STROKE
VOLUME 9 J ANUARY-DECEMBER, 1978

SUBJECT INDEX

Page Numbers in Italics refer to Abstracts

A

Acetylsalicylic acid
Prevention of arterial thromboembolism with acetylsalicylic acid. A controlled clinical study in patients with aortic ball valves, 84
Thromboembolic complications in coronary angiography. Prevention with acetylsalicylic acid, 417

Adenosine nucleotide derivatives
Formation of adenosine nucleotide derivatives in isolated hog carotid artery strips, 184

Alkalosis
Effect of non-respiratory alkalosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354

Amaurosis fugax
Amaurosis fugax and carotid artery disease: indications for angiography, 88
Amaurosis fugax due to isolated atherosclerotic carotid artery disease in a young woman, 422
Amaurosis fugax from disease of the external carotid artery, 87
Clinical and arteriographic comparison of amaurosis fugax with hemispheric transient ischemic attacks, 254
Evidence of silent cerebral embolism in patients with amaurosis fugax, 176

Surgical management of the totally occluded carotid artery, 275

Aminophylline
Aminophylline and isoproterenol in the treatment of cerebral vasospasm, 81
Effect of aminophylline on cerebral infarction in the mongolian gerbil, 477

Amipaque
Clinical testing of Amipaque for cerebral angiography, 614

Ammonia
Cerebral ammonia metabolism. Letter, 521
Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539

Anastomosis
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Experimental extracranial-intracranial anastomosis, 176
Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cerebral internal carotid aneurysm from traumatic origin, 288
Extracranial-to-intracranial vascular anastomosis for occlusive cerebrovascular disease: experience in 110 patients, 275
Intracranial bypass grafts for vertebro-basilar ischemia, 283
Microvascular anastomosis for cerebral ischemia in 19 patients: a preliminary report, 538
Observations on moyamoya disease: a case treated with superficial-temporal-middle cerebral artery anastomosis, 539
Superficial-temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82
Thrombus formation and endothelial alterations in microarterial anastomoses, 89

Anatomy
Microsurgical anatomy of the posterior cerebral artery, 525

Anesthesia
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179
Cerebral blood flow and metabolism during morphine—nitrous oxide anesthesia in man, 78
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160

Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540
Mechanisms of anesthetic action. Letter, 272
Rat brain osmolality during barbiturate anesthesia and global brain ischemia, 249

Aneurysm
Aneurysm of the ayzygos artery, 282
Aneurysms of the posterior cerebral artery. Locations and clinical pictures, 91
Aneurysmes triples bilateraux, opérés en deux temps. Deux observations. Bilateral triple aneurysms operated in two stages: two case studies, 82
Anterior choroidal artery aneurysms: their anatomy and surgical significance, 419
Bacterial intracranial aneurysm, 527
Basal rupture of saccular aneurysm. A pathological case report, 526
Bilateral atrial myxomas with multiple arterial aneurysms. A syndrome mimicking polyarteritis nodosa, 90
Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, 410
Carotid paracarotid aneurysms with intradural origin and intracavernous location, 525
Carotid stenosis and coexisting ipsilateral intracranial aneurysm. A problem in management, 77
Cerebral arterial blood flow and aneurysm surgery. Part 1: local arterial flow dynamics, 279
Cerebral arterial blood flow and aneurysm surgery. Part 2: induced hypotension and autoregulatory capacity, 279
Cerebral arterial flow dynamics during aneurysm haemorrhage, 616
Cerebral hamartoma mimicking the angiographic appearance of congenital fusiform aneurysm, 84
Cerebral microembolization. II. Morphological studies, 611
Cerebral vasospasm with ruptured saccular aneurysm, 281
Clinico-pathological study of cerebral aneurysms — origin, rupture, repair and growth, 288
Clinicopathological study of cerebral aneurysms. Origin, rupture, repair, and growth, 525
Computed tomography of ruptured intracranial aneurysm in acute stage, 188
Crossed external carotid ligation for giant aneurysms, 614
Die Rolle des postoperativen HirngefSssspasmus nach Verklippung intrakranieller Aneurysmen. Postoperative vasospasm after clipping of intracranial aneurysms, 542
Direct attack on carotid ophthalmic and large internal carotid aneurysms, 81
Direct serial magnification angiography applied to cerebral aneurysms, 417
Disordered cerebro-vascular physiology in aneurysmal subarachnoid haemorrhage, 616
Dissecting intracranial aneurysms, 280
Electronic stethoscope for detection of cerebral aneurysm, vasospasm and arterial disease, 177
Experiences of surgical treatment of 400 consecutive ruptured cerebral arterial aneurysms, 542
Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cerebral internal carotid aneurysm from traumatic origin, 288
Fibrinolytic activity in blood and cerebrospinal fluid in subarachnoid hemorrhage from ruptured intracranial saccular aneurysm before and during EACA treatment, 612
Follow-up results of microsurgery of intracranial aneurysms, 188
How old people tolerate intracranial surgery for aneurysm, 281
Infrequent aneurysm surgery, 604

629
Intracranial aneurysms in early childhood, 536
Intracranial aneurysms: characteristics of aneurysms in siblings, (letter to the editor), 85
Intracranial arterial aneurysms in infancy and childhood, 85
Intracranial saccular aneurysms in the first three decades, 608
Iron-acrylic compound for stereotaxic aneurysm thrombosis, 78
Late morbidity and mortality of common carotid ligation for posterior communicating aneurysms. A comparison to conservative treatment, 276
Les indications et les conditions opératoires des anévrismes chez les gens âgés. Indications and operative conditions of aneurysms in old patients, 607
The management of ruptured intracranial aneurysm in sickle cell anemia. Case report, 608
Meningiomas and aneurysms of the cavernous sinus. Neuroophthalmologic features, 532
Microangiographic study of cerebral and ocular aneurysms in hypertensive rabbits, 613
Microsurgical treatment of cerebral aneurysms at the bifurcation of the internal carotid artery, 617
A model study of why some intracranial aneurysms thrombose but others rupture, 583
Moyamoya disease associated with aneurysm, 526
Multiple aneurysm formation as a complication of interventional angiography, 411
Multiple intracranial aneurysms: identifying the ruptured lesion, 608
Prolonged antifibrinolysis: an effective non-surgical treatment for ruptured intracranial aneurysms? 537
Reinforcement with gauze wrapping for ruptured aneurysms of the middle cerebral artery, 279
Saccular aneurysm of infancy and early childhood, 414
The significance for diagnosis and for surgical technique of multiple aneurysms of the same internal carotid artery, 616
Significance of vasospasm in the treatment of ruptured intracranial aneurysms, 89
Spontaneous healing of intracranial aneurysms after subarachnoid hemorrhage. Case report, 528
Stereoangiographic visualization of inaccessible intracranial aneurysms, 279
Subdural hematomas due to ruptured cerebral aneurysms: angiographic diagnosis and potential pitfall for CT, 530
Surgery of ruptured intracranial aneurysm. Timing and grading, 618
Timing and indication of surgery for ruptured intracranial aneurysms with regard to cerebral vasospasm, 616
The treatment of intracranial aneurysms by injection with a tissue adhesive, 180
Treatment of subarachnoid hemorrhage from ruptured intracranial aneurysm with tranexamic acid: a double-blind clinical trial, 616
Unruptured intracranial aneurysms — an unusual source of epilepsy, 542
Aneurysm clips
Interrelationship of aneurysm clips and vascular tissue, 620
Aneurysm, myotic
Cerebral hemorrhage from a myotic aneurysm developing during appropriate antibiotic therapy, 267
Intracranial hemorrhage and infarction in anticoagulated patients with prostatic heart valves, 18
Multiple myotic aneurysms due to candida endocarditis, 85
Angiography
Amaurosis fugax and carotid artery disease: indications for angiography, 88
The angiographic diagnosis of occlusions of the posterior cerebral artery, 280
Angiographic findings in giant cell arteritis, 90
The angiographically occult cerebrovascular malformation. Report of three cases, 413
Bilateral cerebral angiography with catheterization of only one carotid artery, 417
Cerebral angiography with non-ionic (metrizamide) and ionic (meoglume metrizoate) watersoluble contrast media. A comparative study with double blind technic, 179
Cerebral arterial revascularization: the value of repeated angiography in selection of patients for operation, 604
Cerebral ischemia. I. Current angiographic techniques, complications, and safety, 615
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Clinical and arteriographic comparison of amaurosis fugax with hemispheric transient ischemic attacks, 254
Clinical testing of Amipaque for cerebral angiography, 614
Comparative angiographic and histological evaluations of intracranial atherosclerosis in hypertensive and normotensive subjects, 364
Complications of cerebral angiography, 416
Complications of cerebral angiography and pneumography, 186
Computed tomography in a transient brain stem disorder, 417
Correlation between angiographic findings and the ischemia of head injury, 530
Direct serial magnification angiography applied to cerebral aneurysms, 411
Disappearing carotid defects, 258
Electromagnetic rheoangiometry: an extension of selective angiography, 406
Experimental cerebral vasospasm: comparison of perfusion deficits with angiography, 288
Impact of computed tomography on utilization of cerebral angiograms, 88
Leptomeningeal artery atherosclerosis visualized by angiography: clinical correlates, 262
Multiple aneurysm formation as a complication of interventional angiography, 411
Routine operative arteriography during carotid endarterectomy: a reassessment, 411
Sequential angiographic studies demonstrating deferred development of an acute epidural hematoma. Case report, 536
Subdural hematomas due to ruptured cerebral aneurysms: angiographic diagnosis and potential pitfall for CT, 530
Technique for multi-view radionuclide angiography, 566
Tolsa-Hunt syndrome. Arteriographic evidence of improvement in carotid narrowing, 535
The value of repeat pan-angiography in cases of unexplained subarachnoid hemorrhage, 610
Angioma
Cavernous angiomas of the brain. Account of fourteen personal cases, and review of the literature, 542
Intracerebral venous angioma. Location of a new angiographic sign, 611
Surgical treatment of arteriovenous angiomas localised in the corpus callosum, basal ganglia and near the brain stem, 542
Angiostenin
Vasocostricter effect of angiotensin on pial arteries, 487
Anoxic myelopathy
Diffuse "anoxic" myelopathy, 204
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Anticoagulant therapy
Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606
Carotid and vertebral-basilar transient ischemic attacks: effect of anticoagulants, hypertension, and cardiac disorders on survival and stroke occurrence — a population study, 527
Carotid endarterectomy. Temporal profile of the healing process and effects of anticoagulation therapy, 412
Discontinuing anticoagulant therapy in surgical patients with cardiac valve prostheses. Observations in 180 operations, 431
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
In vivo assessment of anticoagulation, 285
Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
One year of heparin anticoagulation. An ambulatory subject using a totally implantable infusion pump, 184
Predicting patients' warfarin requirements, 187
Trial of aspirin during weaning patients with transient ischaemic attacks from anticoagulants, 617
Aphasia
Aphasia and left thalamic hemorrhage, 526
Recovery patterns and prognosis in aphasia, 189
Arrhythmia
Cardiac arrhythmias in acute stroke, 392
Arterial injury
Localization of injury in arteries by 1-125 fibrinogen uptake, 533
Arterial pressure
Central depression of carotid baroreceptor pressor response, arterial pressure and heart rate by 5-hydroxytryptophan: influence of supracerebral areas of the brain, 189
Arteriosclerosis
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Combined effects of acute cerebrovascular ischemia and myocardial infarction in arteriosclerotic, male Sprague-Dawley rats, 183
Intracranial arterial aneurysms in infancy and childhood, 85
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540
Aneurysm
Angiographic findings in giant cell arteritis, 90
Anterior segment ischemia in temporal arteritis, 617
Hemorrhagic complications of cerebral arteritis, 91
Intracranial involvement of giant-cell arteritis, 77
Artery, anterior spinal
Intradural extramedullary spinal arterial-venous malformations fed by the anterior spinal artery, 81
Artery, axysos
Aneurysm of the axysos artery, 282
Artery, basilar
Basilar artery migraine. A review of 30 cases, 531
Bilateral occlusion of basilar artery branches, 415
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
The microsurgical anatomy of the basilar artery bifurcation, 181
Vasoactive properties of prostaglandin compounds on the in vitro human basilar artery, 81
Artery, carotid external
Amaurosis fugax from disease of the external carotid artery, 87
Crossed external carotid ligation for giant aneurysms, 614
Detection of atherosclerotic plaques in carotid arteries by the use of "I-fibrinogen, 416
ICA back pressures: importance of external carotid measures, 273
Importance of the external carotid artery in extracranial cerebrovascular occlusive disease, 88
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534
Artery, carotid internal
Carotid-axillary bypass: clinical and experimental evaluation, 288
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Cerebrovascular evaluation: assessment of Doppler scanning of carotid arteries, ophthalmic Doppler flow and cerebral bruises, 563
Comparison of noninvasive diagnostic techniques in carotid artery occlusive disease, 78
Detection of atherosclerotic plaques in carotid arteries by the use of "I-fibrinogen, 416
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Direct attack on carotid ophthallic and large internal carotid aneurysms, 81
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cervical internal carotid aneurysm from traumatic origin, 289
Fibromuscular dysplasia of the cervico-cephalic arteries, 535
Hypoglossal paralysis due to compression by a tortuous internal carotid artery in the neck, 543
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533
Intracranial vascular. A complication of carotid endarterectomy, 78
Kinking of the internal carotid artery. Clinical significance and surgical management, 84
Microsurgical treatment of cerebral aneurysms at the bifurcation of the internal carotid artery, 617
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
Observations on simultaneous internal carotid artery and total cerebral blood flow measurements in man, 282
Pseudo-occlusion of the internal carotid artery, 408
Relationship between ophthalmic artery blood flow and recanalization of occluded carotid artery. Ultrasonic Doppler study, 360
The significance for diagnosis and for surgical technique of multiple aneurysms of the same internal carotid artery, 538
Spontaneous dissection of cervico-cerebral arteries, 538
“Stump” of internal carotid artery — a source for further cerebral embolic ischemia, 448
Superficial temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82
Surgical management of the totally occluded carotid artery, 275
Thromboendarterectomy for total occlusion of the internal carotid artery: a reappraisal of risks, success rate and potential benefits, 34
The use of velocity wave form analysis in the diagnosis of carotid artery occlusive disease, 275
Artery, cerebral
Cerebral arterial revascularization: the value of repeated angiography in selection of patients for operation, 604
Cerebral artery spasm. A histological study at necropsy of the blood vessels in cases of subarachnoid hemorrhage, 525
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 540
Clinicopathological study of cerebral aneurysms. Origin, rupture, repair, and growth, 525
Experiences of surgical treatment of 400 consecutive ruptured cerebral arterial aneurysms, 542
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
Artery, common carotid
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
Carotid embolization presenting as total monocural blindness, 186
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 340
Common carotid artery stenosis due to subintimal hematoma following blunt trauma to the neck. Report of a case, 84
Late morbidity and mortality of common carotid ligation for posterior communicating aneurysms. A comparison to conservative treatment, 276
The use of velocity wave form analysis in the diagnosis of carotid artery occlusive disease, 275
Artery, episcleral
Dilated episcleral arteries — a significant physical finding in
Artery, innominate
Innominate artery endarterectomy. A 16-year experience, 274

