Acetylcholine

disordered cholinergic neurotransmission after CI, 172
 supersensitivity of pial vascular adrenoceptors, 525

Acid-base balance

lactate and pyruvate and, of CSF in SAH, 715

Adenosine

release from ischemic brain, 92

Adenosine diphosphate

experimental study with intracarotid ADP infusion in rabbits, 617

Adrenergic blocker

pial microcirculation in SAH, 417

Adrenergic mechanisms

in cephalic and cerebral circulations of primates, 452

in CBF of goats, 552

Adrenergic receptors

in isolated feline middle cerebral artery characterized pharmaco-

cologically, 449

Africans

cerebral atherosclerosis and selected disease in Nigerians, 395

sick-sinus syndrome, 460

trace metal content of cerebral vessels, 684

Age categories

comparative study of cerebral vasoactivity, 673

Alcohol

brain capillary permeability studies of water and several al-

cohols, 251

Amaurosis fugax

clinical angiographic correlations, 87

clinical comparison, 493

Amnesia

transient global, 513

AMP levels

evidence for disordered cyclic AMP metabolism in CI, 722

Anaerobic metabolism

effects of bilateral carotid artery ligation, 62

Anastomosis

experimental augmentation of CBF by microvascular, 207

intracranial arterial, 559

microvascular, effect of sulfipyrazone and heparin on, 229

occupial artery-middle cerebral artery, 334

orbital, of anterior deep temporal artery, 724

segmental intervertebral, in subclavian steal, 457

temporal artery-middle cerebral artery, 212

transient postoperative occlusion of superficial temporal-middle

cerebral artery branch anastomosis, 727

Anesthesia

barbiturate protection from CI in primates, 28

effects of morphine-nitrous oxide, on cerebral autoregulation, 456

effects on cerebral, renal, and splanchnic circulations, 68

influence on responses to regional cerebral ischemia, 405

internal carotid artery stump pressures during regional anes-

thesia, 346

Anerysms

angiographically monitored resolution of cerebral mycotic

aneurysms, 336

anterior communicating surgical techniques, 339

berry

experiences with surgical thrombosis of intracranial berry

aneurysms and carotid cavernous fistulas, 336

in Nigerians, 395

bilateral dissecing, of internal carotid arteries, 345

on intracranial internal carotid arteries, 726

cardiac arrhythmias and sudden death in SAH, 382

cerebral aneurysms in stenosis of aortic isthmus, 341

cerebral circulation time with ruptured intracranial, 207

computed tomography in management of, 105

conservative management of recently ruptured, 453

dissecting, of carotid and vertebral arteries, 346

following endarterectomy associated with patch graft angio-

plasty, 729

internal carotid

pupillary sparing in oculomotor palsy from, 721

intracranial

analysis of results of nine years' experience in surgical treat-

ment of, 722

familial, 218, 334

microsurgical approach to, 460

new approach to management of, 455

and SAH treated with antifibrinolytic therapy, 622

surgery for, 726

treatment by wrapping and coating, 452

localized intracranial, 212

management of rupture during surgery, 342

Moyamoya disease associated with several intracavernous, 93

multiple cerebral

and cardiac myxoma, 550

identification of source of bleeding in, 96

myotic case report with novel sequential angiographic findings,

348

pseudoaneurysm. See Pseudoaneurysms

ruptured

antifibrinolytic therapy in recent onset SAH following, 622

continuous ventricular drainage to lessen surgical risks, 339

value of cerebral isotope flow studies in timing of surgery, 459

surgical treatment of arterial aneurysms of vertebralbasilar circu-

lation, 335

traumatic aneurysm of peripheral cerebral artery, 209

Angioendotheliomatosis

do central nervous system, 85

Angiography

angiographic circulation time as index of CBF, 540

blood flow and patency in basilar artery grafts, 445

carotid artery disease, 720

of cerebellar hemorrhage secondary to hypertension, 459

congenital absence of both internal carotid arteries, 552

disappearance and reappearance of cerebral aneurysm in serial

arteriograms, 204

extravasation of contrast material into subdural space, 551

loculated intracranial aneurysms, 212

patterns of CVD in Japanese and other groups in Hawaii, 539

of pontine hemorrhage, 93

positive scans in recanalized cerebral infarction, 132

rupture of posterior inferior cerebellar artery aneurysm, 551

Todd's paralysis, 301

value of colour subtraction of angiograms particularly in cerebro-

vascular disease, 720

Angiomas

cervical spinal angioma combined with arterial aneurysm, 452

telangiectases and cavernous angiomas of the brainstem, 340

Angiomas of the orbit

arteriography in, 212

Angioscintigraphy

advantage of programmed evaluation in vascular disease, 454

Angiography

study of normal cerebral circulation, 210

Animal studies

baboons

chronic stroke model, 476

local CBF and vascular reactivity in chronic stable stroke, 482

cats

cardiopulmonary interaction during cerebral oil embolization

