26th Princeton Conference on Cerebrovascular Disease: Preface
James C. Grotta, MD .......................................................... S1

Neurovascular Unit

The Neurovascular Unit in Health and Disease: Introduction
Eng H. Lo, PhD; Gary A. Rosenberg, MD .................................................. S2

Dysfunctional Cell-Cell Signaling in the Neurovascular Unit as a Paradigm for Central Nervous System Disease
Shuzhen Guo, PhD; Eng H. Lo, PhD .................................................. S4

Astrocytes and Ischemic Injury
Takahiro Takano, PhD; Nancy Ann Oberheim, PhD; Maria Luisa Cotrina, PhD; Maiken Nedergaard, MD, DMSc .................................................. S8

Pericyte Signaling in the Neurovascular Unit
Mark Fisher, MD .......................................................... S13

Cerebral Amyloid Angiopathy: Progressive Disruption of the Neurovascular Unit
Gregory J. Zipfel, MD; Henry Han, PhD; Andria L. Ford, MD; Jin-Moo Lee, MD, PhD .................................................. S16

Inflammation and White Matter Damage in Vascular Cognitive Impairment
Gary A. Rosenberg, MD .......................................................... S20

Imaging and Biomarkers

MR and CT Monitoring of Recanalization, Reperfusion, and Penumbra Salvage: Everything That Recanalizes Does Not Necessarily Reperfuse!
Bruno P. Soares, MD; Jeffrey D. Chien, BA; Max Wintermark, MD .................................................. S24

Use of Imaging in Restorative Stroke Trials
Steven C. Cramer, MD .......................................................... S28

Molecular Imaging and Stroke
Michael E. Moseley, PhD .......................................................... S30

Inflammation and the Emerging Role of the Toll-Like Receptor System in Acute Brain Ischemia
Brenda J. Marsh, BS; Susan L. Stevens, BS; Brian Hunter, BS; Mary P. Stenzel-Poore, PhD .................................................. S34

Vascular Cognitive Impairment

Vascular Cognitive Impairment: Small Vessels, Big Toll: Introduction
Sandra Black, MD, FRCP(C); Costantino Iadecola, MD .................................................. S38

Threats to the Mind: Aging, Amyloid, and Hypertension
Costantino Iadecola, MD; Laibaik Park, PhD; Carmen Capone, PhD .................................................. S40
Brain Hemorrhage

Cognition in CADASIL
Martin Dichgans, MD

Understanding White Matter Disease: Imaging-Pathological Correlations in Vascular Cognitive Impairment
Sandra Black, MD, FRCP(C); FuQiang Gao, MD; Juan Bilbao, MD, FRCP(C)

Diabetes: Vascular or Neurodegenerative: An Epidemiologic Perspective
Lenore J. Launer, PhD

Prevention 1: Genetics

Introduction to Genetics
Karen Furie, MD; Katrina Gwinn, MD, Session Chairs

Genomewide Linkage in a Large Caucasian Family Maps a New Locus for Intracranial Aneurysms to Chromosome 13q
Teresa Santiago-Sim, PhD; Steven R. DePalma, PhD; Kevin L. Ju; Barbara McDonough, RN; Christine E. Seidman, MD; J.G. Seidman, PhD; Dong H. Kim, MD

Whole Genome Approaches in Ischemic Stroke
James F. Meschia, MD

Exploiting Common Genetic Variation to Make Anticoagulation Safer
The Genes for Cerebral Hemorrhage on Anticoagulation (GOCHA) Collaborative Group

Predictive Genomics of Cardioembolic Stroke
Rachel Badovinac Ramoni, DMD, ScD; Blanca E. Himes, PhD; Michele M. Sale, PhD; Karen L. Furie, MD, MPH; Marco F. Ramoni, PhD

Prevention 2: High-Risk Populations

High-Risk Populations: Introduction
George Howard, DrPH; Ralph L. Sacco, MD, MS

Stroke Risk Profiles
Philip A. Wolf, MD

Sociodemographic Groups at Risk: Race/Ethnicity
Dawn Kleindorfer, MD

Arterial Ischemic Stroke: Common Risk Factors in Newborns and Children
Steven G. Pavlakis, MD; Kim Levinson, MSN