Artery, leptomeningeal
Leptomeningeal artery atherosclerosis visualized by angiography: clinical correlates, 262

Artery, mesencephalic
Thrombosis of the mesencephalic artery. A clinico-pathological study of two cases and its correlation with the arterial vascularisation, 82

Artery, middle cerebral
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 540
Correlation between the clinical picture, the EEG and cerebral blood flow after partial occlusion of the middle cerebral artery in man, 91
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286
Intracerebellar hematoma following microsurgical STA — cortical MCA bypass surgery, 188
 Ipsilateral subclavian to external carotid and STA-MCA bypasses for retinal ischemia, 418
 Modification of acute focal ischemia by treatment with mannitol, 4
 Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
 Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539
 Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
 Reinforcement with gauze wrapping for ruptured aneurysms of the middle cerebral artery, 279
 SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
 Staged intracranial and extracranial revascularization, 283
 Superficial temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82

Artery, occipital
The occipital artery. Anatomy-normal arteriographic aspects-embryological significance, 613
Occipital to posterior inferior cerebellar artery bypass surgery, 609
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporal-occipital infarction, 284

Artery, ophthalmic
Direct attack on carotid ophthalmic and large internal carotid aneurysms, 81
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Relationship between ophthalmic artery blood flow and re-canalization of occluded carotid artery. Ultrasonic Doppler study, 360

Artery, posterior cerebral
Aneurysms of the posterior cerebral artery. Locations and clinical pictures, 91
The angiographic diagnosis of occlusions of the posterior cerebral artery, 280
Microsurgical anatomy of the posterior cerebral artery, 523

Artery, posterior inferior cerebellar
Occipital to posterior inferior cerebellar artery bypass surgery, 609
Posterior fossa revascularization: anastomosis of vertebral artery to PICA with interposed radial artery graft, 607

Artery, subclavian
Cardiac cycle-dependent alternating flow in vertebral arteries with subclavian artery stenoses, 229
Carotid-axillary bypass: clinical and experimental evaluation, 288
Ipsilateral subclavian to external carotid and STA-MCA bypasses for retinal ischemia, 418

Artery, superficial temporal
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81
Intracranial dissection of the superficial temporal artery, 536
Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539
Superficial temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82

Aspirin
Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, 407
Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309
Editorial: aspirin — effective in males threatened with stroke, 295
Failure of aspirin to prevent postoperative deep vein thrombosis in patients undergoing total hip replacement, 618
Inhibition of platelet prostaglandin synthetase by oral aspirin, 417
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
Studies on platelet plasma membranes. III. Membrane glycoprotein loss from circulating platelets in rabbits: inhibition by aspirin-dipryridamole and acceleration by thrombin, 419
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Treatment of transient ischemic attacks, 299
Trial of aspirin during weaning patients with transient ischaemic attacks from anticoagulants, 617

Atheroma
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533
Pathogenesis and prevention of trauma-provoked atheromas, 185
Regression of atheroma in the rabbit, 409

Atherosclerosis
Amuoros fugax due to isolated atherosclerotic carotid artery disease in a young woman, 422
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Carbon monoxide-induced arterial wall hypoxia and atherosclerosis, 614
Comparative angiographic and histological evaluations of intracranial atherosclerosis in hypertensive and normotensive subjects, 364
Detection of atherosclerotic plaques in carotid arteries by the use of 111In-fibrinogen, 416
Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Editorial: noninvasive techniques for diagnosis of carotid artery disease, 427
Failure of regression of atherosclerosis in dogs with moderate cholesterolemia, 82
Leptomeningeal artery atherosclerosis visualized by angiography: clinical correlates, 262
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Platelet aggregation in patients with severe atherosclerosis, 541
Prostaglandins and the arterial wall: an avenue for research in the pathogenesis of atherosclerosis (editorial), 287
The rate of atherosclerosis change during treatment of hypertension, 415
Scintigraphic detection of atherosclerotic lesions and venous...
thrombi in man by indium-111-labelled autologous platelets, 604

Smoking, carbon monoxide, and atherosclerotic diseases, 419

Atropine
Effect of atropine on cerebrovascular responsiveness to carbon
dioxide, 528

Autoregulation
Autoregulation of cerebral blood flow during early experimental
renal hypertension in the conscious dog, 413

Brain blood flow autoregulation and metabolism during halo-
thane anesthesia in monkeys, 412

Cerebral arterial blood flow and aneurysm surgery. Part 2:
induced hypotension and autoregulatory capacity, 279

Cerebral blood flow autoregulation in the rat, 150

Experimental studies on the neurogenic factors in autoregulation
of regional circulation in dogs' brains, 86

Hyperemia, CO₂ responsiveness, and autoregulation in the white
matter following experimental spinal cord injury, 413

B

Baboon studies
Barrier and uptake mechanisms in the cerebrovascular response
to noradrenaline, 185

The capacity for computed tomography diagnosis of cerebral
infarction. An experimental study in the nonhuman primate, 275

Cerebral circulation: effect of stimulation and blockade of
dopamine receptors, 177

Cerebral circulatory and metabolic effects of 5-hydroxytryp-
tamine in anaeasthetized baboons, 183

Effect of atropine on cerebrovascular responsiveness to carbon
dioxide, 528

Extracellular potassium activity, evoked potential and tissue
blood flow. Relationships during progressive ischaemia in
baboon cerebral cortex, 79

Systemic vascular responses to increased intracranial pressure.
2. The 'Cushing' response in the presence of intracranial
space-occupying lesions: systemic and cerebral haemodynamic
studies in the dog and the baboon, 277

Time course of the cerebral circulatory response to metabolic
depression, 414

Xenon enhanced CT for analysis of cerebral integrity, perfusion,
and blood flow, 123

Balloon catheterization
Complete obliteration of a carotid cavernous fistula with
spatially controlled balloon catheter, 607

Embolization of cerebral vessels with inflatable and detachable
balloons. Technical note, 413

Experimental embolization with inflatable and releasable bal-
loons in dogs, 287

Systemic vascular responses to increased intracranial pressure.
1. Effects of progressive epidural balloon expansion on
intracranial pressure and systemic circulation, 277

Baroreceptors
Carotid baroreceptor function in hypertensive patients, 285

Central depression of carotid baroreceptor pressor response,
arterial pressure and heart rate by 5-hydroxytryptophan:
influence of supracarotid areas of the brain, 189

Circulatory reflexes from carotid and extracarotid baroreceptor
areas in man, 186

Time course of baroreceptor resetting in short-term hypotension
in the rat, 609

Beta-histine
Comparative responses of the carotid and vertebral arterial
systems of rhesus monkeys to betahistine, 382

Bifurcation, carotid
Imaging the carotid bifurcation using continuous-wave Doppler-
shift ultrasound and spectral analysis, 465

Microsurgical treatment of cerebral aneurysms at the bifurca-
tion of the internal carotid artery, 617

A new look at emergency carotid artery operations for the
treatment of cerebrovascular insufficiency, 599

Ultramicroscopic ulcerations and thrombi of the carotid bi-
"f"urcation, 274

Bird studies
Cerebral blood flow in birds: effect of hypoxia, 531

Blindness
Cerebral embolization presenting as total monocular blindness,
186

Ipsilateral blindness. A complication of carotid endarterectomy,
78

Syndrome of agitated delirium and visual impairment: a man-
ifestation of medial temporop-occipital infarction, 294

Blood-brain barrier
Effect of an acute increase of the intravascular pressure on the
blood-brain barrier, 388

Effect of non-respiratory alkalisosis on brain tissue and cerebral
blood flow in rats with damaged blood-brain barrier, 354

Intra-arterial basic dye studies of the blood-CSF and blood-
brain barriers, 92

Isoproterenol and propranolol: ability to cross the blood-brain
barrier and effects on cerebral circulation in man, 344

Blood-CSF barrier
Intra-arterial basic dye studies of the blood-CSF and blood-
brain barriers, 92

Blood flow, cerebral
Analysis of the effect of bilateral sympathetic stimulation on
in the cerebral and cephalic blood flow in the dog, 29

Assessment of regional cerebral blood flow by continuous
carotid infusion of krypton-81m, 189

An automated cerebral blood flow analyzer: concise communi-
cation, 77

Autoregulation of cerebral blood flow during early experimental
renal hypertension in the conscious dog, 413

Barrier and uptake mechanisms in the cerebrovascular response
to noradrenaline, 185

Blood flow and oxygen consumption of the focally traumatized
monkey brain, 92

Brain blood flow autoregulation and metabolism during halo-
thane anesthesia in monkeys, 412

Cerebral arterial blood flow and aneurysm surgery. Part 1: local
arterial flow dynamics, 278

Cerebral arterial blood flow and aneurysm surgery. Part 2:
induced hypotension and autoregulatory capacity, 279

Cerebral blood flow and metabolic changes from induction to
onset of anesthesia with halothane or pentobarbital, 179

Cerebral blood flow and metabolism during morphine —
nitrous oxide anesthesia in man, 77

Cerebral blood flow and metabolism in chronically hyperam-
nemonic rats: effect of an acute ammonia challenge, 539

Cerebral blood flow and metabolism in man following cardiac
arrest, 569

Cerebral blood flow and oxygen consumption in the newborn
dog, 609

Cerebral blood flow and vascular reactivity after removal of the
superior cervical sympathetic ganglion in the goat, 178

Cerebral blood flow autoregulation in the rat, 150

Cerebral blood flow determined by hydrogen clearance during
middle cerebral artery occlusion in unanesthetized monkeys,
143

Cerebral blood flow in birds: effect of hypoxia, 531

Cerebral blood flow in migraine, 177

Cerebral blood flow in the monkey after focal cryogenic injury,
509

Cerebral blood flow, oxygen utilization, and blood volume in
dementia, 185

Cerebral blood flow in polycthythaemia, 83

Cerebral circulation: effect of stimulation and blockade of
dopamine receptors, 177

