STROKE
VOLUME 9 JANUARY-DECEMBER, 1978

SUBJECT INDEX

Page Numbers in Italics refer to Abstracts

A

Acetylsalicylic acid
Prevention of arterial thromboembolism with acetylsalicylic acid. A controlled clinical study in patients with aortic ball valves, 84
Thromboembolic complications in coronary angiography. Prevention with acetylsalicylic acid, 417

Adenosine nucleotide derivatives
Formation of adenosine nucleotide derivatives in isolated hog carotid artery strips, 184

Alkalosis
Effect of non-respiratory alkalosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354

Amaurosis fugax
Amaurosis fugax and carotid artery disease: indications for angiography, 88
Amaurosis fugax due to isolated atherosclerotic carotid artery disease in a young woman, 422
Amaurosis fugax from disease of the external carotid artery, 87
Clinical and arteriographic comparison of amaurosis fugax with hemispheric transient ischemic attacks, 254
Evidence of silent cerebral embolism in patients with amaurosis fugax, 176

Surgical management of the totally occluded carotid artery, 275

Aminophylline
Aminophylline and isoproterenol in the treatment of cerebral vasospasm, 81
Effect of aminophylline on cerebral infarction in the mongolian gerbil, 477

Ampicillin
Clinical testing of Ampicillin for cerebral angiography, 614

Ammonia
Cerebral ammonia metabolism. Letter, 521
Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539

Anastomosis
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Experimental extracranial-intracranial anastomosis, 176
Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cervical internal carotid aneurysm from traumatic origin, 288
Extracranial-to-intracranial vascular anastomosis for occlusive cerebrovascular disease: experience in 110 patients, 275
Intracranial bypass grafts for vertebral-basilar ischaemia, 203
Microvascular anastomosis for cerebral ischemia in 19 patients: a preliminary report, 538
Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539
Superficial-temporal-middle cerebral artery anastomosis for temporary carotid occlusion, 82
Thrombus formation and endothelial alterations in microarterial anastomoses, 89

Anatomy
Microsurgical anatomy of the posterior cerebral artery, 525

Anesthesia
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 779
Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 70
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540
Mechanisms of anesthetic action. Letter, 272
Rat brain osmolality during barbiturate anesthesia and global brain ischemia, 249

Aneurysm
Aneurysm of the ayzygos artery, 282
Aneurysms of the posterior cerebral artery. Locations and clinical pictures, 81
Aneurysmes triples bilatéraux, opérés en deux temps. Deux observations. Bilateral triple aneurysms operated in two stages: two case studies, 82
Anterior choroidal artery aneurysms: their anatomy and surgical significance, 419
Bacterial intracranial aneurysm, 527
Basal rupture of saccular aneurysm. A pathological case report, 526
Bilateral atrial myxomas with multiple arterial aneurysms. A syndrome mimicking polyarteritis nodosa, 90
Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, 410
Carotid paracoid aneurysms with intradural origin and intracavernous location, 525
Carotid stenosis and coexisting ipsilateral intracranial aneurysm. A problem in management, 77
Cerebral arterial blood flow and aneurysm surgery. Part 1: local arterial flow dynamics, 279
Cerebral arterial blood flow and aneurysm surgery. Part 2: induced hypotension and autoregulatory capacity, 279
Cerebral arterial flow dynamics during aneurysm haemorrhage, 616
Cerebral hamartoma mimicking the angiographic appearance of congenital fusiform aneurysm, 84
Cerebral microembolization. II. Morphological studies, 611
Cerebral vasospasm with ruptured saccular aneurysm, 281
Clinico-pathological study of cerebral aneurysms — origin, rupture, repair and growth, 288
Clinicopathological study of cerebral aneurysms. Origin, rupture, repair, and growth, 525
Computed tomography of ruptured intracranial aneurysm in acute stage, 188
Crossed external carotid ligation for giant aneurysms, 614
Die Rolle des postoperativen Hirngefäßsklüssen nach Verklippung intrakranieller Aneurysmen. Postoperative vasospasm after clipping of intracranial aneurysms, 542
Direct attack on carotid ophthalmic and large internal carotid aneurysms, 81
Direct serial magnification angiography applied to cerebral aneurysms, 411
Disordered cerebro-vascular physiology in aneurysmal subarachnoid haemorrhage, 616
Dissecting intracranial aneurysms, 280
Electronic stethoscope for detection of cerebral aneurysm, vasospasm and arterial disease, 177
Experiences of surgical treatment of 400 consecutive ruptured cerebral arterial aneurysms, 542
Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cervical internal carotid aneurysm from traumatic origin, 288
Fibrinolytic activity in blood and cerebrospinal fluid in subarachnoid hemorrhage from ruptured intracranial saccular aneurysm before and during EACA treatment, 612
Follow-up results of microsurgery of intracranial aneurysms, 188
How old people tolerate intracranial surgery for aneurysm, 281
Infrequent aneurysm surgery, 604

629
Intracranial aneurysms in early childhood, 536
Intracranial aneurysms: characteristics of aneurysms in siblings, 537 (letter to the editor), 85
Intracranial arterial aneurysms in infancy and childhood, 85
Intracranial saccular aneurysms in the first three decades, 608
Iron-acrylic compound for stereotaxic aneurysm thrombosis, 78
Late morbidity and mortality of common carotid ligation for posterior communicating aneurysms. A comparison to conservative treatment, 276
Les indications et les conditions opératoires des anévrismes chez les gens âgés. Indications and operative conditions of aneurysms in old patients, 607
The management of ruptured intracranial aneurysm in sickle cell anemia. Case report, 608
Meningiomas and aneurysms of the cavernous sinus. Neuroophthalmologic features, 532
Microradiographic study of cerebral and ocular aneurysms in hypertensive rabbits, 613
Microsurgical treatment of cerebral aneurysms at the bifurcation of the internal carotid artery, 617
A model study of why some intracranial aneurysms thrombose but others rupture, 583
Moyamoya disease associated with aneurysm, 526
Multiple aneurysm formation as a complication of interventional angiography, 411
Multiple intracranial aneurysms: identifying the ruptured lesion, 608
Prolonged antifibrinolysis: an effective non-surgical treatment for ruptured intracranial aneurysms? 337
Reinforcement with gauze wrapping for ruptured aneurysms of the middle cerebral artery, 279
Saccular aneurysm of infancy and early childhood, 414
The significance for diagnosis and for surgical technique of multiple aneurysms of the same internal carotid artery, 616
Significance of vasospasm in the treatment of ruptured intracranial aneurysms, 89
Spontaneous healing of intracranial aneurysms after subarachnoid hemorrhage. Case report, 528
Stereotaxic thrombosis of inaccessible intracranial aneurysms, 279
Subdural hematomas due to ruptured cerebral aneurysms: angiographic diagnosis and potential pitfall for CT, 530
Surgery of ruptured intracranial aneurysm. Timing and grading, 618
Timing and indication of surgery for ruptured intracranial aneurysms with regard to cerebral vasospasm, 616
The treatment of intracranial aneurysms by injection with a tissue adhesive, 180
Treatment of subarachnoid hemorrhage from ruptured intracranial aneurysm with tranexamic acid: a double-blind clinical trial, 616
Unruptured intracranial aneurysms — an unusual source of epilepsy, 542
Aneurysm clips
Interrelationship of aneurysm clips and vascular tissue, 620
Aneurysm, myotic
Cerebral hemorrhage from a myotic aneurysm developing during appropriate antibiotic therapy, 267
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Multiple myotic aneurysms due to candida endocarditis, 85
Angiography
Amaurosis fugax and carotid artery disease: indications for angiography, 88
The angiographic diagnosis of occlusions of the posterior cerebral artery, 280
Angiographic findings in giant cell arteritis, 90
The angiographically occult cerebrovascular malformation. Report of three cases, 413
Bilateral cerebral angiography with catheterization of only one carotid artery, 417
Cerebral angiography with non-ionic (metrizamide) and ionic (meglumine metrizoate) watersoluble contrast media. A comparative study with double blind technic, 179
Cerebral arterial revascularization: the value of repeated angiography in selection of patients for operation, 604
Cerebral ischemia. I. Current angiographic techniques, complications, and safety, 615
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Clinical and arteriographic comparison of amaurosis fugax with hemispheric transient ischemic attacks, 254
Clinical testing of Amipaque for cerebral angiography, 614
Comparative angiographic and histological evaluations of intracranial atherosclerosis in hypertensive and normotensive subjects, 364
Complications of cerebral angiography, 416
Complications of cerebral angiography and pneumography, 186
Computed tomography in a transient brain stem disorder, 417
Correlation between angiographic findings and the ischaemia of head injury, 530
Direct serial magnification angiography applied to cerebral aneurysms, 411
Disappearing carotid defects, 258
Electromagnetic rheoangiometry: an extension of selective angiography, 409
Experimental cerebral vasospasm: comparison of perfusion deficits with angiography, 288
Impact of computed tomography on utilization of cerebral angiograms, 88
Leptomeningeal artery atherosclerosis visualized by angiography: clinical correlates, 262
Multiple aneurysm formation as a complication of interventional angiography, 411
Routine operative arteriography during carotid endarterectomy: a reassessment, 411
Sequential angiographic studies demonstrating delayed development of an acute epidural hematoma. Case report, 536
Subdural hematomas due to ruptured cerebral aneurysms: angiographic diagnosis and potential pitfall for CT, 530
Technique for multi-view radionuclide angiography, 566
ToIosa-Hunt syndrome. Arteriographic evidence of improvement in carotid narrowing, 535
The value of repeat pan-angiography in cases of unexplained subarachnoid hemorrhage, 610
Angioma
Cavernous angiomas of the brain. Account of fourteen personal cases and review of the literature, 542
Intracranial venous angioma. Case report and review, 527
Surgical treatment of arteriovenous angiomas localised in the corpus callosum, basal ganglia and near the brain stem, 542
Angioplasty
Vasocostrictor effect of angioplasty on pial arteries, 487
Anoxic myelopathy
Diffuse “anoxic” myelopathy, 204
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Anticoagulant therapy
Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 605
Carotid and vertebral-basilar transient ischemic attacks: effect of anticoagulants, hypertension, and cardiac disorders on survival and stroke occurrence — a population study, 527
Carotid endarterectomy. Temporal profile of the healing process and effects of anticoagulation therapy, 412
Discontinuing anticoagulant therapy in surgical patients with cardiac valve prostheses. Observations in 180 operations, 423
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
In vivo assessment of anticoagulation, 283
Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
One year of heparin anticoagulation. An ambulatory subject using a totally implantable infusion pump, 184
Subject Index

Anticoagulant therapy-Artery, episcleral

Predicting patients' warfarin requirements, 187
Trial of aspirin during weaning patients with transient ischaemic attacks from antiocoagulants, 617

Aphasia
Aphasia and left thalamic hemorrhage, 526
Recovery patterns and prognosis in aphasia, 189

Arrhythmia
Cardiac arrhythmias in acute stroke, 392

Arterial injury
Localisation of injury in arteries by 1-125 fibrinogen uptake, 533

Arterial pressure
Central depression of carotid baroreceptor pressor response, arterial pressure and heart rate by 5-hydroxytryptophan: influence of supraciliareous areas of the brain, 189

Arteriosclerosis
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Combined effects of acute cerebrovascular ischemia and myocardial infarction in arteriosclerotic, male Sprague-Dawley rats, 183
Intracranial arterial aneurysms in infancy and childhood, 85
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540

Arteritis
Angiographic findings in giant cell arteritis, 90
Anterior segment ischemia in temporal arteritis, 417
Hemorrhagic complications of cerebral arteritis, 91
Intracranial involvement of giant-cell arteritis, 77

Artery, anterior spinal
Intradural extramedullary spinal arterio-venous malformations fed by the anterior spinal artery, 81

