 95
carotid sinus syndrome, 990
carotid-subclavian bypass
fistula for peripheral resistance on carotid blood flow
after, 95, 474
carotid thromboendarterectomy
intraoperative arteriography, 991
endarterectomies, 93
EEG and CBF measurements during, 674
of external carotid artery, 993
extracranial-intracranial bypass grafts, 243
intracranial
arterial aneurysms, disturbances of serum electrolytes
after, 96
repeated measurements of cerebral blood flow during, 93
intracranial arterial embolism, 1001
intracranial hemorrhage, 309
medical and surgical management, 273
microsurgical cerebral revascularization
surgical and radiotherapy, 673
anatomy of middle cerebral artery, 412
neurological status and angiographical evidence of spasm,
973
neurosurgical management of strokes in children, 1021
arterial occlusive disease, 1022
extracranial vascular disorders, 1021
hemorrhagic disorders, 1023
intracranial vascular disorders, 1022
spinal cord disorders, 1024
arterial insufficiency, 99
tortuosity, 1022
traumatic occlusive disorders, 1021
venous occlusion, 1023
physiological monitoring
occlusive disease, 487
postnephrectomy arteriovenous fistula causing "stroke"
and congestive heart failure, 993
prosthetic replacement of mitral valve, 816
research needs, 518
revascularization with autogenous grafts, 814
spinal cord, vascular anomalies of, 99
subclavian-carotid bypass graft for cerebrovascular insuf
sufficiency, 95
subdural hematomas, 93
TIA and stenotic lesions of neck vessels, 295
tracheostomies and stroke, 459
valve replacement
use of persantine in preventing thromboembolism
following, 100
Survival
outcome of stroke at hospital discharge in New York City
Blacks, 782
stroke in central Harlem, 406
Symposium Abstracts
Cerebral Circulation and Metabolism: Sixth International CBF Symposium, 321
autoregulation, 323
CBF and electrical activity, 339
chemical control, 326
clinical miscellaneous, 352
clinical stroke, 349
diffuse ischemia, 339
focal lesions, 329
increased intracranial pressure and CBF, 345
methodology, 335
neurogenic control, 366
pharmacology and anesthesia, 356
Systemic lupus erythematosus
cyclophosphamide in treatment of, 991
in the elderly, 253
ocular findings in, 821
procainamide-induced, 249

Takayasu's arteritis
total aortography in diagnosis of, 260
Teaching Scholar program
promise of better patient care, 492
Technetium
cerebral transit time of 99m technetium sodium pertechnetate before and after cerebral arteriography, 990
scanning of subdural hematomas, 989
Temporal arteries
detecting carotid occlusive disease by thermography, 57
observations on, 488
Tenorial herniation
clinical effect of hyperventilation in stroke, 568
Therapists
current availability of, 527
Thermal diffusion
autoregulation and hyperemia of CBF as evaluated by, 917
Thermography
detecting carotid occlusive disease by, 57
use with children, 1011
Thrombocytopenia
in children, 842
Thrombocytosis
in children, 842
Thromboembolism
complications during anticoagulant therapy, 89
pernante in preventing, following valve replacement, 100
Thrombolysis
abnormalities as risk factor for stroke, 643
abnormalities in clotting and thrombolysis as risk factors, 643
value of monitoring heparin treatment with activated partial thromboplastin time, 105
Thromboplastin generation test
stroke and blood coagulation, 400
Thrombosis
anatomy of middle cerebral artery, 412
carotid TIA associated with antiplatelet aggregation therapy, 732
cerebral atherosclerosis in Japanese, 768
child with stroke, 1013
effect of aspirin on, 387
estrogen in treatment of, 987
experimental
and selective in situ lysis by catheter technique, 482
incorporation of 125I-labelled fibrinogen into coronary arterial thrombi in AMI, 702
induced by inversion of arterial branch, 252
induction in guinea pigs by brain tumors, 479
intracranial venous, 712
in children, 1016
latent cerebral venous
frequency, relation to age, and congestive heart failure, 419

INDEX
Symposium Abstracts—Transient ischemic attacks
microcirculatory
relation to thrombus in proximal coronary artery; effect of aspirin, dipyridamole and thrombolysis, 999
stroke and blood coagulation, 400
tracheostomies and stroke, 459
venous
effect of aspirin on postoperative, 99
massive brain hemorrhages, 946
visual field defects and prognosis of stroke, 163
Thrombus formation
effect of aspirin on vascular catheters in cats, 481
experimental arterial, 819
reduction of, on dialysis membranes by aspirin and RA, 233, 478
Tissues
response to arterial substitute of bovine origin, 249
Tolosa-Hunt syndrome
angiographic findings in, 479
Tomography
clinical experience with circular angiotomography, 482
Tortuosity
neurosurgical management in children, 1022
Tracheostomies
control of common carotid and innominate artery hemorrhage complicating, 826
and stroke, 459
Training and education
dieticians, 510
Joint Committee report, 499
medical students, 502
nurses, 508
rehabilitation nurse, 509
occupational therapists, 511
 overview, 509
physical therapists, 511
physicians, 503
 current availability of, 525
internists and/or cardiologists, 503
neurologists, 504
neurosurgeons, 505
ophthalmologists, 505
orthopaedic surgeons, 506
pathologists, 506
physiatrists, 507
radiologists, 507
urologists, 508
vascular surgeons, 508