Cerebral circulatory and metabolic effects of 5-hydroxytryp-
tamine in anaeasthetized baboons, 183

Cerebral circulatory responses to arterial hypoxia in normal and
chemodenervated dogs, 621

Cerebral hemodynamics in migraine, 276

Cerebral hemodynamics in Shy-Drager syndrome. Variability of
cerebral blood flow dysautoregulation and the compensatory
role of chemical control in dysautoregulation, 504

Downloaded from http://stroke.ahajournals.org/ by guest on October 5, 2016
Cerebrovascular CO₂ reactivity: role of a cholinergic mechanism modulated by anesthesia, 160

Correlation between the clinical picture, the EEG and cerebral blood flow after partial occlusion of the middle cerebral artery in man, 91
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Diffuse cerebral ischemia in the cat. I. Local blood flow during severe ischemia and recirculation, 613
Distribution of cerebral blood flow in the dominant hemisphere during motor ideation and motor performance, 174
Effect of haematocrit on cerebral blood-flow in man, 284
The effect of lesions in the locus coeruleus on the physiological responses of the cerebral blood vessels in cats, 278
Effect of nesicergoline on cerebral blood flow, 182
Effect of non-respiratory alkalosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 798
Effect of topically applied serotonin on local cerebral blood flow, 25
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540
The effects of sodium nitroprusside and trimethaphan camsylate on cerebral blood flow in rhesus monkeys, 414
Electromagnetic rheoangiometry: an extension of selective angiography, 409
Ergotamine and cerebral blood flow, 594
Evidence that neural mechanisms do not have important effects on cerebral blood flow, 536
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79
Improved method for noninvasive measurement of regional cerebral blood flow by 133Xe inhalation. Part I: description of method and normal values obtained in healthy volunteers, 195
Improved method for noninvasive measurement of regional cerebral blood flow by 133Xe inhalation. Part II: measurements in health and disease, 205
Isoproterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344
Long-term prognosis in stroke related to cerebral blood flow, 285
Measurement of cerebral blood flow with microspheres, 274
Measurement of local cerebral blood flow with iodo [131]antipyrine, 413
A method for continuous monitoring of pial vessel diameter changes and its value for dynamic studies of the regulation of cerebral circulation. A preliminary report, 534
Observations on simultaneous internal carotid artery and total cerebral blood flow measurements in man, 282
On the theory of an intravenous isotope method for cerebral blood flow measurements, 87
Phenytoin and cerebral blood flow. Possible involvement of phenylethylamine in migraines, 175
Rodent brain osmolality during barbiturate anesthesia and global brain ischemia, 249
Role of tissue hypoxia in local regulation of cerebral microcirculation, 613
Spastic constriction of cerebral vessels after electric convulsive treatment, 284
Study of regional cerebral metabolism and blood flow relationships in man using the method of continuously inhaling oxygen-15 and oxygen-15 labelled carbon dioxide, 540
4th Tbilisi Symposium on Brain Blood Supply, 440
A technique for recording local blood flow and neuronal activity with a single microelectrode, 83
Time course of the cerebral circulatory response to metabolic depression, 414
Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178
The validity of an intravenous isotope method for cerebral blood flow measurements. An experimental study, 87
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
133Xenon inhalation method: significance of indicator maldistribution for distinguishing brain areas with impaired perfusion. An index for total flow, 57
Blood flow, cortical
Regional cortical blood flow at craniotomy, 605
Blood flow, orbital
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Thrombosis of the intraorbital veins and cavernous sinus, 85
Blood flow, regional cerebral
Chroma-memo-flow technique for rapid sequential analysis of regional cerebral blood flow (rCBF) responses, 538
Compartmental analysis of regional cerebral blood flow in patients with acute severe head injuries, 283
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
The effect of vincamine on the regional cerebral blood flow in man, 612
Effects of electrical stimulation of superior cervical ganglion on the regional cerebral blood flow, 209
Experimental studies on the neurogenic factors in autoregulation of regional circulation in dogs' brains, 86
Functional responses of the human brain studied by regional cerebrovascular flow techniques, 181
Normal and abnormal patterns of cerebrovascular reserve tested by 133Xe inhalation, 605
Regional brain blood flow in the conscious gerbil, 67
Regional cerebral blood flow in stroke patients, 181
Xenon-133 inhalation method for regional cerebral blood flow measurements: normal values and test-retest results, 396
Blood flow, spinal cord
The effect of norepinephrine on the spinal cord circulation and its possible implications in the pathogenesis of acute spinal trauma, 182
An improved technique for measurement of spinal cord blood flow, 620
Measurement of spinal cord blood flow by the microsphere technique, 414
Regulation of total and regional spinal cord blood flow, 79
Blood gases
Arterial blood gases during raised intracranial pressure in anesthetized cats under controlled ventilation, 327
Blood pressure
Effect of an acute increase of the intravascular pressure on the blood-brain barrier, 588
Long term changes in blood pressure and risk of cerebrovascular disease, 319
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
Vasoconstrictor effect of angiotensin on pial arterioles, 580

Blood volume, cerebral
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414

Blood, whole
Prevention of persistent cerebral smooth muscle contraction in response to whole blood, 472
Body temperature
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
Brain damage
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Brain death
Computerized axial tomography in brain death, 597
Brain stem
Arteriovenous malformations of the brain stem in childhood, 175
Embolization of an arteriovenous malformation of the brain stem, 81
Surgical treatment of arteriovenous angiomas localized in the corpus callosum, basal ganglia and near the brain stem, 542

Bruit, carotid
The asymptomatic bruit, 288
The asymptomatic carotid bruit and the oculomotor pneumoplethys-mography, 274
The asymptomatic carotid bruit — operate or not? 269
The bruit of carotid stenosis versus radiated basal heart murmur. Differentiation by phonoangiography, 606
Carotid bruits: their significance in the cervical radicular syndrome, 280
Questions arising in carotid bruit, Letter, 523
The significance of asymptomatic unilateral carotid bruits in preoperative patients, 610
Supraclavicular and carotid bruits in hemodialysis patients, 407

Bypass surgery
Bypass in carotid siphon disease. Letter and response, 76
Carotid-axillary bypass: clinical and experimental evaluation, 288
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 540
Concomitant coronary artery bypass and major noncardiac surgery, 534
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Extracranial-intracranial bypass in experimental cerebral infarc-tion in dogs, 461
Intracerebellar hematoma following microsurgical STA — cor-tical MCA bypass surgery, 188
Intracranial bypass grafts for vertebral-basilar ischemia, 283
Epilateral subclavian to external carotid and STA-MCA by-passes for retinal ischemia, 418
Microvascular anastomosis for cerebral ischemia in 19 patients: a preliminary report, 538
Occipital to posterior inferior cerebellar artery bypass surgery, 669
A planned approach to coexistent cerebrovascular disease in coronary artery bypass candidates, 274
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534
Results of microsurgical extra-intracranial arterial bypass in the treatment of cerebral ischemia, 180
Staged intracranial and extracranial revascularization, 285

C
Carbon dioxide
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthetics, 160
Effect of atropine on cerebrovascular responsiveness to carbon dioxide, 528
Hypoxemia, CO2 responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413
Cardiac arrest
Cerebral blood flow and metabolism in man following cardiac arrest, 569
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Neurologic status and prognosis after cardiopulmonary arrest: I. A Retrospective study, 175
Neurological syndromes after cardiac arrest, 517
Cardiovascular disorders
Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Carotid defects
Disappearing carotid defects, 258
Carotid siphon disease
Bypass in carotid siphon disease. Letter and response, 76
Carotidynia
Carotidynia, 286
Cat studies
Arterial blood gases during raised intracranial pressure in anesthetized cats under controlled ventilation, 527
Cerebral microembolization. II. Morphological studies, 611
Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 615
The effect of lesions in the locus coeruleus on the physiological responses of the cerebral blood vessels in cats, 278
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Hypoxemia, CO2 responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413
Influence of head position on the prognosis of experimental subarachnoid hemorrhage, 535
Modification of acute focal ischemia by treatment with mannitol, 4
Neurogenic vasodilation of cat cerebral arteries, 541
Pharmacological analysis of 5-hydroxytryptamine receptors in isolated intracranial and extracranial vessels of cat and man, 408
Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, 412
Responses of cerebral arteries and arterioles to acute hypo-tension and hypertension, 621
Role of tissue hypoxia in local regulation of cerebral micro-circulation, 621
Spastic constriction of cerebral arteries after electric convulsive treatment, 284
Ultrastructural changes in feline arterial endothelium following ischemia, 410
Vascular spasm in cat cerebral cortex following ischemia, 52
Vasoconstrictor effect of angiotensin on pial arteries, 413

