STROKE
VOLUME 9 JANUARY-DECEMBER, 1978

SUBJECT INDEX

Page Numbers in Italics refer to Abstracts

A

Acanthasalicylic acid
Prevention of arterial thromboembolism with acetylsalicylic acid. A controlled clinical study in patients with aortic ball valves, 84

Thromboembolic complications in coronary angiography. Prevention with acetylsalicylic acid, 417

Adenosine nucleotide derivatives
Formation of adenosine nucleotide derivatives in isolated hog carotid artery strips, 184

Alkalosis
Effect of non-respiratory alkalosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354

Amaurosis fugax
Amaurosis fugax and carotid artery disease: indications for angiography, 88

Amaurosis fugax due to isolated atherosclerotic carotid artery disease in a young woman, 422

Amaurosis fugax from disease of the external carotid artery, 87

Clinical and arteriographic comparison of amaurosis fugax with hemispheric transient ischemic attacks, 254

Evidence of silent cerebral embolism in patients with amaurosis fugax, 176

Surgical management of the totally occluded carotid artery, 275

Aminophylline
Aminophylline and isoproterenol in the treatment of cerebral vasospasm, 81

Effect of aminophylline on cerebral infarction in the mongolian gerbil, 477

Amipaque
Clinical testing of Amipaque for cerebral angiography, 614

Ammonia
Cerebral ammonia metabolism. Letter, 521

Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539

Anastomosis
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81

Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606

Experimental extracranial-intracranial anastomosis, 176

Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cervical internal carotid aneurysm from traumatic origin, 288

Extracranial-to-intracranial vascular anastomosis for occlusive cerebrovascular disease: experience in 110 patients, 275

Intracranial bypass grafts for vertebral-basilar ischemia, 283

Microvascular anastomosis for cerebral ischemia in 19 patients: a preliminary report, 538

Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539

Superficial temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82

Thrombus formation and endothelial alterations in microarterial anastomoses, 89

Anatomy
Microsurgical anatomy of the posterior cerebral artery, 525

Anesthesia
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179

Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 78

Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160

Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540

Mechanisms of anesthetic action. Letter, 272

Rat brain osmolality during barbiturate anesthesia and global brain ischemia, 249

Aneurysm
Aneurysm of the ayzygos artery, 282

Aneurysms of the posterior cerebral artery. Locations and clinical pictures, 91

Aneurysmes triples bilatéraux, opérés en deux temps. Deux observations. Bilateral triple aneurysms operated in two stages: two case studies, 82

Anterior choroidal artery aneurysms: their anatomy and surgical significance, 419

Bacterial intracranial aneurysm, 527

Basal rupture of saccular aneurysm. A pathological case report, 526

Bilateral atrial myxomas with multiple arterial aneurysms. A syndrome mimicking polyarteritis nodosa, 90

Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, 410

Carotid paracloid aneurysms with intradural origin and intracavernous location, 525

Carotid stenosis and coexisting ipsilateral intracranial aneurysm. A problem in management, 77

Cerebral arterial blood flow and aneurysm surgery. Part 1: local arterial flow dynamics, 279

Cerebral arterial blood flow and aneurysm surgery. Part 2: induced hypotension and autoregulatory capacity, 279

Cerebral arterial flow dynamics during aneurysm haemorrhage, 616

Cerebral hamartoma mimicking the angiographic appearance of congenital fusiform aneurysm, 84

Cerebral microembolization. II. Morphological studies, 611

Cerebral vasospasm with ruptured saccular aneurysm, 281

Clinico-pathological study of cerebral aneurysms — origin, rupture, repair and growth, 288

Clinicopathological study of cerebral aneurysms. Origin, rupture, repair, and growth, 525

Computed tomography of ruptured intracranial aneurysm in acute stage, 188

Crossed external carotid ligation for giant aneurysms, 614

Die Rolle des postoperativen HirngefSssspasmus nach Verklippung intrakranieller Aneurysmen. Postoperative vasospasm after clipping of intracranial aneurysms, 542

Direct attack on carotid ophthalmic and large internal carotid aneurysms, 81

Direct serial magnification angiography applied to cerebral aneurysms, 417

Disordered cerebro-vascular physiology in aneurysmal subarachnoid haemorrhage, 616

Dissecting intracranial aneurysms, 280

Electronic stethoscope for detection of cerebral aneurysm, vasospasm and arterial disease, 177

Experiences of surgical treatment of 400 consecutive ruptured cerebral arterial aneurysms, 542

Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cervical internal carotid aneurysm from traumatic origin, 288

Fibrinolytic activity in blood and cerebrospinal fluid in subarachnoid hemorrhage from ruptured intracranial saccular aneurysm before and during EACA treatment, 612

Follow-up results of microsurgery of intracranial aneurysms, 188

How old people tolerate intracranial surgery for aneurysm, 281

Infrequent aneurysm surgery, 604

Cerebral arterial revascularization: the value of repeated angiography in selection of patients for operation, 604
Cerebral ischemia. I. Current angiographic techniques, complications, and safety, 615
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Clinical and arteriographic comparison of amaurosis fugax with hemispheric transient ischemic attacks, 254
Clinical testing of Amipaque for cerebral angiography, 614
Comparative angiographic and histological evaluations of intracranial atherosclerosis in hypertensive and normotensive subjects, 364
Complications of cerebral angiography, 416
Complications of cerebral angiography and pneumography, 186
Computed tomography in a transient brain stem disorder, 417
Correlation between angiographic findings and the ischaemia of head injury, 530
Direct serial magnification angiography applied to cerebral aneurysms, 411
Disappearing carotid defects, 258
Electromagnetic rheoangiometry: an extension of selective angiography, 409
Experimental cerebral vasospasm: comparison of perfusion deficits with angiography, 288
Impact of computed tomography on utilization of cerebral angiograms, 88
Leptomeningeal artery atherosclerosis visualized by angiography: clinical correlates, 262
Multiple aneurysm formation as a complication of interventional angiography, 411
Routine operative arteriography during carotid endarterectomy: a reassessment, 411
Sequential angiographic studies demonstrating delayed development of an acute epidural hematoma. Case report, 536
Subdural hematomas due to ruptured cerebral aneurysms: angiographic diagnosis and potential pitfall for CT, 530
Technique for multi-view radionuclide angiography, 566
Tolosa-Hunt syndrome. Arteriographic evidence of improvement in carotid narrowing, 535
The value of repeat pan-angiography in cases of unexplained subarachnoid hemorrhage, 610
Angioma |
| Cavernous angiomas of the brain. Account of fourteen personal cases and review of the literature, 542 |
| Intracerebral venous angioma. Case report and review, 611 |
| Surgical treatment of arteriovenous angiomas localised in the corpus callosum, basal ganglia and near the brain stem, 542 |
| Angiostenin |
| Vasocostrictor effect of angiotensin on pial arteries, 487 |
| Anoxic myelopathy |
| Diffuse “anoxic” myelopathy, 284 |
| Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543 |
| Anticoagulant therapy |
| Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606 |
| Carotid and vertebral-basilar transient ischemic attacks: effect of anticoagulants, hypertension, and cardiac disorders on survival and stroke occurrence — a population study, 527 |
| Carotid endarterectomy. Temporal profile of the healing process and effects of anticoagulation therapy, 412 |
| Discontinuing anticoagulant therapy in surgical patients with cardiac valve prostheses. Observations in 180 operations, 432 |
| Effects of anticoagulants in an animal model of septic cerebral embolization, 573 |
| In vivo assessment of anticoagulation, 283 |
| Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416 |
| Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18 |
| One year of heparin anticoagulation. An ambulatory subject using a totally implantable infusion pump, 184 |
Predicting patients' warfarin requirements, 187
Trial of aspirin during weaning patients with transient ischaemic attacks from anticoagulants, 617

Aphasia
Aphasia and left thalamic hemorrhage, 526
Recovery patterns and prognosis in aphasia, 189

Arrhythmia
Cardiac arrhythmias in acute stroke, 392

Arterial injury
Localization of injury in arteries by 1-125 fibrinogen uptake, 533

Arterial pressure
Central depression of carotid baroreceptor pressor response, arterial pressure and heart rate by 5-hydroxytryptophan: influence of supracalicular areas of the brain, 189

Arteriosclerosis
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Combined effects of acute cerebrovascular ischemia and myocardial infarction in arteriosclerotic, male Sprague-Dawley rats, 183
Intracranial arterial aneurysms in infancy and childhood, 85
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540

Arteritis
Angiographic findings in giant cell arteritis, 90
Anterior segment ischemia in temporal arteritis, 417
Hemorrhagic complications of cerebral arteritis, 91
Intracranial involvement of giant-cell arteritis, 77

Artery, anterior spinal
Intradural extramedullary spinal arterial-venous malformations fed by the anterior spinal artery, 81

Artery, azygos
Aneurysm of the azygos artery, 282

Artery, basilar
Basilar artery migraine. A review of 30 cases, 531
Bilateral occlusion of basilar artery branches, 415
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
The microsurgical anatomy of the basilar artery bifurcation, 181

Vasoactive properties of prostaglandin compounds on the in vitro human basilar artery, 81

Artery, carotid external
Amaurosis fugax from disease of the external carotid artery, 87
Crossed external carotid ligation for giant aneurysms, 614
Detection of atherosclerotic plaques in carotid arteries by the use of 125I-fibrinogen, 416
ICA back pressures: importance of external carotid measures. Letter, 273
Importance of the external carotid artery in extracranial carotid occlusive disease, 88
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534

Artery, carotid internal
Carotid-axillary bypass: clinical and experimental evaluation, 288
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Cerebrovascular evaluation: assessment of Doppler scanning of carotid arteries, ophthalmic Doppler flow and cervical bruits, 563
Comparison of noninvasive diagnostic techniques in carotid artery occlusive disease, 78
Detection of atherosclerotic plaques in carotid arteries by the use of 125I-fibrinogen, 416
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Direct attack on carotid ophthalmic and large internal carotid aneurysms, 81
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Extra-intracranial arterial anastomosis previous to carotid ligation. Case report for a cervical internal carotid aneurysm from traumatic origin, 288
Fibromuscular dysplasia of the cervico-cerebral arteries, 535
Hypoglossal paralysis due to compression by a tortuous internal carotid artery in the neck, 543
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Internal carotid back pressure, intraoperative shunting, ulcerated aneurysma, and the incidence of stroke during carotid endarterectomy, 533
Inferolateral blindness. A complication of carotid endarterectomy, 78
Kinking of the internal carotid artery. Clinical significance and surgical management, 84
Microsurgical treatment of cerebral aneurysms at the bifurcation of the internal carotid artery, 617
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
Observations on simultaneous internal carotid artery and total cerebral blood flow measurements in man, 538
Pseudo-occlusion of the internal carotid artery, 408
Relationship between ophthalmic artery blood flow and re-occlusion of occluded carotid artery. Ultrasonic Doppler study, 360
The significance for diagnosis and for surgical technique of multiple aneurysms of the same internal carotid artery, 616
Spontaneous dissection of cervico-cerebral arteries, 538
"Stump" of internal carotid artery — a source for further cerebral embolic ischemia, 448
Superficial temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82
Surgical management of the totally occluded carotid artery, 275
Thromboendarterectomy for total occlusion of the internal carotid artery: a reappraisal of risks, success rate and potential benefits, 34
The use of velocity wave form analysis in the diagnosis of carotid artery occlusive disease, 275

Artery, cerebral
Cerebral arterial revascularization: the value of repeated angiography in selection of patients for operation, 604
Cerebral artery spasm. A histological study at necropsy of the blood vessels in cases of subarachnoid hemorrhage, 525
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 340
Clinicopathological study of cerebral aneurysms. Origin, rupture, repair, and growth, 525
Experiences of surgical treatment of 400 consecutive ruptured cerebral arterial aneurysms, 542
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490

Artery, common carotid
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
Carotid embolization presenting as total monococular blindness, 186
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 340
Common carotid artery stenosis due to subintimal hematoma following blunt trauma to the neck. Report of a case, 84
Late morbidity and mortality of common carotid ligation for posterior communicating aneurysms. A comparison to conservative treatment, 276
The use of velocity wave form analysis in the diagnosis of carotid artery occlusive disease, 275

Artery, episcleral
Dilated episcleral arteries — a significant physical finding in...
SUBJECT INDEX

Artery, innominate
Innominate artery endarterectomy. A 16-year experience, 274

Artery, leptomeningeal
Leptomeningeal artery atherosclerosis visualized by angiography: clinical correlates, 262

Artery, mesencephalic
Thrombosis of the mesencephalic artery. A clinico-pathological study of two cases and its correlation with the arterial vascularisation, 82

Artery, middle cerebral
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81

Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143

Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 540

Correlation between the clinical picture, the EEG and cerebral blood flow after partial occlusion of the middle cerebral artery in man, 91

Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606

Experimental regional cerebral ischemia in the middle cerebral artery territory in primates, Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387

A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286

Intracerebellar hematoma following microsurgical STA — cortical MCA bypass surgery, 188

 Ipsilateral subclavian to external carotid and STA-MCA bypasses for retinal ischemia, 410

Modification of acute focal ischemia by treatment with manitol, 4

Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83

Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539

Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224

Reinforcement with gauze wrapping for ruptured aneurysms of the middle cerebral artery, 279

SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410

Staged intracranial and extracranial revascularization, 283

Superficial temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82

Artery, occipital
The occipital artery. Anatomy-normal arteriographic aspects-embryological significance, 613

Occipital to posterior inferior cerebellar artery bypass surgery, 609

Syndrome of agitated delirium and visual impairment: a manifestation of medial tempo-occipital infarction, 284

Artery, ophthalmic
Direct attack on carotid ophthalmic and large internal carotid aneurysms, 81

Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85

Relationship between ophthalmic artery blood flow and recanalization of occluded carotid artery. Ultrasonic Doppler study, 360

Artery, posterior cerebral
Aneurysms of the posterior cerebral artery. Locations and clinical pictures, 91

The angiographic diagnosis of occlusions of the posterior cerebral artery, 280

Microsurgical anatomy of the posterior cerebral artery, 523

Artery, posterior inferior cerebellar
Occipital to posterior inferior cerebellar artery bypass surgery, 609

Posterior fossa revascularization: anastomosis of vertebral artery to PICA with interposed radial artery graft, 607

Artery, subclavian
Cardiac cycle-dependent alternating flow in vertebral arteries with subclavian artery stenoses, 229

Carotid-axillary bypass: clinical and experimental evaluation, 288

Ipsilateral subclavian to external carotid and STA-MCA bypass for retinal ischemia, 410

Artery, superficial temporal
Bilateral temporal-middle cerebral artery anastomosis for moyamoya syndrome, 81

Intimal dissection of the superficial temporal artery, 536

Observations on moyamoya disease: a case treated with superficial temporal-middle cerebral artery anastomosis, 539

Superficial temporal-middle cerebral artery anastomosis for internal carotid occlusion, 82

Aspirin
Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, 407

Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309

Editorial: aspirin — effective in males threatened with stroke, 295

Failure of aspirin to prevent postoperative deep vein thrombosis in patients undergoing total hip replacement, 618

Inhibition of platelet prostaglandin synthetase by oral aspirin, 417

Reponses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polypheolrin phosphate, 490

Studies on platelet plasma membranes. III. Membrane glycoprotein loss from circulating platelets in rabbits: inhibition by aspirin-dipyridamole and acceleration by thrombin, 419

Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612

Treatment of transient ischemic attacks, 299

Trial of aspirin during weaning patients with transient ischemic attacks from anticoagulants, 617

Atheroma
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533

Pathogenesis and prevention of trauma-provoked atheromas, 185

Regression of atheroma in the rabbit, 409

Atherosclerosis
Amaurosis fugax due to isolated atherosclerotic carotid artery disease in a young woman, 422

Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608

Carbon monoxide-induced arterial wall hypoxia and atherosclerosis, 614

Comparative angiographic and histological evaluations of intracranial atherosclerosis in hypertensive and normotensive subjects, 364

Detection of atherosclerotic plaques in carotid arteries by the use of 131I-fibrinogen, 416

Diet-induced atherosclerosis and experimental hypertension in stump-tail macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610

Editorial: noninvasive techniques for diagnosis of carotid artery disease, 427

Failure of regression of atherosclerosis in dogs with moderate cholesterolemia, 82

Leptomeningeal artery atherosclerosis visualized by angiography: clinical correlates, 262

Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608

Platelet aggregation in patients with severe atherosclerosis, 541

Prostaglandins and the arterial wall: an avenue for research in the pathogenesis of atherosclerosis (editorial), 287

The rate of atherosclerosis change during treatment of hyperlipoproteinemia, 415

Scintigraphic detection of atherosclerotic lesions and venous
thrombi in man by indium-111-labelled autologous platelets, 604
Smoking, carbon monoxide, and atherosclerotic diseases, 419
Atropine
Effect of atropine on cerebrovascular responsiveness to carbon dioxide, 528
Autoregulation
Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413
Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Cerebral arterial blood flow and aneurysm surgery. Part 2: induced hypotension and autoregulatory capacity, 279
Cerebral blood flow autoregulation in the rat, 150
Experimental studies on the neurogenic factors in autoregulation of regional circulation in dogs' brains, 86
Hyperemia, CO₂ responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413

B
Baboon studies
Barrier and uptake mechanisms in the cerebrovascular response to noradrenaline, 185
The capacity for computed tomography diagnosis of cerebral infarction. An experimental study in the nonhuman primate, 275
Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anaesthetized baboons, 183
Effect of atropine on cerebrovascular responsiveness to carbon dioxide, 528
Extracellular potassium activity, evoked potential and tissue blood flow. Relationships during progressive ischaemia in baboon cerebral cortex, 79
Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
Time course of the cerebral circulatory response to metabolic depression, 414
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123

Balloon catheterization
Complete obliteration of a carotid cavernous fistula with sparing of carotid blood flow using a detachable balloon catheter, 607
Embolization of cerebral vessels with inflatable and detachable balloons. Technical note, 413
Experimental embolization with inflatable and releasable balloons in dogs, 287
Systemic vascular responses to increased intracranial pressure. 1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277

Baroreceptors
Carotid baroreceptor function in hypertensive patients, 285
Central depression of carotid baroreceptor pressor response, arterial pressure and heart rate by 5-hydroxytryptophan: influence of supracarotid areas of the brain, 189
Circulatory reflexes from carotid and extracarotid baroreceptor areas in man, 186
Time course of baroreceptor resetting in short-term hypotension in the rat, 609

Betahistine
Comparative responses of the carotid and vertebral arterial systems of rhesus monkeys to betahistine, 382

Bifurcation, carotid
Imaging the carotid bifurcation using continuous-wave Doppler-shift ultrasound and spectral analysis, 465
Microsurgical treatment of cerebral aneurysms at the bifurcation of the internal carotid artery, 617
A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599

Ultramicroscopic ulcerations and thrombi of the carotid bifurcation, 274

Bird studies
Cerebral blood flow in birds: effect of hypoxia, 531
Blindness
Carotid embolization presenting as total monocular blindness, 186
Ipsilateral blindness. A complication of carotid endarterectomy, 78
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporo-occipital infarction, 294

Blood-brain barrier
Effect of an acute increase of the intravascular pressure on the blood-brain barrier, 388
Effect of non-respiratory alkalosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354
Intra-arterial basic dye studies of the blood-CSF and blood-brain barriers, 92
Isoproterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344

Blood-CSF barrier
Intra-arterial basic dye studies of the blood-CSF and blood-brain barriers, 92

Blood flow, cerebral
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Assessment of regional cerebral blood flow by continuous carotid infusion of krypton-81m, 189
An automated cerebral blood flow analyzer: concise communication, 77
Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413
Barrier and uptake mechanisms in the cerebrovascular response to noradrenaline, 185
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92

Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Cerebral arterial blood flow and aneurysm surgery. Part 1: local arterial flow dynamics, 278
Cerebral arterial blood flow and aneurysm surgery. Part 2: induced hypotension and autoregulatory capacity, 279
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179
Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 77
Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539
Cerebral blood flow and metabolism in man following cardiac arrest, 569
Cerebral blood flow and oxygen consumption in the newborn dog, 609
Cerebral blood flow and vascular reactivity after removal of the superior cervical sympathetic ganglion in the goat, 178
Cerebral blood flow autoregulation in the rat, 150
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143
Cerebral blood flow in birds: effect of hypoxia, 531
Cerebral blood flow in migraine, 177
Cerebral blood flow in the monkey after focal cryogenic injury, 509
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185
Cerebral blood-flow in polycythemia, 83
Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anaesthetized baboons, 183
Cerebral circulatory responses to arterial hypoxia in normal and chemodenervated dogs, 621
Cerebral hemodynamics in migraine, 276
Cerebral hemodynamics in Shy-Drager syndrome. Variability of cerebral blood flow dysautoregulation and the compensatory role of chemical control in dysautoregulation, 504
Cerebrovascular CO₂ reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Comparative responses of the carotid and vertebral arterial systems of rhesus monkeys to betahistine, 382
Correlation between the clinical picture, the EEG and cerebral blood flow after partial occlusion of the middle cerebral artery in man, 91
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 613
Distribution of cerebral blood flow in the dominant hemisphere during motor ideation and motor performance, 174
Effect of haematocrit on cerebral blood-flow in man, 284
The effect of lesions in the locus coeruleus on the physiological responses of the cerebral blood vessels in cats, 278
Effect of nigericline on cerebral blood flow, 182
Effect of non-respiratory alkalosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 179
Effect of topically applied serotonin on local cerebral blood flow, 25
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 546
The effects of sodium nitroprusside and trimethaphan camyslate on cerebral blood flow in rhesus monkeys, 414
Electromagnetic rheoangiometry: an extension of selective angiography, 409
Ergotamine and cerebral blood flow, 594
Evidence that neural mechanisms do not have important effects on cerebral blood flow, 536
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79
Improved method for noninvasive measurement of regional cerebral blood flow by 133Xe inhalation. Part I: description of method and normal values obtained in healthy volunteers, 195
Improved method for noninvasive measurement of regional cerebral blood flow by 133Xe inhalation. Part II: measurements in health and disease, 205
Isoproterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344
Long-term prognosis in stroke related to cerebral blood flow, 285
Measurement of cerebral blood flow with microspheres, 274
Measurement of local cerebral blood flow with iodo [131I] antipyrine, 413
A method for continuous monitoring of pial vessel diameter changes and its value for dynamic studies of the regulation of cerebral circulation. A preliminary report, 534
Observations on simultaneous internal carotid artery and total cerebral blood flow measurements in man, 282
On the theory of an intravenous isotope method for cerebral blood flow measurements, 87
Phenylethylamine and cerebral blood flow. Possible involvement of phenylethylamine in migraine, 175
Rat brain osmolality during barbiturate anesthesia and global brain ischemia, 249
Role of tissue hypoxia in local regulation of cerebral microcirculation, 621
Spastic constriction of cerebral vessels after electric convulsive treatment, 284
Study of regional cerebral metabolism and blood flow relationships in man using the method of continuously inhaling oxygen-15 and oxygen-15 labelled carbon dioxide, 540
4th Tbilisi Symposium on Brain Blood Supply, 440
A technique for recording local blood flow and neuronal activity with a single microelectrode, 83
Time course of the cerebral circulatory response to metabolic depression, 414
Total and regional cerebral blood flow during hypotension, hypertension, and hypoxcapnia. Effect of sympathetic denervation in dogs, 178
The validity of an intravenous isotope method for cerebral blood flow measurements. An experimental study, 87
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
Xenon inhalation method: significance of indicator maldistribution for distinguishing brain areas with impaired perfusion. An index for total flow, 57
Blood flow, cortical
Regional cortical blood flow at craniotomy, 603
Blood flow, orbital
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Thrombosis of the intraorbital veins and cavernous sinus, 85
Blood flow, regional cerebral
Chroma-memo-flow technique for rapid sequential analysis of regional cerebral blood flow (rCBF) responses, 538
Compartmental analysis of regional cerebral blood flow in patients with acute severe head injuries, 283
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
The effect of vincamine on the regional cerebral blood flow in man, 612
Effects of electrical stimulation of superior cervical ganglion on the regional cerebral blood flow, 180
Experimental studies on the neurogenic factors in autoregulation of regional circulation in dogs' brains, 86
Functional responses of the human brain studied by regional cerebral blood flow techniques, 181
Normal and abnormal patterns of cerebrovascular reserve tested by 133Xe inhalation, 605
Regional brain blood flow in the conscious gerbil, 67
Regional cerebral blood flow in stroke patients, 181
Xenon-133 inhalation method for regional cerebral blood flow measurements: normal values and test-retest results, 396
Blood flow, spinal cord
The effect of norepinephrine on the spinal cord circulation and its possible implications in the pathogenesis of acute spinal trauma, 182
An improved technique for measurement of spinal cord blood flow, 620
Measurement of spinal cord blood flow by the microsphere technique, 414
Regulation of total and regional spinal cord blood flow, 79
Blood gases
Arterial blood gases during raised intracranial pressure in anesthetized cats under controlled ventilation, 327
Blood pressure
Effect of an acute increase of the intravascular pressure on the blood-brain barrier, 588
Long term changes in blood pressure and risk of cerebrovascular disease, 319
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
Vasoconstrictor effect of angiotensin on pial arteries, 487
Blood volume, cerebral
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414
Blood, whole
Prevention of persistent cerebral smooth muscle contraction in response to whole blood, 472
Body temperature
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
Brain damage
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Brain death
Computerized axial tomography in brain death, 597
Brain stem
Arteriovenous malformations of the brain stem in childhood, 175
Embollization of an arteriovenous malformation of the brain stem, 81
Surgical treatment of arteriovenous angiomas localised in the corpus callosum, basal ganglia and near the brain stem, 542