and hypertension, 233

carotid arterial supply, 541

CBF in cats after acute hypertensive insult, 188

cranial window technique for acute and chronic experiments,

308

immediate effects of cerebral ischemia, 321
response of pial arteries to norepinephrine and sympathetic nerve stimulation, 634
supersensitivity of pial vascular adrenoceptors, 525
weight, volume and specific gravity of cat brain, 232
dogs
experimentally induced intracerebral and SAH in dogs, 715
genesis of cerebral vasospasm, 52
global ischemia, 21
post-ischemic regulation of CBF, 425
gerbils
acute unilateral common carotid artery ligation, 729
communications between vertebro-basilar and carotid arterial circulations, 343
experimental stroke in, 234
mice
constriction of pial arterioles by prostaglandins, 293
monkeys
artificial embolization of MCA in primates, 387
cerebral energy metabolism following SAH, 1
effects of hypotension on, 723
effects of simulated SAF on CBF, 664
estimating total CBF from initial slope of hydrogen washout curves, 149
NADH in cerebral cortex; animal preparation, instrumentation, and validity of model, 270
peripheral sympathetic nervous system in CBF autoregulation, 284
resuscitation of monkey brain after one hour's complete ischemia, 454
primates
barbiturate protection from cerebral infarction, 28
chronic stroke model, 476
effect of salt overloading on atherosclerosis and blood pressure, 9
polarographical measurement of local CBF, 42
rabbits
effects of oxygen saturation and PCO2 on brain uptake of glucose analogues, 691
experimental study with intracarotid ADP infusion, 617
rats
brain scan in cerebral ischemia for study of radionuclide localization, 703
cerebral energy metabolism after SAH, 1
chronic diabetes followed by cerebral ischemia, 432
effects of bilateral carotid artery ligation, 62
measurement of CBF by xenon-133 infusion, 630
Anisocoria
following cerebrovascular accidents, 697
Anovulants
treatment of premature menopause, 559
Arteriovenous fistula
injury and repair of, 348
Arteriosclerosis cerebral
effect of cyclandelate on dementia, 535
Arteriovenous fistula
and pseudoaneurysm involving middle meningeal artery, 453
Arteriovenous malformations
cerebral
radioiodine cerebral angiograms, 346
surgical embolization, 551
cerebral vasospasm with SAH, 452
choroid plexus, 721
computed tomography in management of, 105
intracranial
intelectual performance of patients with, 219
intraparenchymal, 335
spontaneous thrombosis of deep cerebral veins, 164
Arteritis
ancient cell, 86, 217
corticosteroid treatment, 552
temporal arteriography and biopsy, 346
Takayasu's, 345, 460
Aspirin
and coronary heart disease: findings of a prospective study, 720
effect on endothelial cell ischemic injury, 357
hemostasis and thrombosis, 530
increased platelet aggregates in TIA, 521
influence on platelet kinetics and venous thrombosis, 344
thrombotic-hemorrhagic diathesis of polyezethmia vera treated with, 97
Atherosclerosis
early events in, 550
immunological enhancement in rabbits, 85
Atheromatous emboli
to lumbosacral spinal cord, 411
Atherosclerotic
talorized endogenous fibrinolysis and biochemical factors, 94
amaurosis and, 493
in aortocoronary vein grafts, 216
biochemical precursors of, 93
carbon monoxide-induced, 215
cerebral
in Japanese, 348
and selected diseases in Nigerians, 395
diaphragm-like obstructions of human arterial tree, 211
effect of hypertension and atherogenic diet, 210
effect of salt overloading on atherosclerosis and blood pressure in primates, 9
light and electron microscopic studies on temporal arteries, 556
lipid composition of cerebral vessels in American Negroes, Caucasians and Africans, 298
lipids and lipoprotein concentrations, ECG and, 219
localization of apo-lipoproteins in carotid artery plaques, 531
long-term administration of pyridinol carbamate, 457
pathogenesis, 220
pathological studies on intracerebral and retinal arteries, 263
primary prevention of, 559
scanning electron microscopic studies in miniature pigs, 232
trace metal content of cerebral vessels, 684
transient global amnesia, 513
World Federation of Neurology Code for Grading Atherosclerosis, 616

malformations, 92
radiological differentiation of extracerebral, 341
spontaneous cerebral, 96
subdural
cardiocirculatory changes with acute, 727
natural history of nonsurgically treated, 459
regional cerebral blood flow, 725
in regularly hemodialyzed patients, 552

Hemifacial spasm
and facial nerve distortion, 459

Hemiplegia
associated with Coxsackie A9 viral infection in children, 460
effect of dantrium of spasticity in, 725
familial hemiplegic migraine, 730
perceptual problems in, 356
postangiographic hemiplegia treatment with vasopressors, 335
shoulder sling for, 340

Hemispheric activity
characterization of malignant gliomas and CV disease by cerebral
dynamic studies, 199

Hemispheric lesions
Behr pupil revisited, 697

Hemodialysis
subdural hematoma, 552
venous atherosclerosis associated with arteriovenous fistulas for, 455