speech pathologists, 510
survey of predoctoral stroke education, 512
vocational rehabilitation counselors, 512
Transient focal cerebral ischemia
in cardiac dysrhythmia, 711
Transient ischemic attacks
cardiac dysrhythmia and, 899
differences in occurrence of carotid TIA associated with antiplatelet aggregation therapy, 732
effect of aspirin on thrombosis, 387
ECG changes, 999
EEG and arteriographical findings in carotid artery TIAs, 7
extracranial arterial reconstruction for, 995
impaired neurogenic CV control and dysautoregulation after stroke, 169
indicators of extracranial arterial artery disease, 537
medical treatment, 294
monoclonal TIAs and external carotid artery, 991
prevalence and prognosis in biracial rural community, 1000
prognosis, 666
and risk of stroke in elderly poor population, 980
in Rochester, Minn. (1955-69), 816
and stenotic lesions of neck vessels, 294
surgical treatment, 295
Treatment of CVD with clofibrate, 684
ulcerated atheromatous plaques of the carotid artery bifurcation, 912
Transverse dural sinuses
narrow and atretic, 995

Trauma
rCBF in brain and cervical cord in experimental head trauma, 334
stroke in children, 844
Tumors, cerebral
remitting signs in cerebral mass lesions, 989

U
Ulcerated atheromatous plaques
of carotid artery bifurcation, 912

Ultrasound
Doppler measurements of superior sagittal sinus blood velocity, 255
extracranial vascular disease, 257
procedures and equipment, 129
use of Doppler ultrasonic flowmeter during arterial vascular surgery, 89
use with children, 1011

Ultrastructural studies
disaggregation of polyribosomes in intact gerbils following ischemia, 964
effect of pH on metabolism and, of cerebral cortex slices, 221

Urethane anesthesia
cholinergic control of cortical blood flow, 232
Urokinase
radioactive, for blood clot scanning, 100
therapy: dosage schedules and coagulant side effects, 101

V
Valsalva maneuver
and CBF velocity 247
Vascular resistance
See Cerebral vascular resistance
Vasculitis
stroke in children, 842
Vasoconstriction
absence with hyperventilation in tetraplegic man, 98
of basilar artery, 760
evidence of vasoconstrictor sympathetic nerves in brain vessels of mice, 713
middle cerebral artery embolectomy and prolonged widespread vasospasm, 446
modification with hyperventilation in normal man by thymoxamine, 98
sympathetic cerebral vasoconstriction blocked by adrenergic alpha receptor antagonists, 30
sympathetic neural influence on norepinephrine vasoconstriction in brain vessels, 474

Vasodilation
rCBF during stimulation of seventh cranial nerve, 213
effects of intra-hemispheric arterial shunt, 46

Vasomotor nervous control
autoregulation, 742
mechanism of chemical control of cerebral vasomotor activity, 823

Vasoparalysis
clinical effect of hyperventilation in stroke, 568

Vasopressor pathways
electrophysiological studies on organization of, 714

Vasospasm, cerebral
alteration by adrenergic blockade, 255
CBF evaluation of prolonged experimental, 255
middle cerebral artery embolectomy and prolonged widespread vasospasm, 446
reversal of, 1001
role of prostaglandin -F_2 in genesis of, 248
treatment with isoproterenol and lidocaine hydrochloride, 337, 994

Venous occlusion
neurosurgical management in children, 1023
See also Occlusions

Venous outflow
regional autoregulation in cerebral circulation, 139

Ventilation
clinical effect of hyperventilation in stroke, 568
Venous drainage
extradural hemorrhage and, 87

Ventricular pacing
effect on long-term survival, 247

Ventriculography
localization of intraventricular arteriovenous malformations, 814

Vertebral artery
bypass anomaly associated with cerebral aneurysm and arteriovenous malformation, 96
extracranial and intracranial structures, 250
giant cell arteritis, 709
obstruction by hyperextension of the neck, 997
post-angiographic vertebral arteriovenous fistulae, 263
vertebro-basilar arteries
impaired neurogenic cerebrovascular control and dysautoregulation after stroke, 169
occlusions, study with post-mortem data, 819

Vertigo
prognosis in TIA, 666
Veterans Administration Cooperative Study Group
treatment of CVD with e clofibrate, 684

Viguidil
increase in CBF by, 218
Visual field defects
prognosis of stroke and, 163

Volume
cardiovascular dimensions in intracranial arteriovenous malformation, 787
quantitative isotope studies of cerebral vascular volume, 827

W
Wall/lumen ratio
effects of increased intracranial pressure, 795

Warfarin
interaction of benzodiazepines with, 244
interaction of sodium warfarin and disulfiram, 484
prothrombin levels maintained with mepromabate and, 101
smoking and warfarin dosage, 488

Water areas
clinical and biochemical indicators of CVD among men living in hard and soft water areas, 704

White matter
degeneration in hypoxia, acidosis and edema, 718
hydrogen clearance method in assessment of, 556
physiological responses of cerebral circulation, 632

Women
cryptogenic drop attacks: an affliction of women, 817

Xenon-133
arterial peaks in rCBF, 73
cerebral complications following rCBF measurements, 658

CBF measurements
differences between “81-key and 31-key” decay curves, 364
inhalation technique, 363
in carotid endarterectomy, 363
pitfalls in studies in head-injured patients, 364
quantitating local CBF in 144 subdivisions of human brain, 365
diffusion bypass of xenon in brain circulation, 817
EEG and CBF measurements during carotid endarterectomy, 674
inhalation technique for measuring CBF, 363
regional cerebrovascular CO_2 reactivity, blood pressure, and regional resting flow, 725
X-ray fluorescence
effects of arterial blood pressure on rCBF, 390

Young people
multiple progressive intracranial arterial occlusions, 380
cerebral occlusion of basilar artery, 258
pathoanatomical changes in older child, 864