Bruit, carotid
The asymptomatic bruit, 288
The asymptomatic carotid bruit and the ocular pneumoplethysmography, 274
The asymptomatic carotid bruit — operate or not? 269
The bruit of carotid stenosis versus radiated basal heart murmur. Differentiation by phonoangiography, 606
Carotid bruits: their significance in the cervical radicular syndrome, 280
Questions arising in carotid bruit, Letter, 523
The significance of asymptomatic unilateral carotid bruits in preoperative patients, 610
Supraclavicular and carotid bruits in hemodialysis patients, 407

Bypass surgery
Bypass in carotid siphon disease. Letter and response, 76
Carotid-axillary bypass: clinical and experimental evaluation, 288
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 540
Concomitant coronary artery bypass and major noncardiac surgery, 534
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461
Intracerebellar hematoma following microsurgical STA — cortical MCA bypass surgery, 188
Intracranial bypass grafts for vertebral-basilar ischemia, 283
Ipsilateral subclavian to external carotid and STA-MCA bypass passes for retinal ischemia, 418
Microvascular anastomosis for cerebral ischemia in 19 patients: a preliminary report, 538
Occipital to posterior inferior cerebellar artery bypass surgery, 609
A planned approach to coexistent cerebrovascular disease in coronary artery bypass candidates, 274
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534
Results of microsurgical extra-intracranial arterial bypass in the treatment of cerebral ischemia, 180
Staged intracranial and extracranial revascularization, 285

C
Carbon dioxide
Cerebrovascular CO₂ reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Effect of atropine on cerebrovascular responsiveness to carbon dioxide, 528
Hyperemia, CO₂ responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413
Cardiac arrest
Cerebral blood flow and metabolism in man following cardiac arrest, 569
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Neurologic status and prognosis after cardiopulmonary arrest: I. A Retrospective study, 175
Neurological syndromes after cardiac arrest, 517
Cardiovascular disorders
Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Carotid defects
Disappearing carotid defects, 258
Carotid siphon disease
Bypass in carotid siphon disease. Letter and response, 76
Carotidynia
Carotidynia, 286
Cat studies
Arterial blood gases during raised intracranial pressure in anesthetized cats under controlled ventilation, 527
Cerebral microembolization. II. Morphological studies, 611
Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 615
The effect of lesions in the locus coeruleus on the physiological responses of the cerebral blood vessels in cats, 278
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Hyperemia, CO₂ responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413
Influence of head position on the prognosis of experimental subarachnoid hemorrhage, 535
Modification of acute focal ischemia by treatment with mannitol, 4
Neurogenic vasodilation of cat cerebral arteries, 541
Pharmacological analysis of 5-hydroxytryptamine receptors in isolated intracranial and extracranial vessels of cat and man, 408
Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, 412
Responses of cerebral arteries and arterioles to acute hypertension and hypertension, 621
Role of tissue hypoxia in local regulation of cerebral microcirculation, 621
Spastic constriction of cerebral vessels after electric convulsive treatment, 284
Ultrastructural changes in feline arterial endothelium following subarachnoid hemorrhage, 410
Vascular spasm in cat cerebral cortex following ischemia, 52
Vasoconstrictor effect of angiotensin on pial arteries, 487
Catheterization
Bilateral cerebral angiography with catheterization of only one carotid artery, 417
Complete obliteration of a carotid cavernous fistula with sparing of the carotid blood flow using a detachable balloon catheter, 607
Embolization of cerebral vessels with inflatable and detachable balloons. Technical note, 413
Experimental embolization with inflatable and releasable balloons in dogs, 287
The intra-arterial injection of Iskedyl for hyperselective vascular exploration, 180
Systemic vascular responses to increased intracranial pressure. 1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277
Cavernous sinus
Cavernous angiomas of the brain. Account of fourteen personal cases and review of the literature, 542
Ischemic optic neuropathy in cavernous sinus thrombosis, 529
Meningiomas and aneurysms of the cavernous sinus. Neuroophthalmologic features, 532
Thrombosis of the intraorbital veins and cavernous sinus, 85
Cerebral amyloid angiopathy
Fatal massive intracerebral hemorrhage complicating cerebral amyloid angiopathy, 355
Cerebrospinal fluid
Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, 410
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Fibrinolytic activity in blood and cerebrospinal fluid in subarachnoid hemorrhage from ruptured intracranial saccular aneurysm before and during EACA treatment, 612
Influence of several plasma fractions on post-ischemic micro-
vacular reperfusion in the central nervous system, 375
Measurement of prostaglandin E2 in cerebrospinal fluid in patients suffering from stroke, 281
Re-evaluation of cerebrospinal fluid dynamics after subarachnoid hemorrhage with computed tomography and radionuclide cisternography, 287
Transient spastic paraparesis following abdominal aortography: management with cerebrospinal fluid lavage, 537
Cerebrovascular disease
Cerebrovascular complications of sickle cell anemia, 73
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
Cerebrovascular incidents after myocardial infarction, 281
Conjunctival microangiopathy. An early sign of degenerative vascular disease? 86
Detecting extracranial cerebrovascular disease with noninvasive techniques, 411
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Extracranial-to-intracranial vascular anastomosis for occlusive cerebrovascular disease: experience in 110 patients, 275
Importance of the external carotid artery in extracranial cerebrovascular occlusive disease, 88
Long term changes in blood pressure and risk of cerebrovascular disease, 319
A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599
Noninvasive methods for evaluation of extracranial cerebrovascular disease. A comparison, 78
Non-invasive regional study of chronic cerebrovascular disorders using the oxygen-15 inhalation technique, 415
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
A planned approach to coexistent cerebrovascular disease in coronary artery bypass candidates, 274
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
The role of platelets in myocardial infarction, ischaemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137
Spontaneous platelet aggregation in cerebrovascular disease, 540
Strokes in children and adolescents, 169
Summary of 11th Princeton Conference on Cerebrovascular Disease, 429
Trends in mortality from cerebrovascular diseases in the United States, 1960 to 1975, 549
Chemodeneration
Cerebral circulatory responses to arterial hypoxia in normal and chemodenervated dogs, 621
Chemotherapy
Transient cerebral dysfunction following chemotherapy for osteogenic sarcoma, 607
Children
Arteriovenous malformations of the brain stem in childhood, 175
Basilar artery migraine. A review of 30 cases, 531
Cerebral arteriovenous malformations in children, 519
Intracranial aneurysms in early childhood, 536
Intracranial arterial aneurysms in infancy and childhood, 85
Intracranial arteriovenous malformations in childhood, 539
Intracranial saccular aneurysms in the first three decades, 608
Moyamoya disease in children, 530
Occlusive arterial disease of the child and young adult. Clinical electroencephalographical analysis of 26 cases, 422
Saccular aneurysm of infancy and early childhood, 414
A sign of subarachnoid bleeding on cranial computed tomograms of pediatric head trauma patients, 416
Strokes in children and adolescents, 169
Subarachnoid hemorrhage in children, 422
Traumatic vertebralbasilar occlusive disease in childhood, 416
Chloramphenicol
Effects of procainamide and chloramphenicol on acute vasospasm, 281
Cholesterol levels
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Cigarette smoking and HDL cholesterol. The Framingham Offspring Study, 614
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620
Cholestrolemia
Failure of regression of atherosclerosis in dogs with moderate cholestrolemia, 82
Clofibrate
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Coagulation, intravascular
Cerebral involvement with disseminated intravascular coagulation in intestinal disease, 77
Complication
Acute neurological complications after liver transplantation with particular reference to intraoperative cerebral air embolus, 537
Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606
Complications of cerebral angiography, 416
Complications of cerebral angiography and pneumography, 186
Late complications of prosthetic heart valves, 608
Moyamoya syndrome as a complication of radiation therapy, Case report, 609
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Transient cerebral dysfunction following chemotherapy for osteogenic sarcoma, 607
Computerized tomography
Benign cerebellar hemorrhages, 539
The capacity for computed tomography diagnosis of cerebral infarction. An experimental study in the nonhuman primate, 275
Cerebellar hemorrhage in adults. Diagnosis by computerized tomography, 526
Computed angiotomography, 175
Computed tomographic appearance of presumed septic cerebral embolism, 407
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
Computed tomography and radionuclide imaging in the evaluation of ischemic stroke, 590
Computed tomography and subarachnoid hemorrhage, 174
Computed tomography in intracerebral hemorrhage, 81
Computed tomography in the evaluation of subdural hematomas, 411
Computed tomography in “Moya-Moya”: summary of 16 cases, 277
Computed-tomography of bilateral isodense chronic subdural hematomas, 287
Computed tomography of intracerebral hematomas. I. Transmission CT observations on hematoma resolution, 174
Computed tomography of intracerebral hematomas. II. Radionuclide and transmission CT studies of the perihematoma region, 174
Computed tomography of ruptured intracranial aneurysm in acute stage, 188
Computerized axial tomography in brain death, 597
Computerized cranial tomography. Effect on diagnostic and therapeutic plans, 84
Coronai and sagittal reconstruction in computerised tomography, 418
Diagnosis of isodense subdural hematomas by computed tomography, 175
Diagnosis of subdural haematoma by computed axial tomography use of xenon inhalation for contrast enhancement, 613
The effect of size, histologic elements, and water content on the visualization of cerebral infaracts. A computerized cranial tomographic study, 407
Emission computed tomography, 606
Evaluation of recent cerebral infarction by computerized tomography, 80
Evaluation of the age of subdural hematomas by computerized tomography, 88
An evaluation of transverse axial emission tomography of the brain in the clinical situation, 83
Impact of computed tomography on utilization of cerebral angiograms, 88
Intracranial, extracerebral hematomas. Computed tomographic appearances, 536
Intracranial tumors simulating the presentation of cerebrovascular syndromes. Early detection with cerebral computed tomography (CCT), 285
Intracranial venous sinus thrombosis: diagnosis suggested by computed tomography, 619
Multiple intracranial aneurysms: identifying the ruptured lesion, 608
Re-evaluation of cerebrospinal fluid dynamics after subarachnoid hemorrhage with computed tomography and radio-nuclide cisternography, 287
Resolving intracerebral hematomas: alteration of the "ring sign" with steroids, 607
Scintigraphic detection of congenital intracranial vascular malformations, 543
A sign of subarachnoid bleeding on cranial computed tomodograms of pediatric head trauma patients, 416
Spontaneous closure of cerebral arteriovenous malformation demonstrated by angiography and computed tomography, 614
The usefulness of CT scanning for subdural hematomas, 282
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
Congenital disorders
Cerebral hamartoma mimicking the angiographic appearance of congenital fusiform aneurysms, 84
Hereditary multi-infarct dementia. Morphological and clinical studies of a new disease, 179
Strokes in children and adolescents, 169
Congenital angiopathy
Congenital angiopathy and cerebral hemorrhage, 608
Conjunctival microangiopathy
Conjunctival microangiopathy. An early sign of degenerative vascular disease? 86
Contraceptive, oral
Mortality among oral-contraceptive users, 182
Mortality among women participating in the Oxford/Family Planning Association contraceptive study, 182
Platelet changes in women taking oral contraceptives, 77
Contrast material
Cerebral angiography with non-ionic (metrizamide) and ionic (meglumine megluminate) watersoluble contrast media. A comparative study with double blind technic, 179
Transient spastic paraparesis following abdominal aortography: management with cerebrospinal fluid lavage, 537
Cortical evoked potential
Extracellular potassium activity, evoked potential and tissue blood flow. Relationships during progressive ischaemia in baboon cerebral cortex, 79
Craniotomy
Large decompressive craniotomy in the treatment of acute subdural hematoma, 622
Regional cortical blood flow at craniotomy, 605
Creatine kinase
Myocardial creatine kinase isoenzyme in serum after subarachnoid haemorrhage, 182
Cryogenic injury
Cerebral blood flow in the monkey after focal cryogenic injury, 509
Cushing response
Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
Cyanacrylate
Intraarterial cyanacrylate: an adjunct in the treatment of spinal/paraspinal arteriovenous malformations, 410
Cyclic AMP
Early estimation of extent of the lesion in cerebral infarction by means of cyclic AMP concentration in peripheral venous plasma, 189
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
D
Delirium
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporo-occipital infarction, 284
Dementia
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 179
Definition of dementia. Letter, 523
Editorial: role of stroke in dementia, 1
Hereditary multi-infarct dementia. Morphological and clinical studies of a new disease, 179
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporo-occipital infarction, 284
Denervation
Cerebral circulatory responses to arterial hypoxia in normal and chemodenervated dogs, 621
Total and regional cerebral blood flow during hypotension, hypertension, and hypoxia. Effect of sympathetic denervation in dogs, 178
Diet
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Dihomo-gamma-linolenic acid
Antithrombotic potential of dihomo-gamma-linolenic acid in man, 284
Dissection, spontaneous
Spontaneous dissection of cervical-cerebral arteries, 538
Dog studies
Analysis of the effect of bilateral sympathetic stimulation on cerebral and ophthalmic blood flow in the dog, 29
Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413
Cerebral blood flow and oxygen consumption in the newborn dog, 609
Cerebral circulatory responses to arterial hypoxia in normal and chemodenervated dogs, 621
Changes in the subarachnoid space after experimental subarachnoid haemorrhage in the dog: scanning electron microscopic observation, 283
Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531
 Cyanide toxicity and thiosulfate protection during chronic administration of sodium nitroprusside in the dog: correlation with a human case, 286
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10

