## Proceedings of the 28th Princeton Conference: Preface
**Princeton Conference XXVIII—Cincinnati, Ohio**
*Joseph Broderick, MD; Dawn Kleindorfer, MD*

---

## Interventional Treatment of Acute Ischemic Stroke

### Interventional Treatment of Acute Ischemic Stroke: Introduction
*Kyra Becker, MD; David Fiorella, MD, PhD*

---

### Devices and Clinical Trials: Overview and Equipoise
*Joseph P. Broderick, MD*

---

### Preclinical Investigations for Thrombectomy Devices—Does it Translate to Humans?
*Matthew J. Gounis, PhD; Ajay K. Wakhloo, MD, PhD; Ju-Yu Chueh, PhD*

---

### Impact of Recanalization, Reperfusion, and Collateral Flow on Clinical Efficacy
*Gregory W. Albers, MD*

---

### The Evolution of Technology
*Jeffrey L. Saver, MD*

---

## Genetics of Stroke: The Impact and Limitations of Evolving Technology

### Genetics of Stroke: Impact and Limitations of Evolving Technology: Introduction
*Daniel Woo, MD; James F. Meschia, MD*

---

### MicroRNAs as Effectors of Brain Function
*Julie Anne Saugstad, PhD*

---

### Wellcome Trust Genome-Wide Association Study of Ischemic Stroke
*Hugh S. Markus, DM*

---

### Whole Genome Expression of Cellular Response to Stroke
*Frank R. Sharp, MD; Glen C. Jickling, MD, MAS*

---

### Whole Exome Sequencing of Intracranial Aneurysm
*Tatiana Foroud, PhD; for the FIA Study Investigators*

---

## Controversy: Does Prevention of Vasospasm in SAH Improve Clinical Outcome?

### Controversy: Does Prevention of Vasospasm in Subarachnoid Hemorrhage Improve Clinical Outcome?
*Michael N. Diringer, MD*

---

### Does Prevention of Vasospasm in Subarachnoid Hemorrhage Improve Clinical Outcome? Yes
*Robert Loch Macdonald, MD, PhD*

---

### Does Prevention of Vasospasm in Subarachnoid Hemorrhage Improve Clinical Outcome? No
*Jack Hou, MD; John H. Zhang, MD, PhD*
Interventional and New Approaches to Stroke Prevention

Interventional and New Approaches to Stroke Prevention: Introduction
Larry B. Goldstein, MD; Karen L. Furie, MD ................................................................. S37

Dabigatran, ROCKET Atrial Fibrillation, and Beyond: Basic Science, Mechanisms of Agents, Monitoring, and Reversal
Kenneth A. Bauer, MD .................................................................................................. S38

Intracranial Stenting: SAMMPRIS
Colin P. Derdeyn, MD; David Fiorella, MD, PhD; Michael J. Lynn, MS; Tanya N. Turan, MD;
Bethany F. Lane, RN; L. Scott Janis, PhD; Marc I. Chimowitz, MB, ChB .................................. S41

PFO Closure: CLOSURE
Anthony J. Furlan, MD; for the CLOSURE I Investigators .................................................. S45

Education Strategies for Stroke Prevention
Bernadette Boden-Albala, MPH, DrPH; Leigh W. Quarles, MPH ........................................... S48

Neuroimaging

Neuroimaging: Introduction
Max Wintermark, MD; David S. Liebeskind, MD .................................................................. S52

The Alphabet of Imaging in Acute Stroke: Does It Spell Improved Selection and Outcome?
Howard A. Rowley, MD ..................................................................................................... S53

Chronic Neurovascular Uncoupling Syndrome
David J. Mikulis, MD .......................................................................................................... S55

MR-Guided Focused Ultrasound for Acute Stroke: A Rabbit Model
Thilo Hölscher, MD; Golnaz Ahadi, PhDc; David Fisher, SRA; Eyal Zadicario, PhD; Arne Voie, PhD ................................................................. S58

MR Imaging of Oxygen Extraction and Neurovascular Coupling
Weili Lin, PhD; Hongyu An, DSc; Andria Ford, MD; Yasheng Chen, DSc; Katie Vo, MD;
William J. Powers, MD; Jin-Moo Lee, MD, PhD ..................................................................... S61

Hemorrhagic Stroke

Hemorrhagic Stroke: Introduction
Daniel F. Hanley, MD; Issam A. Awad, MD; Paul M. Vespa, MD; Neil A. Martin, MD;
Mario Zuccarello, MD ......................................................................................................... S65

The Importance of Acute Hypertensive Response in ICH
Adnan I. Qureshi, MD ........................................................................................................ S67

Ongoing Clinical Trials in Intracerebral Hemorrhage
Nicole R. Gonzales, MD ..................................................................................................... S70

Hematology and Inflammatory Signaling of Intracerebral Hemorrhage
Wendy C. Ziai, MD, MPH .................................................................................................. S74

Surgical Trials in Intracerebral Hemorrhage
Paul M. Vespa, MD; Neil Martin, MD; Mario Zuccarello, MD; Issam Awad, MD; Daniel F. Hanley, MD .................. S79

The Microcirculation—Fantastic Voyage

Microcirculation—Fantastic Voyage: Introduction
Costantino Iadecola, MD; Ulrich Dirnagl, MD ...................................................................... S83

Angiophagy: Mechanism of Microvascular Recanalization Independent of the Fibrinolytic System
Jaime Grutzendler, MD ...................................................................................................... S84

Spreading Depression and Neurovascular Coupling
Cenk Ayata, MD .................................................................................................................. S87