Cavernous sinus
Cavernous angina of the brain. Account of fourteen personal cases and review of the literature, 542
Ischemic optic neuropathy in cavernous sinus thrombosis, 529
Meningiomas and aneurysms of the cavernous sinus. Neuro-ophthalmologic features, 532
Thrombosis of the intracranial veins and cavernous sinus, 85
Cerebral amyloid angiopathy
Fatal massive intracerebral hemorrhage complicating cerebral amyloid angiopathy, 353
Cerebrospinal fluid
Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, 410
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Fibrinolytic activity in blood and cerebrospinal fluid in sub-arachnoid hemorrhage from ruptured intracranial saccular aneurysm before and during EACA treatment, 612
Influence of several plasma fractions on post-ischemic micro-
vascular reperfusion in the central nervous system, 375
Measurement of prostaglandin E2 in cerebrospinal fluid in patients suffering from stroke, 281
Re-evaluation of cerebrospinal fluid dynamics after subarachnoid hemorrhage with computed tomography and radio-nuclide cisternography, 287
Transient spastic paraparesis following abdominal aortography: management with cerebrospinal fluid lavage, 537
Cerebrovascular disease
Cerebrovascular complications of sickle cell anemia, 73
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Cerebrovascular incidents after myocardial infarction, 281
Conjunctival microangiopathy. An early sign of degenerative vascular disease? 86
Detecting extracranial cerebrovascular disease with noninvasive techniques, 411
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Extracranial-to-intracranial vascular anastomosis for occlusive cerebrovascular disease: experience in 110 patients, 275
Importance of the external carotid artery in extracranial cerebrovascular occlusive disease, 88
Long term changes in blood pressure and risk of cerebrovascular disease, 319
A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599
Noninvasive methods for evaluation of extracranial cerebrovascular disease. A comparison, 78
Non-invasive regional study of chronic cerebrovascular disorders using the oxygen-15 inhalation technique, 415
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
A planned approach to coexistent cerebrovascular disease in coronary artery bypass candidates, 274
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137
Spontaneous platelet aggregation in cerebrovascular disease, 540
Strokes in children and adolescents, 169
Summary of 11th Princeton Conference on Cerebrovascular Disease, 429
Trends in mortality from cerebrovascular diseases in the United States, 1960 to 1975, 549
Chemodeneration
Cerebral circulatory responses to arterial hypoxia in normal and chemodenerivated dogs, 621
Chemotherapy
Transient cerebral dysfunction following chemotherapy for osteogenic sarcoma, 607
Children
Arteriovenous malformations of the brain stem in childhood, 175
Basilar artery migraine. A review of 30 cases, 531
Cerebral arteriovenous malformations in children, 519
Intracranial aneurysms in early childhood, 536
Intracranial arterial aneurysms in infancy and childhood, 85
Intracranial arteriovenous malformations in childhood, 539
Intracranial saccular aneurysms in the first three decades, 608
Moyamoya disease in children, 530
Occlusive arterial disease of the child and young adult. Clinical electroencephalographical analysis of 26 cases, 422
Saccular aneurysm of infancy and early childhood, 414
A sign of subarachnoid bleeding on cranial computed tomograms of pediatric head trauma patients, 416
Strokes in children and adolescents, 169
Subarachnoid hemorrhage in children, 422
Traumatic vertebrobasilar occlusive disease in childhood, 416
Chloramphenicol
Effects of procainamide and chloramphenicol on acute vasospasm, 281
Cholesterol levels
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Cigarette smoking and HDL cholesterol. The Framingham Offspring Study, 614
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620
Cholesteroolemia
Failure of regression of atherosclerosis in dogs with moderate cholesteroolemia, 82
Clofibrate
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Coagulation, intravascular
Cerebral involvement with disseminated intravascular coagulation in intestinal disease, 77
Complication
Acute neurological complications after liver transplantation with particular reference to intraoperative cerebral air embolus, 537
Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606
Complications of cerebral angiography, 416
Complications of cerebral angiography and pneumography, 186
Late complications of prosthetic heart valves, 608
Moyamoya syndrome as a complication of radiation therapy, 607
Case report, 609
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Transient cerebral dysfunction following chemotherapy for osteogenic sarcoma, 607
Computerized tomography
Benign cerebellar hemorrhages, 539
The capacity for computed tomography diagnosis of cerebral infarction. An experimental study in the nonhuman primate, 275
Cerebellar hemorrhage in adults. Diagnosis by computerized tomography, 526
Computed angiotomography, 175
Computed tomographic appearance of presumed septic cerebral embolism, 407
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
Computed tomography and radionuclide imaging in the evaluation of ischemic stroke, 590
Computed tomography and subarachnoid hemorrhage, 174
Computed tomography in intracerebral hemorrhage, 81
Computed tomography in the evaluation of subdural hematomas, 411
Computed tomography in ‘‘Moya-Moya’’: summary of 16 cases, 277
Computed tomography of bilateral isodense chronic subdural hematomas, 287
Computed tomography of intracerebral hematomas. I. Transmission CT observations on hematoma resolution, 174
Computed tomography of intracerebral hematomas. II. Radionuclide and transmission CT studies of the perihematoma region, 174
Computed tomography of ruptured intracranial aneurysm in acute stage, 188
Computerized axial tomography in brain death, 597
Computerized cranial tomography. Effect on diagnostic and therapeutic plans, 84
Coronal and sagittal reconstruction in computerised tomography, 418
Diagnosis of isodense subdural hematomas by computed tomography, 175
Diagnosis of subdural haematoma by computed axial tomography use of xenon inhalation for contrast enhancement, 613
The effect of size, histologic elements, and water content on the visualization of cerebral infarcts. A computerized cranial tomographic study, 407
Emission computed tomography, 606
Evaluation of recent cerebral infarction by computerized tomography, 80
Evaluation of the age of subdural hematomas by computerized tomography, 85
An evaluation of transverse axial emission tomography of the brain in the clinical situation, 83
Impact of computed tomography on utilization of cerebral angiograms, 88
Intracranial, extracerebral hematomas. Computed tomographic appearances, 536
Intracranial tumors simulating the presentation of cerebrovascular syndromes. Early detection with cerebral computed tomography (CCT), 285
Intracranial venous sinus thrombosis: diagnosis suggested by computed tomography, 619
Multiple intracranial aneurysms: identifying the ruptured lesion, 608
Re-evaluation of cerebrospinal fluid dynamics after subarachnoid hemorrhage with computed tomography and radioisotope cisternography, 287
Resolving intracerebral hematoma: alteration of the "ring sign" with steroids, 607
Scintigraphic detection of congenital intracranial vascular malformations, 543
A sign of subarachnoid bleeding on cranial computed tomograms of pediatric head trauma patients, 416
Spontaneous closure of cerebral arteriovenous malformation demonstrated by angiography and computed tomography, 614
The usefulness of CT scanning for subdural hematomas, 282
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
Congenital disorders
Cerebral hemartoma mimicking the angiographic appearance of congenital fusiform aneurysm, 84
Hereditary multi-infarct dementia. Morphological and clinical studies of a new disease, 179
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporo-occipital infarction, 284
Dementia
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185
Definition of dementia. Letter, 523
Editorial: role of stroke in dementia, 1
Hereditary multi-infarct dementia. Morphological and clinical studies of a new disease, 179
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporo-occipital infarction, 284
Dermatophyte
Cerebral circulatory responses to arterial hypoxia in normal and chemodenervated dogs, 621
Total and regional cerebral blood flow during hypotension, hyperp/noxia, and hypocapnia. Effect of sympathetic denervation in dogs, 178
Diet
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Dihomo-gamma-linolenic acid
Antithrombotic potential of dihomo-gamma-linolenic acid in man, 284
Dissection, spontaneous
Spontaneous dissection of cervico-cerebral arteries, 538
Dog studies
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Autoregulation of cerebral blood flow during early experimental renal hypertensification in the conscious dog, 413
Cerebral blood flow and oxygen consumption in the newborn dog, 609
Cerebral circulatory responses to arterial hypoxia in normal and chemodenervated dogs, 621
Changes in the subarachnoid space after experimental subarachnoid haemorrhage in the dog: scanning electron microscopic observation, 283
Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531
Cyanide toxicity and thiosulfate protection during chronic administration of sodium nitroprusside in the dog: correlation with a human case, 286
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Subject Index

Doppler ultrasound

Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
Effects of procainamide and chlorpromazine on acute vasospasm, 281
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 696
Electromagnetic rheoangiometry: an extension of selective angiography, 409
Experimental cerebral infarction. Part 1: production of thalamic infarction in dogs, 211
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214
Experimental cerebral infarction. Part 3: protective effect of mannitol in thalamic infarction in dogs, 217
Experimental embolization with inflatable and releasable balloons in dogs, 287
Experimental extracranial-intracranial anastomosis, 176
Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461
Failure of regression of atherosclerosis in dogs with moderate cholesterolemia, 82
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Influence of several plasma fractions on post-ischemic microvascular reperfusion in the central nervous system, 375
Intercellular granules and vesicles in prolonged cerebral vasospasm, 412
Metabolic profiles of canine cerebrovascular tree: a histochecnical study, 165
A model study of why some intracranial aneurysms thrombose but others rupture, 583
Pathogenesis and prevention of trauma-provoked atheromas, 183
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Radioiodinated fibrinogen for clot detection in a canine model of cervical carotid thrombosis, 543
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphePhytin phosphate, 490
SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
Systemic vascular responses to increased intracranial pressure. 1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277
Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178

Dopaminergic receptors

Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177
Doppler ultrasound

Cardiac cycle-dependent alternating flow in vertebral arteries with subclavian artery stenoses, 229
The cerebrovascular Doppler examination in patients with non-hemispheric symptoms, 85
Cerebrovascular evaluation: assessment of Doppler scanning of carotid arteries, ophthalmic Doppler flow and cerebral waves, 563
Detecting extracranial cerebrovascular disease with noninvasive techniques, 417
Doppler scanning and xerography: a screening procedure for high-risk carotid lesions in surgical patients, 85
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 83
Imaging the carotid bifurcation using continuous-wave Doppler-shift ultrasound and spectral analysis, 465
Noninvasive assessment of collateral blood flow of the cerebral hemisphere by Doppler ultrasound, 418
Relationship between ophthalmic artery blood flow and revascularization of occluded carotid artery, Ultrasonic Doppler study, 360
Dose dependency

Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12

Drug addiction

Spinal cord vasculitis presenting as a spinal cord tumor in a heroin addict. Case report, 410

Drug therapy

Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Cerebral hemorrhage from a mycotic aneurysm developing during appropriate antibiotic therapy, 267
Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309
Controlled trial of ornithine alpha ketoglutarate (OAKG) in patients with stroke, 218
Diet-induced atherosclerosis and experimental hypertension in stump tail macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Editorial: aspirin — effective in males threatened with stroke, 295
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Modification of acute focal ischemia by treatment with mannitol, 4
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
Transient focal cerebral ischemia after extreme exercise, 84

Dysautoregulation

Cerebral hemodynamics in Shy-Drager syndrome. Variability of cerebral blood flow dysautoregulation and the compensatory role of chemical control in dysautoregulation, 504

Echocardiography

Left ventricular myxoma. Echocardiographic diagnosis and review of the literature, 279

Echocerebrography

Correlation between the clinical picture, the EEG and cerebral blood flow after partial occlusion of the middle cerebral artery in man, 91
Real time ultrasound tomography of the adult brain, 117

Edema

Effect of DPPD (diphenyl-para-phenylenediamine) on stroke and cerebral edema in gerbils, 480

Electrocardiography

Sympathetic nervous system activity in patients with subarachnoid hemorrhage, 237

Electroencephalography

Basilar migraine, seizures, and severe epileptiform EEG abnormalities. A relatively benign syndrome in adolescents, 603
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155

Electrophysiological study
Electrophysiological study of hemiplegia. Motor nerve conduction velocity, brachial plexus latency, and electromyography, 605

Embolism
Acute neurological complications after liver transplantation with particular reference to intraoperative cerebral air embolus, 537
Arterial embolism in thyrotoxicosis with atrial fibrillation, 178
Carotid embolization presenting as total monocular blindness, 186
Cerebral arterial lesions resulting from inflammatory emboli, 498
Cerebral microembolization. I. Pathophysiological studies, 274
Cerebral microembolization. II. Morphological studies, 611
Computed tomographic appearance of presumed septic cerebral embolism, 407
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
Embolism in sinoaortic disease, 543
Embolism to the central nervous system from cardiac myxoma. Report of two cases, 279
Embolization of an arteriovenous malformation of the brain stem, 81
Embolization of cerebral vessels with inflatable and detachable balloons. Technical note, 413
Evidence of silent cerebral embolism in patients with amaurosis fugax, 176
Experimental embolization with inflatable and releasable balloons in dogs, 287
Free percutaneous embolization of a traumatic carotid-cavernous fistula, 539
Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416
Influence of etiology of atrial fibrillation on incidence of systemic embolism, 184
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
Polyvinyl alcohol foam: prepackaged emboli for therapeutic embolization, 620
Prevention of arterial thromboembolism with acetylsalicylic acid. A controlled clinical study in patients with aortic balloon valves, 84
"Stump" of internal carotid artery — a source for further cerebral embolic ischemia, 448
Thromboembolic complications in coronary angiography. Prevention with acetylsalicylic acid, 417

Endarterectomy, carotid
Carotid endarterectomy: is an indwelling shunt necessary? 185
Carotid endarterectomy: mortality rate. Letter, 172
Carotid endarterectomy. Temporal profile of the healing process and effects of anticoagulation therapy, 412
Cluster headache, hemiparesis, and other head pains: morbidity of carotid endarterectomy, 559
Concomitant coronary artery bypass and major noncardiac surgery, 534
Early restenosis after carotid endarterectomy, 529
The finding of thrombus at carotid endarterectomy and its relationship to the timing of surgery, 181
Improved results with carotid endarterectomy, 181
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533
Intracerebral hemorrhage following carotid endarterectomy: a hypertensive complication? 457
 Ipsilateral blindness. A complication of carotid endarterectomy, 78
A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599
Noninvasive assessment of collateral blood flow of the cerebral hemisphere by Doppler ultrasound, 418
Routine operative arteriography during carotid endarterectomy: a reassessment, 411
Stroke associated with carotid endarterectomy, 421
Ultramicroscopic ulcerations and thrombi of the carotid bifurcation, 274
The value of carotid endarterectomy in treating transient cerebral ischemia of the posterior circulation, 80

Endarterectomy, innominate
Innominate artery endarterectomy. A 16-year experience, 274

Endocarditis
Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606
Cerebral hemorrhage from a mycotic aneurysm developing during appropriate antibiotic therapy, 267
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Multiple mycotic aneurysms due to Candida endocarditis, 85

Endothelium
Modification of acute focal ischemia by treatment with mannitol, 4
Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620
A scanning electron microscopic study of arterial endothelial cells using vascular casts, 409
SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
Thrombus formation and endothelial alterations in microarterial anastomoses, 89
Ultrastructural changes in feline arterial endothelium following subarachnoid hemorrhage, 410

Enzyme
Enzyme activity of the brain: microveSsels vs. total forebrain homogenate, 289

Epidemiological studies
Epidemiological studies on patients with a persistent vegetative state, 204

Epilepsy
Cavernous angiomas of the brain. Account of fourteen personal cases and review of the literature, 542
Unruptured intracranial aneurysms — an unusual source of epilepsy, 542

Epinephrine
Sympathetic nervous system activity in patients with subarachnoid hemorrhage, 237

Ergotamine
Ergotamine and cerebral blood flow, 594

Erythrocytes
Prolonged vasospasm produced by the breakdown products of erythrocytes, 89