Artery, aygos
Aneurysm of the aygos artery, 282

Artery, basilar
Basilar artery migraine. A review of 30 cases, 531
Bilateral occlusion of basilar artery branches, 415
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
The microsurgical anatomy of the basilar artery bifurcation, 181
Vasoactive properties of prostaglandin compounds on the in vitro human basilar artery, 81

Artery, carotid external
Amaurosis fugax from disease of the external carotid artery, 87
Crossed external carotid ligation for giant aneurysms, 614
Detection of atherosclerotic plaques in carotid arteries by the use of 111-I-fibrinogen, 416
ICA back pressures: importance of external carotid measures. Letter, 273
Importance of the external carotid artery in extracranial cerebrovascular occlusive disease, 88
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534

Artery, carotid internal
Carotid-axillary bypass: clinical and experimental evaluation, 288
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Cerebrovascular evaluation: assessment of Doppler scanning of carotid arteries, ophthalmic Doppler flow and cerebral bruises, 563
Comparison of noninvasive diagnostic techniques in carotid artery occlusive disease, 78
Detection of atherosclerotic plaques in carotid arteries by the use of 111-I-fibrinogen, 416
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Direct attack on carotid ophthalmic and large internal carotid aneurysms, 81
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cervical internal carotid aneurysm from traumatic origin, 288
Fibromuscular dysplasia of the cervicocephalic arteries, 535
Hypoglossal paralysis due to compression by a tortuous internal carotid artery in the neck, 543
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533
Inferior blindness. A complication of carotid endarterectomy, 78
Kinking of the internal carotid artery. Clinical significance and surgical management, 84
Microsurgical treatment of cerebral aneurysms at the bifurcation of the internal carotid artery, 617
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolsins, 83
Observations on simultaneous internal carotid artery and total cerebral blood flow measurements in man, 282
Pseudo-occlusion of the internal carotid artery, 408
Relationship between ophthalmic artery blood flow and re-canalization of occluded carotid artery. Ultrasound Doppler study, 360
The significance for diagnosis and for surgical technique of multiple aneurysms of the same internal carotid artery, 616
Spontaneous dissection of cervico-cerebral arteries, 538
"Stump" of internal carotid artery — a source for further cerebral embolic ischemia, 448
Superficial temporal-middle cerebral artery aneurysm anastomosis for internal carotid occlusion, 82
Surgical management of the totally occluded carotid artery, 275
Thromboendarterectomy for total occlusion of the internal carotid artery: a reappraisal of risks, success rate and potential benefits, 34
The use of velocity wave form analysis in the diagnosis of carotid artery occlusive disease, 275

Artery, cerebral
Cerebral arterial revascularization: the value of repeated angiography in selection of patients for operation, 604
Cerebral artery spasm. A histological study at necropsy of the blood vessels in cases of subarachnoid hemorrhage, 525
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 340
Cliniopathological study of cerebral aneurysms. Origin, rupture, repair, and growth, 525
Experiences of surgical treatment of 400 consecutive ruptured cerebral arterial aneurysms, 542
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretine phosphate, 490

Artery, common carotid
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
Carotid embolization presenting as total monocular blindness, 186
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 340
Common carotid artery stenosis due to subintimal hematoma following blunt trauma to the neck. Report of a case, 84
Late morbidity and mortality of common carotid ligation for posterior communicating aneurysms. A comparison to conservative treatment, 276
The use of velocity wave form analysis in the diagnosis of carotid artery occlusive disease, 275

Artery, episcleral
Dilated episcleral arteries — a significant physical finding in...
Artery, innominate
Innominate artery endarterectomy. A 16-year experience, 274

Artery, leptomeningeal
Leptomeningeal artery atherosclerosis visualized by angiography: clinical correlates, 262

Artery, mesencephalic
Thrombosis of the mesencephalic artery. A clinico-pathological study of two cases and its correlation with the arterial vascularisation, 82

Artery, middle cerebral
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 540
Correlation between the clinical picture, the EEG and cerebral blood flow after partial occlusion of the middle cerebral artery in man, 91
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286
Intracerebellar hematoma following microsurgical STA — MCA bypass surgery, 188
 Ipsilateral subclavian to external carotid and STA-MCA bypasses for retinal ischemia, 418
 Modification of acute focal ischemia by treatment with mannitol, 4
 Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolyasin, 83
 Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539
 Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
 Reinforcement with gauze wrapping for ruptured aneurysms of the middle cerebral artery, 279
 SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
 Staged intracranial and extracranial revascularization, 285
 Superficial temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82

Artery, occipital
The occipital artery. Anatomy-normal arteriographic aspects-embryological significance, 613
Occipital to posterior inferior cerebellar artery bypass surgery, 609
Syndrome of agitated delirium and visual impairment: a manifestation of medial tempo-occipital infarction, 284

Artery, ophthalmic
Direct attack on carotid ophthalmic and large internal carotid aneurysms, 81
Doppler ultrasound and supraorbital photoplethysmography for non-invasive screening of carotid occlusive disease, 85
Relationship between ophthalmic artery blood flow and re-canalization of occluded carotid artery. Ultrasonic Doppler study, 360

Artery, posterior cerebral
Aneurysms of the posterior cerebral artery. Locations and clinical pictures, 91
The angiographic diagnosis of occlusions of the posterior cerebral artery, 280
Microsurgical anatomy of the posterior cerebral artery, 523

Artery, posterior inferior cerebellar
Occipital to posterior inferior cerebellar artery bypass surgery, 609
Posterior fossa revascularization: anastomosis of vertebral artery to PICA with interposed radial artery graft, 607

Artery, subclavian
Cardiac cycle-dependent alternating flow in vertebral arteries with subclavian artery stenoses, 229
Carotid-axillary bypass: clinical and experimental evaluation, 288
 Ipsilateral subclavian to external carotid and STA-MCA bypasses for retinal ischemia, 418

Artery, superficial temporal
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81
Intimal dissection of the superficial temporal artery, 536
Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539
Superficial temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82
Aspirin
Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, 407
Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309
Editorial: aspirin — effective in males threatened with stroke, 295
Failure of aspirin to prevent postoperative deep vein thrombosis in patients undergoing total hip replacement, 618
Inhibition of platelet prostaglandin synthetase by oral aspirin, 417
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
Studies on platelet plasma membranes. III. Membrane glycoprotein loss from circulating platelets in rabbits: inhibition by aspirin-dipyridamole and acceleration by thrombin, 419
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Treatment of transient ischemic attacks, 299
Trial of aspirin during weaning patients with transient ischemic attacks from anticoagulants, 617

Atheroma
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533
Pathogenesis and prevention of trauma-provoked atheromas, 185
Regression of atheroma in the rabbit, 409

Atherosclerosis
Amaurosis fugax due to isolated atherosclerotic carotid artery disease in a young woman, 422
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Carbon monoxide-induced arterial wall hypoxia and atherosclerosis, 614
Comparative angiographic and histological evaluations of intracranial atherosclerosis in hypertensive and normotensive subjects, 364
Detection of atherosclerotic plaques in carotid arteries by the use of 14C-fibrinogen, 416
Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Editorial: noninvasive techniques for diagnosis of carotid artery disease, 427
Failure of regression of atherosclerosis in dogs with moderate cholestrololemia, 82
Leptomeningeal artery atherosclerosis visualized by angiography: clinical correlates, 262
 Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Platelet aggregation in patients with severe atherosclerosis, 541
Prostaglandins and the arterial wall: an avenue for research in the pathogenesis of atherosclerosis (editorial), 287
The rate of atherosclerosis change during treatment of hyperlipoproteinemia, 415
Scintigraphic detection of atherosclerotic lesions and venous...
thrombi in man by indium-111-labelled autologous platelets, 604

Smoking, carbon monoxide, and atherosclerotic diseases, 419

Atropine
Effect of atropine on cerebrovascular responsiveness to carbon dioxide, 528

Autoregulation
Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413

Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412

Cerebral arterial blood flow and aneurysm surgery. Part 2: induced hypotension and autoregulatory capacity, 279

Cerebral blood flow autoregulation in the rat, 150

Experimental studies on the neurogenic factors in autoregulation of regional circulation in dogs' brains, 86

Hyperemia, CO₂ responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413

B

Baboon studies
Barrier and uptake mechanisms in the cerebrovascular response to noradrenaline, 185

The capacity for computed tomography diagnosis of cerebral infarction. An experimental study in the nonhuman primate, 275

Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177

Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anaesthetized baboons, 183

Effect of atropine on cerebrovascular responsiveness to carbon dioxide, 528

Extracellular potassium activity, evoked potential and tissue blood flow. Relationships during progressive ischaemia in baboon cerebral cortex, 79

Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277

Time course of the cerebral circulatory response to metabolic depression, 414

Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123

Balloon catheterization
Complete obliteration of a carotid cavernous fistula with detachable balloons. Technical note, 607

Embolization of cerebral vessels with inflatable and detachable balloons. Technical note, 413

Experimental embolization with inflatable and releasable balloons in dogs, 287

Systemic vascular responses to increased intracranial pressure. 1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277

Baroreceptors
Carotid baroreceptor function in hypertensive patients, 285

Central depression of carotid baroreceptor pressor response, arterial pressure and heart rate by 5-hydroxytryptophan: influence of supraocular areas of the brain, 189

Circulatory reflexes from carotid and extracarotid baroreceptor areas in man, 186

Time course of baroreceptor resetting in short-term hypotension in the rat, 609

Betahistine
Comparative responses of the carotid and vertebral arterial systems of rhesus monkeys to betahistine, 382

Bifurcation, carotid
Imaging the carotid bifurcation using continuous-wave Doppler-shift ultrasound and spectral analysis, 465

Microsurgical treatment of cerebral aneurysms at the bifurcation of the internal carotid artery, 617

A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599

Ultramicroscopic ulcerations and thrombi of the carotid bifurcation, 274

Bird studies
Cerebral blood flow in birds: effect of hypoxia, 531

Blindness
Carotid embolization presenting as total monocular blindness, 186

 Ipsilateral blindness. A complication of carotid endarterectomy, 78

Syndrome of agitated delirium and visual impairment: a manifestation of medial tempo-occipital infarction, 294

Blood-brain barrier
Effect of an acute increase of the intravascular pressure on the brain-blood barrier, 388

Effect of non-respiratory alkalinosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354

Intra-arterial basic dye studies of the blood-CSF and blood-brain barriers, 92

Isoproterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344

Blood-CSF barrier
Intra-arterial basic dye studies of the blood-CSF and blood-brain barriers, 92

Blood flow, cerebral
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29

Assessment of regional cerebral blood flow by continuous carotid infusion of krypton-81m, 189

An automated cerebral blood flow analyzer: concise communication, 77

Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413

Barrier and uptake mechanisms in the cerebrovascular response to noradrenaline, 185

Blood flow and oxygen consumption of the focally traumatized monkey brain, 92

Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412

Cerebral arterial blood flow and aneurysm surgery. Part 1: local arterial flow dynamics, 278

Cerebral arterial blood flow and aneurysm surgery. Part 2: induced hypotension and autoregulatory capacity, 279

Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179

Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 77

Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539

Cerebral blood flow and metabolism in man following cardiac arrest, 569

Cerebral blood flow and oxygen consumption in the newborn dog, 609

Cerebral blood flow and vascular reactivity after removal of the superior cervical sympathetic ganglion in the goat, 178

Cerebral blood flow autoregulation in the rat, 150

Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143

Cerebral blood flow in birds: effect of hypoxia, 531

Cerebral blood flow in migraine, 177

Cerebral blood flow in the monkey after focal cryogenic injury, 509

Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185

Cerebral blood flow-in polycthemia, 83

Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177

Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anaesthetized baboons, 183

Cerebral circulatory responses to arterial hypoxia in normal and chemodenerated dogs, 621