Hemodilution
carotid arterial elastic hyperplasia in newborn, 391

Hydroxychloroquine sulphate
disseminated intravascular coagulation in heat stroke: response
to, 458
effect on endothelial cell ischemic injury, 357
effects on cerebrovasculat ultrastructure, 553
management of heparin therapy, 729
thrombocytopenia and, 550

INDEX

Hepatitis
and delayed contralateral hemiparesis, 97

Hemiplegia
in children caused by extracranial vertebral artery trauma, 153

Hemorrhages
primary supratentorial intracerebral, due to capillary vascular
malformations, 92
radiological differentiation of extracerebral, 341
spontaneous subdural hematoma during pregnancy, 730
spontaneous cerebellar, 729

Histamine
effects on cerebrovascular ultrastructure, 553
potentiation of nerve- and drug-induced responses of rabbit
cerebral artery, 355

Hospitals
measurement of outcomes of care for stroke patients, 34

"Hot stroke" phenomenon
and transient vascular occlusions, 517

Hydralazine
carotid cerebral hemodynamic effect, 402

Hydrocephalus
normal pressure hydroceplhalus and hypertensive CVD, 211
tomography in diagnosis of cerebellar and pontine hematomas,
467

Hydrogen
disseminated intravascular coagulation in heat stroke: response
to, 458
effect on cerebrovascular ultrastructure, 553
potentiation of nerve- and drug-induced responses of rabbit
cerebral artery, 355

Hydroxybutyric acid
cerebrospinal fluid in cerebral infarction and, 638
diagnosis by axial tomography, 467
contralateral gaze deviation with supratentorial hemorrhage, 456
primary supratentorial intracerebral, due to capillary vascular
malformations, 92
radiological differentiation of extracerebral, 341
spontaneous subdural hematoma during pregnancy, 730
spontaneous cerebellar, 729

Hypercarpia
cerebral blood flow measurements, 121
effects of oxygen saturation and PCO2 on brain uptake of glucose
analogues, 691
estimating total CBF, 149
prevention of postoperative deep venous thrombosis, 95

Hydroxybutyric acid
quantitative in vitro vasoactivity on human basilar artery, 727

Hypercapnia
cerebral blood flow measurements, 121
effects of oxygen saturation and PCO2 on brain uptake of glucose
analogues, 691
estimating total CBF, 149
measurement of outcomes of care for stroke patients, 34

Hydroxycytroptamine
quantitative in vitro vasoactivity on human basilar artery, 727

5-Hydroxycytroptamine
quantitative in vitro vasoactivity on human basilar artery, 727

Hyperlipoproteinemia
angiography of cerebellar hemorrhage secondary to, 459
antihypertensive therapy
appraisal of drug therapy, 98
effect on stroke recurrence, 97
return of elevated blood pressure after withdrawal of, 721
strategies for improving compliance, 724
blood-brain barrier dysfunction
in acutre arterial hypertension induced by clamping of thoracic
aorta, 88
after papaverine-induced vasodilatation, 208

cerebral atherosclerosis and selected diseases in Nigerians, 395
cerebral blood flow in acute, 90

cats after acute hypertensive insult, 188
deleterious effects of atherogenic diet and, on development of
atherosclerosis in monkeys, 210
dexamethasone therapy for coma following treatment of severe
arterial hypertension, 334
education of physicians in high blood pressure, 559
hemodynamic and humoral charactersitics, 549
impaired autoregulation of CBF in diabetics, 497
influence of hypoxemia and, on arterial biochemistry and mor-
phology in swine, 215

Hypertension
cerebral angiography in Nigeria, 219

cerebral atherosclerosis and selected diseases in Nigerians, 395
cerebral blood flow in acute, 90
cats after acute hypertensive insult, 188
deleterious effects of atherogenic diet and, on development of
atherosclerosis in monkeys, 210
dexamethasone therapy for coma following treatment of severe
arterial hypertension, 334
education of physicians in high blood pressure, 559
hemodynamic and humoral characteristics, 549
impaired autoregulation of CBF in diabetics, 497
influence of hypoxemia and, on arterial biochemistry and mor-
phology in swine, 215
intraocular and optic nerve sheath hemorrhage in, 89

Hypertension
angiography of cerebellar hemorrhage secondary to, 459
antihypertensive therapy
appaisal of drug therapy, 98
effect on stroke recurrence, 97
return of elevated blood pressure after withdrawal of, 721
strategies for improving compliance, 724
blood-brain barrier dysfunction
in acute arterial hypertension induced by clamping of thoracic
aorta, 88
after papaverine-induced vasodilatation, 208

cerebral atherosclerosis and selected diseases in Nigerians, 395
cerebral blood flow in acute, 90

cats after acute hypertensive insult, 188
deleterious effects of atherogenic diet and, on development of
atherosclerosis in monkeys, 210
dexamethasone therapy for coma following treatment of severe
arterial hypertension, 334
education of physicians in high blood pressure, 559
hemodynamic and humoral characteristics, 549
impaired autoregulation of CBF in diabetics, 497
influence of hypoxemia and, on arterial biochemistry and mor-
phology in swine, 215