[Computerized tomography-Dog studies] SUBJECT INDEX 637
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
Effects of procainamide and chloramphenicol on acute vasospasm, 281
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Electromagnetic rheoangiometry: an extension of selective angiography, 409
Experimental cerebral infarction. Part 1: production of thalamic infarction in dogs, 211
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214
Experimental cerebral infarction. Part 3: protective effect of mannitol in thalamic infarction in dogs, 217
Experimental embolization with inflatable and releasable balloons in dogs, 287
Experimental extracranial-intracranial anastomosis, 176
Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461
Failure of regression of atherosclerosis in dogs with moderate cholesteryloma, 82
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Influence of several plasma fractions on post-ischemic microvascular reperfusion in the central nervous system, 375
Intercellular granules and vesicles in prolonged cerebral vasospasm, 412
Metabolic profiles of canine cerebrovascular tree: a histochemical study, 165
A model study of why some intracranial aneurysms thrombose but others rupture, 583
Pathogenesis and prevention of trauma-provoked atheromas, 183
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Radiiodinated fibrinogen for clot detection in a canine model of cervical carotid thrombosis, 543
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
Systemic vascular responses to increased intracranial pressure. 1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277
Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178

Dopaminergic receptors
Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177

Doppler ultrasound
Cardiac cycle-dependent alternating flow in vertebral arteries with subclavian artery stenoses, 229
The cerebrovascular Doppler examination in patients with non-hemispheric symptoms, 85
Cerebrovascular evaluation: assessment of Doppler scanning of carotid arteries, ophthalmic Doppler flow and cerebral bruits, 563
Detecting extracranial cerebrovascular disease with noninvasive techniques, 411
Doppler scanning and xerography: a screening procedure for high-risk carotid lesions in surgical patients, 85
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Imaging the carotid bifurcation using continuous-wave Doppler-shift ultrasound and spectral analysis, 465
Noninvasive assessment of collateral blood flow of the cerebral hemisphere by Doppler ultrasound, 418
Relationship between ophthalmic artery blood flow and re-ocanalization of occluded carotid artery, Ultrasonic Doppler study, 360

Dose dependency
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12

Drug addiction
Spinal cord vasculitis presenting as a spinal cord tumor in a heroin addict. Case report, 410

Drug therapy
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Cerebral hemorrhage from a mycotic aneurysm developing during appropriate antibiotic therapy, 267
Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309
Controlled trial of ornithine alpha ketoglutarate (OAKG) in patients with stroke, 218
Diet-induced atherosclerosis and experimental hypertension in stump tail macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Editorial: aspirin — effective in males threatened with stroke, 295
Intracranial hemorrhage and infarction in anticoagulated patients with prothetic heart valves, 18
Modification of acute focal ischemia by treatment with mannitol, 4
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
Transient focal cerebral ischemia after extreme exercise, 84

Dysautoregulation
Cerebral hemodynamics in Shy-Drager syndrome. Variability of cerebral blood flow during global ischemia, 591

E

Echocardiography
Left ventricular myxoma. Echocardiographic diagnosis and review of the literature, 279

Echocerebralphonography
Correlation between the clinical picture, the EEG and cerebral blood flow after partial occlusion of the middle cerebral artery in man, 91
Real time ultrasound tomography of the adult brain, 117

Edema
Effect of DPPD (diphenyl-para-phenylenediamine) on stroke and cerebral edema in gerbils, 480

Electrocardiography
Sympathetic nervous system activity in patients with subarachnoid hemorrhage, 237

Electroencephalography
Basilar migraine, seizures, and severe epileptiform EEG abnormalities. A relatively benign syndrome in adolescents, 605
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155

Electrophysiological study
Electrophysiological study of hemiplegia. Motor nerve conduction velocity, brachial plexus latency, and electromyography, 605

Embolism
Acute neurological complications after liver transplantation with particular reference to intraoperative cerebral air embolus, 577
Arterial embolism in thyrotoxicosis with atrial fibrillation, 178
Carotid embolization presenting as total monocular blindness, 186
Cerebral arterial lesions resulting from inflammatory emboli, 498
Cerebral microembolization. I. Pathophysiological studies, 274
Cerebral microembolization. II. Morphological studies, 611
Computed tomographic appearance of presumed septic cerebral embolism, 407
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
Embolism in sinoatrial disease, 543
Embolism to the central nervous system from cardiac myxoma. Report of two cases, 270
Embolization of an arteriovenous malformation of the brain stem, 81
Embolization of cerebral vessels with inflatable and detachable balloons. Technical note, 413
Evidence of silent cerebral embolism in patients with amaurosis fugax, 176
Experimental embolization with inflatable and releasable balloons in dogs, 287
Free percutaneous embolization of a traumatic carotid-cavernous fistula, 539
Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416
Influence of etiology of atrial fibrillation on incidence of systemic embolism, 184
Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83
Polyvinyl alcohol foam: prepackaged emboli for therapeutic embolization, 620
Prevention of arterial thromboembolism with acetylsalicylic acid. A controlled clinical study in patients with aortic ball valves, 84
"Stump" of internal carotid artery — a source for further cerebral embolic ischemia, 448
Thromboembolic complications in coronary angiography. Prevention with acetylsalicylic acid, 417

Endarterectomy, carotid
Carotid endarterectomy: is an indwelling shunt necessary? 185
Carotid endarterectomy: mortality rate. Letter, 172
Carotid endarterectomy. Temporal profile of the healing process and effects of anticoagulation therapy, 412
Cluster headache, hemianopia, and other head pains: morbidity of carotid endarterectomy, 559
Concomitant coronary artery bypass and major noncardiac surgery, 334
Early restenosis after carotid endarterectomy, 529
The finding of thrombus at carotid endarterectomy and its relationship to the timing of surgery, 181
Improved results with carotid endarterectomy, 181
Internal carotid back pressure, intraoperative shunting, ulcerated atheroma, and the incidence of stroke during carotid endarterectomy, 533
Intracerebral hemorrhage following carotid endarterectomy: a hypertensive complication? 457
Ipsilateral blindness. A complication of carotid endarterectomy, 78
A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599
Noninvasive assessment of collateral blood flow of the cerebral hemisphere by Doppler ultrasound, 418
Routine operative arteriography during carotid endarterectomy: a reassessment, 411
Stroke associated with carotid endarterectomy, 421
Ultramicroscopic ulcerations and thrombi of the carotid bifurcation, 274
The value of carotid endarterectomy in treating transient cerebral ischemia of the posterior circulation, 80

Endarterectomy, innominate
Innominate artery endarterectomy. A 16-year experience, 274

Endocarditis
Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606
Cerebral hemorrhage from a mycotic aneurysm developing during appropriate antibiotic therapy, 267
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Multiple mycotic aneurysms due to candida endocarditis, 85

Endothelium
Modification of acute focal ischemia by treatment with mannitol, 4
Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620
A scanning electron microscopic study of arterial endothelial cells using vascular casts, 409
SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
Thrombus formation and endothelial alterations in microarterial anastomoses, 89
Ultrastructural changes in feline arterial endothelium following subarachnoid hemorrhage, 410

Enzyme
Enzyme activity of the brain: microvessels vs. total forebrain homogenate, 289

Epidemiological studies
Epidemiological studies on patients with a persistent vegetative state, 204

Epilepsy
Cavernous angiomas of the brain. Account of fourteen personal cases and review of the literature, 542
Unruptured intracranial aneurysms — an unusual source of epilepsy, 542

Epinephrine
Sympathetic nervous system activity in patients with subarachnoid hemorrhage, 237

Ergonovine
Ergotamine and cerebral blood flow, 594

Erythrocytes
Erythrocyte hemoglobin oxygen dissociation: a new look at an old parameter, 176

Estrogen
Platelet changes in women taking oral contraceptives, 77

Experimental studies
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Acute tissue response to cerebral ischemia in the gerbil. An ultrastuctural study, 83
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413
Barrier and uptake mechanisms in the cerebrovascular response to noradrenaline, 185
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92
Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
The capacity for computed tomography diagnosis of cerebral...
infarction. An experimental study in the nonhuman primate, 275
Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539
Cerebral blood flow and oxygen consumption in the newborn dog, 609
Cerebral blood flow and vascular reactivity after removal of the superior cervical sympathetic ganglion in the goat, 178
Cerebral blood flow autoregulation in the rat, 150
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143
Cerebral circulation; effect of stimulation and blockade of dopamine receptors, 177
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anesthetized baboons, 183
Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Cerebral microembolization. II. Morphological studies, 611
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Changes in the subarachnoid space after experimental subarachnoid haemorrhage in the dog: scanning electron microscopic observation, 283
Comparative responses of the carotid and vertebral arterial systems of rhesus monkeys to betahistine, 382
Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Cyanide toxicity and thiosulfate protection during chronic administration of sodium nitroprusside in the dog: correlation with a human case, 286
Diet-induced atherosclerosis and experimental hypertension in stump-tailed macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 615
Diffuse cerebral ischemia in the cat: II. Regional metabolites during severe ischemia and recirculation, 615
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12
Effect of amiphylline on cerebral ischemia in the mongolian gerbil, 477
Effect of atropine on cerebrovascular responsiveness to carbon dioxide, 528
The effect of lesions in the locus coeruleus on the physiological responses of the cerebral blood vessels in cats, 278
Effect of occlusion on large vessels. I. A study of the rat carotid artery, 86
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349
Effects of anticoagulants in an animal model of septic cerebral embolization, 573
Effects of procainamide and chloramphenicol on acute vasoconstriction, 281
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
The effects of sodium nitroprusside and trimethaphan camsylate on cerebral blood flow in rhesus monkeys, 414
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Experimental cerebral infarction. Part 1: production of thalamic infarction in dogs, 211
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214
Experimental cerebral infarction. Part 3: protective effect of mannitol in thalamic infarction in dogs, 217
Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187
Experimental embolization with inflatable and releasable balloons in dogs, 287
Experimental extracranial-intracranial anastomosis, 176
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155
Experimental studies on the neurogenic factors in autoregulation of regional circulation in dogs' brains, 86
Experimental study report concerning the origin and the extending mechanism of hypertensive intracerebral hematoma, 90
Extracellular potassium activity, evoked potential and tissue blood flow. Relationships during progressive ischemia in baboon cerebral cortex, 79
Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461
Failure of regression of atherosclerosis in dogs with moderate cholesteroluria, 82
A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286
Formation of adenosine nucleotide derivatives in isolated hog carotid artery strips, 184
Hemodynamics of arterial stenoses at elevated flow rates, 91
Hyperemia, CO2 responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413
Hypothalamic component in pressor response to carotid occlusion in the rat, 184
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Influence of head position on the prognosis of experimental subarachnoid hemorrhage, 555
Influence of several plasma fractions on post-ischemic microvascular reperfusion in the central nervous system, 375
Intercellular granules and vesicles in prolonged cerebral vaso- spasm, 412
Internal and external carotid vascular responses to vasoactive agents in the monkey, 416
Ischemia-induced seizures and cortical monoamine levels, 527
Local cerebral glucose uptake in awake and halothane-anaesthetized primates, 419
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414
Metabolic profiles of canine cerebrovascular tree: a biochemical study, 165
A model study of why some intracranial aneurysms thrombose but others rupture, 583
Modification of acute focal ischemia by treatment with mannitol, 4
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Neurogenic vasodilation of cat cerebral arteries, 541
Pathogenesis and prevention of trauma-provoked atheromas, 185
Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, 412
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Radiodinated fibrinogen for clot detection in a canine model of cerebral carotid thrombosis, 543
Regional brain blood flow in the conscious gerbil, 67
Regression of cerebral arteries and arterioles to acute hypotension and hypertension, 621
Responses of cerebral arteries and arterioles to unconjugated estrogen, 123
Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polyphloretin phosphate, 490
The role of hemodynamic factors in arterial wall thickening in the rat, 620
Role of tissue hypoxia in local regulation of cerebral microcirculation, 621
Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620
Sequential cerebral biochemical and physiological events in controlled hypoxemia, 183
Spatiotemporal constrictions of cerebral vessels after electric convulsive treatment, 284
Studies on platelet plasma membranes. III. Membrane glycoprotein loss from circulating platelets in rabbits: inhibition by aspirin-dipyridamole and acceleration by thrombin, 419
Systemic vascular responses to increased intracranial pressure. 1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277
Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
Time course of baroreceptor resetting in short-term hypotension in the rat, 609
Time course of the cerebral circulatory response to metabolic depression, 414
Total and regional cerebral blood flow during hypotension, hypertension, and hypoxia. Effect of sympathetic denervation in dogs, 178
Treatment of experimental cerebral infarction in rats with levodopa or with glyceral, 609
Ultrastructural evidence for central monoaminergic innervation of blood vessels in the paraventricular nucleus of the hypothalamus, 289
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 280
Vascular spasm in cat cerebral cortex following ischemia, 52
Vasoconstrictor effect of angiotensin on pial arteries, 487
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
Extracellular potassium activity
Extracellular potassium activity, evoked potential and tissue blood flow. Relationships during progressive ischemia in baboon cerebral cortex, 79