Cerebral hemodynamics in migraine, 276

Cerebral hemodynamics in Shy-Drager syndrome. Variability of cerebral blood flow dysautoregulation and the compensatory role of chemical control in dysautoregulation, 304
Cerebrovascular CO₂ reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Comparative responses of the carotid and vertebral arterial systems of rhesus monkeys to betahistine, 382
Correlation between the clinical picture, the EEG and cerebral blood flow after partial occlusion of the middle cerebral artery in man, 91
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 613
Distribution of cerebral blood flow in the dominant hemisphere during motor ideation and motor performance, 174
Effect of haematocrit on cerebral blood-flow in man, 284
The effect of lesions in the locus coeruleus on the physiological responses of the cerebral blood vessels in cats, 278
Effect of norepinephrine on cerebral blood flow, 182
Effect of non-respiratory alkalosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 778
Effect of topically applied serotonin on local cerebral blood flow, 25
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540
The effects of sodium nitroprusside and trimethaphan camsylate on cerebral blood flow in rhesus monkeys, 414
Electromagnetic rheoangiometry: an extension of selective angiography, 409
Ergotamine and cerebral blood flow, 594
Evidence that neural mechanisms do not have important effects on cerebral blood flow, 536
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79
Improved method for noninvasive measurement of regional cerebral blood flow by ¹³³Xe inhalation. Part I: description of method and normal values obtained in healthy volunteers, 195
Improved method for noninvasive measurement of regional cerebral blood flow by ¹³³Xe inhalation. Part II: measurements in health and disease, 205
Isoproterenol and propanolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344
Long-term prognosis in stroke related to cerebral blood flow, 285
Measurement of cerebral blood flow with microspheres, 274
Measurement of local cerebral blood flow with iodo [¹³¹I] antipyrine, 413
A method for continuous monitoring of pial vessel diameter changes and its value for dynamic studies of the regulation of cerebral circulation. A preliminary report, 534
Observations on simultaneous internal carotid artery and total cerebral blood flow measurements in man, 282
On the theory of an intravenous isotope method for cerebral blood flow measurements, 87
Phenytoin and cerebral blood flow. Possible involvement of phenylethylamine in migraine, 175
Rat brain osmolality during barbiturate anesthesia and global brain ischemia, 249
Role of tissue hypoxia in local regulation of cerebral microcirculation, 621
Spastic constriction of cerebral vessels after electric convulsive treatment, 284
Study of regional cerebral metabolism and blood flow relationships in man using the method of continuously inhaling oxygen-15 and oxygen-15 labelled carbon dioxide, 540
4th Tbilisi Symposium on Brain Blood Supply, 440
A technique for recording local blood flow and neuronal activity with a single microelectrode, 83
Time course of the cerebral circulatory response to metabolic depression, 414
Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178
The validity of an intravenous isotope method for cerebral blood flow measurements. An experimental study, 87
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
¹³³Xenon inhalation method: significance of indicator maldistribution for distinguishing brain areas with impaired perfusion. An index for total flow, 57
Blood flow, cortical
Regional cortical blood flow at craniotomy, 605
Blood flow, orbital
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Thrombosis of the intracranial veins and cavernous sinus, 85
Blood flow, regional cerebral
Chroma-memo-flow technique for rapid sequential analysis of regional cerebral blood flow (rCBF) responses, 538
Compartmental analysis of regional cerebral blood flow in patients with acute severe head injuries, 283
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
The effect of vincamine on the regional cerebral blood flow in man, 612
Effects of electrical stimulation of superior cervical ganglion on the regional cerebral blood flow, 180
Experimental studies on the neurogenic factors in autoregulation of regional circulation in dogs' brains, 86
Functional responses of the human brain studied by regional cerebral blood flow techniques, 181
Normal and abnormal patterns of cerebrovascular reserve tested by ¹³³Xe inhalation, 605
Regional brain blood flow in the conscious gerbil, 67
Regional cerebral blood flow in stroke patients, 181
Xenon-133 inhalation method for regional cerebral blood flow measurements: normal values and test-retest results, 396
Blood flow, spinal cord
The effect of noxepin on the spiral cord circulation and its possible implications in the pathogenesis of acute spinal trauma, 182
An improved technique for measurement of spinal cord blood flow, 620
Measurement of spinal cord blood flow by the microsphere technique, 414
Regulation of total and regional spinal cord blood flow, 79
Blood gases
Arterial blood gases during raised intracranial pressure in anesthetized cats under controlled ventilation, 327
Blood pressure
Effect of an acute increase of the Intravascular pressure on the blood-brain barrier, 588
Long term changes in blood pressure and risk of cerebrovascular disease, 319
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
Vasoconstrictor effect of angiotensin on pial arteries, 487
Blood volume, cerebral
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414
Blood, whole
Prevention of persistent cerebral smooth muscle contraction in response to whole blood, 472
Body temperature
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
Brain damage
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Brain death
Computerized axial tomography in brain death, 597
Brain stem
Arteriovenous malformations of the brain stem in childhood, 175

Cerebrovascular incidents after myocardial infarction, 281
Conjunctival microangiopathy. An early sign of degenerative vascular disease? 86
Detecting extracranial cerebrovascular disease with noninvasive techniques, 411
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Extracranial-to-intracranial vascular anastomosis for occlusive cerebrovascular disease: experience in 110 patients, 275
Importance of the external carotid artery in extracranial cerebrovascular occlusive disease, 88
Long term changes in blood pressure and risk of cerebrovascular disease, 319
A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599
Noninvasive methods for evaluation of extracranial cerebrovascular disease. A comparison, 78
Non-invasive regional study of chronic cerebrovascular disorders using the oxygen-15 inhalation technique, 415
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
A planned approach to coexistent cerebrovascular disease in coronary artery bypass candidates, 274
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137
Spontaneous platelet aggregation in cerebrovascular disease, 540
Strokes in children and adolescents, 169
Summary of 11th Princeton Conference on Cerebrovascular Disease, 429
Trends in mortality from cerebrovascular diseases in the United States, 1960 to 1975, 549
Cerebrospinal fluid—Computed tomography

Strokes in children and adolescents, 169
Subarachnoid hemorrhage in children, 422
Traumatic vertebral occlusive disease in childhood, 416
Cholesteryl and cholesterol levels

Biochemical effects of moderate diet and clofibrate on white atherosclerosis, 608
Cigarette smoking and HDL cholesterol. The Framingham Offspring Study, 614
Morphological effects of moderate diet and clofibrate on white atherosclerosis, 608
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620
Cholestrol

Failure of regression of atherosclerosis in dogs with moderate cholestrolaemia, 82
Clofibrate

Biochemical effects of moderate diet and clofibrate on white atherosclerosis, 608
Morphological effects of moderate diet and clofibrate on white atherosclerosis, 608
Coagulation, intravascular

Cerebral involvement with disseminated intravascular coagulation in intestinal disease, 77
Complication

Acute neurological complications after liver transplantation with particular reference to intraoperative cerebral air embolus, 537
Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606
Complications of cerebral angiography, 416
Complications of cerebral angiography and pneumography, 186
Late complications of prosthetic heart valves, 608
Moyamoya syndrome as a complication of radiation therapy, 609
Case report, 609
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Transient cerebral dysfunction following chemotherapy for osteogenic sarcoma, 607
Computerized tomography

Benign cerebellar hemorrages, 539
The capacity for computed tomography diagnosis of cerebral infarction. An experimental study in the nonhuman primate, 275
Cerebellar hemorrhage in adults. Diagnosis by computerized tomography, 526
Computed angiotomography, 175
Computed tomographic appearance of presumed septic cerebral embolism, 407
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
Computed tomography and radionuclide imaging in the evaluation of ischemic stroke, 590
Computed tomography and subarachnoid hemorrhage, 174
Computed tomography in intracerebral hemorrhage, 81
Computed tomography in the evaluation of subdural hematomas, 411
Computed tomography in “Moya-Moya”: summary of 16 cases, 277
Computed tomography of bilateral isodense chronic subdural hematomas, 287
Computed tomography of intracerebral hematomas. I. Transmission CT observations on hematoma resolution, 174
Computed tomography of intracerebral hematomas. II. Radionuclide and transmission CT studies of the perihematoma region, 174
Computed tomography of ruptured intracranial aneurysm in acute stage, 188
Computerized axial tomography: in brain death, 597
Computerized cranial tomography: Effect on diagnostic and therapeutic plans, 84
Coronal and sagittal reconstruction in computerised tomography, 418
Diagnosis of isodense subdural hematomas by computed tomography, 175
Diagnosis of subdural haematoma by computed axial tomography: use of xenon inhalation for contrast enhancement, 613
The effect of size, histologic elements, and water content on the visualization of cerebral infarcts: a computerized cranial tomographic study, 407
Emission computed tomography, 606
Evaluation of recent cerebral infarction by computerized tomography, 80
Evaluation of the age of subdural hematomas by computerized tomography, 85
An evaluation of transverse axial emission tomography of the brain in the clinical situation, 83
Impact of computed tomography on utilization of cerebral angiograms, 88
Intracranial, extracerebral hematomas: Computed tomographic appearances, 536
Intracranial tumors simulating the presentation of cerebrovascular syndromes: Early detection with cranial computed tomography (CCT), 283
Intracranial venous sinus thrombosis: diagnosis suggested by computed tomography, 619
Multiple intracranial aneurysms: identifying the ruptured lesion, 608
Re-evaluation of cerebrospinal fluid dynamics after subarachnoid hemorrhage with computed tomography and radionuclide cisternography, 287
Reforming intracerebral hematoma: alteration of the "ring sign" with steroids, 607
Scintigraphic detection of congenital intracranial vascular malformations, 543
A sign of subarachnoid bleeding on cranial computed tomograms of pediatric head trauma patients, 416
Spontaneous closure of cerebral arteriovenous malformation demonstrated by angiography and computed tomography, 614
The usefulness of CT scanning for subdural hematomas, 282
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
Congenital disorders
Cerebral hamartoma mimicking the angiographic appearance of congenital fusiform aneurysm, 84
Hereditary multi-infarct dementia: Morphological and clinical studies of a new disease, 179
Strokes in children and adolescents, 169
Congophilic angiopathy
Congophilic angiopathy and cerebral hemorrhage, 608
Conjunctival microangiopathy
Conjunctival microangiopathy: An early sign of degenerative vascular disease? 86
Contraceptive, oral
Mortality among oral-contraceptive users, 182
Mortality among women participating in the Oxford/Family Planning Association contraceptive study, 182
Platelet changes in women taking oral contraceptives, 77
Contrast material
Cerebral angiography with non-ionic (metrizamide) and ionic (meglumine metrizoate) watersoluble contrast media: A comparative study with double blind technic, 179
Transient spastic paraparesis following abdominal aortography: management with cerebrospinal fluid lavage, 537
Cortical evoked potential
Extracellular potassium activity, evoked potential and tissue blood flow. Relationships during progressive ischaemia in baboon cerebral cortex, 79
Craniotomy
Large decompressive craniotomy in the treatment of acute subdural hematoma, 622
Regional cortical blood flow at craniotomy, 605
Creatine kinase
Myocardial creatine kinase isoenzyme in serum after subarachnoid haemorrhage, 182
Cryogenic injury
Cerebral blood flow in the monkey after focal cryogenic injury, 509
Cushing response
Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
Cyanacrylate
Intracerebral cyanacrylate: an adjunct in the treatment of spinal/parspal arteriovenous arteriovenous malformations, 410
Cyclic AMP
Early estimation of extent of the lesion in cerebral infarction by means of cyclic AMP concentration in peripheral venous plasma, 189
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
D
Delirium
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporo-occipital infarction, 284
Dementia
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185
Definition of dementia, Letter, 523
Editorial: role of stroke in dementia, 1
Hereditary multi-infarct dementia: Morphological and clinical studies of a new disease, 179
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporo-occipital infarction, 284
Dennervation
Cerebral circulatory responses to arterial hypoxia in normal and chemodenerveated dogs, 621
Total and regional cerebral blood flow during hypotension, hypertension, and hypoxia. Effect of sympathetic denervation in dogs, 178
Diet
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Dihomo-gamma-linolenic acid
Antithrombotic potential of dihomo-gamma-linolenic acid in man, 284
Dissection, spontaneous
Spontaneous dissection of cervico-cerebral arteries, 538
Dog studies
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413
Cerebral blood flow and oxygen consumption in the newborn dog, 609
Cerebral circulatory responses to arterial hypoxia in normal and chemodenerveated dogs, 621
Changes in the subarachnoid space after experimental subarachnoid haemorrhage in the dog: scanning electron microscopic observation, 283
Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531
Cyanide toxicity and thiosulfate protection during chronic administration of sodium nitroprusside in the dog: correlation with a human case, 286
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
Effects of procainamide and chlorpromazine on acute vasospasm, 281
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Electromagnetic rheoangiometry: an extension of selective angiography, 409
Experimental cerebral infarction. Part 1: production of thalamic infarction in dogs, 211
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214
Experimental cerebral infarction. Part 3: protective effect of mannitol in thalamic infarction in dogs, 217
Experimental embolization with inflatable and releasable balloons in dogs, 287
Experimental extracranial-intracranial anastomosis, 176
Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461
Failure of regression of atherosclerosis in dogs with moderate cholesterolemia, 82
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Influence of several plasma fractions on post-ischemic microvascular reperfusion in the central nervous system, 375
Intercellular granules and vesicles in prolonged cerebral vasospasm, 412
Metabolic profiles of canine cerebrovascular tree: a histochemical study, 165
A model study of why some intracranial aneurysms thrombose but others rupture, 583
Pathogenesis and prevention of trauma-provoked atheromas, 183
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Radiiodinated fibrinogen for clot detection in a canine model of cervical carotid thrombosis, 543
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
Systemic vascular responses to increased intracranial pressure. 1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277
Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
Total and regional cerebral blood flow during hypotension, hypertension, and hypcapnia. Effect of sympathetic denervation in dogs, 178
Dopaminergic receptors
Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177
Doppler ultrasound
Cardiac cycle-dependent alternating flow in vertebral arteries with subclavian artery stenoses, 229
The cerebrovascular Doppler examination in patients with nonhemispheric symptoms, 85
Cerebrovascular evaluation: assessment of Doppler scanning of carotid arteries, ophthalmic Doppler flow and cerebral blood flow, 563
Detecting extracranial cerebrovascular disease with noninvasive techniques, 417
Doppler scoring and xerography: a screening procedure for high-risk carotid lesions in surgical patients, 85
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 83
Imaging the carotid bifurcation using continuous-wave Doppler-shift ultrasound and spectral analysis, 465
Noninvasive assessment of collateral blood flow of the cerebral hemisphere by Doppler ultrasound, 418
Relationship between ophthalmic artery blood flow and revascularization of occluded carotid artery. Ultrasonic Doppler study, 360
Dose dependency
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12
Drug addiction
Spinal cord vasculitis presenting as a spinal cord tumor in a heroin addict. Case report, 410
Drug therapy
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Cerebral hemorrhage from a mycotic aneurysm developing during appropriate antibiotic therapy, 267
Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309
Controlled trial of ornithine alpha ketoglutarate (OAKG) in patients with stroke, 218
Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Editorial: aspirin — effective in males threatened with stroke, 295
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Modification of acute focal ischemia by treatment with mannitol, 4
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
Transient focal cerebral ischemia after extreme exercise, 84
Dysautoregulation
Cerebral hemodynamics in Shy-Drager syndrome. Variability of cerebral blood flow dysautoregulation and the compensatory role of chemical control in dysautoregulation, 504
E
Echocardiography
Left ventricular myxoma. Echocardiographic diagnosis and review of the literature, 279
Echoencephalography
Correlation between the clinical picture, the EEG and cerebral blood flow after partial occlusion of the middle cerebral artery in man, 91
Real time ultrasound tomography of the adult brain, 117
Edema
Effect of DPDP (diphenyl-para-phenylenediamine) on stroke and cerebral edema in gerbils, 480
Electrocardiography
Sympathetic nervous system activity in patients with subarachnoid hemorrhage, 237
Electroencephalography
Basilar migraine, seizures, and severe epileptiform EEG abnormalities. A relatively benign syndrome in adolescents, 605
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155