Intracranial hemorrhage
impaired autoregulation of CBF in diabetics, 497
influence of hypoxemia and, on arterial biochemistry and mor-
phology in swine, 215

Hypertriglyceridemia
effects of polyunsaturated fats on lipid metabolism, 451
INDEX

[Hyperventilation-Lipids and lipoproteins]

Hyperventilation
- rCBF response to hypopcapnia, 503
- CSF and arterial lactate, pyruvate and acid-base balance in intracranial hemorrhages, 707
- effects of bilateral carotid artery ligation, 62

Hypopcapnia
- cerebral blood flow measurements, 121
- rCBF response to, 503
- effects of bilateral carotid artery ligation, 62
- effects of oxygen saturation and PCO2 on brain uptake of glucose analogues, 691
- estimating total CBF, 149
- measurement of CBF in rats, 630

Hypoglossal nerve
- paresis and tortuosity of internal carotid artery, 92

Hypoxia
- of Circle of Willis with basal angiomatosis and collateral circulation presenting as SAH, 553

Hypotension
- cerebral angiography, 343
- effects on rhesus monkeys, 722
- idiopathic orthostatic, 214
- norepinephrine depletion in, 449

Hypoxemia
- influence of hypertension and, on arterial biochemistry and morphology in swine, 215

Hypoxia
- cerebral metabolism in hypoxic, 457
- citric acid cycle intermediates and associated amino acids, 458
- pattern of activation of glycolysis, 457
- effect on vascular responses to carotid reflex, 451
- effects of oxygen saturation and PCO2 on brain uptake of glucose analogues, 691
- ion movement, oxygen tension and intracellular redox state during, 236
- lactate and pyruvate, and acid-base balance of CSF in SAH, 715

Hypoxic synaptosomes
catecholamine synthesis, 227

I

Immunofluorescence techniques
- localization of apo-lipoproteins in carotid artery plaques, 531

Incidence of stroke
- in women of childbearing age, 557

Infarct size
- reduction of, 98

Inhalation techniques
- comparison of Xe133 intracarotid injection and, 235

Initial slope index
- rCBF measured by xenon-133 inhalation, 142
- estimating total CBF from initial slope of hydrogen washout curves, 149

Injuries
- diffuse experimental brain injury, 453
- See also Head injuries

Instrumentation
- magnetic, for vascular exploration and treatment, 342
- insulin
- assessment of insulin, glucose and lipids in ischemic thrombotic cerebrovascular disease, 77

Internal carotid artery
- See Carotid artery, internal

Internal cerebral vein
- normal and pathological variations in position and configuration, 87

International Round Table Conference
- on platelet aggregation in pathogenesis of CVD, 239

Intracerebral arteries
- pathological studies on retinal arteries and, 263
- Intracerebral hemorrhage
- and occult sepsis, 214

Intracranial pressure
- CBF in cats after acute hypertensive insult, 188
- cranial window implantations for acute and chronic experiments, 308
- effect of postischemic hyperemia on, no-reflow phenomenon and, 341
- effects of increased, upon cerebral blood volume, CBF and oxygen, 231
- focal myocardial necrosis in cases of increased, 453

stroke, Vol. 6, November-December 1975
Magnesium
Effects of cerebral ischemia on Mg++ requiring vesicular ATPase, 225
trace metal content of cerebral vessels, 684
Magnetic instrumentation
for vascular exploration and treatment, 342
Manganese
trace metal content of cerebral vessels, 684
Mannitol
therapy against brain swelling in stroke, 353
Meckel’s Cave meningiomas
with SAH, 727
Medroxyprogesterone acetate
effects on blood coagulation and platelet aggregation, 216
Medullary veins
radiographic anatomy of normal cerebral deep medullary veins, 88
Meningeal artery
internal carotid origins of middle, 93
Meningeal branch
of posterior cerebral artery, 93
Meningiomas
Meckel’s Cave, with SAH, 727
Meningitis
rCBF, cerebral metabolic rate of oxygen, and CSF in, 339
Mental deterioration in elderly
multi-infarct dementia, 90
Metabolism
anaerobic effects of bilateral carotid artery ligation, 62
global ischemia in dogs, 21
Methylprednisolone
for intracranial vasospasm, 726
Microcirculation
constriction of pial arterioles by prostaglandin F2 alpha, 293
cranial window implantation for acute and chronic experiments, 308
pial microcirculation in SAH, 417
Middle cerebral artery
catecholamine content of cerebral tissue after occlusion or manipulation of, 235
changes of epidural pressures after occlusion of, 235
neurological deficits produced by occlusion of, in awake cats, 235
posterior circulation vascular disease mimicking, 227
Middle cerebral artery occlusion
artificial embolization in primates, 387
barbiturate protection from cerebral infarction in primates, 286
bidirectional flow of contrast material, 340
carotid arterial supply of feline brain, 361
cerebral blood flow measurements, 121
by gamma camera after injection of xenon-133, 376
chronic stroke model in primates, 476
cortical pyridine nucleotide fluorescence following, 236
experimental occlusion by transorbital approach, 348
with formation of abnormal arterial collateral system, 87
immediate effects of cerebral ischemia after, 321
thrombectomy of, 721
Middle internal carotid occlusions
discrepancies between arterial recanalization and clinical improvement in CI, 727