F

Fainting
The mechanism of orthostatic and hemorrhagic fainting, 87
Fiberoptics
The use of a fiberoptic intracranial pressure monitor in clinical practice, 282
Fibrillation, atrial
Arterial embolism in thyrotoxicosis with atrial fibrillation, 178
Influence of etiology of atrial fibrillation on incidence of systemic embolism, 184
 Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612
Fibrinolytic activity
Fibrinolytic activity in blood and cerebrospinal fluid in subarachnoid hemorrhage from ruptured intracranial saccular aneurysm before and during EACA treatment, 612
Fibrinolytic properties of some optic nerve vessels, 532
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischemic stroke, 530
Prolonged antifibrinolysis: an effective non-surgical treatment for ruptured intracranial aneurysms? 537
Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137
Fibromuscular dysplasia
Fibromuscular dysplasia, 611
Fibromuscular dysplasia, antiovulent drugs, and ergot preparations. Letter, 172
Fibromuscular dysplasia of the cervicocephalic arteries, 535
Spontaneous carotid-cavernous fistula with fibromuscular dysplasia, 543
Fistula, carotid cavernous
Bilateral dural arteriovenous fistula in the region of the cavernous sinus, 613
Carotid cavernous fistula in pregnancy, 184
Complete obliteration of a carotid cavernous fistula with sparing of the carotid blood flow using a detachable balloon catheter, 607
Free percutaneous embolization of a traumatic carotido-cavernous fistula, 539
Spontaneous carotid-cavernous fistula with fibromuscular dysplasia, 543
Free radical pathology
Free radical pathology, 443
Free radicals in cerebral ischemia, 445

G

Ganglion, superior cervical
Cerebral blood flow and vascular reactivity after removal of the superior cervical sympathetic ganglion in the goat, 178
Effects of electrical stimulation of superior cervical ganglion on the regional cerebral blood flow, 180
Gerbil studies
Acute tissue response to cerebral ischemia in the gerbil. An ultrastructural study, 82
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Effect of aminophylline on cerebral infarction in the mongolian gerbil, 477
Effect of DPPD (diphenyl-para-phenylenediamine) on stroke and cerebral edema in gerbils, 480
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540
Experimental stroke in gerbils: correlation of clinical, pathological and electrophysiological findings and protein synthesis, 155
Ischemia-induced seizures and cortical monoamine levels, 527
Regional brain blood flow in the conscious gerbil, 67
Giant-cell arteritis
Angiographic findings in giant cell arteritis, 90
Anterior segment ischemia in temporal arteritis, 417
Intracranial involvement of giant-cell arteritis, 77
Glucose utilization
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12
Local cerebral glucose uptake in awake and halothane-anesthetized primates, 419
Local glucose utilization in acute focal cerebral ischemia: local dysmetabolism and diaschisis, 277

### Heparin

Cerebral involvement with disseminated intravascular coagulation in intestinal disease, 77

Comparison of heparin and a semi-synthetic heparin analogue, A - 1.  Kinetics of clearance from the circulation of man following intravenous injection, 421

Comparison of heparin and a semi-synthetic heparin analogue, A - 11. Some effects on platelet function, 421

Disappearing carotid defects, 258

Heparin-induced thrombocytopenia, 535

Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18

Low-dose heparin as a prophylaxis against deep-vein thrombosis after acute stroke, 187

One year of heparin anticoagulation. An ambulatory subject using a totally implantable infusion pump, 184

### Herpes zoster infection

Herpes zoster ophthalmicus with contralateral hemiplegia, 176

Papulosus atropicans maligna (Kölhmeier-Degos disease): a disseminated occlusive vasculopathy, 607

### Holter monitoring

Holter monitoring in patients with transient focal cerebral ischemia, 514

### 5-Hydroxydopamine

Ultrastructural evidence for central monoaminergic innervation of blood vessels in the paraventricular nucleus of the hypothalamus, 289

### 5-Hydroxytryptophan

Central depression of carotid baroreceptor pressor response, arterial pressure and heart rate by 5-hydroxytryptophan: influence of supracollicular areas of the brain, 189

### Hypere mia

Hypere mia, CO₂ responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413

### Hyperlipoproteinemia

The rate of atherosclerosis change during treatment of hyperlipoproteinemia, 415

### Hypertension

Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183

Autoregulation of cerebral blood flow during early experimental renal hypertension in the conscious dog, 413

Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538

Carotid and vertebral-basilar transient ischemic attacks: effect of anticoagulants, hypertension, and cardiac disorders on survival and stroke occurrence — a population study, 527

Carotid baroreceptor function in hypertensive patients, 285

Comparative angiographic and histological evaluations of intracranial atherosclerosis in hypertensive and normotensive subjects, 364

Diet-induced atherosclerosis and experimental hypertension in stumptail macaques (Macaca arctoides). Effects of antihypertensive drugs and a non-atherogenic diet in the evolution of lesions, 610

Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349

Intracranial hemorrhage following carotid endarterectomy: a hypertensive complication? 457

Prolonged induced hypertension in the management of incipient cerebral infarction, 176

Responses of cerebral arteries and arterioles to acute hypotension and hypertension, 621

Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178

### Hyperventilation

Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, 407
SUBJECT INDEX

Hypocapnia
Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178

Hypotension
Cerebral arterial blood flow and aneurysm surgery. Part 2: induced hypotension and autoregulatory capacity, 279
Effect on canine cerebral blood flow of two common pressor agents during prolonged halothane anesthesia, 540
Responses of cerebral arteries and arterioles to acute hypotension and hypertension, 621
Role of glucose-6-phosphate in cerebral dysfunction following hypoxia and hypotension, 187
Time course of baroreceptor resetting in short-term hypotension in the rat, 609
Total and regional cerebral blood flow during hypotension, hypertension, and hypocapnia. Effect of sympathetic denervation in dogs, 178

Hypoxemia
Sequential cerebral biochemical and physiological events in controlled hypoxemia, 183

Hypoxia
Carbon monoxide-induced arterial wall hypoxia and atherosclerosis, 614
Cerebral blood flow in birds: effect of hypoxia, 531
Cerebral circulatory responses to arterial hypoxia in normal and chemodenervated dogs, 621
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Hemorrhagic cerebral white matter. Infarction with cerebral deep venous thrombosis and hypoxia, 407
Role of tissue hypoxia in local regulation of cerebral microcirculation, 621
Studies on the influence of monoamines on the cerebrovascular response to arterial hypoxia, 534

Idiopathic regressing arteriopathy
Idiopathic regressing arteriopathy, 407

Indomethacin
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133

Infants
Intracranial arterial aneurysms in infancy and childhood, 85
Saccular aneurysm of infancy and early childhood, 414

Infarction, cerebral
Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, 407
Brain monoamines in human cerebral infarcts. A preliminary study, 532
The capacity for computed tomography diagnosis of cerebral infarction. An experimental study in the nonhuman primate, 275
Cerebral infarction in young adults, 39
Early estimation of extent of the lesion in cerebral infarction by means of cyclic AMP concentration in peripheral venous plasma, 189
Effect of aminophylline on cerebral infarction in the mongolian gerbil, 477
The effect of size, histologic elements, and water content on the visualization of cerebral infarcts. A computerized cranial tomographic study, 407
Evaluation of recent cerebral infarction by computerized tomography, 80
Experimental cerebral infarction. Part 1: production of thalamic infarction in dogs, 211
Experimental cerebral infarction. Part 2: electroencephalographic changes produced by experimental thalamic infarction in dogs, 214

I

Extracranial-intracranial bypass in experimental cerebral infarction in dogs, 461
A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286
Importance of the hematocrit as a risk factor in cerebral infarction, 369
Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18
Intravenous glycerol in cerebral infarction: a controlled 4-month trial, 484
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Prolonged induced hypotension in the management of incipient cerebral infarction, 176
Reduction of coagulation factor XIII concentration in patients with myocardial infarction, cerebral infarction, and other thromboembolic disorders, 420
Syndrome of agitated delirium and visual impairment: a manifestation of medial temporal-occipital infarction, 284
The topography of cerebral infarcts, 190
Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 280

Infarction, myocardial
Cerebrovascular accidents after myocardial infarction, 281
Combined effects of acute cerebrovascular ischemia and myocardial infarction in arteriosclerotic, male Sprague-Dawley rats, 183
Electroencephalographic prediction of anoxic brain damage after resuscitation from cardiac arrest in patients with acute myocardial infarction, 543
Reduction of coagulation factor XIII concentration in patients with myocardial infarction, cerebral infarction, and other thromboembolic disorders, 420
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420

Infusion pump
One year of heparin anticoagulation. An ambulatory subject using a totally implantable infusion pump, 184

Inhalation techniques
Computed tomographic measurement of the xenon brain-blood partition coefficient and implications for regional cerebral blood flow: a preliminary report, 612
Diagnosis of subdural haematoma by computed axial tomography: use of xenon inhalation for contrast enhancement, 613
Improved method for noninvasive measurement of regional cerebral blood flow by 133 xenon inhalation. Part I: description of method and normal values obtained in healthy volunteers, 195
Improved method for noninvasive measurement of regional cerebral blood flow by 133 xenon inhalation. Part II: measurements in health and disease, 205
Non-invasive regional study of chronic cerebrovascular disorders using the oxygen-15 inhalation technique, 415
Normal and abnormal patterns of cerebrovascular reserve tested by 133Xe inhalation, 605
Study of regional cerebral metabolism and blood flow relationships in man using the method of continuously inhaling oxygen-15 and oxygen-15 labelled carbon dioxide, 415
Xenon-133 inhalation method for regional cerebral blood flow measurements: normal values and test-retest results, 396
133Xenon inhalation method: significance of indicator maldistribution for distinguishing brain areas with impaired perfusion. An index for total flow, 57

International Nomenclature of Diseases
Aid asked for nomenclature on nervous system disorders. Letter, 406