Electrophysiological study
Electrophysiological study of hemiplegia. Motor nerve conduction velocity, brachial plexus latency, and electromyography, 605

Emboli
Acute neurological complications after liver transplantation with particular reference to intraoperative cerebral air embolus, 537
Arterial embolism in thyrotoxicosis with atrial fibrillation, 178
Carotid embolization presenting as total monocular blindness, 186
Cerebral arterial lesions resulting from inflammatory emboli, 498
Cerebral microembolization. I. Pathophysiological studies, 274
Cerebral microembolization. II. Morphological studies, 611
Computed tomographic appearance of presumed septic cerebral embolism, 407
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
Emboli in sinoatrial disease, 543
Emboli to the central nervous system from cardiac myxoma. Report of two cases, 279
Embolization of an arteriovenous malformation of the brain stem, 81
Embolization of cerebral vessels with inflatable and detachable balloons. Technical note, 413
Evidence of silent central embolism in patients with amaurosis fugax, 176
Experimental embolization with inflatable and releasable balloons in dogs, 287
Free percutaneous embolization of a traumatic carotid-cavernous fistula, 539
Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416
Influence of etiology of atrial fibrillation on incidence of systemic embolism, 184
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
Polyvinyl alcohol foam: prepackaged emboli for therapeutic embolization, 620
Prevention of arterial thromboembolism with acetylsalicylic acid. A controlled clinical study in patients with aortic valve endoprosthesis, 69
"Stump" of internal carotid artery — a source for further cerebral embolic ischemia, 448
Thromboembolic complications in coronary angiography. Prevention with acetylsalicylic acid, 417

Endarterectomy, carotid
Carotid endarterectomy: is an indwelling shunt necessary? 185
Carotid endarterectomy: mortality rate. Letter, 172
Carotid endarterectomy. Temporal profile of the healing process and effects of anticoagulation therapy, 412
Cluster headache, hemianopia, and other head pains: morbidity of carotid endarterectomy, 559
Concomitant coronary artery bypass and major noncardiac surgery, 334
Early restenosis after carotid endarterectomy, 529
The finding of thrombus at carotid endarterectomy and its relationship to the timing of surgery, 181
Improved results with carotid endarterectomy, 181
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533
Intracerebral hemorrhage following carotid endarterectomy: a hypertensive complication? 457
Ipsilateral blindness. A complication of carotid endarterectomy, 78
A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599
Noninvasive assessment of collateral blood flow of the cerebral hemisphere by Doppler ultrasound, 418
Routine operative arteriography during carotid endarterectomy: a reassessment, 411
Stroke associated with carotid endarterectomy, 421
Ultramicroscopic ulcerations and thrombi of the carotid bifurcation, 274
The value of carotid endarterectomy in treating transient cerebral ischemia of the posterior circulation, 80

Endarterectomy, innominate
Innominate artery endarterectomy. A 16-year experience, 274

Endocarditis
Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606
Cerebral hemorrhage from a mycotic aneurysm developing during appropriate antibiotic therapy, 267
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Multiple mycotic aneurysms due to candida endocarditis, 85

Endothelium
Modification of acute focal ischemia by treatment with mannitol, 4
Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620
A scanning electron microscopic study of arterial endothelial cells using vascular casts, 409
SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
Thrombus formation and endothelial alterations in microarterial anastomoses, 89
Ultrastructural changes in feline arterial endothelium following subarachnoid hemorrhage, 410

Enzymes
Enzyme activity of the brain: microvessels vs. total forebrain homogenate, 289

Epidemiological studies
Epidemiological studies on patients with a persistent vegetative state, 294

Epilepsy
Cavernous angiomas of the brain. Account of fourteen personal cases and review of the literature, 542
Unruptured intracranial aneurysms — an unusual source of epilepsy, 542

Epinephrine
Sympathetic nervous system activity in patients with subarachnoid hemorrhage, 237

Ergotamine
Ergotamine and cerebral blood flow, 594

Erythrocytes
Erythrocyte and cerebral blood flow, 594

Estrogen
Platelet changes in women taking oral contraceptives, 77

Experimental studies
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Acute tissue response to cerebral ischemia in the gerbil. An ultrastructure study, 83
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413
Barrier and uptake mechanisms in the cerebrovascular response to noradrenaline, 185
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92
Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
The capacity for computed tomography diagnosis of cerebral...

Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143

Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177

Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anesthetized baboons, 183

Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92

Cerebral microembolization. I. Morphological studies, 611

Cerebrovascular CO₂ reactivity: role of a cholinergic mechanism modulated by anesthesia, 160

Changes in the subarachnoid space after experimental subarachnoid haemorrhage in the dog: scanning electron microscopic observation, 283

Comparative responses of the carotid and vertebral arterial systems of rhesus monkeys to betahistine, 382

Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531

Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175

Cyanide toxicity and thiosulfate protection during chronic administration of sodium nitroprusside in the dog: correlation with a human case, 286

Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610

Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 615

Diffuse cerebral ischemia in the cat: II. Regional metabolites during severe ischemia and recirculation, 615

Dose dependency of the post-insult protective effect of pento- barbital in the canine experimental stroke model, 10

Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12

Effect of aminophylline on cerebral infarction in the mongolian gerbil, 477

Effect of atropine on cerebrovascular responsiveness to carbon dioxide, 528

The effect of lesions in the locus coeruleus on the physiological responses of the cerebral blood vessels in cats, 278

Effect of occlusion on large vessels. I. A study of the rat carotid artery, 86

Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222

Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178

Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540

Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183

Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349

Effects of anticoagulants in an animal model of septic cerebral embolization, 573

Effects of procainamide and chloramphenicol on acute vaso- spasm, 281

Effects of reduced regional or body temperatures on responses of pial arterioles, 580

The effects of sodium nitroprusside and trimethaphan camsylate on cerebral blood flow in rhesus monkeys, 414

Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606

Experimental cerebral infarction. Part 1: production of thalamic infarction in dogs, 211

Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214

Experimental cerebral infarction. Part 3: protective effect of mannitol in thalamic infarction in dogs, 217

Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179

Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187

Experimental embolization with inflatable and releasable balloons in dogs, 287

Experimental extracranial-intracranial anastomosis, 176

Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79

Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387

Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155

Experimental studies on the neurogenic factors in autoregulation of regional circulation in dogs' brains, 86

Experimental study report concerning the origin and the extending mechanism of hypertensive intracerebral hematoma, 90

Extracellular potassium activity, evoked potential and tissue blood flow. Relationships during progressive ischemia in baboon cerebral cortex, 79

Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461

Failure of regression of atherosclerosis in dogs with moderate cholesterolemia, 82

A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286

Formation of adenosine nucleotide derivatives in isolated hog carotid artery strips, 184

Hemodynamics of arterial stenoses at elevated flow rates, 91

Hyperemia, CO₂ responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413

Hypothalamic component in pressor response to carotid occlusion in the rat, 184

Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176

Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591

Influence of head position on the prognosis of experimental subarachnoid hemorrhage, 555

Influence of several plasma fractions on post-ischemic microvascular reperfusion in the central nervous system, 375

Intercellular granules and vesicles in prolonged cerebral vasospasm, 412

Internal and external carotid vascular responses to vasoactive agents in the monkey, 416