Challenges of Designing Trials for the Primary Prevention of Stroke
Philip B. Gorelick, MD, MPH

Brain Hemorrhage

Brain Hemorrhage: Introduction
Jaroslaw Aronowski, PhD; Lewis B. Morgenstern, MD

Subarachnoid Hemorrhage: Is It Time for a New Direction?
Julian Cahill, MD, MRCS; John H. Zhang, MD, PhD

Thrombin and Brain Recovery After Intracerebral Hemorrhage
Ya Hua, MD; Richard F. Keep, PhD; Yuxiang Gu, MD, PhD; Guohua Xi, MD

Deferoxamine Mesylate: A New Hope for Intracerebral Hemorrhage: From Bench to Clinical Trials
Magdy Selim, MD, PhD

Hematoma Resolution as a Therapeutic Target: The Role of Microglia/Macrophages
Xiurong Zhao, MD; James Grotta, MD; Nicole Gonzales, MD; Jaroslaw Aronowski, PhD
### Brain Arteriovenous Malformation Biology Relevant to Hemorrhage and Implication for Therapeutic Development

Helen Kim, PhD; Ludmila Pawlikowska, PhD; Yongmei Chen, MD, PhD; Hua Su, MD; Guo-Yuan Yang, MD, PhD; William L. Young, MD

---

### Reperfusion

**Introduction to Reperfusion**
Joseph Broderick, MD; Jeffrey Saver, MD

**Combination Pharmacotherapy for Achievement and Maintenance of Vascular Patency**
Arthur M. Pascioli, MD

**Endovascular Therapy for Acute Ischemic Stroke**
Joseph P. Broderick, MD

**Ultrasound Enhancement of Fibrinolysis**
Andrei V. Alexandrov, MD

---

### Neuroprotection

**Current Status of Neuroprotection for Cerebral Ischemia: Synoptic Overview**
Myron D. Ginsberg, MD

**Cosmic Implications of NXY-059**
Sean I. Savitz, MD

**Potential Molecular Targets for Translational Stroke Research**
Peter S. Vosler, BSc; Jun Chen, MD

**Translational Medicine for Stroke Drug Discovery: The Pharmaceutical Industry Perspective**
Giora Z. Feuerstein, MD; Juan Chavez, PhD

**Multimodal Neuroprotective Therapy With Induced Hypothermia After Ischemic Stroke**
Thomas M. Hemmen, MD, PhD; Patrick D. Lyden, MD, FAAN

---

### Rehabilitation

**Rehabilitation and Repair: Introduction**
Steven C. Cramer, MD; Randolph J. Nudo, PhD

**Novel Multi-Modal Strategies to Promote Brain and Spinal Cord Injury Recovery**
Rajiv R. Ratan, MD, PhD; Mark Noble, PhD

**Amphetamine Trials and Tribulations**
Larry B. Goldstein, MD, FAAN, FAHA

**Remodeling the Brain With Behavioral Experience After Stroke**
Theresa A. Jones, PhD; Rachel P. Allred, BA, BS; DeAnna L. Adkins, PhD; J. Edward Hsu, MD, PhD; Amber O’Bryant, BA; Mónica A. Maldonado, BS

**What Is the Evidence for Use Dependent Learning After Stroke?**
Thomas A. Kent, MD; Devon G. Rutherford; Joshua I. Breier, PhD; Andrew C. Papanicoloau, PhD

---

### Stem Cell Therapy

**Introduction to Cellular Therapy: The Next Frontier for Stroke Therapeutics**
Sean I. Savitz, MD

**Mechanisms Underlying Improved Recovery of Neurological Function After Stroke in the Rodent After Treatment With Neurorestorative Cell-Based Therapies**
Michael Chopp, PhD; Yi Li, MD; Zheng Gang Zhang, MD, PhD
Cell Therapy for Stroke: Remaining Issues to Address Before Embarking on Clinical Trials
Cesar V. Borlongan, PhD

Clinical Trials of Stroke Therapy: Which Cells, Which Patients?
Lawrence R. Wechsler, MD

Experimental Models: Help or Hindrance
Alison E. Willing, PhD

On the cover: The illustration is taken from an article in this issue, “Astrocytes and Ischemic Injury” by Takano et al (Stroke. 2009;40[suppl 1]:S8–S12).
