The version of the article, “Thrombolysis in Patients With Mild Stroke: Results From the Austrian Stroke Unit Registry” that published ahead-of-print on January 30, 2014, and appears in the March issue (Stroke. 2014;45:765–769) had an error on page 768. The last sentence of the Discussion reads, “In addition, with the exception of SICH, the numbers of complications were equally distributed between patients with mild deficit with and without thrombolytic treatment (Table II in the online-only Data Supplement).” This sentence should refer to (Table). The authors regret the error.