thrombocytosis and strokes, 218
Mitochondria
energy metabolism during brain ischemia, 678
function in shock, 236
Mitrval valve prolapsed leaflets
retinal vascular lesions and, 458
Models
animal model of TIA, 617
artificial embolization of MCA in primates, 387
brain scan in cerebral ischemia for study of radionuclide localization, 703
chronic stroke model in experimental primates, 476
for producing focal cerebral ischemia and infarction in animals, 321
Mononeuropathology multiplex
as complication of amphetamine angiitis, 726
Mortality
geographic variations of stroke mortality within North Carolina, 227
regional differences in mortality from CVD among U.S. Veterans, 229
relationship to TIA-like symptoms in population sample, 228
Moyamoya disease
associated with several intracavernous aneurysms, 92
familial occurrence, 554
hypoplasia of Circle of Willis with basal angiomatosis, 555
pathomorphological analysis of so-called “Spontaneous occlusion of the Circle of Willis,” 93
Multiple sclerosis
cellular-immune response to myelin protein absent in, 550
Mydriasis
Behr pupil revisited, 697
Myelopapy
local spinal cord blood flow in experimental traumatic, 452
Myonecrosis
in cerebrovascular disease, 85
in vessel wall, 207
Myxoma
features of organizing thrombi in arteries and veins, 722
multiple cerebral aneurysms and, 550
N
NADH, See Nicotinamide adenine dinucleotide
Neotima formation
in rabbit aorta, 450
Neuroamine metabolites
in cerebrovascular disease, 227
Neurological deficit
brain scanning in cerebral vascular disease, 136
CSF and arterial lactate, pyruvate, and acid-base balance in intracranial hemorrhages, 707
CSF in cerebral hemorrhage and infarction, 638
produced by occlusion of middle cerebral artery in cats, 235, 321
Neural alterations
in developing cortical infarction, 340
Neuroradiology
of sphenoidal region, 452
Nicotinamide adenine dinucleotide
fluorescence and cortical blood flow
animal preparation, instrumentation and validity of model, 270
effects of alterations in arterial carbon dioxide tension, blood pressure, and blood volume, 279
Nicotine
effect on platelet aggregation, 86
Nitrous oxide
measurement of CBF in rats, 630
No-flare state
following cerebral ischemia, 724
Noninvasive screening tests
carotid compression tomography, 257
Non-reflow phenomenon
post-ischemic regulation of CBF, 425
Norepinephrine
constriction of pial arterioles by prostaglandin, 293
depletion in idiopathic orthostatic hypotension, 449
prejunctional supersensitivity to norepinephrine after sympa-
thetomy or cocaine treatment, 525
response of pial arteries to sympathetic nerve stimulation and,
654
Occipital dural arteriovenous malformations
angiographic features, 87
Occipital lobe
arteriovenous malformations, 551
radioangiographic analysis of arteriovenous malformations of,
346
Occipital sinus
scintigraphic features, 95
Oclusion of carotid artery
prognosis and possibilities of surgical revascularization, 17
internal carotid artery, 38
middle cerebral artery occlusion. See Middle cerebral artery occlusion
Ocular motor palsy
and internal carotid aneurysm, 721
Ophthalmic vein
in carotid angiograms, 210
orbital phlebography, 460
Ophthalmodynamometry
carotid compression tonography, 257
Ophthalmology
anterior ischemic optic neuropathy
ophthalmoscopy and fluorescein angiography, 730
treatment, prophylaxis and diagnosis, 730
terminology and pathogenesis, 730
computerized transaxial tomography in neuro-ophthalmology, 96
ischemic papillopathy, 730
neuro-ophthalmology: annual review, 730
Ophthalmoplegia
internal carotid origin of a tortuous posterior cerebral artery, 211
Oral contraceptives
effect of estrogen on blood coagulation and fibrinolyis, 728
and increased formation of soluble fibrin, 212
intracranial venous thrombosis complicating, 209
vascular-induced homonymous defects of visual field in young
women, 552
Orbital anastomoses
of anterior deep temporal artery, 724
Orbital venography
ocular complications of, 452
Ouabain
cerebrovascular ultrastructural alterations after infusions of, 555
Oxidative metabolism, cerebral
after SAH, 1
Oxidative phosphorylation
energy metabolism during brain ischemia, 678
Oxygen
effects of oxygen saturation and PCO2 on brain uptake of
and tissue oxygenation, 691
Oxygen tension
neurally evoked changes of regional oxygen tension, 96
Paget’s disease of bone
abnormal brain scans, 219
Patch graft angioplasty
aneurysms following endarterectomy associated with, 729
Patients
measurement of outcomes of care for stroke patients, 34
Pentobarbital
barbiturate protection from C1 in primates, 28
influence of anesthetics on responses to regional cerebral
ischemia, 405
measurement of CBF in rats, 630
Perfusion pressure
post-ischemic regulation of CBF, 425
vasomotor tone, critical closing pressure and vascular bed re-
sistance, 337
pH
CBF in cats after acute hypertensive insult, 188
Phenolsulphonphthalein
effect on cerebral arterial spasm in cats, 453
pial microcirculation in SAH, 417
Phosphatidic acid
brain phospholipid metabolism during ischemia, 72
Phospholipids
brain phospholipid metabolism during ischemia, 73
Photodecomposition
NADH in cerebral cortex, 270
Photoscopic technique
skin blood pressure in patients with internal carotid lesions, 58
Pial arteries
response to norepinephrine and sympathetic nerve stimulation, 654
Pial arterioles
construction produced by prostaglandin F2alpha, 293
Pial microcirculation
importance and relevance of studies of, 206
in subarachnoid hemorrhage, 417
Pial vessels
cranial window implantation for acute and chronic experiments, 308
supersensitivity of adrenoceptors, 525
Plasma renin activity
carotid sinus pressure and, 209
Platelet aggregation
effects of platelets, fibrinogen and thrombin on fibrin clotting
and, 345
experimental study with intracarotid ADP infusion in rabbits, 617
increased in young patients with stroke, 456
new method for quantitative detection in patients with arterial
insufficiency, 210
in pathogenesis of CVD, 239