Ischemia-induced seizures and cortical monoamine levels, 527

Local cerebral glucose uptake in awake and halothane-anesthetized primates, 419

Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414

Metabolic profiles of canine cerebrovascular tree: a histochemical study, 165

A model study of why some intracranial aneurysms thrombose but others rupture, 583

Modification of acute focal ischemia by treatment with mannitol, 4

Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
[Experimental studies-Glucose utilization] SUBJECT INDEX 641

Neurogenic vasodilatation of cat cerebral arteries, 541
Pathogenesis and prevention of trauma-provoked atheromas, 185
Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, 412
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Radiolabeled fibrinogen for clot detection in a canine model of cervical carotid thrombosis, 543
Regional brain blood flow in the conscious gerbil, 67
Regression of atheroma in the rabbit, 409
Responses of cerebral arteries and arterioles to acute hypotension and hypertension, 621
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polypeptide chemotactin, 490
The role of hemodynamic factors in arterial wall thickening in the rat, 620
Role of tissue hypoxia in local regulation of cerebral microcirculation, 621
Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620
Sequential cerebral biochemical and physiological events in controlled hypoxemia, 183
Spastic constriction of cerebral vessels after electric convulsive treatment, 284
Studies on platelet plasma membranes. II. Membrane glycoprotein loss from circulating platelets in rabbits: inhibition by aspirin-pyridinamide and acceleration by thrombin, 419
Systemic vascular responses to increased intracranial pressure. 1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277
Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
Time course of baroreceptor resetting in short-term hypotension in the rat, 609
Time course of the cerebral circulatory response to metabolic depression, 414
Total and regional cerebral blood flow during hypotension, hypertension, and hypoxia. Effect of sympathetic denervation in dogs, 178
Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609
Ultrasound evidence for central monoamnergic innervation of blood vessels in the paraventricular nucleus of the hypothalamus, 289
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 280
Vascular spasm in cat cerebral cortex following ischemia, 52
Vasoconstrictor effect of angiotensin on pial arteries, 487
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
Extracellular potassium activity
Extracellular potassium activity, evoked potential and tissue blood flow. Relationships during progressive ischemia in baboon cerebral cortex, 79

Influence of etiology of atrial fibrillation on incidence of systemic embolism, 184
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Fibrinolytic activity
Fibrinolytic activity in blood and cerebrospinal fluid in subarachnoid hemorrhage from ruptured intracranial saccular aneurysm before and during EACA treatment, 612
Fibrinolytic properties of some optic nerve vessels, 532
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischemic stroke, 530
Prolonged antifibrinolysis: an effective non-surgical treatment for ruptured intracranial aneurysms? 537
Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137
Fibromuscular dysplasia
Fibromuscular dysplasia, 611
Fibromuscular dysplasia, antiovulant drugs, and ergot preparations. Letter, 172
Fibromuscular dysplasia of the cervico-cephalic arteries, 535
Spontaneous carotid-cavernous fistula with fibromuscular dysplasia, 543
Fistula, carotid cavernous
Bilateral dural arteriovenous fistula in the region of the cavernous sinus, 613
Carotid cavernous fistula in pregnancy, 184
Complete obliteration of a carotid cavernous fistula with sparing of the carotid blood flow using a detachable balloon catheter, 607
Free percutaneous embolization of a traumatic carotido-cavernous fistula, 539
Spontaneous carotid-cavernous fistula with fibromuscular dysplasia, 543
Free radical pathology
Free radical pathology, 443
Free radicals in cerebral ischemia, 445
G
Ganglion, superior cervical
Cerebral blood flow and vascular reactivity after removal of the superior cervical sympathetic ganglion in the goat, 178
Effects of electrical stimulation of superior cervical ganglion on the regional cerebral blood flow, 180
Gerbil studies
Acute tissue response to cerebral ischemia in the gerbil. An ultrastructural study, 82
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Effect of aminophylline on cerebral infarction in the mongolian gerbil, 477
Effect of DPPD (diphenyl-para-phenylenediamine) on stroke and cerebral edema in gerbils, 480
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155
Ischemia-induced seizures and cortical monoamine levels, 527
Regional brain blood flow in the conscious gerbil, 67
Giant-cell arteritis
Angiographic findings in giant cell arteritis, 90
Anterior segment ischemia in temporal arteritis, 417
Intracranial involvement of giant-cell arteritis, 77
Glucose utilization
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12
Local cerebral glucose uptake in awake and halothane-anesthetized primates, 419
Local glucose utilization in acute focal cerebral ischemia: local dysmetabolism and diaschisis, 277
Sequential cerebral biochemical and physiological events in controlled hypoxemia, 187

**Glycerol**

Intravenous glycerol in cerebral infarction: a controlled 4-month trial, 484

Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609

**Goat studies**

Cerebral blood flow and vascular reactivity after removal of the superior cervical sympathetic ganglion in the goat, 178

**Graft**

Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 340

Dynamic compliance of arterial grafts, 283

Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606

Intracranial bypass grafts for vertebral-basilar ischemia, 283

Occipital to posterior inferior cerebellar artery bypass surgery, 609

Pathologic findings in the aortocoronary vein grafts. A scanning electron microscope study, 417

Posterior fossa revascularization: anastomosis of vertebral artery to PICA with interposed radial artery graft, 607

**Granulomatous angiitis**

Cerebral granulomatous angiitis: case report and literature review, 174

Giant cell granulomatous angiitis of the central nervous system, 88

**Halothane**

Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412

Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179

Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540

Local cerebral glucose uptake in awake and halothane-aneurized primates, 419

Hancock xenograft

Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612

**Hematomas**

Cerebral hamatoma mimicking the angiographic appearance of congenital fusiform aneurysm, 84

**Headache, migraine**

Basilar artery migraine. A review of 30 cases, 531

Basilar migraine, seizures, and severe episcleritis EEG abnormalities. A relatively benign syndrome in adolescents, 605

Bilateral retinal hemorrhages and disk edema in migraine, 189

Brief therapeutic report: papaverine prophylaxis of complicated migraine, 177

Cerebral blood flow in awake and halothane-aneurized primates, 419

Cerebral hemodynamics in migraine, 276

Phenylethylamine and cerebral blood flow. Possible involvement of phenylethylamine in migraine, 175

Platelet aggregability in migraine, 185

Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, 412

Transient cerebral ischemia and brain serotonin: relevance to migraine, 177

Transitory platelet monoamine oxidase deficit in migraine: some reflections, 186

**Headache, postoperative**

Cluster headache, hemicrania, and other head pains: morbidity of carotid endarterectomy, 559

**Heart murmur**

The brain of carotid stenosis versus radiated basal heart murmurs. Differentiation by phonoangiography, 606

**Heart rate**

Central depression of carotid baroreceptor pressor response, arterial pressure and heart rate by 5-hydroxytryptophan: influence of supracollicular areas of the brain, 189

**Hematoma**

Cerebral hemorrhage from a mycotic aneurysm developing during appropriate antibiotic therapy, 267

Chronic intra- and extracerebral hematomas, 540

Common carotid artery stenosis due to subintimal hematoma following blunt trauma to the neck. Report of a case, 84

Computed tomography in the evaluation of subdural hematomas, 411

Computed tomography of intracerebral hematomas. I. Transmission CT observations on hematoma resolution, 174

Computed tomography of intracerebral hematomas. II. Radionuclide and transmission CT studies of the perihematoma region, 174

Computed-tomography of bilateral isodense chronic subdural hematomas, 287

Controlled subtotal evacuation of intracerebral hematomas by stereotactic technique, 418

Diagnosis of isodense subdural hematomas by computed tomography, 175

Diagnosis of subdural hematoma by computed axial tomography: use of xenon inhalation for contrast enhancement, 613

Epidural hematoma of the posterior fossa: radionuclide features, 530

Evaluation of the age of subdural hematomas by computerized tomography, 87

Extradural hematoma. Report of 132 cases, 617

Intracerebellar hematoma following microsurgical STA — MCA bypass surgery, 188

Intracranial, extracerebral hematomas. Computed tomographic appearances, 136

L’hematome extra-dural de la fosse postérieure. Problèmes diagnostiques (10 observations), Extra-dural hematoma of the posterior fossa. Diagnostic problems (10 cases), 615

Large decompressive craniotomy in the treatment of acute subdural hematoma, 622

Ophthalmologic aspects of subdural hematoma, 190

Recovery from paraplegia caused by spontaneous spinal epidural hematoma, 537

Sequential angiographic studies demonstrating delayed development of an acute epidural hematoma. Case report, 536

Spontaneous spinal extradural hematoma, 92

Stroke rehabilitation. II. Guidelines for establishing a stroke rehabilitation unit, 90

Subdural hematomas due to ruptured cerebral aneurysms: angiographic diagnosis and potential pitfall for CT, 530

Transient cerebral dysfunction following chemotherapy for osteogenic sarcoma, 607

The usefulness of CT scanning for subdural hematomas, 282

**Hemiplegia**

Electrophysiological study of hemiplegia. Motor nerve conduction velocity, brachial plexus latency, and electromyography, 605

Hemiplegia and the bilowing mitral leaflet syndrome, 613

Herpes zoster ophthalmicus with contralateral hemiplegia, 176

Rehabilitation outcome of patients with dual disability of hemiplegia and amputation, 551

**Hemorrhage**

Aphasia and left thalamic hemorrhage, 526

Benign cerebellar hemorrhages, 539

Bilateral retinal hemorrhages and disk edema in migraine, 189

Cerebellar hemorrhage in adults. Diagnosis by computerized tomography, 526

Computed tomography in intracerebral hemorrhage, 81

Congophilic angiopathy and cerebral hemorrhage, 608

Fatal massive intracerebral hemorrhage complicating cerebral amyloid angiopathy, 535

Hemorrhagic cerebral white matter infarction with cerebral deep venous thrombosis and hyposia, 407

Hemorrhagic complications of cerebral arteritis, 91

The human thalamocortical sensory path in the internal capsule: evidence from a small capsular hemorrhage causing a pure sensory stroke, 183
Intracerebral hemorrhage following carotid endarterectomy: a hypertensive complication? 457

Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214
Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461
A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286
Importance of the hematocrit as a risk factor in cerebral infarction, 369
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Intravenous glycerol in cerebral infarction: a controlled 4-month trial, 484
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Prolonged induced hypotension in the management of incipient cerebral infarction, 176
Reduction of coagulation factor XIII concentration in patients with myocardial infarction, cerebral infarction, and other thromboembolic disorders, 420
Syndrome of agitation delirium and visual impairment: a manifestation of medial temporal-occipital infarction, 284
The topography of cerebral infarcts, 190
Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 280

Infarction, myocardial
Cerebrovascular incidents after myocardial infarction, 281
Combined effects of acute cerebrovascular ischemia and myocardial infarction in arteriosclerotic, male Sprague-Dawley rats, 183
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Reduction of coagulation factor XIII concentration in patients with myocardial infarction, cerebral infarction, and other thromboembolic disorders, 420
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420

Infusion pump
One year of heparin anticoagulation. An ambulatory subject using a totally implantable infusion pump, 184

Inhalation techniques
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
Diagnosis of subdural haematoma by computed axial tomography: use of xenon inhalation for contrast enhancement, 613
Improved method for noninvasive measurement of regional cerebral blood flow by 133Xe-xenon inhalation. Part I: description of method and normal values obtained in healthy volunteers, 195
Improved method for noninvasive measurement of regional cerebral blood flow by 133Xe-xenon inhalation. Part II: measurements in health and disease, 205
Non-invasive regional study of chronic cerebrovascular disorders using the oxygen-15 inhalation technique, 415
Normal and abnormal patterns of cerebrovascular reserve tested by 133Xe xenon inhalation, 605
Study of regional cerebral metabolism and blood flow relationships in man using the method of continuously inhaling oxygen-15 and oxygen-15 labelled carbon dioxide, 415
Xenon-133 inhalation method for regional cerebral blood flow measurements: normal values and test-retest results, 396
133Xenon inhalation method: significance of indicator maldistribution for distinguishing brain areas with impaired perfusion. An index for total flow, 57