Intestinal disease
Cerebral involvement with disseminated intravascular coagulation in intestinal disease, 77
Hemorrhagic complications of cerebral arteritis, 91
Strokes and ulcerative colitis, 605
**Intracranial pressure**
Arterial blood gases during raised intracranial pressure in anesthetized cats under controlled ventilation, 527
Intracranial subarachnoid pressure recording: experience with 650 patients, 81
Systemic vascular responses to increased intracranial pressure. 1. Effects of progressive epidural balloon expansion on intracranial pressure and systemic circulation, 277
Systemic vascular responses to increased intracranial pressure. 2. The 'Cushing' response in the presence of intracranial space-occupying lesions: systemic and cerebral haemodynamic studies in the dog and the baboon, 277
The use of a fiberoptic intracranial pressure monitor in clinical practice, 282
**Intranasal procedures**
Subarachnoid hemorrhage following intranasal procedures, 82
Ischemia
Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183
Acute tissue response to cerebral ischemia in the gerbil. An ultrastructure study, 83
ADP-induced platelet aggregation in vitro in patients with ischemic heart disease and peripheral thromboatherosclerosis, 92
Anterior segment ischemia in temporal arteritis, 417
Brain vascularization by transplanted omentum: a possible treatment of cerebral ischemia, 282
Cerebral ischemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Cerebral ischemia. 1. Current angiographic techniques, complications, and safety, 615
Combined effects of acute cerebrovascular ischemia and myocardial infarction in arteriosclerotic, male Sprague-Dawley rats, 183
Computed tomography and radionuclide imaging in the evaluation of ischemic stroke, 534
Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309
Correlation between angiographic findings and the ischemia of head injury, 550
Delayed pentobarbital therapy of acute focal cerebral ischemia, 245
Diffuse cerebral ischemia in the cat: I. Local blood flow during severe ischemia and recirculation, 615
Diffuse cerebral ischemia in the cat: II. Regional metabolites during severe ischemia and recirculation, 615
Effects of phenobarbital in cerebral ischemia. Part 1: cerebral energy metabolism during pronounced incomplete ischemia, 327
Effects of phenobarbital in cerebral ischemia. Part II: restitution of cerebral energy state, as well as of glycolytic metabolites, citric acid cycle intermediates and associated amino acids after pronounced incomplete ischemia, 335
Experimental regional cerebral ischemia in the middle cerebral artery territory in primates. Part 3: effects on brain water and electrolytes in the late phase of acute MCA stroke, 387
Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155
Free radicals in cerebral ischemia, 445
Holter monitoring in patients with transient focal cerebral ischemia, 514
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Intracranial bypass grafts for vertebral-basilar ischemia, 283
Ipsilateral subclavian to external carotid and STA-MCA bypasses for retinal ischemia, 418
Ischemia-induced seizures and cortical monoamine levels, 527
Ischemic optic neuropathy in cavernous sinus thrombosis, 529
Local glucose utilization in acute focal cerebral ischemia: local dysmetabolism and diastasis, 277
Microvascular anastomosis for cerebral ischemia in 19 patients: a preliminary report, 538
Modification of acute focal ischemia by treatment with mannitol, 4
Normal serum-cholesterol but low H.D.L.-cholesterol concentration in young patients with ischaemic cerebrovascular disease, 529
Platelet adhesiveness in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 550
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529
Rat brain osmolality during barbiturate anesthesia and global brain ischemia, 249
Results of microsurgical extra-intracranial arterial bypass in the treatment of cerebral ischemia, 180
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Sensorimotor stroke due to thalamocapsular ischemia, 286
“Stump” of internal carotid artery — a source for further cerebral embolic ischemia, 448
Transient focal cerebral ischemia after extreme exercise, 286
Vascular spasm in cat cerebral cortex following ischemia, 52
**Iskedyl**
The intra-arterial injection of Iskedyl for hyperselective vascular exploration, 180
**Isoproterenol**
Aminophylline and isoproterenol in the treatment of cerebral vasospasm, 81
Isoproterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344

K

**Köhlmeyer-Degos disease**
Papulosis atrophicans maligna (Köhlmeyer-Degos disease): a disseminated oclusive vasculopathy, 607

L

**Lesion, cerebral arterial**
Cerebral arterial lesions resulting from inflammatory emboli, 498

**Lesion, hypophysal**
Hypothalamic and myocardial lesions after subarachnoid haemorrhage, 182
Hypothalamic component in pressor response to carotid occlusion in the rat, 184

**Lesion, myocardial**
Hypothalamic and myocardial lesions after subarachnoid haemorrhage, 182

**Lesion, spinal**
Epidemiological studies on patients with a persistent vegetative state, 264

**Levodopa**
Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609

**Ligation, carotid**
Carotid artery rupture. Management and prevention of delayed neurologic sequelae with low-dose heparin, 610
Crossed external carotid ligation for giant aneurysms, 614
Extra-intracranial arterial anastomosis prior to carotid ligation. Case report for a cerebral internal carotid aneurysm from traumatic origin, 288
Late morbidity and mortality of common carotid ligation for
posterior communicating aneurysms. A comparison to conservative treatment, 276
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534

Lipids
Biochemical effects of moderate diet and clofibrate on swine atherosclerosis, 608
Diet-induced atherosclerosis and experimental hypertension in stump tail macaques (Macaca arctoides). Effects of antihyperensive drugs and a non-atherogenic diet in the evolution of lesions, 610
Influence of lipid concentrations and age on transfer of plasma lipoprotein into human arterial intima, 187
Morphological effects of moderate diet and clofibrate on swine atherosclerosis, 608
Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137

Liver transplant
Acute neurological complications after liver transplantation with particular reference to intraoperative cerebral air embolus, 537

Long-term studies
Eight-year follow-up of experimental carotid-middle cerebral and carotid-basilar arterial bypass grafts and anastomoses, 606
Follow-up results of microsurgery of intracranial aneurysms, 188
Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416
Long-term prognosis in stroke related to cerebral blood flow, 285
The ocular manifestations of Wegener's granulomatosis. Fifteen years experience and review of the literature, 79
Subarachnoid haemorrhage: long-term follow-up results of late surgical versus conservative treatment, 604
Trends in mortality from cerebrovascular diseases in the United States, 1960 to 1975, 549

Lupus erythematosus
Oxygen-15 brain scanning for detection of cerebral involvement in systemic lupus erythematosus, 613
Retinal arterial occlusive disease in systemic lupus erythematosus, 179

M
Malformation, arteriovenous
Anatomical grading of supratentorial arteriovenous malformations for determining operability, 180
Arteriovenous malformations of the brain stem in childhood, 175
Cerebral arteriovenous malformations in children, 619
Dural arteriovenous malformation in the anterior fossa, 276
Embolization of an arteriovenous malformation of the brain stem, 81
Intracranial carotid artery: an adjunct in the treatment of spinal/paraspinal arteriovenous malformations, 410
Spinal cord vascular malformations with symptoms during menstruation. Report of two cases, 181
Spinal epidural angiomatous malformations draining into intrathecal veins, 91
Malignant atrophic papulosis
Papulosis atrophicans maligna (Kôhlmeyer-Degos disease): a disseminated occlusive vasculopathy, 607

Mannitol
Modification of acute focal ischemia by treatment with mannitol, 4
Protective effect of mannitol (cont.). Letter, 603
Protective effect of mannitol. Letter, 524

Meningioma
Meningiomas and aneurysms of the cavernous sinus. Neuroophthalmologic features, 532

Meninguration
Spinal cord vascular malformations with symptoms during menstruation. Report of two cases, 181

Metabolism
Brain blood flow autoregulation and metabolism during halothane anesthesia in monkeys, 412
Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179
Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 78
Cerebral blood flow and metabolism in chronically hypormonemic rats: effect of an acute ammonia challenge, 539
Cerebral blood flow and metabolism in man following cardiac arrest, 569
Cerebral circulation: effect of stimulation and blockade of dopamine receptors, 177
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anesthetized baboons, 183
Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Diffuse cerebral ischaemia in the cat: II. Regional metabolites during severe ischaemia and recirculation, 615
Effect of ornithine alpha ketoglutarate (OAGK) on the response of brain metabolism to hypoxia in the dog, 222
Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349
Effects of phenobarbital in cerebral ischemia. Part I: cerebral energy metabolism during pronounced incomplete ischemia, 327
Effects of phenobarbital in cerebral ischemia. Part II: restitution of cerebral energy state, as well as of glycolytic metabolism, citric acid cycle intermediates and associated amino acids after pronounced incomplete ischemia, 335
Metabolic profiles of canine cerebrovascular tree: a histochemical study, 165
Study of regional cerebral metabolism and blood flow relationships in man using the method of continuously inhaling oxygen-15 and oxygen-15 labelled carbon dioxide, 415
Time course of the cerebral circulatory response to metabolic depression, 414

Methysergide
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133

Mice study
Effects of reduced regional or body temperatures on responses of pial arterioles, 580

Mitral valve disease
Hemiplegia and the billowing mitral leaflet syndrome, 613
Strokes: a complication of mitral-leaflet prolapse? 86
Thromboembolic complications after mitral valve replacement with Hancock xenograft, 612

Monkey studies
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92
Nerve conduction velocity
Electrophysiological study of hemiplegia. Motor nerve conduction velocity, brachial plexus latency, and electromyography, 605

Nerve stimulation
Analysis of the effect of bilateral sympathetic stimulation on cerebral and cephalic blood flow in the dog, 29
Effect of sympathetic nerve stimulation on cerebral blood flow and on large cerebral arteries of dogs, 178
Evidence that neural mechanisms do not have important effects on cerebral blood flow, 536
Neurogenic vasodilation of cat cerebral arteries, 541

Neurological syndromes
Neurological syndromes after cardiac arrest, 517
Vessel tortuosity as a cause of posterior fossa cranial nerve syndromes, 411

Nicergoline
Effect of nicergoline on cerebral blood flow, 182

Nitrous oxide
Cerebral blood flow and metabolism during morphine — nitrous oxide anesthesia in man, 78
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
No-reflow phenomenon
Vascular spasm in cat cerebral cortex following ischemia, 52

Norepinephrine
The effect of norepinephrine on the spinal cord circulation and its possible implications in the pathogenesis of acute spinal trauma, 186
Evidence that neural mechanisms do not have important effects on cerebral blood flow, 536
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
Sympathetic nervous system activity in patients with subarachnoid hemorrhage, 237

Nucleotide, cyclic
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540

O

Oclusion
Bilateral occlusion of basilar artery branches, 415
Brain metabolism and arterial acid-base balance following unilateral carotid occlusion in the gerbil, 175
Cerebral blood flow determined by hydrogen clearance during middle cerebral artery occlusion in unanesthetized monkeys, 143
Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92
Comparison of noninvasive diagnostic techniques in carotid artery occlusive disease, 78
Critical cerebral blood flow for production of hemiparesis after unilateral carotid occlusion in the gerbil, 175
Dilated episcleral arteries — a significant physical finding in assessment of patients with cerebrovascular insufficiency, 42
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Dose dependency of the post-insult protective effect of pento-barbital in the canine experimental stroke model, 10
Effect of occlusion on large vessels. I. A study of the rat carotid artery, 86
Emergency occlusive techniques, 608
Hypothalamic component in pressor response to carotid occlusion in the rat, 184
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414
Natural history and classification of occlusive thromboartopathy (Takayasu's disease), 408
Occlusion of the intradural vertebrobasilar artery, 532
Pseudo-occlusion of the internal carotid artery, 408
SEM evaluation of endothelial damage following temporary middle cerebral artery occlusion in dogs, 410
The treatment of intracranial aneurysms by injection with a tissue adhesive, 180
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 280
Ocular disease
The ocular manifestations of Wegener's granulomatosis. Fifteen years experience and review of the literature, 79
Omentum
Brain vascularization by transplanted omentum: a possible treatment of cerebral ischemia, 282
Omental transposition to human brain. Letter, 272
Prevention of cerebral infarction in the monkey by omental transposition to the brain, 224
Ophthalmosonometry
The use of ophthalmosonometry in the diagnosis of carotid artery stenosis, 80
Ornithine alpha ketoglutarate
Controlled trial of ornithine alpha ketoglutarate (OAKG) in patients with stroke, 218
Effect of ornithine alpha ketoglutarate (OAKG) on the response of brain metabolism to hypoxia in the dog, 222
Osmolality
Radiation osmolality during barbiturate anesthesia and global brain ischemia, 249
Oxygen consumption, cerebral
Blood flow and oxygen consumption of the focally traumatized monkey brain, 92
Cerebral blood flow and metabolism in man following cardiac arrest, 569
Cerebral blood flow and oxygen consumption in the newborn dog, 609
Cerebral blood flow, oxygen utilization, and blood volume in dementia, 185
Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79