Estrogen
Platelet changes in women taking oral contraceptives, 77

Experimental studies
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Acute tissue response to cerebral ischemia in the gerbil. An ultrastructure study, 83
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413
Barrier and uptake mechanisms in the cerebrovascular response to noradrenaline, 185
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92
Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
The capacity for computed tomography diagnosis of cerebral
infarction. An experimental study in the nonhuman primate, 275
Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539
Cerebral blood flow and oxygen consumption in the newborn dog, 609
Cerebral blood flow and vascular reactivity after removal of the superior cervical sympathetic ganglion in the goat, 178
Cerebral blood flow autoregulation in the rat, 130
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143
Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anaesthetized baboons, 183
Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Cerebral microembolization. II. Morphological studies, 611
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Changes in the subarachnoid space after experimental subarachnoid haemorrhage in the dog: scanning electron microscopic observation, 283
Comparative responses of the carotid and vertebral arterial systems of rhesus monkeys to betahistine, 382
Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Cyanide toxicity and thiosulfate protection during chronic administration of sodium nitroprusside in the dog: correlation with a human case, 286
Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 615
Diffuse cerebral ischemia in the cat: II. Regional metabolites during severe ischemia and recirculation, 615
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12
Effect of aminophylline on cerebral infarction in the mongolian gerbil, 477
Effect of atropine on cerebrovascular responsiveness to carbon dioxide, 528
The effect of lesions in the locus coeruleus on the physiological responses of the cerebral blood vessels in cats, 278
Effect of occlusion on large vessels. I. A study of the rat carotid artery, 86
Effect of ornithine alpha keto glutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 340
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
Effects of procainamide and chloramphenicol on acute vaso spasm, 281
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
The effects of sodium nitroprusside and trimethaphan camsylate on cerebral blood flow in rhesus monkeys, 414
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Experimental cerebral infarction. Part 1: production of thalamic infarction in dogs, 211
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214
Experimental cerebral infarction. Part 3: protective effect of mannitol in thalamic infarction in dogs, 217
Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Experimental embolization with inflatable and releasable balloons in dogs, 287
Experimental extracranial-intracranial anastomosis, 176
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155
Experimental studies on the neurogenic factors in autoregulation of regional circulation in dogs' brains, 86
Experimental study report concerning the origin and the extending mechanism of hypertensive intracerebral hematoma, 90
Extracellular potassium activity, evoked potential and tissue blood flow. Relationships during progressive ischemia in baboon cerebral cortex, 79
Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461
Failure of regression of atherosclerosis in dogs with moderate cholesterolemia, 82
A fluorescent histochemical study of changes in noradrenergic and cholinergic nerve terminals in the cerebral cortex of the rhesus monkey (Macaca mulatta), 462
A study of the cerebral metabolic response to chronic subjective stress in rhesus monkeys, 463
A study of the effect of hypoxia and hypercapnia on the human cerebral blood flow during hyperoxia in anaesthesia, 464
Formation of adenosine nucleotide derivatives in isolated hog carotid artery rings, 184
Hemodynamics of cerebral reperfusion and neurologic outcome after experimental focal ischemia, 415
Hypothalamic component in pressor response to carotid occlusion in the rat, 184
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Influence of head position on the prognosis of experimental subarachnoid hemorrhage, 555
Influence of several plasma fractions on post-ischemic microvascular reperfusion in the central nervous system, 375
Intracellular granules and vesicles in prolonged cerebral vasospasm, 412
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Ischemia-induced seizures and cortical monoamine levels, 527
Local cerebral glucose uptake in awake and halothane-anesthetized primates, 419
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414
Metabolic profiles of canine cerebrovascular tree: a histochromic study, 165
A model study of why some intracranial aneurysms thrombose but others rupture, 583
Modification of acute focal ischemia by treatment with mannitol, 4
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608

Glyceral

Intravenous glycerol in cerebral infarction: a controlled 4-month trial, 484

Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609

Granulomatous angiitis

Giant cell granulomatous angiitis of the central nervous system, 283

Cerebral granulomatous angiitis: case report and literature review, 174

Headache, migraine

Transitory platelet monoamine oxidase deficit in migraine: some involvement of phenylethylamine in migraine, 175

Platelet aggregability in migraine, 185

Phenylethylamine and cerebral blood flow. Possible involvement of phenylethylamine in migraine, 177

Platelet aggregability in migraine, 185

Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, 412

Transient cerebral ischemia and brain serotonin: relevance to migraine, 177

Transitory platelet monoamine oxidase deficit in migraine: some reflections, 186

Headache, postoperative

Cluster headache, hemicrania, and other head pains: morbidity of carotid endarterectomy, 559

Heart murmur

The bruit of carotid stenosis versus radiated basal heart murmurs. Differentiation by phonoangiography, 606

Heart rate

Central depression of carotid baroreceptor pressor response, arterial pressure and heart rate by 5-hydroxytryptophan: influence of supracollicular areas of the brain, 189

Hemorrhage

Aphasia and left thalamic hemorrhage, 536

Benign cerebellar hemorrhages, 539

Bilateral retinal hemorrhages and disk edema in migraine, 189

Brief therapeutic report: papaverine prophylaxis of complicated migraine, 177

Cerebral blood flow in migraine, 177

Cerebral hemodynamics in migraine, 276

Phenylnethylamine and cerebral blood flow. Possible involvement of phenylethylamine in migraine, 173

Platelet aggregability in migraine, 185

Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, 412

Transient cerebral ischemia and brain serotonin: relevance to migraine, 177

Transitory platelet monoamine oxidase deficit in migraine: some reflections, 186

Hematoma

Cerebral hemorrhage from a myotic aneurysm developing during appropriate antibiotic therapy, 267

Chronic intracerebral hematoma, 540

Common carotid artery stenosis due to subintimal hematoma following blunt trauma to the neck. Report of a case, 84

Computed tomography in the evaluation of subdural hematomas, 411

Computed tomography of intracerebral hematomas. I. Transmission CT observations on hematoma resolution, 174

Computed tomography of intracerebral hematomas. II. Radio-nuclide and transmission CT studies of the perihematoma region, 174

Computed-tomography of bilateral isodense chronic subdural hematomas, 267

Controlled subtotal evacuation of intracerebral hematomas by stereotactic technique, 418

Diagnosis of isodense subdural hematomas by computed tomography, 173

Diagnosis of subdural hematoma by computed axial tomography: use of xenon inhalation for contrast enhancement, 613

Epidual hematoma of the posterior fossa: radionuclide features, 530

Evaluation of the age of subdural hematomas by computerized tomography, 88

Extradural hematoma. Report of 132 cases, 617

Intracerebellar hematoma following microsurgical STA — cortical MCA bypass surgery, 188

Intracranial, extracerebral hematomas. Computed tomographic appearances, 336

L'hematome extra-dural de la fosse postérieure. Problèmes diagnostiques (10 observations), Extra-dural hematoma of the posterior fossa. Diagnostic problems (10 cases), 615

Large decompressive craniotomy in the treatment of acute subdural hematoma, 622

Ophthalmologic aspects of subdural hematoma, 190

Recovery from paraplegia caused by spontaneous spinal epidural hematoma, 537

Sequential angiographic studies demonstrating delayed development of an acute epidural hematoma. Case report, 536

Spontaneous spinal extradural hematoma, 92

Stroke rehabilitation. II. Guidelines for establishing a stroke rehabilitation unit, 90

Subdural hematomas due to ruptured cerebral aneurysms: angiographic diagnosis and potential pitfall for CT, 530

Transient cerebral dysfunction following chemotherapy for osteogenic sarcoma, 607

The usefulness of CT scanning for subdural hematomas, 282

Hemiplegia

Electrophysiologic study of hemiplegia. Motor nerve conduction velocity, brachial plexus latency, and electromyography, 605

Hemiplegia and the bilowing mitral leaflet syndrome, 613

Herpes zoster ophthalmicus with contralateral hemiplegia, 176

Rehabilitation outcome of patients with dual disability of hemiplegia and amputation, 531

Hemorrhage

Aphasia and left thalamic hemorrhage, 536

Benign cerebellar hemorrhages, 539

Bilateral retinal hemorrhages and disk edema in migraine, 189

Cerebellar hemorrhage in adults. Diagnosis by computerized tomography, 526

Computed tomography in intracerebral hemorrhage, 81

Congophilic angiopathy and cerebral hemorrhage, 608

Fatal massive intracerebral hemorrhage complicating cerebral amyloid angiopathy, 533

Hemorrhagic cerebral white matter. Infarction with cerebral deep venous thrombosis and hypoxia, 407

Hemorrhagic complications of cerebral arteritis, 91

The human thalamocortical sensory path in the internal capsule: evidence from a small capsular hemorrhage causing a pure sensory stroke, 183
Intracerebral hemorrhage following carotid endarterectomy: a hypertensive complication? 457
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Intracranial hemorrhage caused by metastatic tumors, 80
Intraventricular hemorrhage in adults, 187
The mechanism of orthostatic and hemorrhagic fainting, 87
Subarachnoid hemorrhage following intranasal procedures, 82
Vascular amyloid in the aging central nervous system. Clinico-pathological study and literature review, 276

Hemorrhage, subarachnoid
Basal rupture of saccular aneurysm. A pathological case report, 526
Cavernous angiose of the brain. Account of fourteen personal cases and review of the literature, 542
Cerebral arterial flow dynamics during aneurysm haemorrhage, 616
Cerebral artery spasm. A histological study at necropsy of the blood vessels in cases of subarachnoid hemorrhage, 525
Changes in the subarachnoid space after experimental subarachnoid haemorrhage in the dog: scanning electron microscopic observation, 283
Clinical significance of plasma adrenaline and noradrenaline concentrations in patients with subarachnoid haemorrhage, 530
Computed tomography and subarachnoid hemorrhage, 616
Fibrinolytic activity in blood and cerebrospinal fluid in subarachnoid hemorrhage from ruptured intracranial saccular aneurysms before and during EACA treatment, 612
Hypothalamic and myocardial lesions after subarachnoid haemorrhage, 182
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid haemorrhage, 535
Influence of head position on the prognosis of experimental subarachnoid hemorrhage, 535
Late morbidity and mortality of common carotid ligation for posterior communicating aneurysms. A comparison to conservative treatment, 276
Myocardial creatine kinase isoenzyme in serum after subarachnoid haemorrhage, 182
Re-evaluation of cerebrospinal fluid dynamics after subarachnoid hemorrhage with computed tomography and radio-nuclide cisternography, 287
Spontaneous healing of intracranial aneurysms after subarachnoid hemorrhage. Case report, 528
Subarachnoid haemorrhage above the age of 59: are intracranial saccular aneurysms more frequent? 419
Subarachnoid haemorrhage of unknown aetiology. A clinical and radiological study of 51 cases, 278
Subarachnoid haemorrhage: long-term follow-up results of late surgical versus conservative treatment, 604
Subarachnoid hemorrhage due to intraspinal tumors, 536
Subarachnoid hemorrhage in children, 422
Surgery of ruptured intracranial aneurysm. Timing and grading, 618
Surgical treatment of arteriovenous angiose localised in the corpus callosum, basal ganglia and near the brain stem, 542
Symptomatic nervous system activity in patients with subarachnoid hemorrhage, 616
Transitory block of the arachnoid granulations following subarachnoid hemorrhage. A postmortem study, 617
Treatment of subarachnoid hemorrhage from ruptured intracranial aneurysm with tranexamic acid: a double-blind clinical trial, 616
Ultrastructural changes in feline arterial endothelium following subarachnoid hemorrhage, 410
The value of repeat pan-angiography in cases of unexplained subarachnoid hemorrhage, 610

Heparin
Carotid artery rupture. Management and prevention of delayed neurologic sequelae with low-dose heparin, 610
Cerebral involvement with disseminated intravascular coagulation in intestinal disease, 77
Comparison of heparin and a semi-synthetic heparin analogue, A: I. Kinetics of clearance from the circulation of man following intravenous injection, 421
Comparison of heparin and a semi-synthetic heparin analogue, A: II. Some effects on platelet function, 421
Disappearing carotid defects, 258
Heparin-induced thrombocytopenia, 535
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Low-dose heparin as a prophylaxis against deep-vein thrombosis after acute stroke, 187
One year of heparin anticoagulation. An ambulatory subject using a totally implantable infusion pump, 184

Herpes zoster infection
Herpes zoster ophthalmicus with contralateral hemiplegia, 176
Papulosis atrophicans maligna (Koéhmeier-Degos disease): a disseminated occlusive vasculopathy, 607

Holter monitoring
Holter monitoring in patients with transient focal cerebral ischemia, 514

Hypernia
Hyperemia, CO2 responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413

Hyperlipoproteinemia
The rate of atherosclerosis change during treatment of hyperlipoproteinemia, 415

Hypertension
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349
Intracerebral hemorrhage following carotid endarterectomy: a hypertensive complication? 457
Prolonged induced hypertension in the management of incipient cerebral infarction, 176
Responses of cerebral arteries and arterioles to acute hypertension and hypotension, 621
Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178

Hyperventilation
Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, 407
Hypocapnia
Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178