INDEX

Propranolol
Pressure-flow relationships
of brain blood flow in monkeys, 337
Prostoglandins
constriction of pial arterioles by, 293
effect on carotid blood flow in monkeys, 339
effect on retinal blood flow in monkeys, 321
experimental study on genesis of cerebral vasospasm, 52
role in etiology of cerebral vasospasm, 230
Protein
distribution of serum protein in walls of blood vessels, 232
Pseudoaneurysms
and arteriovenous fistula involving middle meningeal artery, 453
traumatic vertebral artery, following chiropractic manipulation, 723
Pulmonary edema
and hemorrhage as consequence of systemic vasoconstriction, 90
PULSES Profile
measurement of outcomes of care for stroke patients, 34
Pupillary changes
anisocoria following carotid artery surgery, 697
in ocular motor palsy from internal carotid aneurysm, 721
Pyridine nucleotide fluorescence
following middle cerebral artery occlusion in cats, 236
Pyridinol carbamate
progression of occlusive atherosclerosis, 457
Pyurate
effects of bilateral carotid artery ligation, 62
Q
Q-T syndrome
long, 461
Quotient densitometry
and cerebral angiography, 213
R
Radiosotope studies
brain scan in cerebral ischemia, 703
brain scanning in diagnosis and management of strokes, 659
brain scanning with technetium 99m pertechnetate, 726
characterization of malignant gliomas and cerebrovascular disease, 199
in diagnosis of carotid cavernous sinus fistula, 220
"hot stroke" and transient cerebral artery occlusions, 517
limitations of flow studies in bilateral carotid thrombosis, 67
"luxury-perfusion syndrome," 217
positive scans in recanalized cerebral infarction, 132
quick method for calculation of vascular mean transit time, 346
radioisotopic bolus technique to detect circulatory deficit and cerebral death, 721
Todd's paralysis, 301
Radiological technique
computed tomography in management of cerebrovascular disease, 105
Radiotherapy
cerebrovasculopathy following irradiation in childhood, 454
Rehabilitation
data base for stroke rehabilitation using English text discharge summaries, 181
evaluation of multidisciplinary care program in day care center, 554
improvement of physical function after stroke: surgical and orthotic management, 725
measurement of outcomes of care for stroke patients, 34
predictive factors in, 345
prognosis and quality of survival in hospitalized stroke population, 543
Renin-angiotensin system, 98
Resuscitation
of monkey brain after complete ischemia, 338
Retina
hemoglobin SC retinopathy and fat emboli to the eye, 85
retinocerebral vascular malformations, 93
Retinal artery
central retinal artery occlusion after blow-out fracture repair, 219
occlusion, 458
pathological studies on intracranial and, 263
Retinal ischemia
amaurosis fugax and, 493
Retinal periarthritis
secondary to syphils, 727
Retinal vascular disease
Wagener and Keith Classification, 616
Retinal vascular insufficiency
hypertension and, 509
Retinal vascular lesions
with prolapsed mitral valve leaflets, 458
Revascularization, cerebral
use of axillary artery, 453
Rheumatoid arthritis
cerebral vasculitis, 550
Rhinoencephalitis
progression of occlusive atherosclerosis, 457
Risk factors
abnormalities in clotting and thrombolysis as risk factor for stroke, 216
assessment of insulin, glucose, and lipids in cerebrovascular disease, 77
bilateral internal carotid artery thrombosis, 725
serum lipids and uric acid relationship in ITCVD, 304
stroke in the young, 318
urinary salt: its relationship to selected stroke risk factors, 228
S
Salzburg Conference
summary of, 109
Scanning electron microscopic studies
on atherosclerosis in pigs, 232
EMI scanners, 209
endothelial cell ischemic injury: protective effect of heparin or aspirin, 357
Scilla-glycosides
cerebrovascular ultrastructural alterations after infusions of, 555
Scintigraphy
effect of cerebral angiography on subsequent brain scintigraphy, 335
techniques for positron scintigraphy of cerebral function, 228
Scintigraphraphy
characterization of malignant gliomas and CV disease, 199
Sclerosis, cerebral
with dementia, 673
Sepsis
angiographic stain produced by, 210
Serotonin
constriction of pial arterioles by prostaglandins, 293
Seventh International Salzburg Conference
summary of, 109
Shock
hemorrhagic
CBF and metabolism in baboons, 237
CBF changes in brain during, 459
mitochondrial function, 236
Sick-sinus syndrome
in Africans, 480
experience of cardiac pacemaker clinic, 212
Sodium
effects of salt overloading on atherosclerosis and blood pressure in primates, 9
urinary salt: its relationship to selected stroke risk factors, 228
Spasms
experimental catecholamine-induced chronic cerebral vasospasm, 207
experimental study on genesis of cerebral vasospasm, 52
See also Vasospasms, cerebral
Spasmoden
experimental study on genesis of cerebral vasospasm, 52
Spasticity
effect of dantrium on, 725
effect of dantrolene sodium on, 217, 554
Spectrofluorometric analysis
NADH in cerebral cortex, 270
Stoke, Vol. 6, November-December 1975
INDEX