P
Papaverine
Brief therapeutic report: papaverine prophylaxis of complicated migraine, 177
Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179
Paraplegia
Recovery from paraplegia caused by spontaneous spinal epidural hematoma, 537
Pentobarbital
Cerebral blood flow and metabolic changes from induction to onset of anesthesia with halothane or pentobarbital, 179
Delayed pentobarbital therapy of acute focal cerebral ischemia, 245
Dose dependency of the post-insult protective effect of pentobarbital in the canine experimental stroke model, 10
Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12
Effects of phenobarbital in cerebral ischemia. Part 1: cerebral energy metabolism during pronounced incomplete ischemia, 327
Effects of phenobarbital in cerebral ischemia. Part II: restoration of cerebral energy state, as well as of glycolytic metabolites, citric acid cycle intermediates and associated amino acids after pronounced incomplete ischemia, 335
Perfusion, cerebral
Indomethacin prevents impaired perfusion of the dog's brain after global ischemia, 591
Xenon enhanced CT for analysis of cerebral integrity, perfusion, and blood flow, 123
Pericarditis
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Phenoxbenzamine
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Phenylylethylamine
Phenylylethylamine and cerebral blood flow. Possible involvement of phenylylethylamine in migraine, 175
Phonoangiography
The bruit of carotid stenosis versus radiated basal heart murmurs. Differentiation by phonoangiography, 606
Photoplethysmography
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Physical therapy
How much physical therapy for patients with stroke? 604
Physostigmine
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Pial vessels
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
Fibrinolytic properties of some optic nerve vessels, 532
A method for continuous monitoring of pial vessel diameter changes and its value for dynamic studies of the regulation of cerebral circulation. A preliminary report, 534
Vasoconstrictor effect of angiotensin on pial arteries, 418
Plasma adrenaline
Clinical significance of plasma adrenaline and noradrenaline concentrations in patients with subarachnoid haemorrhage, 530
Plasma fibrinogen
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelets
ADP-induced platelet aggregation in vitro in patients with ischaemic heart disease and peripheral thromboatherosclerosis, 92
Antithrombotic potential of dihomo-gamma-linolenic acid in man, 284
Chronic effect of smoking on platelet count and "platelet adhesiveness" in presumably healthy middle-aged men, 409
Comparison of heparin and a semi-synthetic heparin analogue, A. H. Some effects on platelet function, 421
Further evidence for the role of thrombin in the platelet release reaction caused by various agents, and the nature of biphase platelet aggregation, 618
Indium-111-labeled autologous platelets for location of vascular thrombi in humans, 618
Inhibition of platelet prostaglandin synthetase by oral aspirin, 417
Platelet adhesiveness in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelet aggregability in migraine, 185
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540
Platelet aggregation in patients with peripheral vascular disease, 418
Platelet aggregation in patients with severe atherosclerosis, 541
Platelet changes in women taking oral contraceptives, 77
Platelet coagulant activities and retinal vein thrombosis, 408
Platelet hyperaggregability in young patients with completed stroke, 278
Prevention of persistent cerebral smooth muscle contraction in response to whole blood, 472
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
Phenoxbenzamine
Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
Phenylylethylamine
Phenylylethylamine and cerebral blood flow. Possible involvement of phenylylethylamine in migraine, 175
Phonoangiography
The bruit of carotid stenosis versus radiated basal heart murmurs. Differentiation by phonoangiography, 606
Photoplethysmography
Doppler ultrasound and supraorbital photoplethysmography for noninvasive screening of carotid occlusive disease, 85
Physical therapy
How much physical therapy for patients with stroke? 604
Physostigmine
Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160
Pial vessels
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Effects of reduced regional or body temperatures on responses of pial arterioles, 580
Fibrinolytic properties of some optic nerve vessels, 532
A method for continuous monitoring of pial vessel diameter changes and its value for dynamic studies of the regulation of cerebral circulation. A preliminary report, 534
Vasoconstrictor effect of angiotensin on pial arteries, 418
Plasma adrenaline
Clinical significance of plasma adrenaline and noradrenaline concentrations in patients with subarachnoid haemorrhage, 530
Plasma fibrinogen
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelets
ADP-induced platelet aggregation in vitro in patients with ischaemic heart disease and peripheral thromboatherosclerosis, 92
Antithrombotic potential of dihomo-gamma-linolenic acid in man, 284
Chronic effect of smoking on platelet count and "platelet adhesiveness" in presumably healthy middle-aged men, 409
Comparison of heparin and a semi-synthetic heparin analogue, A. H. Some effects on platelet function, 421
Further evidence for the role of thrombin in the platelet release reaction caused by various agents, and the nature of biphase platelet aggregation, 618
Indium-111-labeled autologous platelets for location of vascular thrombi in humans, 618
Inhibition of platelet prostaglandin synthetase by oral aspirin, 417
Platelet adhesiveness in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic activity in young patients with ischaemic stroke, 530
Platelet aggregability in migraine, 185
Platelet aggregate ratios — standardization of technique and test results in patients with myocardial ischemia and patients with cerebrovascular disease, 409
Platelet aggregation and cyclic nucleotide phosphodiesterase activity in arteriosclerotic patients, 540
Platelet aggregation in patients with peripheral vascular disease, 418
Platelet aggregation in patients with severe atherosclerosis, 541
Platelet changes in women taking oral contraceptives, 77
Platelet coagulant activities and retinal vein thrombosis, 408
Platelet hyperaggregability in young patients with completed stroke, 278
Prevention of persistent cerebral smooth muscle contraction in response to whole blood, 472
The role of platelets in myocardial infarction, ischemic heart disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420
disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis, 420

The role of platelets in the pathogenesis of thrombosis and hemorrhage in patients with thrombocytosis, 420

Scintigraphic detection of atherosclerotic lesions and venous thrombi in man by indium-111-labelled autologous platelets, 604

Serum lipids, platelets, and fibrinolytic activity in cerebrovascular disease, 137

Spontaneous platelet aggregation in cerebrovascular disease, 540

Stroke platelet and antiplatelet agents in strokes, 403

Studies on platelet plasma membranes. III. Membrane glycoprotein loss from circulating platelets in rabbits: inhibition by aspirin-dipyridamole and acceleration by thrombin, 419

Transient platelet monoamine oxidase deficit in migraine: some reflections, 186

Pneumography

Complications of cerebral angiography and pneumography, 186

Pneumophlethysmography

The asymptomatic carotid bruit and the ocular pneumophlethysmography, 274

Polyarteritis nodosa

Bilateral aortal myxomas with multiple arterial aneurysms. A syndrome mimicking polyarteritis nodosa, 90

Polycthemia

Cerebral blood-flow in polycthemia, 83

Pregnancy

Carotid cavernous fistula in pregnancy, 184

Procanamide

Effects of procanamide and chloramphenicol on acute vasospasm, 281

Propranolol

Isoproterenol and propranolol: ability to cross the blood-brain barrier and effects on cerebral circulation in man, 344

Prostaglandin

Measurement of prostaglandin E2 in cerebrospinal fluid in patients suffering from stroke, 281

Pathologic findings in the aortocoronary vein grafts. A scanning electron microscope study, 417

Prostaglandins and the arterial wall: an avenue for research in the pathogenesis of atherosclerosis (editorial), 287

Responses of isolated dog cerebral and peripheral arteries to prostaglandins after application of aspirin and polypheophrin phosphate, 490

Vasoactive properties of prostaglandin compounds on the intravascular basilar artery, 81

Prosthetic heart valve

Anticoagulant therapy and central nervous system complications in patients with prosthetic valve endocarditis, 606

Discontinuing anticoagulant therapy in surgical patients with cardiac valve prostheses. Observations in 180 operations, 423

Incidence of emboli with cloth-covered Starr-Edwards valve without anticoagulation and with varying forms of anticoagulation. Analysis of 183 patients followed for 3½ years, 416

Intracranial hemorrhage and infarction in anticoagulated patients with prosthetic heart valves, 18

Late complications of prosthetic heart valves, 608

Prevention of arterial thromboembolism with ascorbic acid. A controlled clinical study in patients with aortic ball valves, 84

Protein synthesis

Experimental stroke in gerbils: correlation of clinical, pathological and electroencephalographic findings and protein synthesis, 155

Rabbit studies

Cerebrovascular CO2 reactivity: role of a cholinergic mechanism modulated by anesthesia, 160

Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531

Experimental cerebrovascular disorders: effects of papaverine and theophylline, 179

Experimental cerebrovascular disorders: effects on cardiovascular functions and on cerebrospinal fluid production and constituents with special reference to cyclic AMP, 187

Gonadal hormones and pathogenesis of occlusive arterial thrombosis, 621

Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176

Microangiographic study of cerebral and ocular aneurysms in hypertensive rabbits, 613

Regression of atheroma in the rabbit, 409

Scanning electron microscope studies of rabbit aortic endothelium in areas of haemodynamic stress during induction of fatty streaks, 620

Studies on platelet plasma membranes. III. Membrane glycoprotein loss from circulating platelets in rabbits: inhibition by aspirin-dipyridamole and acceleration by thrombin, 419

Radionuclide scanning

Computed tomography and radionuclide imaging in the evaluation of ischemic stroke, 534

Computed tomography of intracerebral hematomas. II. Radionuclide and transmission CT studies of the perihematoma region, 174

Dynamic radionuclide scanning in the diagnosis of thrombosis of the superior sagittal sinus, 80

Epidural hematoma of the posterior fossa: radionuclide features, 530

On the theory of an intravenous isotope method for cerebral blood flow measurements, 87

Radioiodinated fibrinogen for clot detection in a canine model of cervical carotid thrombosis, 541

Re-evaluation of cerebrospinal fluid dynamics after subarachnoid hemorrhage with computed tomography and radionuclide cisternography, 287

Technique for multi-view radionuclide angiography, 566

The validity of an intravenous isotope method for cerebral blood flow measurements. An experimental study, 87

Rat studies

Acute cerebrovascular and myocardial ischemia superimposed upon chronically hypertensive and arteriosclerotic male Sprague-Dawley rats, 183

Brain metabolism and arterial acid-base balance following bilateral carotid occlusion in normotensive and experimental hypertensive rats, 538

Cerebral blood flow and metabolism in chronically hyperammonemic rats: effect of an acute ammonia challenge, 539

Cerebral blood flow autoregulation in the rat, 150

Cerebral ischaemia induced by bilateral carotid occlusion in spontaneously hypertensive rats. Supra- and infratentorial metabolism and arterial acid-base balance, 92

Comparison of carotid artery mechanics in the rat, rabbit, and dog, 531

Dose dependent reduction of glucose utilization by pentobarbital in rat brain, 12

Effect of an acute increase of the intravascular pressure on the blood-brain barrier, 388

Effect of non-respiratory alkalosis on brain tissue and cerebral blood flow in rats with damaged blood-brain barrier, 354

Effect of occlusion on large vessels. I. A study of the rat carotid artery, 86

Effects of acute hypertension on brain metabolism in normotensive, renovascular hypertensive and spontaneously hypertensive rats, 349

Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79

A fluorescent histochemical study of changes in noradrenergic neurons following experimental cerebral infarction in the rat, 286

Gonadal hormones and pathogenesis of occlusive arterial thrombosis, 621

Hypothalamic component in pressor response to carotid occlusion in the rat, 184
Measurement of mean circulatory filling pressure and vascular capacitance in the rat, 414
The role of hemodynamic factors in arterial wall thickening in the rat, 620
Sequential cerebral biochemical and physiological events in controlled hypoxemia, 183
Time course of baroreceptor resetting in short-term hypotension in the rat, 609
Treatment of experimental cerebral infarction in rats with levodopa or with glycerol, 609
Ultrastructural evidence for central monoaminergic innervation of blood vessels in the paraventricular nucleus of the hypothalamus, 289
An ultrastructural study of developing cerebral infarction following bilateral carotid artery occlusion in spontaneously hypertensive rats, 280

Rehabilitation
Rehabilitation outcome of patients with dual disability of hemiplegia and amputation, 531
Rehabilitation, stroke
Functional status measures in a comprehensive stroke care program, 288
Hospital utilization in the rehabilitation of completed stroke, 93
How much physical therapy for patients with stroke? 604

Revascularization, cerebral
Cerebral arterial revascularization: the value of repeated angiography in selection of patients for operation, 604
Cerebral revascularization for transient ischemic attacks, 77
Cerebral revascularization: common carotid to distal middle cerebral artery bypass, 540
Planned extra-anatomic cerebral revascularization for carotid artery ligation, 534
Revascularization, myocardial
Vascular reconstructive surgery following myocardial revascularization, 619
Revascularization, posterior fossa
Posterior fossa revascularization: anastomosis of vertebral artery to PICA with interposed radial artery graft, 607
Rheumatoid arthritis
Central nervous system vasculitis in rheumatoid arthritis, 276
Risk factors
Gonadal hormones and pathogenesis of occlusive arterial thrombosis, 621
Importance of the hematocrit as a risk factor in cerebral infarction, 369
Long term changes in blood pressure and risk of cerebrovascular disease from systolic and diastolic blood pressures, 529
Predicting risk of ischemic heart disease and cerebrovascular disease from systolic and diastolic blood pressures, 529