Hypotension
Cerebral arterial blood flow and aneurysm surgery. Part 2: induced hypotension and autoregulatory capacity, 279
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540
Responses of cerebral arteries and arterioles to acute hypotension and hypertension, 621
Role of glucose-6-phosphate in cerebral dysfunction following hypoxia and hypotension, 187
Time course of baroreceptor resetting in short-term hypotension in the rat, 609
Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178

Hypoxia
Sequential cerebral biochemical and physiological events in controlled hypoxemia, 183

Carbon monoxide-induced arterial wall hypoxia and atherosclerosis, 614
Cerebral blood flow in birds: effect of hypoxia, 531
Cerebral circulatory responses to arterial hypoxia in normal and chemodenervated dogs, 621
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Hemorrhagic cerebral white matter. Infarction with cerebral deep venous thrombosis and hypoxia, 407
Role of tissue hypoxia in local regulation of cerebral microcirculation, 621
Studies on the influence of monoamines on the cerebrovascular response to arterial hypoxia, 534

Idiopathic regressing arteriopathy
Idiopathic regressing arteriopathy, 407

Indomethacin
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133

Infants
Intracranial arterial aneurysms in infancy and childhood, 85
Saccular aneurysm of infancy and early childhood, 414

Infarction, cerebral
Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, 407
Brain monoamines in human cerebral infarcts. A preliminary study, 532
The capacity for computed tomography diagnosis of cerebral infarction. An experimental study in the nonhuman primate, 275
Cerebral infarction in young adults, 39
Early estimation of extent of the lesion in cerebral infarction by means of cyclic AMP concentration in peripheral venous plasma, 189
Effect of aminophylline on cerebral infarction in the mongolian gerbil, 477
The effect of size, histologic elements, and water content on the visualization of cerebral infarcts. A computerized cranial tomographic study, 407
Evaluation of recent cerebral infarction by computerized tomography, 80
Experimental cerebral infarction. Part 1: production of thalamic infarction in dogs, 211
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214

Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461
A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286
Importance of the hematocrit as a risk factor in cerebral infarction, 369
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Intravenous glycerol in cerebral infarction: a controlled 4-month trial, 484
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Prolonged induced hypertension in the management of incipient cerebral infarction, 176
Reduction of coagulation factor XIII concentration in patients with myocardial infarction, cerebral infarction, and other thromboembolic disorders, 420
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporo-occipital infarction, 284
The topography of cerebral infarcts, 190
Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 290

Infarction, myocardial
Cerebrovascular incidents after myocardial infarction, 281
Combined effects of acute cerebrovascular ischemia and myocardial infarction in arteriosclerotic, male Sprague-Dawley rats, 183
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Reduction of coagulation factor XIII concentration in patients with myocardial infarction, cerebral infarction, and other thromboembolic disorders, 420
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420

Infusion pump
One year of heparin anticoagulation. An ambulatory subject using a totally implantable infusion pump, 184

Inhalation techniques
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
Diagnosis of subdural haematoma by computed axial tomography: use of xenon inhalation for contrast enhancement, 613
Improved method for noninvasive measurement of regional cerebral blood flow by *133* xenon inhalation. Part I: description of method and normal values obtained in healthy volunteers, 195
Improved method for noninvasive measurement of regional cerebral blood flow by *133* xenon inhalation. Part II: measurements in health and disease, 205
Non-invasive regional study of chronic cerebrovascular disorders using the oxygen-15 inhalation technique, 415
Normal and abnormal patterns of cerebrovascular reserve tested by *133* Xe inhalation, 605
Study of regional cerebral metabolism and blood flow relationships in man using the method of continuously inhaling oxygen-15 and oxygen-15 labelled carbon dioxide, 415
Xenon-133 inhalation method for regional cerebral blood flow measurements: normal values and test-retest results, 396
*133*Xenon inhalation method: significance of indicator maldistribution for distinguishing brain areas with impaired perfusion. An index for total flow, 57

International Nomenclature of Diseases
Aid asked for nomenclature on nervous system disorders. Letter, 406

Intestinal disease
Cerebral involvement with disseminated intravascular coagulation in intestinal disease, 77
Hemorrhagic complications of cerebral arteritis, 91
Strokes and ulcerative colitis, 605

Intracranial pressure
Arterial blood gases during raised intracranial pressure in anesthetized cats under controlled ventilation, 527
Intracranial subarachnoid pressure recording: experience with 650 patients, 81
Systemic vascular responses to increased intracranial pressure.
1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277
Systemic vascular responses to increased intracranial pressure.
2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
The use of a fiberoptic intracranial pressure monitor in clinical practice, 282

Intranasal procedures
Subarachnoid hemorrhage following intranasal procedures, 82

Ischemia
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Acute tissue response to cerebral ischemia in the gerbil. An ultrastructure study, 83
ADP-induced platelet aggregation in vitro in patients with ischemic heart disease and peripheral thromboatherosclerosis, 92
Anterior segment ischemia in temporal arteritis, 417
Brain vasculatization by transplanted omentum: a possible treatment of cerebral ischemia, 282
Cerebral ischemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Cerebral ischemia. I. Current angiographic techniques, complications, and safety, 615
Combined effects of acute cerebrovascular ischemia and myocardial infarction in arteriosclerotic, male Sprague-Dawley rats, 183
Computed tomography and radionuclide imaging in the evaluation of ischemic stroke, 534
Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309
Correlation between angiographic findings and the ischemia of head injury, 550
Delayed pentobarbital therapy of acute focal cerebral ischemia, 245
Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 615
Diffuse cerebral ischemia in the cat: II. Regional metabolites during severe ischemia and recirculation, 615
Effects of phenobarbital in cerebral ischemia. Part I: cerebral energy metabolism during pronounced incomplete ischemia, 327
Effects of phenobarbital in cerebral ischemia. Part II: restitution of cerebral energy state, as well as of glycolytic metabolites, citric acid cycle intermediates and associated amino acids after pronounced incomplete ischemia, 335
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155
Free radicals in cerebral ischemia, 445
Holter monitoring in patients with transient focal cerebral ischemia, 514
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Intracranial bypass grafts for vertebral-basilar ischemia, 283
Ipsilateral subclavian to external carotid and STA-MCA bypasses for retinal ischemia, 418
Ischemia-induced seizures and cortical monoamine levels, 527
Ischemic optic neuropathy in cavernous sinus thrombosis, 529
Local glucose utilization in acute focal cerebral ischemia: local dysmetabolism and diastasis, 277
Microvascular anastomosis for cerebral ischemia in 19 patients: a preliminary report, 538
Modification of acute focal ischemia by treatment with mannitol, 4
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
Platelet adhesiveness in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
Rat brain osmolality during barbiturate anesthesia and global brain ischemia, 249
Results of microsurgical extra-intracranial arterial bypass in the treatment of cerebral ischemia, 180
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Sensorimotor stroke due to thalamicopulmonary ischemia, 286
“Stump” of internal carotid artery — a source for further cerebral embolic ischemia, 448
Transient focal cerebral ischemia after extreme exercise, 286
Vascular spasm in cat cerebral cortex following ischemia, 52

Iskedyl
The intra-arterial injection of Iskedyl for hyperselective vascular exploration, 180

Isoproterenol
Aminophylline and isoproterenol in the treatment of cerebral vasospasm, 81
Isoproterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344

K
Köhlemer-Degos disease
Papulosis atrophicans maligna (Köhlemer-Degos disease): a disseminated occlusive vasculopathy, 607

L
Lesion, cerebral arterial
Cerebral arterial lesions resulting from inflammatory emboli, 498
Lesion, hypothalamic
Hypothalamic and myocardial lesions after subarachnoid haemorrhage, 182
Hypothalamic component in pressor response to carotid occlusion in the rat, 104
Lesion, myocardial
Hypothalamic and myocardial lesions after subarachnoid haemorrhage, 182
Lesion, spinal
Epidemiological studies on patients with a persistent vegetative state, 264
Levodopa
Treatment of experimental cerebral infarction in rats with levodopa or with glyceral, 609
Ligation, carotid
Carotid artery rupture. Management and prevention of delayed neurologic sequelae with low-dose heparin, 610
Crossed external carotid ligation for giant aneurysms, 614
Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cervical internal carotid aneurysm from traumatic origin, 288
Late morbidity and mortality of common carotid ligation for
posterior communicating aneurysms. A comparison to conservative treatment, 276
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534

Lipids
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Diet-induced atherosclerosis and experimental hypertension in stump tail macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Influence of lipid concentrations and age on transfer of plasma lipoprotein into human arterial intima, 187
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137

Liver transplant
Acute neurological complications after liver transplantation with particular reference to intraoperative cerebral air embolus, 537

Long-term studies
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Follow-up results of microsurgery of intracranial aneurysms, 188
Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416
Long-term prognosis in stroke related to cerebral blood flow, 285
The ocular manifestations of Wegener's granulomatosis. Fifteen years experience and review of the literature, 79
Subarachnoid haemorrhage: long-term follow-up results of late surgical versus conservative treatment, 604
Trends in mortality from cerebrovascular diseases in the United States, 1960 to 1975, 549

Lupus erythematosus
Oxygen-15 brain scanning for detection of cerebral involvement in systemic lupus erythematosus, 613
Retinal arterial occlusive disease in systemic lupus erythematosus, 179

Malformation, arteriovenous
Anatomical grading of supratentorial arteriovenous malformations for determining operability, 180
Arteriovenous malformations of the brain stem in childhood, 175
Cerebral arteriovenous malformations in children, 619
Dural arteriovenous malformation in the anterior fossa, 276
Embolization of an arteriovenous malformation of the brain stem, 81
Intracerebral cyanacrylate: an adjunct in the treatment of spinal/paraspinal arteriovenous malformations, 410
Intracranial arteriovenous malformations in childhood, 539
Intracranial arteriovenous malformations: conservative or surgical treatment? 176
Intradural extramedullary spinal arterio-venous malformations fed by the anterior spinal artery, 81
Multiple aneurysm formation as a complication of interventional angiography, 411
Scintigraphic detection of congenital intracranial vascular malformations, 543
Spontaneous closure of cerebral arteriovenous malformation demonstrated by angiography and computed tomography, 614

Malformation, cerebrovascular
The angiographically occult cerebrovascular malformation. Report of three cases, 413

Malformation, spinal
Intraarterial cyanacrylate: an adjunct in the treatment of spinal/paraspinal arteriovenous malformations, 410
Spinal cord vascular malformations with symptoms during menstruation. Report of two cases, 181
Spinal epidural angiomatous malformations draining into intrathecal veins, 91

Malignant atrial polypusation
Polypusation atraphicans maligna (Köhler-Degis disease): a disseminated occlusive vasculopathy, 607

Mannitol
Modification of acute focal ischemia by treatment with mannitol, 4
Protective effect of mannitol (cont.). Letter, 603
Protective effect of mannitol. Letter, 524

Meningioma
Meningiomas and aneurysms of the cavernous sinus. Neuroophthalmologic features, 532

Menstruation
Spinal cord vascular malformations with symptoms during menstruation. Report of two cases, 181

Metabolism
Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179
Cerebral blood flow and metabolism during morphine nitrous oxide anesthesia in man, 78
Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539
Cerebral blood flow and metabolism in man following cardiac arrest, 569
Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anesthetized baboons, 183
Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infrarenal metabolic and arterial acid-base balance, 92
Diffuse cerebral ischemia in the cat: I. Regional metabolites during severe ischemia and recirculation, 615
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349
Effects of phenobarbital in cerebral ischemia. Part I: cerebral energy metabolism during pronounced incomplete ischemia, 327
Effects of phenobarbital in cerebral ischemia. Part II: restitution of cerebral energy state, as well as of glycolytic metabolites, citric acid cycle intermediates and associated amino acids after pronounced incomplete ischemia, 335
Metabolic profiles of canine cerebrovascular tree: a histochemical study, 165
Study of regional cerebral metabolism and blood flow relationships in man using the method of continuously inhaling oxygen-15 and oxygen-15 labelled carbon dioxide, 415
Time course of the cerebral circulatory response to metabolic depression, 414

Methysergide
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133

Mice study
Effects of reduced regional or body temperatures on responses of pial arteries, 580

Mitral valve disease
Hemiplegia and the bilowing mitral leaflet syndrome, 613
Strokes: a complication of mitral-leaflet prolapse? 86
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612