Sphenoidal region-Tomography

Sphenoidal region
neuroradiology, 452
Spinal arteriovenous malformation
with hypogastric blood supply, 551
Spinal cord
angiography of, 348
angiomatous emboli to lumbarosacral spinal cord, 411
Spinal stroke
Surgical care program. See Care of stroke patients
Surgery
for aneurysms, 726
for carotid artery disease, 720
for cerebral revascularization
blood flow and patency in basilar artery grafts, 445
by means of extra-intracranial anastomosis, 359
occlusion of carotid artery, 17
use of axillary artery in complex, 453
kinking, coiling of carotid artery and CVD disease, 649

Stroke
assessment of insulin, glucose and lipids in cerebrovascular disease, 77
associated with migraine attacks, 730
brain phospholipid metabolism during ischemia, 72
brain scan in cerebral ischemia, 703
chronic stroke model in primates, 476
ECG changes and cardiac disease in acute stroke syndromes, 214
experiemental stroke in gerbils, 234
following chiropractic manipulation, 97

Statistical analysis
data base for stroke rehabilitation, 181

"Steal" phenomenon
cerebral blood flow measurements, 121
NADH in cerebral cortex, 279
vasodilators and blood flow in ischemia, 642

Stroke care program. See Care of stroke patients

Sturge-Weber disease
ultrastructure of calcification in, 725

Subarachnoid hemorrhage (SAH)
antifibrinolytic therapy following rupture of intracranial aneurysm, 622
cardiac arrhythmias and sudden death, 382
cerebral atherosclerosis and selected diseases in Nigerians, 395
cerebral energy metabolism following, 1
cerebral vasospasm with SAH, 452
CSF, arterial lactate, pyruvate and acid-base balance, 707
effect of simulated SAH on CBF monkeys, 664
EGG changes and prognostic significance, 90
in hereditary hemorrhagic telangiectasia, 343
lactate and pyruvate, and acid-base balance of CSF in, 715
Meckel's Cave meningiomas with, 417
pial microcirculation in SAH, 417
plasma renin and angiotensin II levels in, 347
spinal SAH with schwannoma, 554
urinary catecholamine and plasma cortisol levels in patients with SAH, 96

Subclavian steal
congenital, 218
segmental intervertebral anastomosis, 457

Sudden death
cardiac arrhythmias and sudden death in SAH, 382
platelets and lesions of main epicardial arteries in sudden death, 86

Sulfapyrazone
effect of heparin and, on patency of microvascular anastomosis in cats, 229
increased platelet aggregates in TIA, 521

Surger

for aneurysms, 726
carotid artery disease, 720
cerebral revascularization
blood flow and patency in basilar artery grafts, 445
by means of extra-intracranial anastomosis, 359
occlusion of carotid artery, 17
use of axillary artery in complex, 453
kinking, coiling of carotid artery and CVD disease, 649

microvascular bypass for cerebrovascular occlusive disease, 729
thrombectomy of middle cerebral artery, 721
See also under specific topic