International Nomenclature of Diseases
Aid asked for nomenclature on nervous system disorders. Letter, 406

Intestinal disease
Cerebral involvement with disseminated intravascular coagulation in intestinal disease, 77
SUBJECT INDEX

645

Hemorrhagic complications of cerebral arteritis, 91
Strokes and ulcerative colitis, 605

Intracranial pressure
Arterial blood gases during raised intracranial pressure in anesthetized cats under controlled ventilation, 527
Intracranial subarachnoid pressure recording: experience with 650 patients, 81
Systemic vascular responses to increased intracranial pressure.
1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277
Systemic vascular responses to increased intracranial pressure.
2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
The use of a fiberoptic intracranial pressure monitor in clinical practice, 282

Intranasal procedures
Subarachnoid hemorrhage following intranasal procedures, 82

Ischemia
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Acute tissue response to cerebral ischemia in the gerbil. An ultrastructural study, 83
ADP-induced platelet aggregation in vitro in patients with ischemic heart disease and peripheral thromboatherosclerosis, 92
Anterior segment ischemia in temporal arteritis, 417
Brain vascularization by transplanted omentum: a possible treatment of cerebral ischemia, 282
Cerebral ischemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratenoral metabolism and arterial acid-base balance, 92
Cerebral ischemia. I. Current angiographic techniques, complications, and safety, 615
Combined effects of acute cerebrovascular ischemia and myocardial infarction in arteriosclerotic, male Sprague-Dawley rats, 183
Computed tomography and radionuclide imaging in the evaluation of ischemic stroke, 534
Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309
Correlation between angiographic findings and the ischaemia of head injury, 530
Delayed pentobarbital therapy of acute focal cerebral ischemia, 245
Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 615
Diffuse cerebral ischemia in the cat: II. Regional metabolites during severe ischemia and recirculation, 615
Effects of phenobarbital in cerebral ischemia. Part I: cerebral energy metabolism during pronounced incomplete ischemia, 327
Effects of phenobarbital in cerebral ischemia. Part II: restitution of cerebral energy state, as well as of glycolytic metabolites, citric acid cycle intermediates and associated amino acids after pronounced incomplete ischemia, 335
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates: Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155
Free radicals in cerebral ischemia, 445
Holter monitoring in patients with transient focal cerebral ischemia, 514
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Intracranial bypass grafts for vertebral-basilar ischemia, 283
Ipsilateral subclavian to external carotid and STA-MCA bypasses for retinal ischemia, 418
Ischemia-induced seizures and cortical monoamine levels, 527
Ischemic optic neuropathy in cavernous sinus thrombosis, 529
Local glucose utilization in acute focal cerebral ischemia: local dysmetabolism and diascissia, 277
Microvascular anastomosis for cerebral ischemia in 19 patients: a preliminary report, 538
Modification of acute focal ischemia by treatment with mannitol, 4
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
Platelet adhesiveness in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
Rat brain osmolality during barbiturate anesthesia and global brain ischemia, 249
Results of microsurgical extra-intracranial arterial bypass in the treatment of cerebral ischemia, 180
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Sensorimotor stroke due to thalamocapsular ischemia, 286
“Stump” of internal carotid artery — a source for further cerebral embolic ischemia, 448
Transient focal cerebral ischemia after extreme exercise, 286
Vascular spasm in cat cerebral cortex following ischemia, 52

Iskedyl
The intra-arterial injection of Iskedyl for hyperselective vascular exploration, 180

Isoproterenol
Aminophylline and isoproterenol in the treatment of cerebral vasospasm, 81
Isoproterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344

Kohlmeier-Degos disease
Papulosis atrophicans maligna (Kohlmeier-Degos disease): a disseminated exudative vasculopathy, 607

L

Lesion, cerebral arterial
Cerebral arterial lesions resulting from inflammatory emboli, 498

Lesion, hypothalamic
Hypothalamic and myocardial lesions after subarachnoid haemorrhage, 182
Hypothalamic component in pressor response to carotid occlusion in the rat, 104

Lesion, myocardial
Hypothalamic and myocardial lesions after subarachnoid haemorrhage, 182

Lesion, spinal
Epidemiological studies on patients with a persistent vegetative state, 264

Levodopa
Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609

Ligation, carotid
Carotid artery rupture. Management and prevention of delayed neurologic sequelae with low-dose heparin, 610
Crossed external carotid ligation for giant aneurysms, 614
Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cervical internal carotid aneurysm from traumatic origin, 288
Late morbidity and mortality of common carotid ligation for
SUBJECT INDEX

posterior communicating aneurysms. A comparison to conservative treatment, 276
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534

Lipids
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Influence of lipid concentrations and age on transfer of plasma lipoprotein into human arterial intima, 187
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 609
Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137

Liver transplant
Acute neurological complications after liver transplantation with particular reference to intraoperative cerebral air embolus, 537

Long-term studies
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Follow-up results of microsurgery of intracranial aneurysms, 188
Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416
Long-term prognosis in stroke related to cerebral blood flow, 285
The ocular manifestations of Wegener's granulomatosis. Fifteen years experience and review of the literature, 79
Subarachnoid haemorrhage: long-term follow-up results of late surgical versus conservative treatment, 604
Trends in mortality from cerebrovascular diseases in the United States, 1960 to 1975, 549

Lupus erythematosus
Oxygen-15 brain scanning for detection of cerebral involvement in systemic lupus erythematosus, 613
Retinal arterial occlusive disease in systemic lupus erythematosus, 179

M

Malformation, arteriovenous
Anatomical grading of supratentorial arteriovenous malformations for determining operability, 180
Arteriovenous malformations of the brain stem in childhood, 175
Cerebral arteriovenous malformations in children, 619
Dural arteriovenous malformation in the anterior fossa, 276
Embolization of an arteriovenous malformation of the brain stem, 81
Intraarterial cyanoacrylate: an adjunct in the treatment of spinal/paraspinal arteriovenous malformations, 410
Intracranial arteriovenous malformations in childhood, 539
Intracranial arteriovenous malformations: conservative or surgical treatment? 176
Intradural extramedullary spinal arterio-venous malformations fed by the anterior spinal artery, 81
Multiple aneurysm formation as a complication of interventional angiography, 411
Scintigraphic detection of congenital intracranial vascular malformations, 543
Spontaneous closure of cerebral arteriovenous malformation demonstrated by angiography and computed tomography, 614
Malformation, cerebrovascular
The angiographically occult cerebrovascular malformation. Report of three cases, 413
Malformation, spinal
Intraarterial cyanoacrylate: an adjunct in the treatment of spinal/paraspinal arteriovenous malformations, 410
Spinal cord vascular malformations with symptoms during menstruation. Report of two cases, 181
Spinal epidural angiomatous malformations draining into intrathecal veins, 91
Malignant atrophic papulosis
Papulosis atrophicans maligna (Köhler-Degos disease): a disseminated occlusive vasculopathy, 607
Mannitol
Modification of acute focal ischemia by treatment with mannitol, 4
Protective effect of mannitol (cont.). Letter, 603
Protective effect of mannitol. Letter, 524
Meningioma
Meningiomas and aneurysms of the cavernous sinus. Neuroophthalmologic features, 532
Menstruation
Spinal cord vascular malformations with symptoms during menstruation. Report of two cases, 181
Metabolism
Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179
Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 78
Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539
Cerebral blood flow and metabolism in man following cardiac arrest, 569
Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anesthetized baboons, 183
Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Diffuse cerebral ischemia in the cat: II. Regional metabolites during severe ischemia and recirculation, 615
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349
Effects of phenobarbital in cerebral ischemia. Part I: cerebral energy metabolism during pronounced incomplete ischemia, 327
Effects of phenobarbital in cerebral ischemia. Part II: restitution of cerebral energy state, as well as of glycolytic metabolites, citric acid cycle intermediates and associated amino acids after pronounced incomplete ischemia, 335
Metabolic profiles of canine cerebrovascular tree: a histochemical study, 165
Study of regional cerebral metabolism and blood flow relationships in man using the method of continuously inhaling oxygen-15 and oxygen-15 labelled carbon dioxide, 415
Time course of the cerebral circulatory response to metabolic depression, 414