Monkey studies
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92
Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143
Cerebral blood flow in the monkey after focal cryogenic injury, 509
Comparative responses of the carotid and vertebral arterial systems of rhesus monkeys to betahistine, 382
Diet-induced atherosclerosis and experimental hypertension in stump tail macaques (Macaca arctoides). Effects of antihyper- tensive drugs and a non-atherogenic diet in the evolution of lesions, 610
The effects of sodium nitroprusside and trimethaphan camsylate on cerebral blood flow in rhesus monkeys, 414
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Local cerebral glucose uptake in awake and halothane-anesthetized primates, 419
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Monoamine levels
Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, 410
Brain monoamines in human cerebral infaracts. A preliminary study, 532
Ischemia-induced seizures and cortical monoamine levels, 527
Studies on the influence of monoamines on the cerebrovascular response to arterial hypoxia, 534
Transient platelet monoamine oxidase deficit in migraine: some reflections, 535
Ultrastructural evidence for central monoaminergic innervation of blood vessels in the paraventricular nucleus of the hypothalamus, 289
Mood disorder
Mood disorder as a specific complication of stroke, 281
Morphine
Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 78
Moyamoya syndrome
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81
Computed tomography in "Moya-Moya": summary of 16 cases, 277
Moyamoya disease associated with aneurysm, 526
Moyamoya disease in children, 530
Multiple progressive intracranial arterial occlusions ('moyamoya' disease), 278
Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539
Occipital to posterior inferior cerebellar artery bypass surgery, 609
Muscle contraction
Prevention of persistent cerebral smooth muscle contraction in response to whole blood, 472
Myxoma, atrial
Bilateral atrial myxomas with multiple arterial aneurysms. A syndrome mimicking polyarteritis nodosa, 90
Embolism to the central nervous system from cardiac myxoma. Report of two cases, 279
Left ventricular myxoma. Echocardiographic diagnosis and review of the literature, 279
Nerve conduction velocity
Electrophysiological study of hemiplegia. Motor nerve conduction velocity, brachial plexus latency, and electromyography, 605
Nerve stimulation
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Evidence that neural mechanisms do not have important effects on cerebral blood flow, 536
Neurogenic vasodilation of cat cerebral arteries, 541
Neurological syndromes
Neurological syndromes after cardiac arrest, 517
Vessel tortuosity as a cause of posterior fossa cranial nerve syndromes, 411
Nicergoline
Effect of nicergoline on cerebral blood flow, 182
Nitrous oxide
Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 78
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
No-reflow phenomenon
Vascular spasm in cat cerebral cortex following ischemia, 52
Noradrenaline
Barrier and uptake mechanisms in the cerebrovascular response to noradrenaline, 185
Clinical significance of plasma adrenaline and noradrenaline concentrations in patients with subarachnoid haemorrhage, 530
Norepinephrine
The effect of norepinephrine on the spinal cord circulation and its possible implications in the pathogenesis of acute spinal trauma, 186
Evidence that neural mechanisms do not have important effects on cerebral blood flow, 536
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
Sympathetic nervous system activity in patients with subarachnoid hemorrhage, 237
Nucleotide, cyclic
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540
O
Occlusion
Bilateral occlusion of basilar artery branches, 415
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143
Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Comparison of noninvasive diagnostic techniques in carotid artery occlusive disease, 78
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Effect of occlusion on large vessels. I. A study of the rat carotid artery, 86
Emergency occlusive techniques, 608
Hypothalamic component in prestroke response to carotid occlusion in the rat, 184
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414
Subject Index

Natural history and classification of occlusive thromboarteropathy (Takayasu's disease), 408
Occlusion of the intradural vertebrobasilar artery, 532
Pseudo-occlusion of the internal carotid artery, 408
SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
The treatment of intracranial aneurysms by injection with a tissue adhesive, 180
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 280
Ocular disease
The ocular manifestations of Wegener's granulomatosis. Fifteen years experience and review of the literature, 79
Omentum
Brain vascularization by transplanted omentum: a possible treatment of cerebral ischemia, 282
Omental transposition to human brain. Letter, 272
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Ophthalmosonometry
The use of ophthalmosonometry in the diagnosis of carotid artery stenosis, 80
Ornithine alpha ketoglutarate
Controlled trial of ornithine alpha ketoglutarate (OAKG) in patients with stroke, 218
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Osmolarity
Rat brain osmolarity during barbiturate anesthesia and global brain ischemia, 249
Oxygen consumption, cerebral
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92
Cerebral blood flow and metabolism in man following cardiac arrest, 569
Cerebral blood flow and oxygen consumption in the newborn dog, 609
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79
Papaverine
Brief therapeutic report: papaverine prophylaxis of complicated migraine, 177
Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Paraplegia
Recovery from paraplegia caused by spontaneous spinal epidural hemitoma, 537
Pentobarbital
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179
Delayed pentobarbital therapy of acute focal cerebral ischemia, 245
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12
Effects of phenobarbital in cerebral ischemia. Part 1: cerebral energy metabolism during pronounced incomplete ischemia, 327
Effects of phenobarbital in cerebral ischemia. Part II: restoration of cerebral energy state, as well as of glycolytic metabolites, citric acid cycle intermediates and associated amino acids after pronounced incomplete ischemia, 335
Perfusion, cerebral
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
Pericarditis
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Phenoxbenzamine
Phenoxbenzamine and cerebral blood flow. Possible involvement of phenoxbenzamine in migraine, 175
Phonoangiography
The bruit of carotid stenosis versus radiated basal heart murmurs. Differentiation by phonoangiography, 606
Photoplethysmography
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Physical therapy
How much physical therapy for patients with stroke?, 604
Physostigmine
Cerebrovascular CO₂ reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Pial vessels
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
Fibrinolytic properties of some optic nerve vessels, 532
A method for continuous monitoring of pial vessel diameter changes and its value for dynamic studies of the regulation of cerebral circulation. A preliminary report, 534
Vasoconstrictor effect of angiotensin on pial arteries, 487
Plasma adrenaline
Clinical significance of plasma adrenaline and noradrenaline concentrations in patients with subarachnoid haemorrhage, 530
Plasma fibrinogen
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelets
ADP-induced platelet aggregation in vitro in patients with ischaemic heart disease and peripheral thromboatherosclerosis, 92
Antithrombotic potential of dihomo-gamma-linolenic acid in man, 294
Chronic effect of smoking on platelet count and "platelet adhesiveness" in presumably healthy middle-aged men, 409
Comparison of heparin and a semi-synthetic heparin analogue, A. II. Some effects on platelet function, 421
Further evidence for the role of thrombin in the platelet release reaction caused by various agents, and the nature of biphasic platelet aggregation, 618
Indium-111-labeled autologous platelets for location of vascular thrombi in humans, 618
Inhibition of platelet prostaglandin synthetase by oral aspirin, 417
Platelet adhesiveness in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelet aggregability in migraine, 185
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540
Platelet aggregation in patients with peripheral vascular disease, 418
Platelet aggregation in patients with severe atherosclerosis, 541
Platelet changes in women taking oral contraceptives, 77
Platelet coagulant activities and retinal vein thrombosis, 408
Platelet hyperaggregability in young patients with completed stroke, 278
Prevention of persistent cerebral smooth muscle contraction in response to whole blood, 472
The role of platelets in myocardial infarction, ischemic heart...
Rabbit studies

Cerebrovascular CO₂ reactivity: role of a cholinergic mechanism modulated by anesthetics, 160
Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531

Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187

Gonadal hormones and pathogenesis of occlusive arterial thrombosis, 621
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176

Microradiographic study of cerebral and ocular aneurysms in hypertensive rabbits, 613
Regression of atheroma in the rabbit, 409
Scanning electron microscopy studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620

Studies on platelet plasma membranes. III. Membrane protein loss from circulating platelets in rabbits: inhibition by aspirin-dipyridamole and acceleration by thrombin, 419

Transient platelet monoamine oxidase deficit in migraine: some reflections, 186

Pneumography

Complications of cerebral angiography and pneumography, 186

Pneumophlebography

The asymptomatic carotid bruit and the ocular pneumophlebography, 274

Polyarteritis nodosa

Bilateral atrial myxomas with multiple arterial aneurysms. A syndrome mimicking polyarteritis nodosa, 90

Polycythemia

Cerebral blood-flow in polycythemia, 83

Pregnancy

Carotid cavernous fistula in pregnancy, 184

Proacainamide

Effects of proacainamide and chloramphenicol on acute vasospasm, 281

Propranolol

Isoproterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344

Prostaglandin

Measurement of prostaglandin E₂ in cerebrospinal fluid in patients suffering from stroke, 281

Pathologic findings in the aortocoronary vein grafts. A scanning electron microscope study, 417

Prostaglandins and the arterial wall: an avenue for research in the pathogenesis of atherosclerosis (editorial), 287

Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490

Vasoactive properties of prostaglandin compounds on the in vitro human basilar artery, 81

Prosthetic heart valve

Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606

Discontinuing anticoagulant therapy in surgical patients with cardiac valve prostheses. Observations in 180 operations, 423

Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416

Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18

Late complications of prosthetic heart valves, 608

Prevention of arterial thromboembolism with acetylsalicylic acid. A controlled clinical study in patients with aortic ball valves, 84

Protein synthesis

Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, (529)
S
Scintigraphy
Scintigraphic detection of athrotherosclerotic lesions and venous thrombi in man by indium-111-labelled autologous platelets, (604)
Scintigraphic detection of congenital intracranial vascular malformations, (543)
Seizure
Basilar migraine, seizures, and severe epileptiform EEG abnormalities. A relatively benign syndrome in adolescents, (605)
Ischemia-induced seizures and cortical monoamine levels, (527)
Serotonin
Brain monoamines in human cerebral infarcts. A preliminary study, (532)
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anesthetized baboons, (183)
Effect of topically applied serotonin on local cerebral blood flow, (25)
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, (183)
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, (176)
Pharmacological analysis of 5-hydroxytryptamine receptors in isolated intracranial and extracranial vessels of cat and man, (409)
Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, (412)
Potentiation of the cerebrovascular response to intra-arterial 5-hydroxytryptamine, (531)
Transient cerebral ischemia and brain serotonin: relevance to migraine, (177)
Transitory platelet monoamine oxidase deficit in some reflections, (186)
Shy-Drager syndrome
Cerebral hemodynamics in Shy-Drager syndrome. Variability of cerebral blood flow dysautoregulation and the compensatory role of chemical control in dysautoregulation, (504)
Sickle cell anemia
Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, (407)
Cerebrovascular complications of sickle cell anemia, (73)
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, (45)
The management of ruptured intracranial aneurysm in sickle cell anemia. Case report, (276)
Strokes in children and adolescents, (169)
Sinoatrial disease
Embolism in sinoatrial disease, (543)
Smoking habits
Chronic effect of smoking on platelet count and "platelet adhesiveness" in presumably healthy middle-aged men, (409)
Cigarette smoking and HDL cholesterol. The Framingham Offspring Study, (614)
Smoking, carbon monoxide, and atherosclerotic diseases, (419)
Sodium nitroprusside
Cyanide toxicity and thiosulfate protection during chronic administration of sodium nitroprusside in the dog. Correlation with a human case, (286)
The effects of sodium nitroprusside and trimethaphan camsylate on cerebral blood flow in rhesus monkeys, (414)
Spasm, vascular
Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, (410)
Cerebral artery spasm. A histological study at necropsy of the blood vessels in cases of subarachnoid hemorrhage, (525)
Experiences of surgical treatment of 400 consecutive ruptured cerebral arterial aneurysms, (542)
Vascular spasm in cat cerebral cortex following ischemia, (52)
Stenosis, carotid
The bruit of carotid stenosis versus radiated basal heart murmurs. Differentiation by phonoangiography, (606)
Stress response