Survival
gnosis and quality of survival in hospitalized stroke popula-
tion, 543

Sympathetic nerve stimulation
effect on cerebral and cephalic blood flow in dogs, 555
response of pial arteries to, 654
syrupythentic nervous system
role of peripheral sympathetic nervous system in CBF autoregu-
lation, 284

Syncope
in chronic bifascicular block, 216
as symptom of severe coronary artery disease, 728

Syphilis
retnal perianeritis secondary to, 727

T

Tachyarrhythmias
and transient cerebral ischemic attacks, 558
Tachycardia
idiopathic paroxysmal ventricular, in infants and children, 459
Takayasu's arteritis
angiographic study, 345
take value of total aortography in diagnosis of, 460

Technetium 99m pertechnetate
brain scanning with, 345
angiographic study, 212

Telangiectasia
SAH in hereditary hemorrhagic, 343

Temporal arteries
light and electron microscopic studies, 556
orbital anastomoses of anterior deep temporal artery, 724
Temporal artery-middle cerebral artery anastomosis
radio logical evaluation of, 212

Thrombectomy
of middle cerebral artery, 721

Thrombolytic therapy
as symptom of severe coronary artery disease, 728

Thrombocytopenia
heparin-induced, 530

Thrombogenic factor
study of reaction of blood with artificial surfaces, 217

Thromboplastin
post-traumatic progressive cortical, 98

Thrombosis
bilateral carotid, 725
limitations of radionuclide flow studies, 67
cerebral positive scans in recanalized cerebral infarction, 132
internal carotid artery, and rhinocerebral phycymocysis, 454
platelet inhibition in management of, 348
spontaneous thrombosis of deep cerebral veins: complication of arteriovenous malformation, 164

venous
in children and infants, 91
influence of aspirin on, 344

Thrombotic syndrome
associated with carcinoma, 336
Thrombotic thrombocytopenic purpura
treatment with antiplatelet agents, 220

Thrombus formation
measured turbulence and its effect, 211

Tissues
two and three dimensional representations of metabolic states of, 237
Todd's Paralysis

cerebrovascular phenomenon?, 301

Tomography
carotid compression, in diagnosis of carotid occlusive disease, 245
computed-assisted, 221
computed tomography in management of cerebrovascular disease, 105

computerized axial, 454
diagnosis of cerebellar and pontine hematomas, 467

751
INDEX

Vasoreactivity
comparative study of, 673

Vasospasms, cerebral
agents and mechanisms of, 230
antifibrinolytic therapy in recent onset SAH following ruptured intracranial aneurysm, 622
contraction of pial arterioles by prostaglandins, 293
effect of simulated SAH on CBF in monkeys, 664
effects of vasoactive drugs and sympathometopy on, 551
experimental catecholamine-induced chronic cerebral vasospasm, 207
experimental study on genesis of, 52
experimental vasospasm in cats: modification by vasodilator YC-93, 726
mechanisms in, 553
myonecrosis in chronic experimental, 85
pial microcirculation in SAH, 417
relief with methylprednisolone and cortisol, 726
resolution by chloropromazine, 233
role of prostaglandin in etiology of, 230
some considerations on, 461
with SAH from arteriovenous malformations of the brain, 452
Venous channels
within the intracranial dural partitions, 723

Venous thrombosis
in infants and children, 91
prevention of postoperative deep venous thrombosis in legs by orally administered hydroxychloroquine sulphate, 93

Ventilator complications
barbiturate protection from CI in primates, 28

Vertebral arteries
artifactual absence: axillary catheterization, 87
erosion of cervical vertebrae caused by elongated and tortuous vertebral arteries, 87
fibromuscular dysplasia, 455
hindbrain stroke in children caused by trauma, 153
traumatic pseudoaneurysm following chiropractic manipulation, 722

Vertebral-basilar insufficiency
comparison of betahistine hydrochloride with placebo for, 116
treatment with betahistine hydrochloride, 214

Vertebrobasilar artery occlusive disease
and cervical spine anomaly, 557
in children, 343
hindbrain stroke in children, 153

Vertebrobasilar ischemia
and fibromuscular dysplasia of vertebral arteries, 455

Visual field defects
and arterial occlusion in posterior cerebral circulation, 336
arteriovenous malformations of head and neck and, 558
vascular-induced homonymous defects of visual field in young women, 552

W

Warfarin
for chondropsyplasia punctata, 559
induced hypoprothrombinemia, 460
interactions with chloral hydrate and glutethimide, 216, 460
interactions with five sedatives, 349

Water
brain capillary permeability studies of alcohols and, 231
mortality and water-hardness in three matched communities, 210

White matter
CSF in cerebral hemorrhage and infarction, 638

Women
comparison of stroke in women of child-bearing age in Rochester, Minn. and Bakersfield, Calif., 557

X

Xanthomatosis
effects of salt overloading on atherosclerosis and blood pressure in primates, 9

Xenon-133
cerebral blood flow measurements, 121, 142
by gamma camera after direct injection of, 376
in rats, 630

752