Methysergide
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Mice study
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
Mitrval valve disease
Hemiplegia and the billowing mitral leaflet syndrome, 613
Strokes: a complication of mitral-leaflet prolapse? 86
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Monkey studies
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92
Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 413
Cerebral blood flow in the monkey after focal cryogenic injury, 509
Comparative responses of the carotid and vertebral arterial systems of rhesus monkeys to betahistine, 382
Diet-induced atherosclerosis and experimental hypertension in stump-tail macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
The effects of sodium nitroprusside and trimethaphan camsylate on cerebral blood flow in rhesus monkeys, 414
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Local cerebral glucose uptake in awake and halothane-anesthetized primates, 419
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Monoamine levels
Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, 410
Brain monoamines in human cerebral infarcts. A preliminary study, 532
Ischemia-induced seizures and cortical monoamine levels, 527
Studies on the influence of monoamines on the cerebrovascular response to arterial hypoxia, 534
Transitory platelet monoamine oxidase deficit in migraine: some reflections, 186
Ultrastructural evidence for central monoaminergic innervation of blood vessels in the paraventricular nucleus of the hypothalamus, 289
Mood disorder
Mood disorder as a specific complication of stroke, 281
Morphine
Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 78
Moyamoya syndrome
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81
Computed tomography in "Moya-Moya": summary of 16 cases, 277
Moyamoya disease associated with aneurysm, 526
Moyamoya disease in children, 530
Multiple progressive intracranial arterial occlusions ('moyamoya' disease), 278
Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539
Occipital to posterior inferior cerebellar artery bypass surgery, 609
Muscle contraction
Prevention of persistent cerebral smooth muscle contraction in response to whole blood, 472
Myxoma, atrial
Bilateral atrial myxomas with multiple arterial aneurysms. A syndrome mimicking polyarteritis nodosa, 90
Embolism to the central nervous system from cardiac myxoma. Report of two cases, 279
Left ventricular myxoma. Echocardiographic diagnosis and review of the literature, 279
Nerve conduction velocity
Electrophysiological study of hemiplegia. Motor nerve conduction velocity, brachial plexus latency, and electromyography, 605
Nerve stimulation
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Evidence that neural mechanisms do not have important effects on cerebral blood flow, 536
Neurogenic vasodilatation of cat cerebral arteries, 541
Neurological syndromes
Neurological syndromes after cardiac arrest, 517
Vessel tortuosity as a cause of posterior fossa cranial nerve syndromes, 411
Nicergoline
Effect of nicergoline on cerebral blood flow, 182
Nitrous oxide
Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 78
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
No-reflow phenomenon
Vascular spasm in cat cerebral cortex following ischemia, 52
Noradrenaline
Barrier and uptake mechanisms in the cerebrovascular response to noradrenaline, 185
Clinical significance of plasma adrenaline and noradrenaline concentrations in patients with subarachnoid haemorrhage, 530
Norepinephrine
The effect of norepinephrine on the spinal cord circulation and its possible implications in the pathogenesis of acute spinal trauma, 186
Evidence that neural mechanisms do not have important effects on cerebral blood flow, 536
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
Sympathetic nervous system activity in patients with subarachnoid hemorrhage, 237
Nucleotide, cyclic
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540
O
Occlusion
Bilateral occlusion of basilar artery branches, 415
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 413
Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Comparison of noninvasive diagnostic techniques in carotid artery occlusive disease, 78
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Dilated epicardial arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Dose dependence of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Effect of occlusion on large vessels. I. A study of the rat carotid artery, 86
Emergency occlusive techniques, 608
Hypothalamic component in pressor response to carotid occlusion in the rat, 184
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414
Natural history and classification of occlusive thromboarteropathy (Takayasu's disease), 408
Oclusion of the intradural verteobasilar artery, 532
Pseudo-occlusion of the internal carotid artery, 408
SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
The treatment of intracranial aneurysms by injection with a tissue adhesive, 180
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 280
Ocular disease
The ocular manifestations of Wegener's granulomatosis. Fifteen years experience and review of the literature, 79
Omentum
Brain vascularization by transplanted omentum: a possible treatment of cerebral ischemia, 282
Omental transposition to human brain. Letter, 272
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Ophthalmosonometry
The use of ophthalmosonometry in the diagnosis of carotid artery stenosis, 80
Ornithine alpha ketoglutarate
Controlled trial of ornithine alpha ketoglutarate (OAKG) in patients with stroke, 218
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Osmolality
Rat brain osmolality during barbiturate anesthesia and global brain ischemia, 249
Oxygen consumption, cerebral
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92
Cerebral blood flow and metabolism in man following cardiac arrest, 569
Cerebral blood flow and oxygen consumption in the newborn dog, 609
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79
Papaverine
Brief therapeutic report: papaverine prophylaxis of complicated migraine, 177
Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Paraplegia
Recovery from paraplegia caused by spontaneous spinal epidual hematoma, 537
Pentobarbital
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179
Delayed pentobarbital therapy of acute focal cerebral ischemia, 245
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12
Effects of phenobarbital in cerebral ischemia. Part 1: cerebral energy metabolism during pronounced incomplete ischemia, 327
Effects of phenobarbital in cerebral ischemia. Part II: restitution of cerebral energy state, as well as of glycolytic metabolites, citric acid cycle intermediates and associated amino acids after pronounced incomplete ischemia, 335
Perfusion, cerebral
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
Pericarditis
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Phenoxymenzamine
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Phenylylethylene
Phenylylethylene and cerebral blood flow. Possible involvement of phenylylethylene in migraine, 175
Phonoangiography
The bruit of carotid stenosis versus radiated basal heart murmurs. Differentiation by phonoangiography, 606
Photoplethysmography
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Physical therapy
How much physical therapy for patients with stroke? 604
Phystostigmine
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Pial vessels
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
Fibrinolytic properties of some optic nerve vessels, 532
A method for continuous monitoring of pial vessel diameter changes and its value for dynamic studies of the regulation of cerebral circulation. A preliminary report, 534
Vasoconstrictor effect of angiotensin on pial arteries, 487
Plasma adrenaline
Clinical significance of plasma adrenaline and noradrenaline concentrations in patients with subarachnoid haemorrhage, 530
Plasma fibrinogen
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelets
ADP-induced platelet aggregation in vitro in patients with ischaemic heart disease and peripheral thromboatherosclerosis, 92
Antithrombotic potential of dihomo-gamma-linolenic acid in man, 284
Chronic effect of smoking on platelet count and “platelet adhesiveness” in presumably healthy middle-aged men, 409
Comparison of heparin and a semi-synthetic heparin analogue, A. II. Some effects on platelet function, 421
Further evidence for the role of thrombin in the platelet release reaction caused by various agents, and the nature of biphasic platelet aggregation, 618
Indium-111-labeled autologous platelets for location of vascular thrombi in humans, 618
Inhibition of platelet prostaglandin synthetase by oral aspirin, 417
Platelet adhesiveness in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelet aggregability in migraine, 185
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540
Platelet aggregation in patients with peripheral vascular disease, 418
Platelet aggregation in patients with severe atherosclerosis, 541
Platelet changes in women taking oral contraceptives, 77
Platelet coagulant activities and retinal vein thrombosis, 408
Platelet hyperaggregability in young patients with completed stroke, 278
Prevention of persistent cerebral smooth muscle contraction in response to whole blood, 472
The role of platelets in myocardial infarction, ischemic heart...
disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
The role of platelets in the pathogenesis of thrombosis and hemorrhage in patients with thrombocytosis, 420
Scintigraphic detection of atherosclerotic lesions and venous thrombi in man by indium-111-labelled autologous platelets, 604
Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137
Spontaneous platelet aggregation in cerebrovascular disease, 540
Stroke platelet and antiplatelet agents in strokes, 403
Studies on platelet plasma membranes. III. Membrane glycoprotein loss from circulating platelets in rabbits: inhibition by aspirin-dipyridamole and acceleration by thrombin, 419
Transitory platelet monoamine oxidase deficit in migraine: some reflections, 186

Pneumography
Complications of cerebral angiography and pneumography, 186
Pneumoplethysmography
The asymptomatic carotid bruit and the ocular pneumoplethysmography, 274
Polyarteritis nodosa
Bilateral arterial myxomas with multiple arterial aneurysms. A syndrome mimicking polyarteritis nodosa, 90
Polycythemia
Cerebral blood-flow in polycythemia, 83
Pregnancy
Carotid cavernous fistula in pregnancy, 184
Procalaminide
Effects of procalaminide and chloramphenicol on acute vasospasm, 281
Propranolol
Isoterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344
Prostaglandin
Measurement of prostaglandin E2 in cerebrospinal fluid in patients suffering from stroke, 281
Pathologic findings in the aortocoronary vein grafts. A scanning electron microscope study, 417
Prostaglandins and the arterial wall: an avenue for research in the pathogenesis of atherosclerosis (editorial), 287
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
Vasoactive properties of prostaglandin compounds on the in vitro human basilar artery, 81
Prosthetic heart valve
Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606
Discontinuing anticoagulant therapy in surgical patients with cardiac valve prostheses. Observations in 180 operations, 423
Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Late complications of prosthetic heart valves, 608
Prevention of arterial thromboembolism with acetylsalicylic acid. A controlled clinical study in patients with aortic ball valves, 84
Protein synthesis
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155

Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Gonadal hormones and pathogenesis of occlusive arterial thrombosis, 621
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
Microangiographic study of cerebral and ocular aneurysms in hypertensive rabbits, 613
Regression of atheroma in the rabbit, 409
Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620
Studies on platelet plasma membranes. III. Membrane glycoprotein loss from circulating platelets in rabbits: inhibition by aspirin-dipyridamole and acceleration by thrombin, 419