Steroid administration

Stenosis, subclavian

Stenosis, carotid-Thrombosis

SUBJECT INDEX 651

Carotid stenosis and coexisting ipsilateral intracranial aneurysm.
A problem in management, 77
Common carotid artery stenosis due to subintimal hematoma following blunt trauma to the neck. Report of a case, 84
Early restenosis after carotid endarterectomy, 529
Hemodynamics of arterial stenoses at elevated flow rates, 91
The use of ophthalmoscopy in the diagnosis of carotid artery stenosis, 80
Stenosis, subclavian
Cardiac cycle-dependent alternating flow in vertebral arteries with subclavian artery stenoses, 229
Steroid administration
Resolving intracerebral hematoma: alteration of the “ring sign” with steroids, 607
Tolosa-Hunt syndrome. Arteriographic evidence of improvement in carotid narrowing, 533
Stress response
Prognostic value of the stress response following stroke, 181
Stroke
Bow hunter’s stroke, 619
Cardiac arrhythmias in acute stroke, 392
Cerebral infarction in young adults, 39
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Computed tomography and radionuclide imaging in the evaluation of ischemic stroke, 534
Controlled trial of oranthine alpha ketoglutarate (OAKG) in patients with stroke, 218
Editorial: aspirin — effective in males threatened with stroke, 295
Editorial: role of stroke in dementia, 1
Effect of DPPD (diphenyl-para-phenylenediamine) on stroke and cerebral edema in gerbils, 480
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533
Is there a real treatment for stroke? Clinical and statistical comparison of different treatments in 300 patients, 130
Long-term prognosis in stroke related to cerebral blood flow, 285
Low-dose heparin as a prophylaxis against deep-vein thrombosis after acute stroke, 187
Measurement of prostaglandin E2 in cerebrospinal fluid in patients suffering from stroke, 281
Mood disorder as a specific complication of stroke, 78
Noninvasive detection and evaluation stroke-prone patients, 289
Occlusive arterial disease of the child and young adult. Clinical and electroencephalographical analysis of 26 cases, 422
Platelet adhesiveness in young patients with ischemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelet hyperaggregability in young patients with completed stroke, 278
Prognostic factors in the survival of 1,484 stroke cases observed for 30 to 48 months. I. Diagnostic types and descriptive variables, 528
Prognostic factors in the survival of 1,484 stroke cases observed for 30 to 48 months. II. Clinical variables and laboratory measurements, 528
Prognostic value of the stress response following stroke, 181
Regional cerebral blood flow in stroke patients, 181
Sensorimotor stroke due to thalamicapillary ischemia, 286
Stroke associated with carotid endarterectomy, 421
Stroke platelet and antplatelet agents in strokes, 403
Strokes and ulcerative colitis, 603
Strokes in children and adolescents, 169
Strokes: a complication of mitral-valve prolapse, 86
Superior sagittal sinus
Dynamic radionuclide scanning in the diagnosis of thrombosis of the superior sagittal sinus, 80
Swine studies
Biocemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Formation of adenine nucleotide derivatives in isolated hog carotid artery strips, 184
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Symptomatic nerve stimulation
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Syncope
Swallowing syncope. A case report, 93
T
Takayasu’s disease
Natural history and classification of occlusive thromboarteriopathy (Takayasu’s disease), 408
Theophylline
Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Thromboatherosclerosis, peripheral
ADP-induced platelet aggregation in vitro in patients with ischemic heart disease and peripheral thromboatherosclerosis, 92
Thrombocytopenia
Heparin-induced thrombocytopenia, 535
Thromboendarterectomy
Thromboendarterectomy for total occlusion of the internal carotid artery: a reappraisal of risks, success rate and potential benefits, 34
Thrombolysis
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
Thrombosis
Antithrombotic potential of dihomo-gamma-linolenic acid in man, 284
Disappearing carotid defects, 258
Dynamic radionuclide scanning in the diagnosis of thrombosis of the superior sagittal sinus, 80
Failure of aspirin to prevent postoperative deep vein thrombosis in patients undergoing total hip replacement, 618
The finding of thrombus at carotid endarterectomy and its relationship to the timing of surgery, 181
Gonadal hormones and pathogenesis of occlusive arterial thrombosis, 621
Hemorrhagic cerebral white matter. Infarction with cerebral deep venous thrombosis and hypoxia, 407
Intracranial venous sinus thrombosis: diagnosis suggested by computed tomography, 619
Iron-acrylic compound for stereotaxic aneurysm thrombosis, 78
Ischemic optic neuropathy in cavernous sinus thrombosis, 529
Low-dose heparin as a prophylaxis against deep-vein thrombosis after acute stroke, 187
A model study of why some intracranial aneurysms thrombose but others rupture, 583
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
Primary cerebral venous thrombosis in young adults: the diverse manifestations of an underrecognized disease, 418
Radiodinated fibrinogen for clot detection in a canine model of cervical carotid thrombosis, 543
Reduction of coagulation factor XIII concentration in patients with myocardial infarction, cerebral infarction, and other thromboembolic disorders, 420
The role of platelets in myocardial infarction, ischemic heart...
disease, cerebrovascular disease, thromboembolic disorders
and acute idiopathic pericarditis, 420
The role of platelets in the pathogenesis of thrombosis and
hemorrhage in patients with thrombocytosis, 420
Stereotaxic thrombosis of inaccessible intracranial aneurysms,
279
Strokes in children and adolescents, 169
Thromboembolic complications in coronary angiography. Pre-
vention with acetylsalicylic acid, 417
Thrombosis of the intraorbital veins and cavernous sinus, 85
Thrombosis of the mesencephalic artery. A clinico-pathological
study of two cases and its correlation with the arterial
vascularisation, 82
Thrombus formation and endothelial alterations in microarterial
anastomoses, 89
Ultramicroscopic ulcerations and thrombi of the carotid bi-
furcation, 274
Thrombotoxics
Arterial embolism in thyrotoxicosis with atrial fibrillation, 178
Tolosa-Hunt syndrome
Tolosa-Hunt syndrome. Arteriographic evidence of improve-
ment in carotid narrowing, 533
Transxamic acid
Effect of tranexamic acid on rebleeding after subarachnoid
hemorrhage: a double-blind controlled clinical trial, 174
Prolonged antifibrinolysis: an effective non-surgical treatment
for ruptured intracranial aneurysms? 537
Treatment of subarachnoid hemorrhage from ruptured intra-
cranial aneurysm with tranexamic acid: a double-blind clinical
trial, 616
Transient cerebral dysfunction
Transient cerebral dysfunction following chemotherapy for os-
teogenec sarcoma, 607
Transient ischemic attacks
Carpot and vertebral-basilar transient ischemic attacks: effect of
anticoagulants, hypertension, and cardiac disorders on survival
and stroke occurrence — a population study, 527
Cerebral revascularization for transient ischemic attacks, 77
Clinical and arteriographic comparison of amaurosis fugax with
hemispheric transient ischemic attacks, 254
Controlled trial of aspirin on cerebral ischemia. Part II: surgical
Group, 309
Cooperative study of hospital frequency and character of
transient ischemic attacks. III. Variations in treatment, 84
Cooperative study of hospital frequency and character of
transient ischemic attacks. IV. The reliability of diagnosis,
421
Cooperative study of hospital frequency and character of
transient ischemic attacks. V. Symptom analysis, 421
Cooperative study of hospital frequency and character of
transient ischemic attacks. VI. Patients examined during an
attack, 422
Cooperative study of hospital frequency and character of
transient ischemic attacks. VII. Initial diagnostic evaluation,
618
The finding of thrombus at carotid endarterectomy and its
relationship to the timing of surgery, 181
A new look at emergency carotid artery operations for the
treatment of cerebrovascular insufficiency, 599
Relevance of duration of transient ischemic attacks in carotid
territory, 614
Transient cerebral ischemia and brain serotonin: relevance to
migraine, 177
Treatment of transient ischemic attacks, 299
Trial of aspirin during weaning patients with transient ischemic
attacks from anticoagulants, 617
The value of carotid endarterectomy in treating transient
cerebral ischemia of the posterior circulation, 80
Trauma, head
Compartmental analysis of regional cerebral blood flow in pa-
patients with acute severe head injuries, 283
Correlation between angiographic findings and the ischaemia of
head injury, 580
Experimental head injury in the rat. Part 3: cerebral blood flow
and oxygen consumption after concussive impact acceleration,
79
Extradural haematoma. Report of 132 cases, 617
Non-penetrating trauma to the carotid artery with secondary
thrombosis and embolism: treatment by thrombolysis, 83
A sign of subarachnoid bleeding on cranial computed tomo-
grams of pediatric head trauma patients, 416
Strokes in children and adolescents, 169
Vertebrobasilar spasm: a significant cause of neurological deficit
in head injury, 526
Trauma, neck
Common carotid artery stenosis due to subintimal hematoma
following blunt trauma to the neck. Report of a case, 84
Trauma, spinal cord
The effect of norepinephrine on the spinal cord circulation and
its possible implications in the pathogenesis of acute spinal
trauma, 186
Hyperemia, CO2 responsiveness, and autoregulation in the white
matter following experimental spinal cord injury, 413
Tumor
Intracranial hemorrhage caused by metastatic tumors, 80
Intracranial tumors simulating the presentation of cerebrovas-
cular syndromes. Early detection with cerebral computed
tomography (CCT), 283
Spinal cord vasculitis presenting as a spinal cord tumor in a
heroin addict. Case report, 410
Subarachnoid hemorrhage due to intraspinal tumors, 536
U
Ulcereative colitis
Hemorrhagic complications of cerebral arteritis, 91
Strokes and ulcerative colitis, 605
Uridine 5'-triphosphate
Prolonged contraction of isolated human and canine cerebral
arteries induced by uridine 5'-triphosphate, 133
V
Vascular amyloid
Vascular amyloid in the aging central nervous system. Clinico-
pathological study and literature review, 276
Vasculitis
Central nervous system vasculitis in rheumatoid arthritis, 276
Spinal cord vasculitis presenting as a spinal cord tumor in a
heroin addict. Case report, 410
Vasocostriction
Internal and external carotid vascular responses to vasoactive
agents in the monkey, 416
Vasocostriction effect of angiotensin on pial arteries, 487
Vasodilation
The intra-arterial injection of Iskedyl for hyperselective vascular
exploration, 180
Neurogenic vasodilation of cat cerebral arteries, 541
Vasospasm, cerebral
Aminophylline and isoproterenol in the treatment of cerebral
vasospasm, 81
Cerebral vasospasm with ruptured saccular aneurysm, 281
Diagnosis and treatment of postoperative cerebral vasospasm,
177
Die Rolle des postoperativen HirngefSssspasmus nach Verklip-
hung intrakranieller Aneurysmen. Postoperative vasospasm
after clipping of intracranial aneurysms, 542
Effects of procainamide and chloramphenicol on acute vaso-
spasm, 281
Electronic stethoscope for detection of cerebral aneurysm,
vasospasm and arterial disease, 177
Experimental cerebral vasospasm: comparison of perfusion
deficits with angiography, 288
Intercellular granules and vesicles in prolonged cerebral vaso-
spasm, 412
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Prolonged vasospasm produced by the breakdown products of erythrocytes, 89
Significance of vasospasm in the treatment of ruptured intracranial aneurysms, 89
Time course of vasospasm in man, 412
Timing and indication of surgery for ruptured intracranial aneurysms with regard to cerebral vasospasm, 616
Vertebrobasilar spasm: a significant cause of neurological deficit in head injury, 526
Velocity wave form analysis
The use of velocity wave form analysis in the diagnosis of carotid artery occlusive disease, 275
Vertebrobasilar occlusion
Occlusion of the intradural vertebrobasilar artery, 532
Traumatic vertebrobasilar occlusive disease in childhood, 416
Vincamine
The effect of vincamine on the regional cerebral blood flow in man, 612

W
Warfarin
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Predicting patients' warfarin requirements, 187
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Wegener's granulomatosis
The ocular manifestations of Wegener's granulomatosis. Fifteen years experience and review of the literature, 79
Women
Mortality among oral-contraceptive users, 182
Mortality among women participating in the Oxford/Family Planning Association contraceptive study, 182
Platelet changes in women taking oral contraceptives, 77

X
Xenon-133 inhalation
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
Diagnosis of subdural hematoma by computed axial tomography: use of xenon inhalation for contrast enhancement, 613
Improved method for noninvasive measurement of regional cerebral blood flow by 133Xe inhalation. Part I: description of method and normal values obtained in healthy volunteers, 195
Improved method for noninvasive measurement of regional cerebral blood flow by 133Xe inhalation. Part II: measurements in health and disease, 205
Normal and abnormal patterns of cerebrovascular reserve tested by 133Xe inhalation, 605
Recent validation of 133Xe inhalation. Letter, 272
Xenon-133 inhalation method for regional cerebral blood flow measurements: normal values and test-retest results, 396
133Xenon inhalation method: significance of indicator maldistribution for distinguishing brain areas with impaired perfusion. An index for total flow, 57

Y
Young adults
Amaurosis fugax due to isolated atherosclerotic carotid artery disease in a young woman, 422
Basilar migraine, seizures, and severe epileptiform EEG abnormalities. A relatively benign syndrome in adolescents, 605
Cerebral infarction in young adults, 39
Intracranial saccular aneurysms in the first three decades, 608
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
Occlusive arterial disease of the child and young adult. Clinical electroencephalographical analysis of 26 cases, 422
Platelet adhesiveness in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelet hyperaggregability in young patients with completed stroke, 278
Primary cerebral venous thrombosis in young adults: the diverse manifestations of an underrecognized disease, 418
Strokes and ulcerative colitis, 605
Strokes in children and adolescents, 169