Scintigraphy
Scintigraphic detection of atherosclerotic lesions and venous thrombi in man by indium-111-labelled autologous platelets, 604
Scintigraphic detection of congenital intracranial vascular malformations, 543
Seizure
Basilar migraine, seizures, and severe epileptiform EEG abnormalities. A relatively benign syndrome in adolescents, 605
Ischemia-induced seizures and cortical monoamine levels, 527
Serotonin
Brain monoamines in human cerebral infarcts. A preliminary study, 532
Cerebral circulatory and metabolic effects of 5-hydroxytryptamine in anesthetized baboons, 183
Effect of topically applied serotonin on local cerebral blood flow, 25
Effects of 5-hydroxytryptamine on pial arteriolar calibre in anesthetized cats, 183
Increased sensitivity of the basilar artery to norepinephrine and 5-hydroxytryptamine following experimental subarachnoid hemorrhage, 176
Pharmacological analysis of 5-hydroxytryptamine receptors in isolated intracranial and extracranial vessels of cat and man, 409
Potentiation and antagonism of serotonin effects on intracranial and extracranial vessels. Possible implications in migraine, 412
Potentiation of the cerebrovascular response to intra-arterial 5-hydroxytryptamine, 531
Transient cerebral ischemia and brain serotonin: relevance to migraine, 177
Transitory platelet monoamine oxidase deficit in some reflections, 186
Shy-Drager syndrome
Cerebral hemodynamics in Shy-Drager syndrome. Variability of cerebral blood flow dysautoregulation and the compensatory role of chemical control in dysautoregulation, 504
Sickle cell anemia
Aspirin, hyperventilation, and cerebellar infarction in sickle cell disease, 407
Cerebrovascular complications of sickle cell anemia, 73
Cerebrovascular disease in sickle cell anemia: a clinical, pathological and radiological correlation, 45
The management of ruptured intracranial aneurysm in sickle cell anemia. Case report, 276
Strokes in children and adolescents, 169
Sinoatrial disease
Embolism in sinoatrial disease, 543
Smoking habits
Chronic effect of smoking on platelet count and "platelet adhesiveness" in presumably healthy middle-aged men, 409
Cigarette smoking and HDL cholesterol. The Framingham Offspring Study, 614
Smoking, carbon monoxide, and atherosclerotic diseases, 419
Sodium nitroprusside
Cyanide toxicity and thiosulfate protection during chronic administration of sodium nitroprusside in the dog correlation with a human case, 286
The effects of sodium nitroprusside and trimethaphan camyslate on cerebral blood flow in rhesus monkeys, 414
Spasm, vascular
Brain monoamine metabolites and tryptophan in ventricular CSF of patients with spasm after aneurysm surgery, 410
Cerebral artery spasm. A histological study at necropsy of the blood vessels in cases of subarachnoid hemorrhage, 525
Experiences of surgical treatment of 400 consecutive ruptured cerebral arterial aneurysms, 542
Vascular spasm in cat cerebral cortex following ischemia, 52
Stenosis, carotid
The role of carotid stenosis versus radiated basal heart murmurs. Differentiation by phonoangiography, 606

S
Carotid stenosis and coexisting ipsilateral intracranial aneurysm.
A problem in management, 77
Common carotid artery stenosis due to subintimal hematoma
following blunt trauma to the neck. Report of a case, 84
Early restenosis after carotid endarterectomy, 529
Hemodynamics of arterial stenoses at elevated flow rates, 91
The use of ophthalmosonometry in the diagnosis of carotid
table stenosis, 90
Stenosis, subclavian
Cardiac cycle-dependent alternating flow in vertebral arteries
with subclavian artery stenoses, 229
Steroid administration
Resolving intracerebral hematoma: alteration of the “ring sign”
with steroids, 607
Tolosa-Hunt syndrome. Arteriographic evidence of improve-
ment in carotid narrowing, 533
Stress response
Prognostic value of the stress response following stroke, 181
Stroke
Bow hunter’s stroke, 619
Cardiac arrhythmias in acute stroke, 392
Cerebral infarction in young adults, 39
Cerebrovascular disease in sickle cell anemia: a clinical, patho-
logical and radiological correlation, 45

295
Editorial: role of stroke in dementia, 1
Effect of DPPD (diphenyl-para-phenylenediamine) on stroke
and cerebral edema in gerbils, 480
Experimental regional cerebral ischemia in the middle cerebral
artery territory in primates. Part 3: effects on brain water and
electrolytes in the late phase of acute MCA stroke, 387
Experimental stroke in gerbils: correlation of clinical, patho-
logical and electroencephalographic findings and protein syn-
thesis, 155
Internal carotid back pressure, intraoperative shunting, ulcer-
ated atheromata, and the incidence of stroke during carotid
endarterectomy, 533
Is there a real treatment for stroke? Clinical and statistical
comparison of different treatments in 300 patients, 130
Long-term prognosis in stroke related to cerebral blood flow,
285
Low-dose heparin as a prophylaxis against deep-vein thrombosis
after acute stroke, 187
Measurement of prostaglandin E2 in cerebrospinal fluid in
patients suffering from stroke, 281
Mood disorder as a specific complication of stroke,
281
Non-penetrating trauma to the carotid artery with secondary
endothelium and embolism: treatment by thrombolysis, 83
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic ac-
tivity in young patients with ischaemic stroke, 77
Platelet adhesiveness, plasma fibrinogen, and fibrinolytic ac-
tivity in young patients with ischaemic stroke, 77
Platelet hyperaggregability in young patients with completed
stroke, 278
Prognostic factors in the survival of 1,484 stroke cases observed
for 30 to 48 months. I. Diagnostic types and descriptive
variables, 528
Prognostic factors in the survival of 1,484 stroke cases observed
for 30 to 48 months. II. Clinical variables and laboratory
measurements, 528
Prognostic value of the stress response following stroke, 181
Regional cerebral blood flow in stroke patients, 181
Sensorimotor stroke due to thalamocapsular ischemia, 286
Stroke associated with carotid endarterectomy, 421
Stroke platelet and antiplatelet agents in strokes, 403
Strokes and ulcerative colitis, 607
Strokes in children and adolescents, 169
Strokes: a complication of mitral-leaflet prolapse? 86
Superior sagittal sinus
Dynamic radionuclide scanning in the diagnosis of thrombosis
of the superior sagittal sinus, 80
Swine studies
Biochemical effects of moderate diet and clofibrate on swine
atherosclerosis, 608
Formation of adenosine nucleotide derivatives in isolated hog
carotid artery strips, 184
Morphological effects of moderate diet and clofibrate on swine
atherosclerosis, 608
Sympathetic nerve stimulation
Analysis of the effect of bilateral sympathetic stimulation on
nerve and cerebral blood flow and on large cerebral arteries of dogs, 178
Syncope
Swallowing syncope. A case report, 93
Takayasu’s disease
Natural history and classification of occlusive thromboendoarteriopath-
(Takayasu’s disease), 408
Theophylline
Experimental cerebrovascular disorders: effects of papaverine
and theophylline, 179
Thromboatherosclerosis, peripheral
ADP-induced platelet aggregation in vitro in patients with
ischemic heart disease and peripheral thromboatherosclerosis,
92
Thrombocytopenia
Heparin-induced thrombocytopenia, 535
Thromboendarterectomy
Thromboendarterectomy for total occlusion of the internal
carotid artery: a reappraisal of risks, success rate and
potential benefits, 34
Thrombolysis
Non-penetrating trauma to the carotid artery with secondary
thrombosis and embolism: treatment by thrombolysis, 83
Thrombosis
Antithrombotic potential of dihomo-gamma-linolenic acid in
man, 284
Disappearing carotid defects, 258
Dynamic radionuclide scanning in the diagnosis of thrombosis
of the superior sagittal sinus, 80
Failure of aspirin to prevent postoperative deep vein thrombosis
in patients undergoing total hip replacement, 618
The finding of thrombus at carotid endarterectomy and its
relationship to the timing of surgery, 181
Gonadal hormones and pathogenesis of occlusive arterial throm-
bosis, 621
Hemorrhagic cerebral white matter infarction with cerebral
dep venous thrombosis and hypoxia, 407
Intracranial venous sinus thrombosis: diagnosis suggested by
computed tomography, 619
Iron-acrylic compound for stereotaxic aneurysm thrombosis, 78
Ischemic optic neuropathy in cavernous sinus thrombosis,
529
Low-dose heparin as a prophylaxis against deep-vein thrombosis
after acute stroke, 187
A model study of why some intracranial aneurysms thrombose
but others rupture, 583
Non-penetrating trauma to the carotid artery with secondary
thrombosis and embolism: treatment by thrombolysis, 83
Primary cerebral venous thrombosis in young adults: the diverse
manifestations of an underrecognized disease, 418
Radiodiode fibronogen for clot retention in a canine model of
cervical carotid thrombosis, 543
Reduction of coagulation factor XIII concentration in patients
with myocardial infarction, cerebral infarction, and other
thrombocytopenic disorders, 420
The role of platelets in myocardial infarction, ischemic heart
disease, cerebrovascular disease, thromboembolic disorders and acute idiopathic pericarditis. 420

The role of platelets in the pathogenesis of thrombosis and hemorrhage in patients with thrombocytosis. 420

Stereotaxic thrombosis of inaccessible intracranial aneurysms, 279

Strokes in children and adolescents, 169

Thromboembolic complications in coronary angiography. Prevention with acetylsalicylic acid, 417

Thrombosis of the intraorbital veins and cavernous sinus, 85

Thrombosis of the mesencephalic artery. A clinicopathological study of two cases and its correlation with the arterial vascularisation, 82

Thrombus formation and endothelial alterations in microarterial anastomoses, 89

Ultramicroscopic ulcerations and thrombi of the carotid bifurcation, 274

Thrombocytopenia

Arterial embolism in thyrotoxicosis with atrial fibrillation, 178

Tolosa-Hunt syndrome

Tolosa-Hunt syndrome. Arteriographic evidence of improvement in carotid narrowing, 535

Tranexamic acid

Effect of tranexamic acid on rebleeding after subarachnoid hemorrhage: a double-blind controlled clinical trial, 174

Prolonged antifibrinolysis: an effective non-surgical treatment for ruptured intracranial aneurysms? 537

Treatment of subarachnoid hemorrhage from ruptured intracranial aneurysm with tranexamic acid: a double-blind clinical trial, 616

Transient cerebral dysfunction

Transient cerebral dysfunction following chemotherapy for osteogenic sarcoma, 607

Transient ischemic attacks

Carotid and vertebral-basilar transient ischemic attacks: effect of antiplatelet agents, hypertension, and cardiac disorders on survival and stroke occurrence — a population study, 527

Cerebral revascularization for transient ischemic attacks, 77

Clinical and arteriographic comparison of amaurosis fугax with hemispheric transient ischemic attacks, 254

Controlled trial of aspirin on cerebral ischemia. Part II: surgical group, 309

Cooperative study of hospital frequency and character of transient ischemic attacks. III. Variations in treatment, 84

Cooperative study of hospital frequency and character of transient ischemic attacks. IV. The reliability of diagnosis, 421

Cooperative study of hospital frequency and character of transient ischemic attacks. V. Symptom analysis, 421

Cooperative study of hospital frequency and character of transient ischemic attacks. VI. Patients examined during an attack, 422

Cooperative study of hospital frequency and character of transient ischemic attacks. VII. Initial diagnostic evaluation, 618

The finding of thrombus at carotid endarterectomy and its relationship to the timing of surgery, 181

A new look at emergency carotid artery operations for the treatment of cerebrovascular insufficiency, 599

Relevance of duration of transient ischemic attacks in carotid territory, 614

Transient cerebral ischemia and brain serotonin: relevance to migraine, 177

Treatment of transient ischemic attacks, 299

Trial of aspirin during weaning patients with transient ischemic attacks from anticoagulants, 617

The value of carotid endarterectomy in treating transient cerebral ischemia of the posterior circulation, 80

Trauma, head

Compartmental analysis of regional cerebral blood flow in patients with acute severe head injuries, 283

Correlation between angiographic findings and the ischaemia of head injury, 530

Experimental head injury in the rat. Part 3: cerebral blood flow and oxygen consumption after concussive impact acceleration, 79

Extradural haematoma. Report of 132 cases, 617

Non-penetrating trauma to the carotid artery with secondary thrombosis and embolism: treatment by thrombolysis, 83

A sign of subarachnoid bleeding on cranial computed tomograms of pediatric head trauma patients, 416

Strokes in children and adolescents, 169

Vertebrobasilar spasm: a significant cause of neurological deficit in head injury, 526

Trauma, neck

Common carotid artery stenosis due to subintimal hematoma following blunt trauma to the neck. Report of a case, 84

Trauma, spinal cord

The effect of norepinephrine on the spinal cord circulation and its possible implications in the pathogenesis of acute spinal trauma, 186

Hyperemia, CO2 responsiveness, and autoregulation in the white matter following experimental spinal cord injury, 413

Tumor

Intracranial hemorrhage caused by metastatic tumors, 80

Intracranial tumors simulating the presentation of cerebrovascular syndromes. Early detection with cerebral computed tomography (CCT), 283

Spinal cord vasculitis presenting as a spinal cord tumor in a heroin addict. Case report, 410

Subarachnoid hemorrhage due to intraspinal tumors, 536

U

Ulcereative colitis

Hemorrhagic complications of cerebral arteritis, 91

Strokes and ulcerative colitis, 605

Uridine 5'-triphosphate

Prolonged contraction of isolated human and canine cerebral arteries induced by uridine 5'-triphosphate, 133