Rat studies
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
Cerebral blood flow and metabolism in chronically hypertensive rats: effect of an acute ammonia challenge, 539
Cerebral blood flow autoregulation in the rat, 150
Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12
Effect of an acute increase of the intravascular pressure on the blood-brain barrier, 388
Effect of non-respiratory alkalosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354
Effect of occlusion on large vessels. I. A study of the rat carotid artery, 86
Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79
A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286
Gonadal hormones and pathogenesis of occlusive arterial thrombosis, 621
Hypothalamic component in pressor response to carotid occlusion in the rat, 184
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414
The role of hemodynamic factors in arterial wall thickening in the rat, 620
Sequential cerebral biochemical and physiological events in controlled hypoxemia, 183
Time course of baroreceptor resetting in short-term hypotension in the rat, 609
Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609
Ultrastructural evidence for central monoaminergic innervation of blood vessels in the paraventricular nucleus of the hypothalamus, 289
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 280
Rehabilitation
Rehabilitation outcome of patients with dual disability of hemiplegia and amputation, 531
Rehabilitation, stroke
Functional status measures in a comprehensive stroke care program, 288
Hospital utilization in the rehabilitation of completed stroke, 93
How much physical therapy for patients with stroke? 604
Medical audit of stroke rehabilitation: a critique of medical care review, 90
Relationship between primitive reflexes in stroke patients and rehabilitation outcome, 256
Stroke rehabilitation. I. Factors predicting outcome and length of stay — an overview, 89
Stroke rehabilitation. II. Guidelines for establishing a stroke rehabilitation unit, 90
Stroke rehabilitation: a family-team education program, 611
Stroke rehabilitation: a reconsideration of some common attitudes, 541
Stroke rehabilitation: evaluation of its quality by assessing patient outcomes, 541
Stroke rehabilitation: maintenance of achieved gains, 90
Retinal arterial occlusion
Acute central retinal artery occlusion and optic disc neovascularization. Occurrence in a patient with carotid artery disease, 529
Retinal arterial occlusive disease in systemic lupus erythematosus, 179
Retinal stroke. Is the patient at risk? 182
Treatment of acute central retinal artery occlusion, 605
Revascularization, cerebral
Cerebral arterial revascularization: the value of repeated angiography in selection of patients for operation, 604
Cerebral revascularization for transient ischemic attacks, 77
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 540
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534
Revascularization, myocardial
Vascular reconstructive surgery following myocardial revascularization, 619
Revascularization, posterior fossa
Posterior fossa revascularization: anastomosis of vertebral artery to PICA with interposed radial artery graft, 607
Rheumatoid arthritis
Central nervous system vasculitis in rheumatoid arthritis, 276
Risk factors
Gonadal hormones and pathogenesis of occlusive arterial thrombosis, 621
Importance of the hematocrit as a risk factor in cerebral infarction, 369
Long term changes in blood pressure and risk of cerebrovascular disease, 319
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
Scintigraphy
Scintigraphic detection of atherosclerotic lesions and venous thrombi in man by indium-111-labelled autologous platelets, 604
Scintigraphic detection of congenital intracranial vascular malformations, 543
Seizure
Basilar migraine, seizures, and severe epileptiform EEG abnormalities. A relatively benign syndrome in adolescents, 605
Ischemia-induced seizures and cortical monoamine levels, 527
Serotonin
Brain monoamines in human cerebral infarcts. A preliminary study, 532
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anesthetized baboons, 183
Effect of topically applied serotonin on local cerebral blood flow, 25
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
Pharmacological analysis of 5-hydroxytryptamine receptors in isolated intracranial and extracranial vessels of cat and man, 409
Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, 412
Potentiation of the cerebrovascular response to intra-arterial 5-hydroxytryptamine, 531
Transient cerebral ischemia and brain serotonin: relevance to migraine, 177
Transitory platelet monoamine oxidase deficit in some reflections, 186
Shy-Drager syndrome
Cerebral hemodynamics in Shy-Drager syndrome. Variability of cerebral blood flow dysautoregulation and the compensatory role of chemical control in dysautoregulation, 504
Sickle cell anemia
Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, 407
Cerebrovascular complications of sickle cell anemia, 73
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
The management of ruptured intracranial aneurysm in sickle cell anemia. Case report, 276
Strokes in children and adolescents, 169
Sinoatrial disease
Embolism in sinoatrial disease, 543
Smoking habits
Chronic effect of smoking on platelet count and "platelet adhesiveness" in presumably healthy middle-aged men, 409
Cigarette smoking and HDL cholesterol. The Framingham Offspring Study, 614
Smoking, carbon monoxide, and atherosclerotic diseases, 419
Sodium nitroprusside
Cyanide toxicity and thiosulfate protection during chronic administration of sodium nitroprusside in the dog: correlation with a human case, 286
The effects of sodium nitroprusside and trimethaphan camsylate on cerebral blood flow in rhesus monkeys, 414
Spasm, vascular
Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, 410
Cerebral artery spasm. A histological study at necropsy of the blood vessels in cases of subarachnoid hemorrhage, 525
Experiences of surgical treatment of 400 consecutive ruptured cerebral arterial aneurysms, 542
Vascular spasm in cat cerebral cortex following ischemia, 52
Stenosis, carotid
The brain of carotid stenosis versus radiated basal heart murmurs. Differentiation by phonoangiography, 606
Cardiovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Computed tomography and radionuclide imaging in the evaluation of ischemic stroke, 534
Controlled trial of orlistat alpha ketoglutarate (OAKG) in patients with stroke, 218
Editorial: aspirin — effective in males threatened with stroke, 295
Editorial: role of stroke in dementia, 1
Effect of DPPD (diphenyl-para-phenylenediamine) on stroke and cerebral edema in gerbil, 480
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates: Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
Experimental stroke in gerbil: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533
Is there a real treatment for stroke? Clinical and statistical comparison of different treatments in 300 patients, 130
Long-term prognosis in stroke related to cerebral blood flow, 285
Low-dose heparin as a prophylaxis against deep-vein thrombosis after acute stroke, 187
Measurement of prostaglandin E2 in cerebrospinal fluid in patients suffering from stroke, 281
Mood disorder as a specific complication of stroke, 281
Noninvasive detection and evaluation of stroke-prone patients, 218
New classification of stroke: preliminary communication, 412
Noninvasive detection and evaluation stroke-prone patients, 218
Occlusive arterial disease of the child and young adult. Clinical electroencephalographical analysis of 26 cases, 422
Platelet adhesiveness in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelet hyperaggregability in young patients with completed stroke, 278
Prognostic factors in the survival of 1,484 stroke cases observed for 30 to 48 months. I. Diagnostic types and descriptive variables, 528
Prognostic factors in the survival of 1,484 stroke cases observed for 30 to 48 months. II. Clinical variables and laboratory measurements, 528
Prognostic value of the stress response following stroke, 181
Regional cerebral blood flow in stroke patients, 181
Sensorimotor stroke due to thalamocapsular infarction, 286
Stroke associated with carotid endarterectomy, 421
Stroke platelet and antiplatelet agents in strokes, 403
Strokes and ulcerative colitis, 603
Strokes in children and adolescents, 169
Strokes: a complication of mitral-leaflet prolapse?, 86
Superior sagittal sinus
Dynamic radionuclide scanning in the diagnosis of thrombosis of the superior sagittal sinus, 80
Swine studies
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Formation of adenosine nucleotide derivatives in isolated hog carotid artery strips, 184
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Sympathetic nerve stimulation
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Swallowing syncope
Swallowing syncope. A case report, 93
Takayasu's disease
Natural history and classification of occlusive thromboarteriopathy (Takayasu's disease), 408
Theophylline
Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Thromboatherosclerosis, peripheral
ADP-induced platelet aggregation in vitro in patients with ischemic heart disease and peripheral thromboatherosclerosis, 92
Thrombocytopenia
Heparin-induced thrombocytopenia, 535
Thromboendarterectomy
Thromboendarterectomy for total occlusion of the internal carotid artery: a reappraisal of risks, success rate and potential benefits, 34
Thrombolysis
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
Thrombosis
Antithrombotic potential of dihomo-gamma-linolenic acid in man, 284
Disappearing carotid defects, 258
Dynamic radionuclide scanning in the diagnosis of thrombosis of the superior sagittal sinus, 80
Failure of aspirin to prevent postoperative deep vein thrombosis in patients undergoing total hip replacement, 618
The finding of thrombus at carotid endarterectomy and its relationship to the timing of surgery, 181
Gonadal hormones and pathogenesis of occlusive arterial thrombosis, 621
Hemorrhagic cerebral white matter infarction with cerebral deep venous thrombosis and hypoxia, 407
Intracranial venous sinus thrombosis: diagnosis suggested by computed tomography, 619
Iron-acrylcolm compound for stereotaxic aneurysm thrombosis, 78
Ischemic optic neuropathy in cavernous sinus thrombosis, 529
Low-dose heparin as a prophylaxis against deep-vein thrombosis after acute stroke, 187
A model study of why some intracranial aneurysms thrombose but others rupture, 583
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
Primary cerebral venous thrombosis in young adults: the diverse manifestations of an underrecognized disease, 418
Radiiodinated fibrinogen for clot detection in a canine model of cervical carotid thrombosis, 543
Reduction of coagulation factor XII concentration in patients with myocardial infarction, cerebral infarction, and other thromboembolic disorders, 420
The role of platelets in myocardial infarction, ischemic heart...
disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
The role of platelets in the pathogenesis of thrombosis and hemorrhage in patients with thrombocytosis, 420
Stereotaxic thrombosis of inaccessible intracranial aneurysms, 279
Strokes in children and adolescents, 169
Thromboembolic complications in coronary angiography. Prevention with acetylsalicylic acid, 417
Thrombosis of the intraorbital veins and cavernous sinus, 85
Thrombosis of the mesencephalic artery. A clinico-pathological study of two cases and its correlation with the arterial vascularisation, 82
Thrombus formation and endothelial alterations in microarterial anastomoses, 89
Ultrimicroscopic ulcerations and thrombi of the carotid bifurcation, 274
Thyrotoxicosis
Arterial embolism in thyrotoxicosis with atrial fibrillation, 178
Tolosa-Hunt syndrome
Tolosa-Hunt syndrome. Arteriographic evidence of improvement in carotid narrowing, 533
Tranexamic acid
Effect of tranexamic acid on rebleeding after subarachnoid hemorrhage: a double-blind controlled clinical trial, 174
Prolonged antifibrinolysis: an effective non-surgical treatment for ruptured intracranial aneurysms? 537
Treatment of subarachnoid hemorrhage from ruptured intracranial aneurysm with tranexamic acid: a double-blind clinical trial, 616
Transient cerebral dysfunction
Transient cerebral dysfunction following chemotherapy for osteogenic sarcoma, 607
Transient ischemic attacks
Carotid and vertebral-basilar transient ischemic attacks: effect of anticoagulants, hypertension, and cardiac disorders on survival and stroke occurrence — a population study, 527
Cerebral revascularization for transient ischemic attacks, 77
Clinical and arteriographic comparison of amaurosis fugax with hemispheric transient ischemic attacks, 254
Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309
Cooperative study of hospital frequency and character of transient ischemic attacks. III. Variations in treatment, 84
Cooperative study of hospital frequency and character of transient ischemic attacks. IV. The reliability of diagnosis, 421
Cooperative study of hospital frequency and character of transient ischemic attacks. V. Symptom analysis, 421
Cooperative study of hospital frequency and character of transient ischemic attacks. VI. Patients examined during an attack, 422
Cooperative study of hospital frequency and character of transient ischemic attacks. VII. Initial diagnostic evaluation, 618
The finding of thrombus at carotid endarterectomy and its relationship to the timing of surgery, 181
A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599
Relevance of duration of transient ischaemic attacks in carotid territory, 614
Transient cerebral ischemia and brain serotonin: relevance to migraine, 177
Treatment of transient ischemic attacks, 299
Trial of aspirin during weaning patients with transient ischaemic attacks from anticoagulants, 617
The value of carotid endarterectomy in treating transient cerebral ischemia of the posterior circulation, 80
Trauma, head
Compartmental analysis of regional cerebral blood flow in patients with acute severe head injuries, 283
Correlation between angiographic findings and the ischaemia of head injury, 580
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79
Extradural haematoma. Report of 132 cases, 617
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
A sign of subarachnoid bleeding on cranial computed tomograms of pediatric head trauma patients, 416
Strokes in children and adolescents, 169
Vertebrobasilar spasm: a significant cause of neurological deficit in head injury, 526
Trauma, neck
Common carotid artery stenosis due to subintimal hematoma following blunt trauma to the neck. Report of a case, 84
Trauma, spinal cord
The effect of norepinephrine on the spinal cord circulation and its possible implications in the pathogenesis of acute spinal trauma, 186
Hyperemia, CO2 responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413
Tumor
Intracranial hemorrhage caused by metastatic tumors, 80
Intracranial tumors simulating the presentation of cerebrovascular syndromes. Early detection with cerebral computed tomography (CCT), 283
Spinal cord vasculitis presenting as a spinal cord tumor in a heroin addict. Case report, 410
Subarachnoid hemorrhage due to intraspinal tumors, 536

U
Ulcerative colitis
Hemorrhagic complications of cerebral arteritis, 91
Strokes and ulcerative colitis, 605
Uridine 5'-triphosphate
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133

V
Vascular amyloid
Vascular amyloid in the aging central nervous system. Clinico-pathological study and literature review, 276
Vasculitis
Central nervous system vasculitis in rheumatoid arthritis, 276
Spinal cord vasculitis presenting as a spinal cord tumor in a heroin addict. Case report, 410
Vasoconstriction
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Vasoconstrictor effect of angiotensin on pial arteries, 487
Vasodilation
The intra-arterial injection of Iskedyl for hyperselective vascular exploration, 180
Neurogenic vasodilatation of cat cerebral arteries, 541
Vasospasm, cerebral
Aminophylline and isoproterenol in the treatment of cerebral vasospasm, 81
Cerebral vasospasm with ruptured saccular aneurysm, 281
Diagnosis and treatment of postoperative cerebral vasospasm, 177
Die Rolle des postoperativen Hirngefsselspasmus nach Verklip- pung intrakranieller Aneurysmen. Postoperative vasospasm after clipping of intracranial aneurysms, 542
Effects of procainamide and chloramphenicol on acute vaso- spasm, 281
Electronic stethoscope for detection of cerebral aneurysm, vasospasm and arterial disease, 177
Experimental cerebral vasospasm: comparison of perfusion deficits with angiography, 288
Intercellular granules and vesicles in prolonged cerebral vaso- spasm, 412
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Prolonged vasospasm produced by the breakdown products of erythrocytes, 89
Significance of vasospasm in the treatment of ruptured intracranial aneurysms, 89
Time course of vasospasm in man, 412
Timing and indication of surgery for ruptured intracranial aneurysms with regard to cerebral vasospasm, 616
Vertebrobasilar spasm: a significant cause of neurological deficit in head injury, 526
Velocity wave form analysis
  The use of velocity wave form analysis in the diagnosis of carotid artery occlusive disease, 275
Vertebrobasilar occlusion
  Occlusion of the intradural vertebrobasilar artery, 532
  Traumatic vertebrobasilar occlusive disease in childhood, 416
Vincamine
  The effect of vincamine on the regional cerebral blood flow in man, 612

W
Warfarin
  Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
  Predicting patients' warfarin requirements, 187
  Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Wegener's granulomatosis
  The ocular manifestations of Wegener's granulomatosis. Fifteen years experience and review of the literature, 79
Women
  Mortality among oral-contraceptive users, 182
  Mortality among women participating in the Oxford/Family Planning Association contraceptive study, 182
  Platelet changes in women taking oral contraceptives, 77

X
Xenon-133 inhalation
  Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
  Diagnosis of subdural haematoma by computed axial tomography: use of xenon inhalation for contrast enhancement, 613
  Improved method for noninvasive measurement of regional cerebral blood flow by 133xenon inhalation. Part I: description of method and normal values obtained in healthy volunteers, 195
  Improved method for noninvasive measurement of regional cerebral blood flow by 133xenon inhalation. Part II: measurements in health and disease, 205
  Normal and abnormal patterns of cerebrovascular reserve tested by 133Xe inhalation, 605
  Recent validation of 133Xe inhalation. Letter, 272
  Xenon-133 inhalation method for regional cerebral blood flow measurements: normal values and test-retest results, 396
  133Xenon inhalation method: significance of indicator maldistribution for distinguishing brain areas with impaired perfusion. An index for total flow, 57

Y
Young adults
  Amaurosis fugax due to isolated atherosclerotic carotid artery disease in a young woman, 422
  Basilar migraine, seizures, and severe epileptiform EEG abnormalities. A relatively benign syndrome in adolescents, 605
  Cerebral infarction in young adults, 39
  Intracranial saccular aneurysms in the first three decades, 608
  Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
  Occlusive arterial disease of the child and young adult. Clinical electroencephalographical analysis of 26 cases, 422
  Platelet adhesiveness in young patients with ischaemic stroke, 77
  Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
  Platelet hyperaggregability in young patients with completed stroke, 278
  Primary cerebral venous thrombosis in young adults: the diverse manifestations of an underrecognized disease, 418
  Strokes and ulcerative colitis, 605
  Strokes in children and adolescents, 169
